CRL Corporate Headquarters in Los Angeles, California. CRL operates from 40 worldwide locations.

To Our Valued Customers

We would like to say "Thank You" to all of our customers and employees. Your help and encouragement has made it possible for C.R. Laurence Company to grow into the industry leader, and we plan to continue growing. Our goal is to listen, and challenge ourselves to better serve our customers.

Because of you we set our standards for innovation, service, and selection of quality products at the highest level. We consider it our responsibility to bring new technology to our industry so that we can all prosper.

Access to all CRL products and services is available to you through our "self-service" web site, **crlaurence.com**, the most comprehensive and convenient information source we can offer our customers. The CRL web site is a powerful communications device between your business and the CRL people who serve you. It also allows us to empower you to have more flexibility and control of your orders, making it possible for you to contribute in the process of our providing you with excellent service.

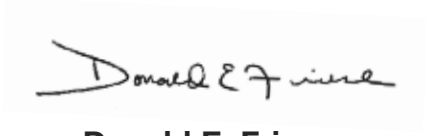

C.R. Laurence Company is making a major commitment to the improvement of our web site. It's your source for information and technical support, and to make it even more convenient, we have included in this catalog our **crlaurence.com** User's Guide, step-by-step instructions to a more satisfying visit to our "self-service" web site. In the next pages we will demonstrate just how simple it is for you to do business with us online. We hope you will find it easy to understand, and easy to use.

CRL23R is the latest evidence of our commitment to bring you the finest and most comprehensive line of frameless shower door and mirror hardware. We are proud to make it available to you.

This catalog is just one in our series of hard cover Master Catalogs, published so you can easily locate full details on all of our products. See pages XVIII to XXIX for additional information on the complete selection of CRL Catalogs.

CRL's success has been made possible through our transition into manufacturing. We are producing a growing number of products to fill all of your requirements, and we will continue to listen to your ideas for products to manufacture for our industry. As always, we plan to expand our product line to be a continuing source for the glass industry. We have expanded the total number of distribution and manufacturing facilities throughout all of North America, Australia, and Europe to bring our products and services closer to you.

Again, we thank you for your continued support. Without your ideas for better service, new products, and generally high expectations, we would not have enjoyed our growth and success. Let's continue our success together.

Donald E. Friese
Chairman and C.E.O.

Lloyd W. Talbert
President and C.O.O.

C.R. Laurence Co., Inc.

C.R. Laurence Company has over 20 distribution locations in or near major metropolitan areas to serve our customers in the United States. Los Angeles, California is home to Corporate Headquarters and to CRL Manufacturing. It is from here that over 60,000 quality products are distributed to the regional CRL service center that serves your business. For contact information and locations of all CRL facilities go to our web site at **crlaurence.com**.

C.R. Laurence Worldwide

C.R. Laurence Canada has five locations to serve all of Canada from coast-to-coast. We invite our customers in Canada to visit **crlaurence.ca** for more information.

C.R. Laurence also has locations in Europe and Australia. Please visit **crlaurence.com** for information on CRL Worldwide Service.

Welcome to the C.R. Laurence Online Catalog

- **Thousands of Pages of Quality Products and Helpful Information are Just Clicks Away, Anytime, and at Your Convenience**
- **It's the Best Way to Shop at CRL**

What's the best way to shop at C.R. Laurence? Visit the Online Catalog at **crlaurence.com**. Our Online Catalog brings you thousands of pages from our many printed catalogs, all of them in full color, and linked to our ordering module so you can browse and shop at any time it's convenient. You can check prices, review stock levels, and get the most complete and up-to-date details on the products we offer. And you can do it all from any PC.

Our "self-service" web site and Online Catalog are the most comprehensive and convenient up-to-date information sources we can offer. Explore some of our most popular product lines or review individual products. CRL has over 60,000 of them organized by specific product categories.

The convenience of having all CRL catalogs combined into one Online Catalog is the quick and easy way to find just what you need, available at your convenience, whenever you're ready.

Please review the following pages for easy to follow instructions on how to do business at **crlaurence.com**. And if you ever need assistance, just contact us over the Internet or by toll free phone. We'll be glad to help.

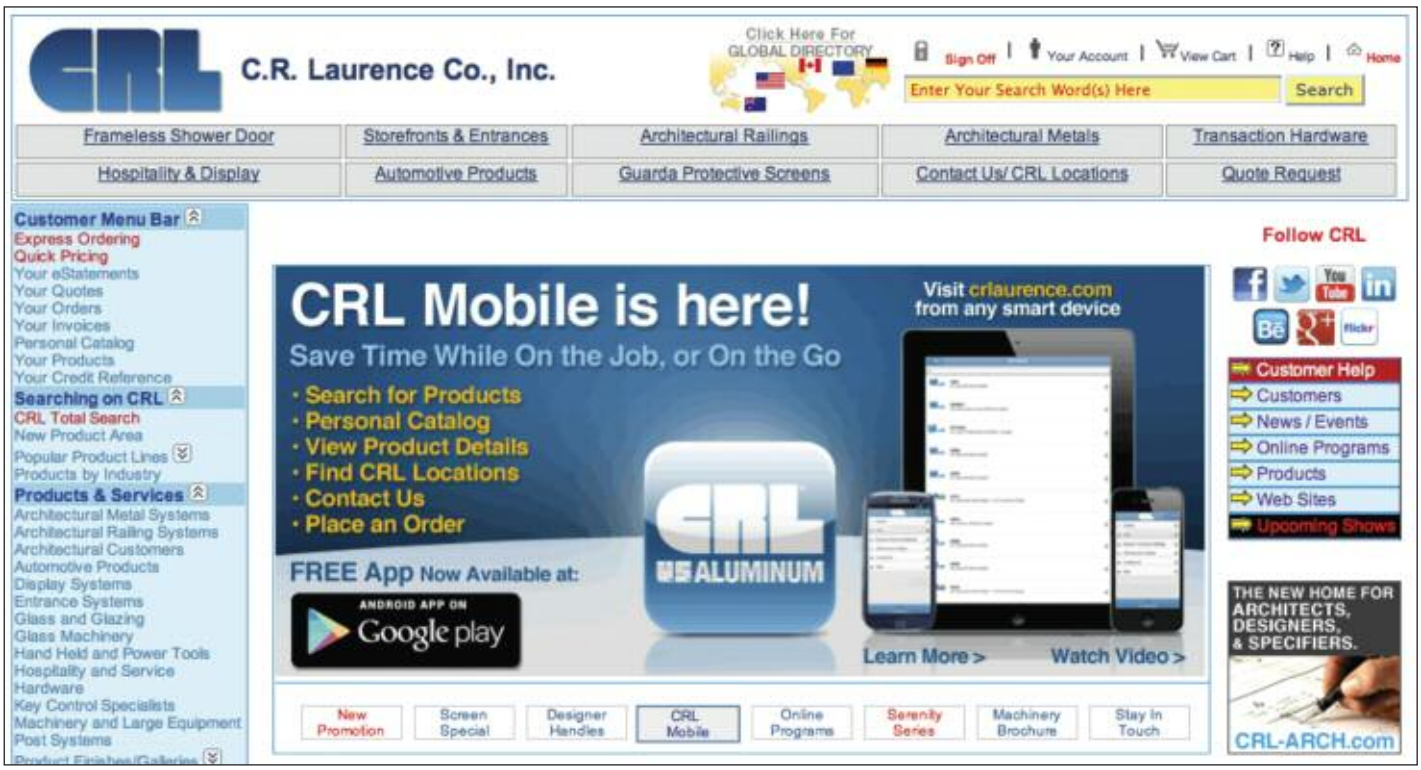

WELCOME TO THE CRL ONLINE CATALOG

Introduction

Of all the products we bring you, our Online Catalog may be the most important. We know that the most efficient way for our customers to shop at CRL is by using this carefully planned and thoroughly prepared Online Catalog to make it easy for them to find exactly what they need. C.R. Laurence Company is committed to making our Online Catalog your best source for information and technical support.

What you will find at **crlaurence.com** is a link to who we are, what we do, and what we have to offer our customers. The CRL "self-service" web site allows us to use the powers of Electronic Commerce to bring you closer to all of the products and services that we offer.

We take a Business-to-Business approach of conducting business over the Internet because it gives us so many ways to connect with you. Methods of searching for and ordering products that just a few years ago would have been impossible were it not for the versatility of this powerful tool.

Empowerment is what a good web site is all about. We let you make the decisions that will best serve you. You can build your orders and submit them 24 hours a day, seven days a week, at your convenience. You can review over 60,000 products we make available, including pricing and current stock availability.

All of this and more is available to CRL customers who have signed in to our web site and become part of the World of **crlaurence.com**. The next few pages will provide the "How To" answers to the features you can access, making it more convenient to shop by using the CRL Online Catalog.

User's Guide Menu to CRL Online

- How to Create a User Name and Password
- How to Sign On and Recover Your Log In Information
- How to Search for Products
- How to Check Prices
- How to Check Stock
- How to View/Print Invoices
- How to Place or Change Orders
- How to Request, Process or Change a Quote
- How to Request Product Data Sheets
- How to Pay Your Statement
- How to Contact Us
- How to View the Online Catalog Library
- New Mobile Site!

The following User's Guide Menu is easy to learn and a quick way to locate necessary information. We've written step-by-step instructions to help you navigate through our Online Catalog (see pages V - XVI). Take some time to explore all it has to offer!

WELCOME TO THE CRL ONLINE CATALOG

Navigation Menu

The Home Page is topped by a Navigation Menu that has buttons you can click on to link directly to the most popular areas of **crlaurence.com**. You can easily get to our Global Directory and choose the appropriate web site; eight popular Product Groups; Phone and fax numbers for CRL Departments; Directions to all CRL Service Centers; Access to our Customer Support Center; Product Quotes in a timely fashion. All of this is just a click away.

The Navigation Menu is also where you'll find our all-important 'Enter Your Search Word(s) Here' box. This powerful tool lets you locate CRL Products by entering their Catalog Number, or even a portion of the number. You can also use it to find products by entering key words or the names of products.

Navigating a web site with so many products doesn't need to be difficult. The 'Enter Your Search Word(s) Here' box is the surest way to find exactly what you are looking for. For more information about finding products at **crlaurence.com**, turn to page VII.

Customer Menu Bar

The Customer Menu Bar is a good starting point for navigating around **crlaurence.com**. It provides a direct link to virtually all areas that can be accessed after you sign on, or after you have reviewed and selected products and now wish to order them.

Near the top our **Customer Menu** is your link to **Express Ordering**, an easy to learn and quick to complete method of placing orders online whenever it's convenient for you. You set the schedule and the pace because you are in control. You can also build your **Personal Catalog** by matching your part numbers to our Catalog Numbers.

Next in the menu is **Searching on CRL**. We've gone into a lot of detail on this subject, and ask you to turn to page VII to review the different search methods we offer. There's also a link to our Document Library of Comparison, Cross-Reference Charts, Application Guides, New Product Submittal Forms, and more by clicking on **CRL Total Search**. **Products and Services** has direct links to our "Information Centers" for many of our major product lines. They act like 'hubs' where you can reference the various categories of information pertaining to these product lines, including Product Offer Pages, Product Specs, Technical Drawings, Measurement Templates, and a variety of helpful information sources.

When you click into **General Information** you are presented with a selection that includes information about CRL's Business Policies, Videos, ways to contact us, our service center locations, and package tracking.

Online Applications Login allows customers who subscribe to any of CRL's Online Programs to login fast and easy.

News and Events lets you review CRL e-News, Press Releases, Technical Articles, upcoming Trade Show dates and locations, and useful Internet links. When you click on the link called "What's New" you'll see categories showing our recently added products.

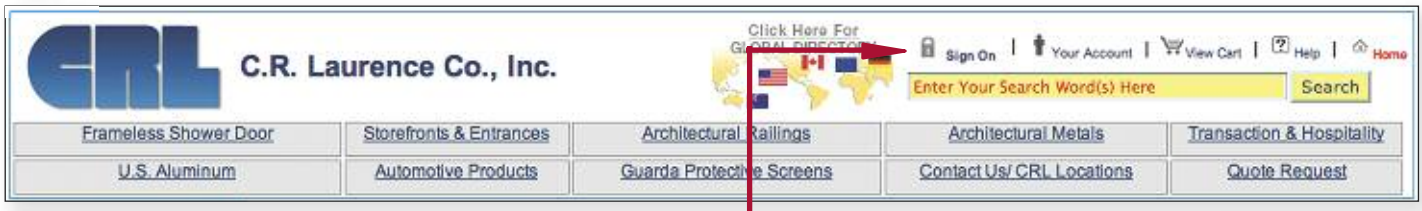

As stated above, the "Customer Menu Bar" offers you so many directions you can use to navigate around **crlaurence.com**. Take some time to explore it all.

WELCOME TO THE CRL ONLINE CATALOG

How to Create a User Name and Password

You will need your Customer Number from your CRL Monthly Statement or from a previous CRL Invoice.

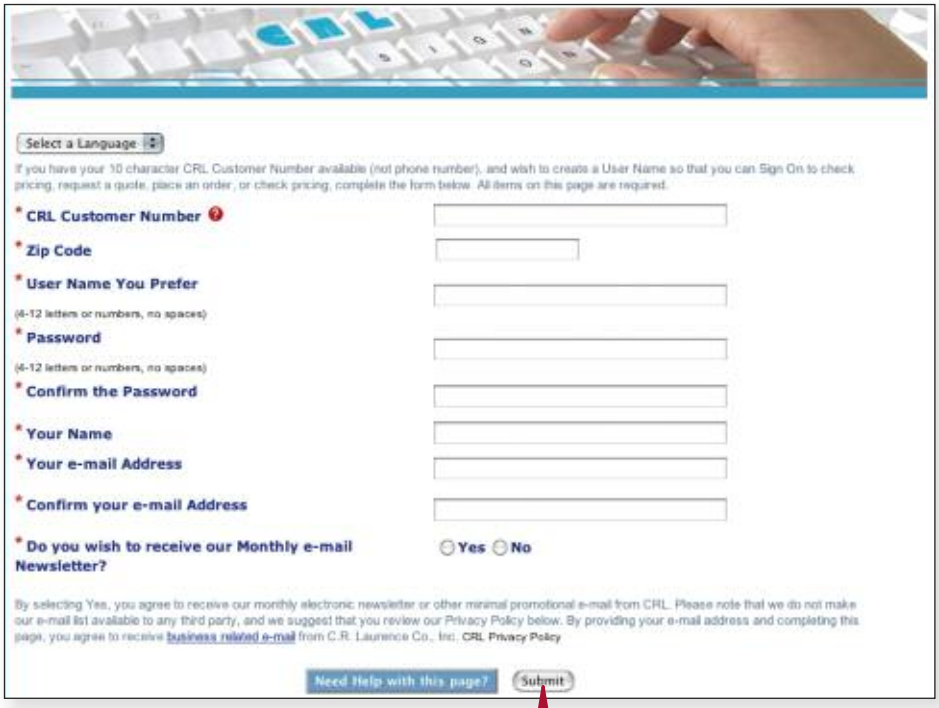

1 Have Your CRL Customer Number Ready

2 Click **Sign On**

3 Click on **Create New User Name and Password**

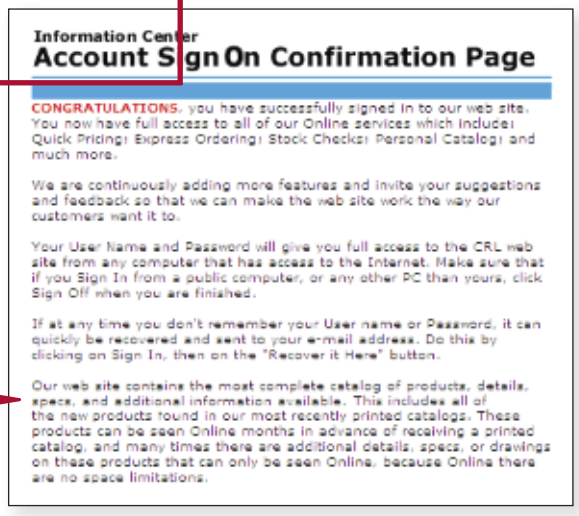

4 Fill out the page to create a user name and password, then click on **Submit**

5 Correct any errors if they appear after clicking **Submit**

6 Once the information is accepted, you will see this "Account Sign On Confirmation Page."

7 Click **Home** to begin using full web site services.

WELCOME TO THE CRL ONLINE CATALOG

How to Sign On

1. Click **Sign On** or enter **"LOGIN"** in the yellow search box

2. Enter your user name and password, then **Click Here to Sign On**

3. If this screen appears, you have either mistyped the user name and/or password or one needs to be created

4. To confirm your user name and password, or to check if you have one set up, click on **Forgot Your User Name or Password? Recover It Here**

How to Recover Your Sign On Information

1. Click **Sign On** (see step 1 above)

2. Click **Forgot Your User Name or Password? Recover It Here** (see step 4 above)

3. Enter your Email Address, then click **Submit**

WELCOME TO THE CRL ONLINE CATALOG

Best Ways to Search

Search methods to find products in order of importance

1. **Search Box** Search by Cat. No. and by Keyword(s). (Only good for products, not other pages on our site at this time).

2. **Sitemap** Used to be the same or a little more descriptive than mall pages.

3. **Products By Industry** Broader than mall pages, catering more to our core industries.

4. **Mall Pages** Overview of product lines to start drilling down to products.

5. **Catalog Page Search**, will also search for product groups, then allow for page viewing.

6. **Online Catalogs** to find products by industry. When using Online Catalogs, you switch between catalogs while in individual catalogs.

Search methods to find other information

7. Click on **CRL Total Search**. On this page you have a search box to locate products, the same as the yellow search box on the top right of every page.

8. To find Technical Details, Drawings, MSDS, Spec Data, Instructions, User Guides, Catalog Pages, or anything else, you can click on one of the tabs located on this same page. Product specific information and details can also be found on each product's offer page.

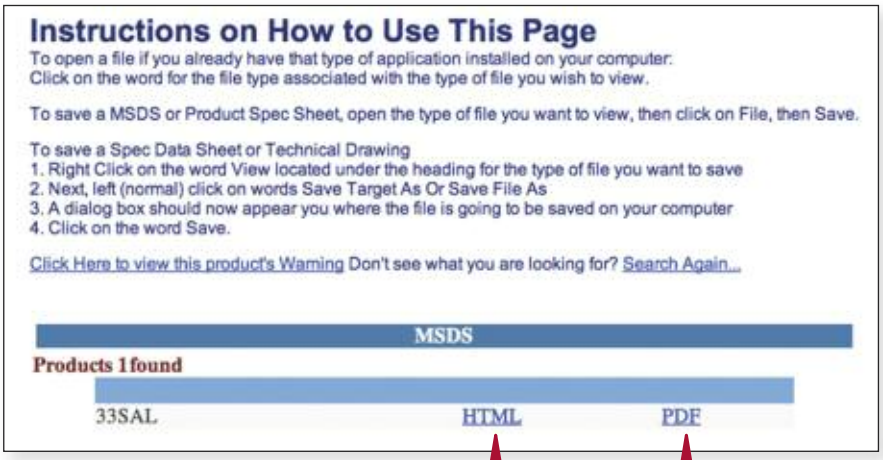

How to View/Print Product Information

1. Enter the **CRL Catalog Number** or **product description** in the Search Box, then click **Search**

2. Available link tabs will appear near the top of the product page

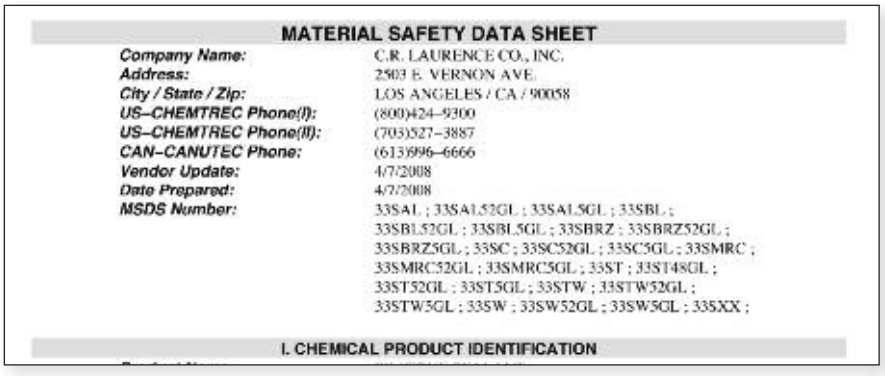

3. Click on the desired data link

4. You have the option to view links through **HTML** or **PDF Format**

5. If you only want to view this information, click on **HTML Format**

6. If you want to print this information, click on **PDF Format**

WELCOME TO THE CRL ONLINE CATALOG

How to Check Prices

1 On the **Product Page:**

- Enter a CRL Catalog Number in the search box located at the top right of page, then click **Search**
- If you are signed on, pricing will automatically appear on the right hand side

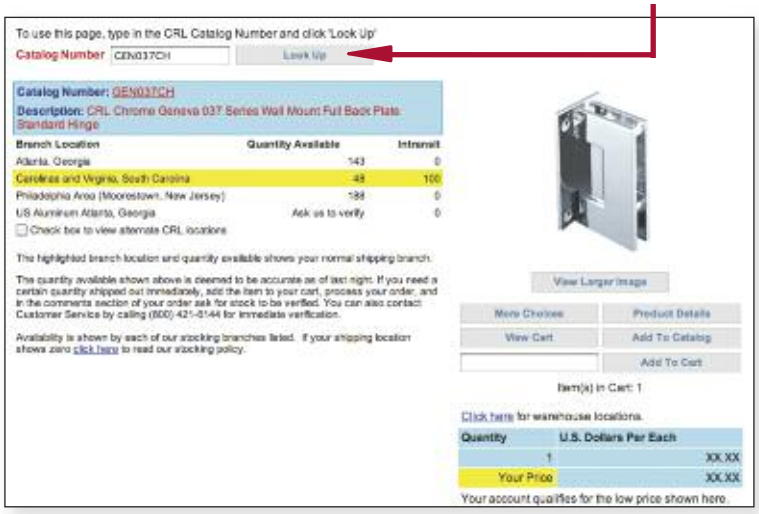

2 On the **Quick Pricing Page:**

- Click on **Quick Pricing** under "Customer Menu Bar" located on the top left (see above image)

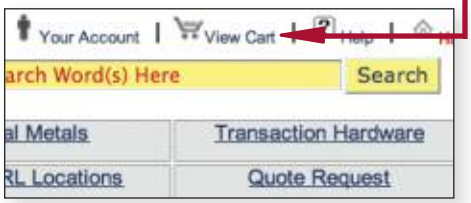

- Enter the CRL Catalog Number then click **Look Up**

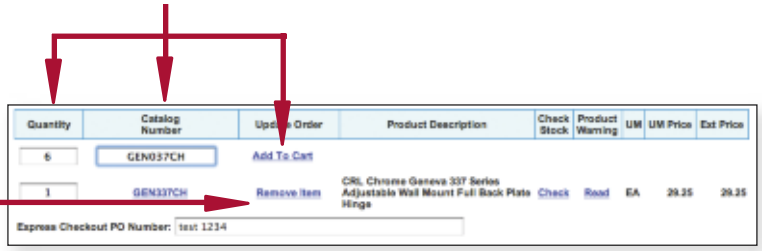

3 On the **Shopping Cart Page:**

- Click on **View Cart** located at the top right of the page

- Enter the quantity and CRL Catalog Number then click **Add to Cart**

- If you decide not to order this item, click **Remove Item**

WELCOME TO THE CRL ONLINE CATALOG

How to Check Stock

1 On the **Product Page:**

- Enter a CRL Catalog Number in the search box located at the top right of page, then click **Search**
- If you are signed on, the page will show the quantity available at your local CRL Service Center, other Service Centers in your region, and CRL's Corporate Headquarters.

2 On the **Quick Pricing Page**

- Click on **Quick Pricing** under "Customer Menu Bar" located on the top left (see image above)

- Enter the CRL Catalog Number then click **Look Up**

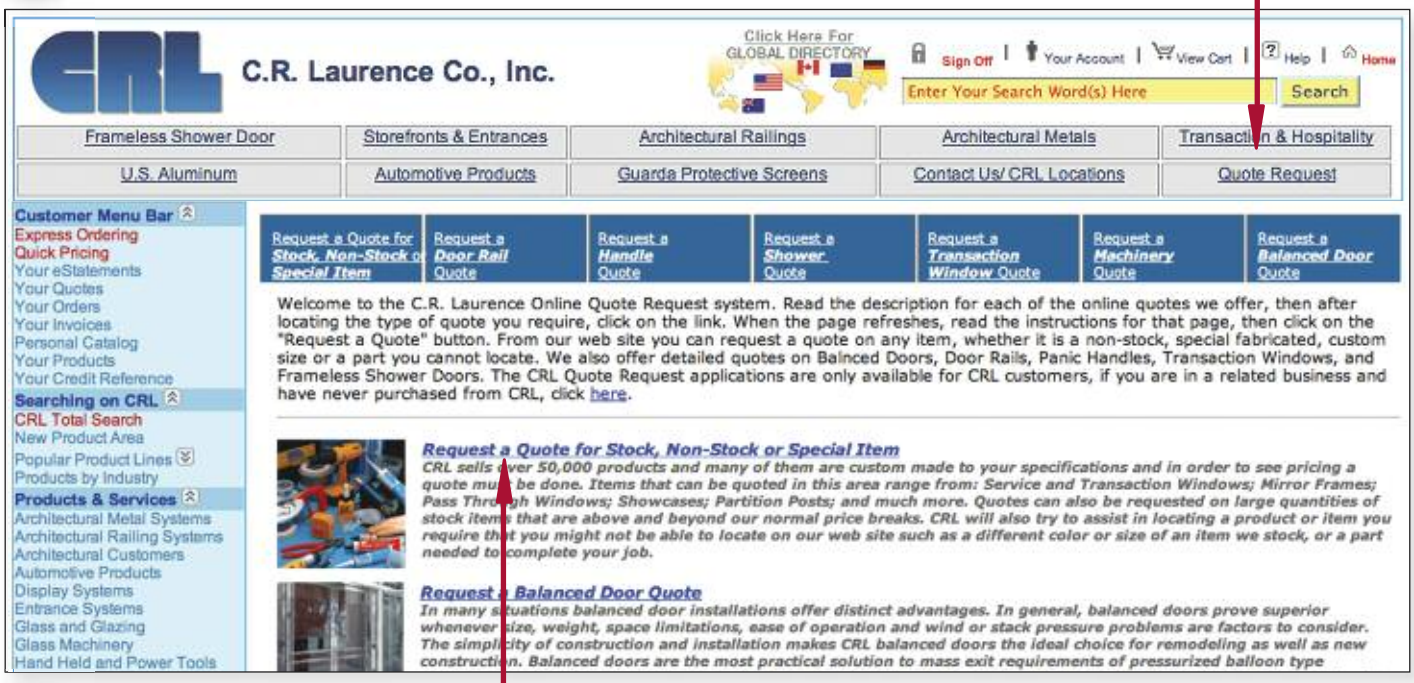

3 On the **Shopping Cart Page:**

- Enter the quantity and CRL Catalog Number, then click **Add to Cart**
- If you decide not to order this item, click **Remove Item**
- Click on the word **Check** next to the product description to see available stock at each CRL Service Center

How to Request a Quote

1. Click on **Quote Request**

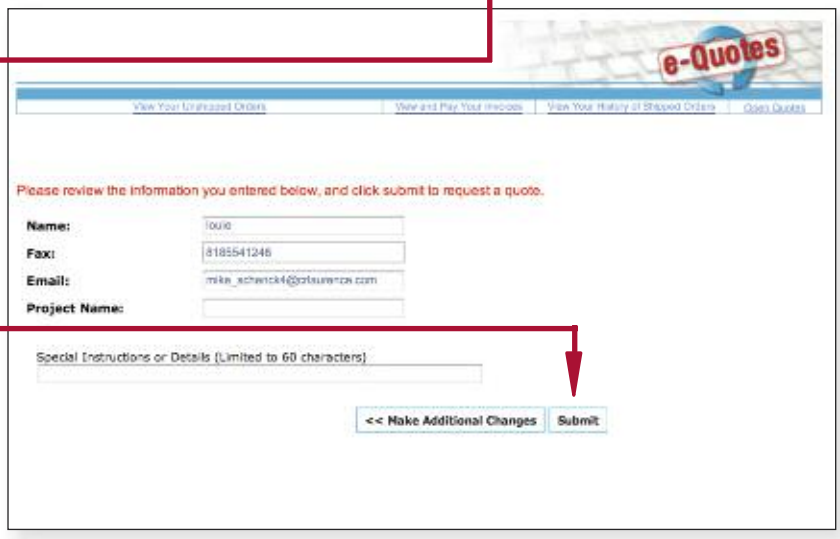

2. Select one of the categories for a summary of the product line then click **Continue to Request Quote**

3. Enter the quantity, CRL Catalog Number, Color or Size (if applicable) and detailed Description, then click **Add To My Quote**

4. Continue to add or click on **Continue to Process Quote**

5. Review the information entered, add a project name and any instructions, then click **Submit**

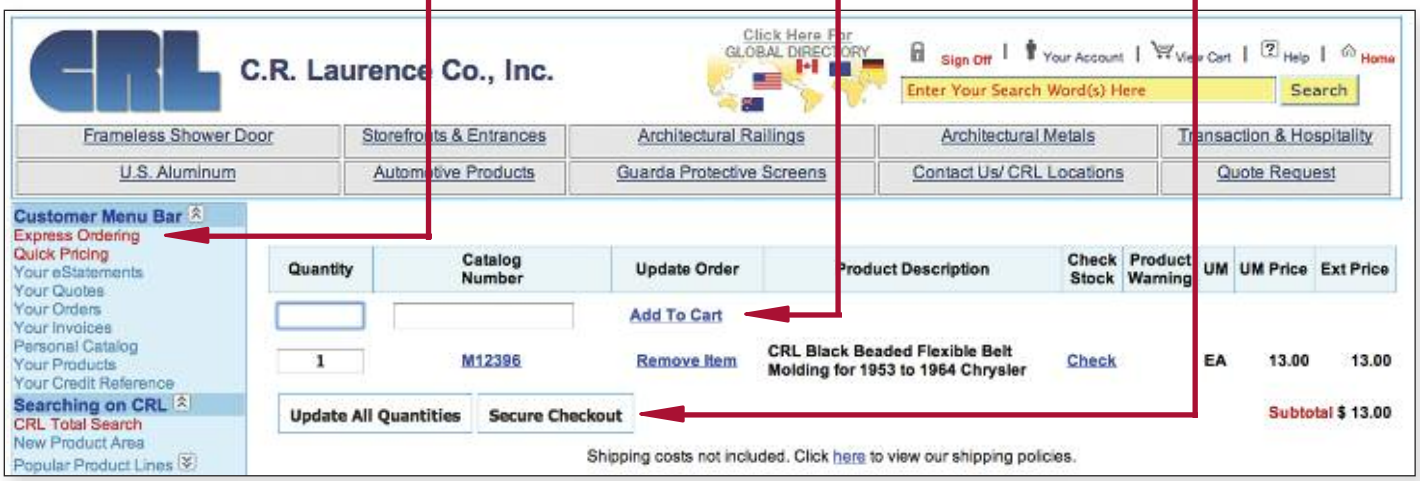

6. You will receive a quote number for your reference and an email response within one business day

WELCOME TO THE CRL ONLINE CATALOG

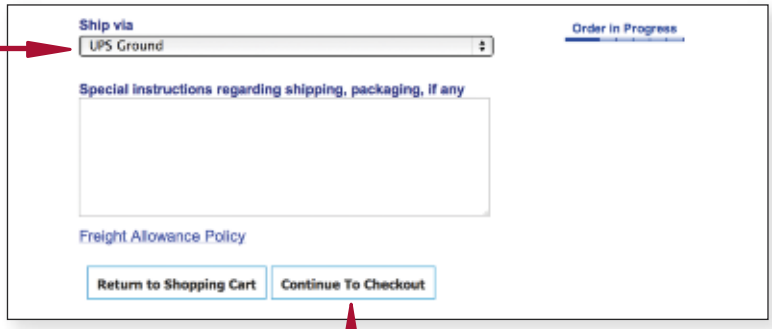

How to Place an Order

1. Click on **Express Ordering** under "Customer Menu Bar"
2. Enter the quantity and CRL Catalog Number then click **Add to Cart**
3. Continue adding items to the order or click **Secure Checkout**

NOTE: To change a quantity, simply enter the new quantity next to the product you want to change and click **Update All Quantities**

4. For Ship Via selection, click on the drop down arrow

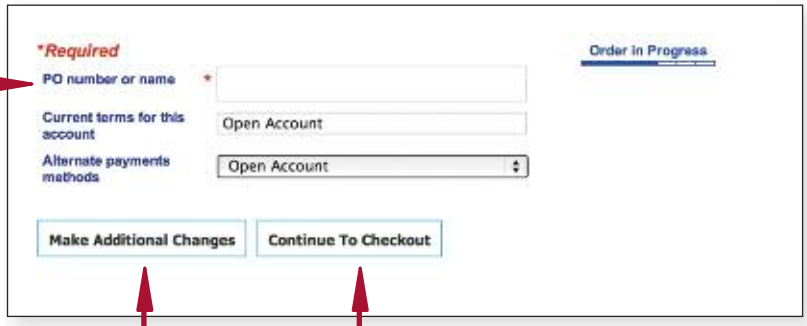

5. Enter special instructions about your order (if any), then click **Continue to Checkout**

6. Shipping to a different address? If no, click **Continue to Checkout**. If yes, enter the drop ship address, then click **Continue to Checkout** or **Make Additional Changes**

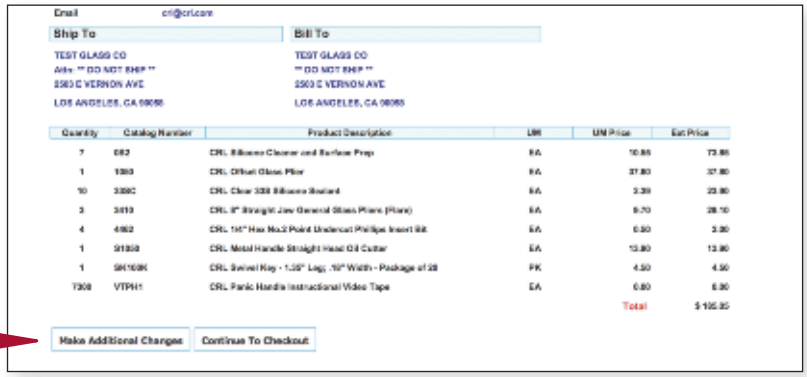

How to Place an Order (Continued)

7 Enter PO Number or Name

8 For alternate payment method selection, click on the drop down arrow, then click **Make Additional Changes** or **Continue to Checkout**

9 Review the order confirmation page, then click **Make Additional Changes** or **Continue to Checkout**

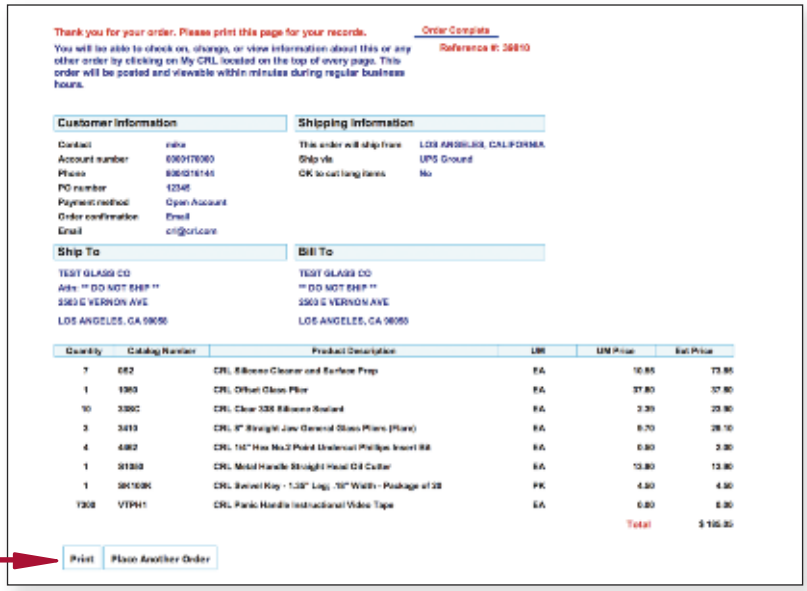

10 If your order does not yet qualify to receive one of our Internet Bonuses, you can click **Return to Shopping Cart** to increase your order, or click **Finalize Without Bonus**

11 If your order does qualify for an Internet Bonus, click on the **bonus item of your choice** or click **Finalize Without Bonus**

12 **Print** the confirmation screen for your records or click **Place Another Order**

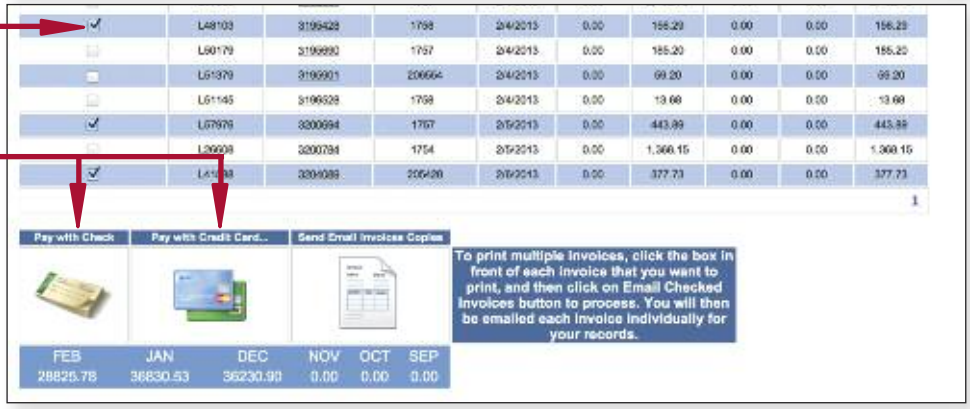

How to Pay Your Statement

1. Click on **Your Account**

2. Click on **View and Pay My Invoices**

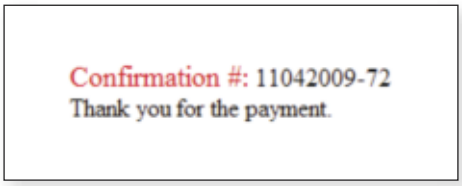

3. Click on the box next to each Invoice you want to pay, then click **Pay with Check** or **Pay with Credit Card**

4. Enter comments about your payment (if any) then click **Process Online**

5. You will be given a Confirmation Number for your payment

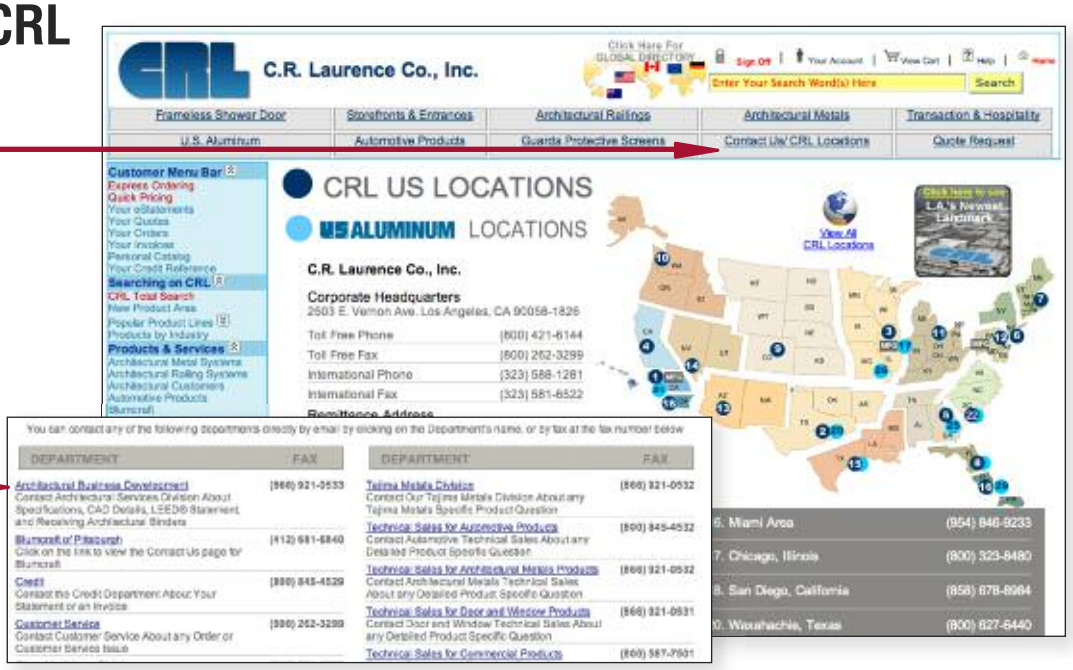

WELCOME TO THE CRL ONLINE CATALOG

How to Contact CRL

1. Click on **Contact Us/CRL Locations**

2. Click on the **department** you want to contact via email or fax

How to Find Addresses for CRL Service Centers

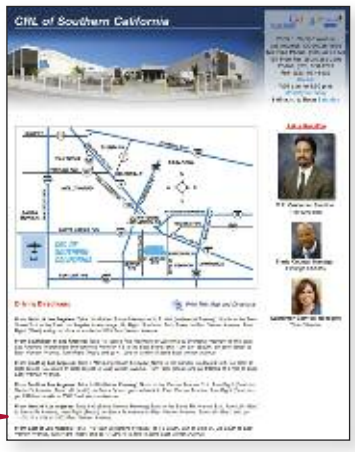

1. Click on **Contact Us/CRL Locations** (see above image)

2. Click on the **CRL Service Center** nearest you

3. View and/or print map directions

If you want to be able to complete your online orders in one click, and if you use the same billing and shipping methods on most orders, this is for you. To turn this valuable time-saving feature on:

Express Checkout

1. Click on **Your Account**
2. Click on **CRL Express Checkout**
3. Click on **Turn Express Checkout On**

CRL Online Software

Subscribers to our Showers Online, Storefronts Online, and Hand Rails Online Optimization Programs access them by clicking on Online Programs. These web-based programs save subscribers countless man-hours, helping reduce labor costs.

CRL e–News

Subscribers to this free service get once a month updates on new products, our monthly promotion, industry events, technical bulletins, and more.

1. Sign up and view past issues by clicking on **News/Events**, then on the **CRL e-Newsletter** link.

CRL Webinars (Web Seminars)

Register to join us online by clicking on News/Events, then clicking on Webinars for live training by industry professionals, or view previous Webinars. New topics are added regularly, so check in frequently.

Connect With CRL While You Are Online

If you wish to contact or connect with CRL while you are online, you can reach us on Facebook, Twitter, YouTube, LinkedIN, Behance, Google Plus, Flickr, and you can even use Skype to call us for free from anywhere in the world.

Be the first to know about new content, videos, press releases, and more by connecting with CRL from these pages.

You can connect with CRL using any of these methods right from our home page.

CRL Methods of Ordering

Online at crlaurence.com

- **crlaurence.com Never Closes!**
- **It's the Home of Our Online Catalog**

Many of our customers have found the most convenient method of ordering from CRL is through our "self-service" web site. When you use **crlaurence.com** to place your orders you have many options that other methods don't provide. You set the schedule and the pace because you can sign on 24 hours a day, seven days a week. You can build a personal catalog and even make changes or additions to your orders online. There's no easier way! See pages III through XVI for more information about the benefits of ordering at **crlaurence.com**.

Toll Free Fax Service

- **This Convenient Way of Ordering is Used Over 1,000 Times Every Day**

When we introduced toll free fax service in the '80's we had no idea how popular it would become, but now our customers send us over 1,000 orders or quote requests every business day! Fax ordering is very convenient because you can fill out your own purchase orders and then just fax them to us. You can be specific about shipping instructions or other details that will help us serve you. To send your orders or quote requests by toll free fax from anywhere in the U.S. or Canada, just dial **(800) 262-3299**. In Australia the number is **1800 813 013**. In Europe the freefax number is **00 800 0262 3299**.

Toll Free Customer Service Order Desk

- **Our Friendly, Trained Staff is Always Happy to Hear From You**

For over 40 years CRL has provided toll free ordering at **(800) 421-6144**. When you call our Customer Service Order Desk you'll find CRL staff who are trained to provide assistance with CRL products and services. They have instant access to pricing, stock availability, and the status of your account, plus they can connect you to CRL Technical Sales personnel if you need specialized product assistance. Order Desk hours are 6 am to 5 pm (Pacific Time) Monday through Friday, and 7 am to 12 pm Saturdays. In Australia our number is **1800 424 275**. In Europe our freephone number is **00 800 0421 6144**.

Will Call Trade Counter

- **When You Need It Today, Our Will Call Trade Counter is Your Fastest Option**
- **Come In and Visit Us at All CRL Service Center Locations**

Every CRL Service Center location has a Will Call Trade Counter where you can place and pick up your orders in person. And when you place your order in advance by phone, fax, or over the Internet, we can have it ready and waiting for you, which can save you a lot of time. Will Call Trade Counter hours are 8 am to 5 pm Monday through Friday, and 8 am to 12 pm Saturdays. Some of our most experienced people staff our Will Call Trade Counter, and they are always happy to see you. Remember, to save time just place your order in advance.

Who May Buy

C.R. Laurence is a manufacturer and wholesale distributor. Possession of this catalog, or any other CRL sales literature, does not constitute an offer to sell. Orders from individuals (except professional tradesmen) may not be accepted.

C.R. Laurence is a Catalog Company

- Master and Specialty Catalogs in Print and Online
- Thousands of Products Presented in an Organized Manner
- Color Photos and Detailed Illustrations
- Easy to Understand Ordering Information

Of all the products we bring you, our catalogs may be the most important. C.R. Laurence is in the business of making catalogs because we know that our customers find it convenient and informative to use these carefully planned and thoroughly prepared catalogs that make it easy for them to find exactly what they need.

Part of our catalog philosophy is to provide more of the information you need, and not overburden you with excess catalog literature. That is why we make our Master Catalogs that usually contain all of the products we offer to certain industries, as well as our Specialty Catalogs that focus on particular product groups. You can select CRL Catalogs for only the areas that pertain to your business, or choose to shop from our Master Catalogs because you like the convenience of finding such a wide variety of products all under one cover.

Our Catalog Library continues to grow with the publication of new Specialty Catalogs on a regular basis. Visit our Catalog Library online at **crlaurence.com** to see our latest editions.

Master Catalog Selection

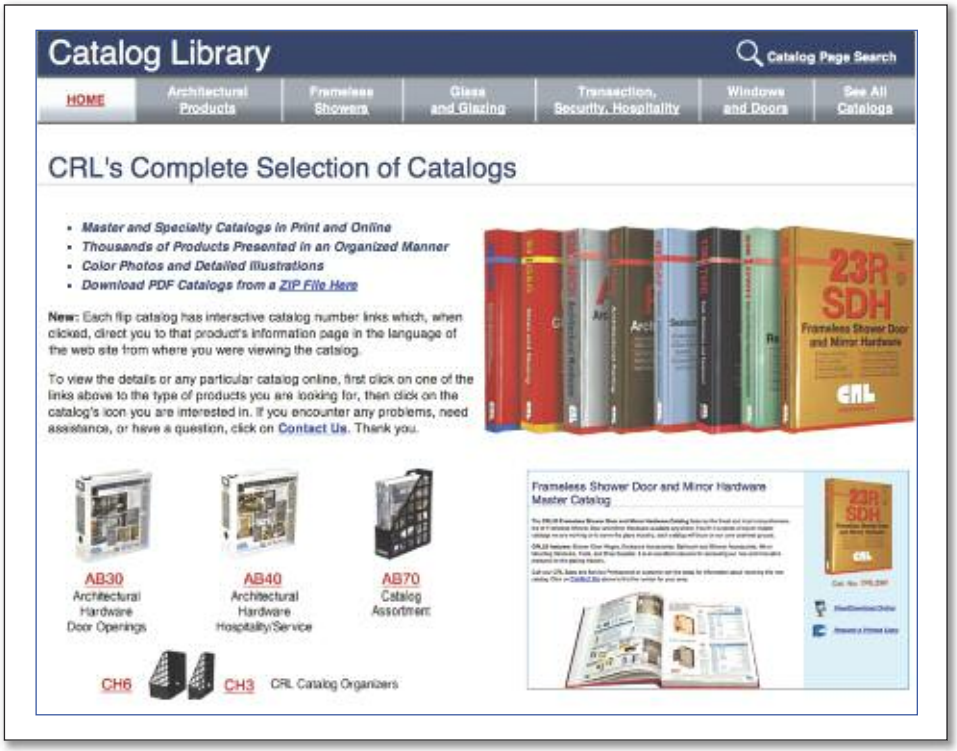

- 03 SEALANTS, ADHESIVES, AND FASTENERS
- 23R FRAMELESS SHOWER DOOR HARDWARE
- 43 AUTO GLASS TOOLS AND WINDOWS
- 53R GLASS AND GLAZING HARDWARE
- 63A ARCHITECTURAL HARDWARE
- 63R ARCHITECTURAL RAILING
- 73R TOOLS, MACHINERY, AND EQUIPMENT
- 83R DOOR AND WINDOW REPLACEMENT HARDWARE
- 93 BIG RED MASTER CATALOG

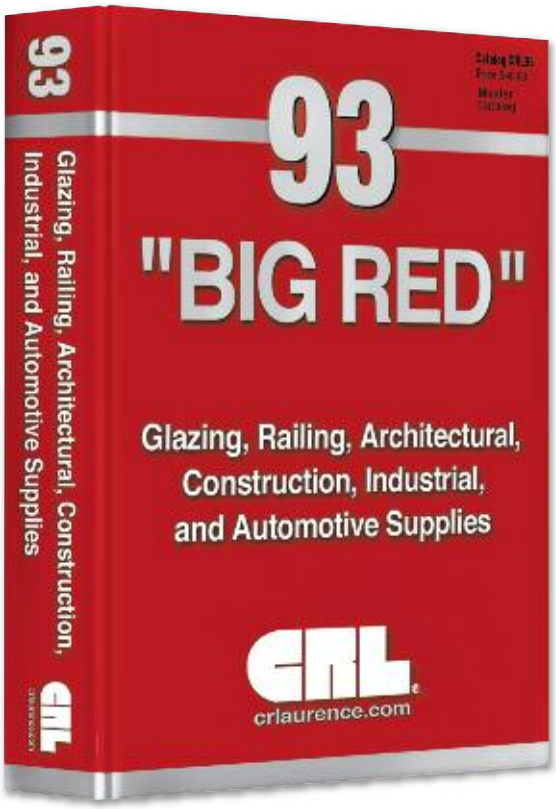

Free CRL Catalogs Online

You can also view or download CRL Catalogs free of charge any time at **crlaurence.com**. Go to the Home Page and click on the link for the CRL Catalog Library.

Catalog Library

Once you open the page you'll be able to view full PDF versions of each catalog simply by clicking on the image of that catalog's cover. Browse through them page by page at your convenience. When you find a product that you want more information about, or would like to order, just click on its Catalog Number and you'll go directly to that product's Offer Page. It's another convenient way for you to shop at **crlaurence.com**.

"BIG RED"
CAT. NO. CRL93

This massive full-color volume will feature an extensive A to Z Product Index for quick look-up of products

The CRL93 Master Catalog

- **The Return of "Big Red", Our Original Master Catalog**
- **Our Most Popular Catalog Ever Features Our Best Selling Product Lines in One Comprehensive Volume**
- **The Most Asked for Everyday Glazing Tools and Supplies for the Successful Glass Business**
- **A Full Selection of Our Most Popular General Tools, Plus Safety and Maintenance Supplies That Can Be Used By Most Any Business**

For many years we offered all of our products in just one catalog. CRL93, or "Big Red" as it was called, was the single resource for our entire selection of tools and supplies for the glazing industry. It was so popular that we eventually made four reprints, and over the years distributed over 200,000 copies.

As CRL expanded to serve many more industries it became apparent that we just couldn't get everything under one cover any longer. And so was born our volume of Master Catalogs, with individualized catalogs that focus on core product lines for the industries we serve. We've printed and distributed many thousands of these volumes as well, and they have spawned our popular Specialty Catalogs for individual product lines.

But for many years our customers have commented that they would still like to have one resource catalog for the everyday supplies they use the most, one catalog of the most popular every day items. At CRL we strive to oblige the customers we value so dearly, and because so many have asked, "Big Red" is about to make its return.

The new CRL93 "Big Red" will bring our customers just what they asked for; the best of CRL's product line under one cover. It will feature the top quality items that most any business can use for their day-to-day needs. Products will be organized for easy selection and ordering, and we'll list the details you need to know in order to make an informed selection.

Look for "Big Red" in 2014. In the meantime, all other CRL Master and Specialty Catalogs are available for order, download, or viewing online at **crlaurence.com**. Click into our Catalog Library to see our full selection of informative and colorful product catalogs for your successful business.

- **Hardware for Glass and Mirrors, Doors and Windows and Screens, Frameless Showers, and Retail Displays**
- **Glazing Tools and Machinery**
- **Glass Handling Equipment**
- **Auto Glass Shop Tools and Supplies**

CAT. NO. USAL15

Over 500 pages of extensive information on Entrances, Curtain Walls, Sun Control Systems, Windows, Hurricane Resistant, and Blast Mitigation Systems.

U.S. Aluminum Curtain Wall Architectural Design Manual USAL15

- Entrance Doors
- Curtain Walls
- Sun Control Systems
- Windows
- Hurricane Resistant Systems
- Blast Resistant Systems

Our USAL15 Architectural Design Manual offers you a full range of curtain wall systems with superior thermal performance. The quality, performance, and aesthetic beauty of our products permit architects and designers to fully utilize the unique structural properties of aluminum for both interior and exterior design. Finishes range from custom matched painted coatings to a wide selection of clear, bronze or black anodic finishes.

Our engineering staff constantly updates product design to satisfy the performance requirements and economic concerns of today's most demanding projects. After design, certified independent testing labs test our systems to the highest industry standards.

The USAL15 Architectural Design Manual has over 500 pages of extensive information on Aluminum Entrance Doors, Curtain Walls, Sun Control Systems, Windows, Hurricane (Impact) Resistant Systems, Blast Mitigation Systems, 'All-Glass' Entrances, and Interior Office Front Systems, including an A to Z Index for quick look-up of products. Organized into sections for fast and easy product reference, the USAL15 Architectural Design Manual is your guide for the selection of efficient and attractive curtain wall systems.

You may know C.R. Laurence Company as the world's largest distributor of supplies to the glass industry. What you may not know is that we are also a manufacturer of over 10,000 products found in our Online Catalog. We make some of the best products available to customers worldwide. Our people use progressive ISO9001:2008 manufacturing processes to make products for the Glazing, Screen, Architectural, Railing, Construction, Industrial, and Automotive industries. These certified processes ensure that we give every product our full attention to detail.

Using strict manufacturing standards we produce the kind of quality products that has kept us at the head of this field for many years. That's your assurance that when you select a product made by CRL Manufacturing, you have made the best possible choice.

We're always looking for ways to make our products better, and along the way we've added experts from different fields to our staff of designers, engineers, and craftspeople. Our goal is to make our products a better value to you, whether it's time or labor savings, extended service life, increased versatility, or enhanced visual appeal.

Many of our products incorporate industry "firsts"; features offered by no other manufacturer because we feel that no product or process is so good that it can't be improved. We strive to make products of high quality and value. That's the goal we set for ourselves at the onset, and it's still our guiding influence. Some of the improvements we've made have originated from people who have used our products and generously contributed their opinions and suggestions. We welcome your comments, and invite you to contact us at any time regarding a C.R. Laurence product.

Expansion of our manufacturing capability has brought our total manufacturing floor space in California to roughly 650,000 square feet. CRL now has almost 1 million square feet of distribution and manufacturing capability in the local area to better serve our customers. We also have a 90,000 square foot machinery facility in Cicero, Illinois, and a facility in Melbourne, Australia for the manufacture of our Vacuum Lifters. It's all part of CRL's commitment to provide good quality products with short lead times to the industries we serve.

Manufacturers of Quality Vacuum Lifters in our State-of-the-Art Facility in Melbourne, Australia

CRL's Precision Design and Engineering is the Key to Quality

DNV Certification, Inc.
ISO 9002 REGISTERED FIRM

• CRL is ISO9001:2008 Certified

It all starts with ISO9001:2008 certification. We produce over 7,000 items for the industries we serve in our ISO9001 Certified manufacturing facilities. Our adherence to the strictest of standards reflects the commitment of our employees to provide the highest quality products.

• Innovation Makes Us a Leader

C.R. Laurence Manufacturing has provided new and innovative products for over 50 years. We know we can't just sit still, because if we do, others will pass us by, and that's not what being a leader is all about.

Many CRL manufactured products incorporate features offered by no one else because we feel that no product is so good that it can't be improved.

• Award Winning Designs and Products

Just because we say our products are all top quality doesn't make it so. However, when those recognized as setting the standards for quality say we make the best, then that really means something. C.R. Laurence Manufacturing has earned some very prestigious awards for manufacturing excellence by organizations that set the standards for quality.

• CRL Rapid Customization Program for Short Lead Times

The goal of CRL's Rapid Customization Program is to achieve the shortest possible lead time on all CRL Manufactured Products, from sketch to quote to fabrication to delivery. This is done several ways, and an important factor is keeping the entire process "in-house". Allowing CRL Manufacturing to control such processes as drafting, modeling, raw material procurement, cutting optimization, high-speed fabrication, finishing, powder coating, batch painting, packaging, and shipping makes for efficient and speedy delivery of products to you.

• Engineers Available for Product Development, Testing, and Production Support

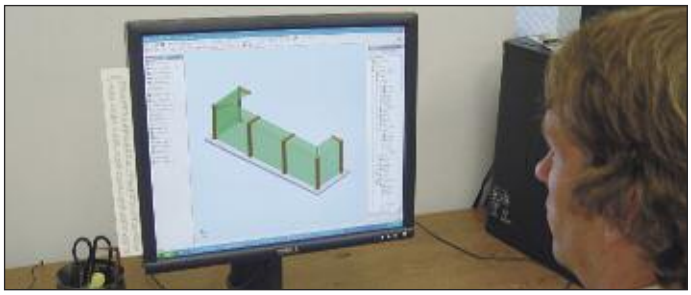

CRL's Engineering Department works with you to review designs and job plans to address feasibility, safety concerns, and possible alternate solutions in order to prepare a fair and accurate per unit or per job quote for our manufacturing services.

• Experienced, Knowledgeable Team Dedicated From Start to Finish

Our staff has decades of experience in the various stages of manufacturing. Our people draw upon their resources to find innovation and efficiency in our manufacturing processes, allowing us to build top quality products at prices that are always competitive. From the procurement of raw materials to final shipment of finished goods, it's our experience that makes the difference.

• State-of-the-Art Computers and Software

CRL's trained staff uses up-to-date programs including Auto CAD, Auto Desk Inventor, and ANSYS Workbench to provide the best designs to send to our manufacturing plant. This software and our engineers provide workable, modern designs that can be simulated on our computers, saving you time and money down the road.

Do You Have a New Product That Could be Made by CRL? Need Help With a Current Product? Contact Us

We welcome the opportunity to serve you, and are committed to providing your business with the services that produce quality products. To discuss the possibility of working with CRL Manufacturing we invite you to contact CRL Technical Sales at (800) 421-6144 in the U.S., (877) 421-6144 from Canada, or (323) 588-1281 International. Ask for Ext. 7520. To send e-mail go to **crlaurence.com**, click on Contact Us, and then click on Product Management.

ACKNOWLEDGEMENTS

C.R. Laurence Company, in partnership with many of the finest glass and mirror businesses worldwide, is proud to present this catalog to our customers. We thank these companies for allowing us to showcase their beautiful shower installations in our book.

Resources for Your Business Expansion!

- **Increase Your Niche in the Frameless Shower Door Market by Using the Tools We Offer**

Frameless Shower Door Hardware Specialty Catalog

CRL offers Specialty Catalogs for those who are in the business. The full color Frameless Shower Door Hardware Catalog is ideal for companies specializing in the frameless shower door market. Complete with full color photographs of numerous completed frameless shower enclosures, it is the ideal catalog to sit down and share ideas with customers, designers, and architects. Complete specifications are given for the product line, along with charts detailing maximum capacity loads for our various hinges. The catalog is rounded out with a full line of accessory items such as Pull Handles, Towel Bars, Glass Clamps, U-Channels, Headers, Thresholds, Water Seals, Tapes, Tools, Sliding Systems and Installation Supplies.

Frameless Shower Door Guide

- **A Comprehensive Reference Manual and Training Tool**
- **Covers Design and Proper Hardware Selection, Fabrication, and Glass Sizing**
- **Contains Installation Instructions and a Complete Set of Cut-Out Templates**

CAT. NO. SDT21

Over 800 Pages to Add to Your Frameless Shower Door Library

Our Frameless Shower Door Guide is a comprehensive manual for constructing the modern frameless shower enclosure. The four sections contain all necessary information to prepare your glass for the installation of Shower Door Hinges, Glass Clamps, Towel Bars, Knobs, and other accessories. SDT21 is set up to take you from the design and planning stage, all the way through fabrication, glass sizing, and installation.

This guide contains all template information, and a number of sample diagrams and drawings to illustrate the many phases of frameless shower enclosures. Design considerations, avoiding potential installation problems, and many other tips will make this guide valuable to both the novice and the experienced installer. The SDT21 Guide from CRL is a vital piece of literature to add to your shower door publications.

Technical and Design Assistance by Our Dedicated Staff

Modern shower and bath enclosures start with an idea, or vision, of an elegant and functional bathing environment that will add beauty and value to a home. Transforming the idea to reality requires not only quality hardware, but a design or plan to integrate the new enclosure into the existing surroundings.

We offer help in two critical areas of shower enclosure construction. First, the design must be evaluated. Will it fit the existing area, or will extensive modifications be required? We can review your design plan to evaluate its suitability for the intended installation. Second, the hardware must be compatible with the intended glazing and layout. Recommendations as to which hinges and accessories will be compatible to a functional design will be offered. We will help you choose the hardware that brings out the very best in your design plans. All of this is part of our effort to bring you not only the best products, but also top level service to match. Ask for Shower Technical Sales at Ext. 7740 or e-mail us at **showers@crlaurence.com**.

Shower Door Folding Flyer

- **10 Page Flyer Can Be Used to Advertise That You Are in the Frameless Shower Door Business**
- **Perfect for Mailings and Trade Show Use**
- **Blank Space on Rear Cover Accommodates Your Company Logo**

The Shower Door Folding Flyer is an attractive and inexpensive advertising tool. This 10 page flyer summarizes product groups, and displays photos showing the product and service offerings you can provide your customers. A blank space on the rear cover allows you to stamp your company logo. 50 Flyers per pack. Includes acrylic literature holder.

Web-Based Design, Glass Sizing, Quote, and Ordering Program

- **Revolutionary Program Generates "Go" Glass Sizes From Your Field Measurements**
- **Web-Based So You Have 24 Hour Access**
- **Sizes for Shower Enclosures Can Be Completed in Just a Few Minutes**
- **Upon Completion of Data Entry, Simply Push the "Print" Icon to Generate Complete Glass Sizes and Their Templates**
- **You Have the Ability to Change the Default Deductions for Glass Sizing**
- **Continued Upgrades to Program Occur at No Extra Expense**
- **Recent Upgrades Include:**

  * Program Generates Completed Quotes and Allows Easy Conversion to Orders
  * Quote Requests for Custom Items Can Be Generated
  * Glass Sizes and Pricing for Cottage Series, Serenity Series, and Hydroslide Series Sliding Systems Can Be Done
  * New 3D Color Images
  * Branding Feature to Add Your Company Logo
  * DXF Export Feature for CNC Fabrication Needs

Showers Online by CRL

Now, you no longer have to figure glass sizes by hand. Showers Online is a web-based design and glass sizing program that allows you to enter a list of products being used for a particular job, and the field measurements for the installation. Showers Online then calculates final glass sizes and displays detailed information, including hinge and handle locations, miters, and much more. The program is tailored to work with most any shower enclosure configuration. Users can select numerous default settings, hardware types, and clearances. A quote sheet can be assembled for a professional and personalized quote you can send to a prospective customer. Shower hardware specific for each enclosure can be ordered from Showers Online.

Showers Online is available only to CRL Authorized professional installers who first attend a mandatory Webinar. For additional information, contact CRL Technical Sales at (800) 421-6144 in the U.S., (877) 421-6144 from Canada, or (323) 588-1281 International and ask for Ext. 7740. You can also e-mail us through our web site at **crlaurence.com**. From the home page click on Contact Us, and then click on Technical Sales for Shower Products.

If CRL's Showers Online is not for you, our Technical Sales Department provides individual job glass sizes for nominal engineering fees. Contact our Technical Sales Department for your quote.

Showers Online START

Showers Online Metric START

1 Choose the shower enclosure design that best matches the configuration of the unit you will be doing. There are more than 200 "templates" of shower enclosures from which to choose. Once you select the design, click on it to load it on to your screen. **NOTE:** Custom configurations that are not included in the over 200 design choices can be generated independently.

2 Enter the finished opening sizes from your field measurements. Remember just how critical these measurements are. The pre-programmed deductions will be taken from your field measurements. As they say, measure twice so you only have to cut once.

3 Select the C.R. Laurence Frameless Shower Door Hardware that you have chosen for the project.

4 Once all the products required for the shower enclosure have been determined, simply press the "Save" button. The glass sizes will be completed, along with individual panel details. It's that easy.

CRL Custom Services and Capabilities

The face of CRL has changed since the inception of our Frameless Shower Door Hardware program over 20 years ago. As an early leader in the market, we were the first to develop many popular stock products used everyday for the installation of the modern frameless shower enclosure. Continuing in a leadership role, C.R. Laurence Company has expanded it's capabilities and built over 1,000,000 square feet of manufacturing facilities to add to the strength of our already strong worldwide purchasing power. The result is positive for you – the customer.

While we continue to stock unprecedented inventory of stock items for daily use, we also realize not every job is the same. The imagination of architects, designers, and homeowners creates an opportunity to create the most elegant, yet safe enclosure ever seen. This is where custom products are needed, and CRL can manufacture them to exact specifications.

The "C" in CRL Could Very Well Stand for CUSTOM

Engineering

Cutting

Machining

Assembly

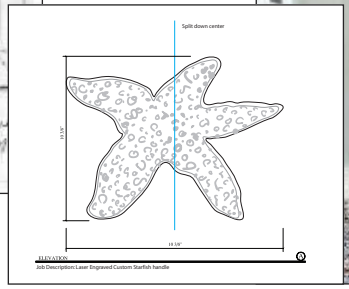

Feel free to send us your drawings and requirement for custom products. Whether it is for Pull Handles, Towel Bars, Clamps, Hinges, Extrusions, or any other shower related accessory, CRL's Technical Sales Department will review your information and provide you a timely quotation. A few items may be based on order minimums due to design, while most items are usually available for as few a quantity as one each. Custom finishes are also available. Although CRL stocks over 20 popular finishes for many of our standard shower door hardware items, custom finishes may be required by your customer and we are pleased to oblige.

Custom Services We Want You To Know CRL For …

CRL's capabilities encompass almost every phase of the manufacturing process, from the early stages of design, all the way through to packaging and shipment. We can supply such services as:

- Design
- Engineering
- Cutting
- Milling
- Machining
- Bending
- Welding
- Assembly
- Plating
- Polishing
- Finishing
- Powder Coating
- Cleaning
- Packaging
- Shipping

Pushing the Design Envelope – *CRL Customers Know Best!*

Over the years we have found that our customers are the best source for design innovation of both hardware products and the tools used to install them.

Product ideas range from new styles of products, to gauges and jigs enabling more efficient and cost effective installation.

The most knowledgable source for new product ideas, as well as better ways to install them, are our customers, who use the products on a daily basis.

C.R. Laurence Listens

CRL invites and encourages our customers to contact us with any ideas they may have regarding the entire product line. All ideas are taken seriously.

Ideas range from new products and tools, to added features for existing products, such as new size and finish options. Many innovative ideas include the design improvements of existing products.

Customer Service

Innovation is not limited to the products in our catalogs. C.R. Laurence is continually looking for ways to improve how we serve our customers.

Efficient and reliable interaction with our customers is the best way to ensure a productive and profitable relationship for all parties.

How to Reach Us

Your ideas can be forwarded to CRL in many ways. We always appreciate it when our customers take the time to contact us with ideas to improve the ways we can serve you and your industry.

In Person: Come into any of our CRL Service Centers and talk to one of our representatives.

By Fax: Fax in your ideas to our Product Management Department at (323) 584-5228.

Online: E-mail your ideas via our web site. Details are available at **crlaurence.com**

Curved Glass – The Next Wave in Frameless Shower Door Design

- **Aesthetically Pleasing Contour of Curved Glass is the Signature of Today's Modern Bathroom**
- **Clean in Design and Elegant in Appearance**
- **Ergonomically Designed Curved Shower Can Provide Additional Space Inside Enclosure**
- **CRL has the Hardware to Complete Your Design**

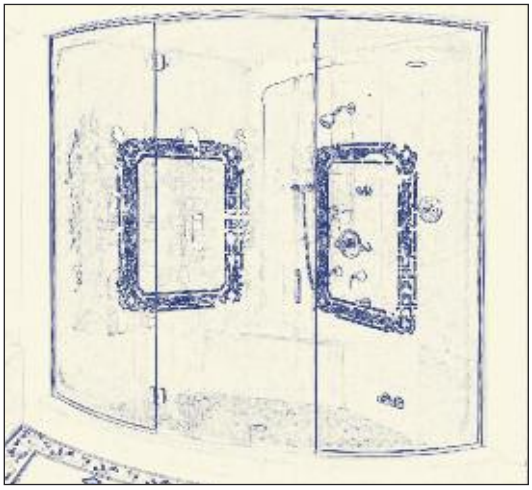

A Practical Design Alternative – *Setting the Trends*

Over the past two decades C.R. Laurence has continually set the standard in product design and innovation. In keeping with this, C.R. Laurence offers an extensive line of products for use in curved glass design. **NOTE:** CRL does not offer curved glass, only the hardware and design assistance to use it.

As homeowners are making a greater investment in their homes, bathroom design has become a higher priority, in terms of functionality and upscale amenities.

Curved glass has always been considered too expensive for most budgets. Although available at a premium, curved glass enclosures are becoming increasingly affordable.

As glass retailers and glaziers become more familiar and comfortable with curved glass systems, more products and design possibilities will become available in this untapped North American market. This trend has already captured a third of the mid-priced to high-end design market in Europe.

Curved Glass Advantages - *Educating the Industry*

Curved Glass offers elegant frameless design, with minimal support hardware.

Curved Glass enclosures are as easy to install as traditional flat glass enclosures.

Curved Glass shower enclosures offer added interior space due to the curved door design, an asset in layouts where space is limited.

Curved Glass installations may require some special tools, such as a self-leveling laser. Extra care should be taken in the design and layout to ensure proper fit.

Curved Glass enclosures offer an alternative to the traditional "Neo-Angle" shower enclosure at a competitive cost.

Setting aside the myths regarding curved glass enclosures, including the high cost and the high expense of sizing mistakes, opens up a vast array of design possibilities. Other misconceptions include lack of product availability, as well as the lack of adjustment available on out of square installations. Getting past these issues will open you up to the profits that can be yours when you offer your customers beautiful curved glass enclosures.

Hardware Availability

Zurich Hinges are the most suitable for use with curved glass. They offer the most design flexibility, including "bi-fold" door options, while offering secure installation. They are available for wall mount and glass-to-glass mount applications.

Geneva Hinges are a viable option as well, offering similar design flexibility. The most popular hinge series comes in over 20 beautiful finishes.

Glass Clamps are a suggested option for securing curved fixed glass panels. CRL's complete line of Glass Clamps is available to accentuate the 'all-glass' look.

Quality is What Sets CRL Apart!

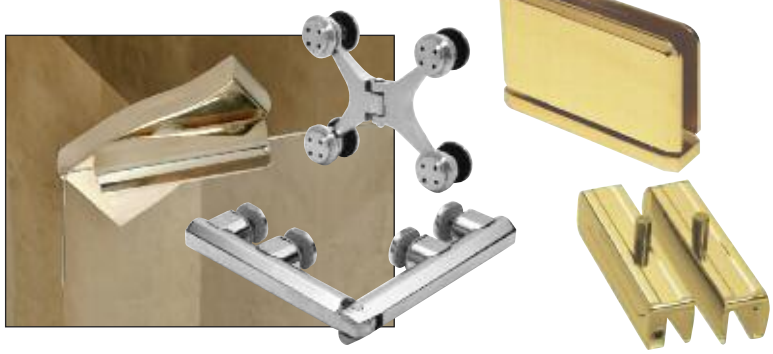

- **Quality – Always Sought But Not Always Easy to Attain**
- **Make Sure You Know the Difference Between Quality C.R. Laurence Frameless Shower Door Hardware and All Others**

Ever hear someone say "It gets me where I want to go" about their automobile? Undoubtedly that is true, but if they could upgrade at a reasonable cost and own something that was more durable, nicer looking, and gave them that all important feel of "value", then they would most certainly jump at the chance.

CRL Frameless Shower Door Hardware is designed with this in mind, where it allows the user choices of economical design opportunities right up to the highest grade of hardware available. Your determination of value is important, and it is equally important for us to provide you with choices.

It's What's Inside That Counts . . .

The highest quality internal parts, combined with beautiful finishes, provide the finishing touch to today's modern frameless shower door

Quality Materials: - Forged brass or stainless steel Hinges, along with all stainless steel moving parts, assure durability and performance in water environments. Many lesser grade Hinges are made of cast or plated metals, resulting in short term performance but not the life expectancy and value provided by CRL. For accessory items such as Pull Handles and Towel Bars, choices of solid brass or heavy walled tubular brass provide the user with design and function options. Our solid brass Glass Clamps, aluminum Channels, as well as many fungus resistant Water Seals, complete a product line designed to allow the combination of aesthetics and installation durability.

Quality Finishes: - Time tested plated and powder coat finishes in up to over 20 choices allow the user to match most any modern shower décor. CRL is constantly researching and evaluating the latest plumbing and bathroom fixtures to keep you apprised of what the latest trends are. It is always important to note that if you do not see the item you like in a particular finish, CRL can provide you a quote to have the product done as a custom order. Our in-house powdercoating facility, along with plating and other manufacturing capabilities, makes us the company who hates to say no to any requirement you might have.

Hinge Mounting Options: - While the early days of traditional side mounted style Wall Mount and Glass-to-Glass Hinges will always be popular, recent years have led to new CRL innovations, such as our Prima Series Top and Bottom Mount Styles, as well as our first "Notchless" Hinge with the Madrid Series. Architects, designers, and homeowners can virtually let their imaginations be their only limitation with the offering of models and designs to suit numerous modern day frameless shower configurations.

Hinge Feature: CRL Hinges come packed standard with Phillips Screws installed in the hinge plates. An optional pack of Allen Screws is also included in each box for customer preference. In addition, replacement screw packs are offered for both Phillips and Allen styles (see page 224J).

CE Marking: - As you go through our 23R Catalog, you will note that many C.R. Laurence Shower Door Hinges are displayed with the CE Icon.

CE Marking (also known as CE Mark) is a mandatory conformance mark on many products placed on the market in the European Economic Area (EEA). The letters "CE" stand for "Coformité Europeénne" ("European Conformity").

The CE marking is a key indicator of a product's compliance with EU legislation, and enables the free movement of products within the European market. By affixing the CE marking to a product, a manufacturer is declaring conformity with all of the legal requirements to achieve the CE marking. This marking ensures the validity of the product to be sold throughout the European Economic Area.

Where Do You Start in Designing and Installing a Frameless Shower Enclosure?

Each frameless shower enclosure you complete is a project and a process. The ability to not overlook details in the designing, planning, ordering, and installing phases can make the difference between a profitable job well done, or another lesson learned. The information shown onthis page is intended to help you develop plans and use checklists to make sure your project proceeds smoothly.

How a Frameless Shower Enclosure Evolves…

1. Planning the configuration and design of the enclosure.
2. Reviewing design considerations that will lead to both a beautiful and safe enclosure.
3. Selection of hardware and finish, ensuring that all safety specifications are observed when choosing the proper hinges.
4. Transferring the design to paper:
   a. Properly measuring the enclosure.
   b. Understanding center-line measurements and imaginary lines.
   c. Using the correct line values and symbols on the drawing.
5. Calculating glass sizes and locations of cut-outs, holes, etc.
   a. Calculations based on the hardware, seal and wipes, and other accessories used.
   b. Figuring cut-out, hole and notch locations.
   c. Specifying which edges of the glass are flat polished and mitered.
   d. Location of the temperer's logo.
   e. Transferring the above to a drawing showing line values and symbols denoting dimensions, outages, etc.
   f. Supplying appropriate templates to accompany your completed drawing.
6. Purchasing selected hardware to arrive in time for installation.
7. Reviewing installation procedures appropriate to your specific job.
8. Being sure to have all required installation accessories, Such as anchors, shims, screws, sealants, and tools. It is a good idea to carry a wide variety of wipes and seals. If clearances change or job site conditions dictate, you will be prepared.

Frameless Shower Door Checklist

Checklist: (mark each box or fill in each blank where applicable)

Glass Thickness: ☐ 1/4" (6 mm) ☐ 5/16" (8 mm) ☐ 3/8" (10 mm) ☐ 1/2" (12 mm)

Hardware Finish: _____

Hinge Type: ☐ Wall Mounted ☐ Glass-to-Glass
☐ Top and Bottom Pivot _____ Degrees

Desired Door Width: _____

Configuration: ☐ Floor to Ceiling ☐ Header on Top
☐ Floating Top

Fixed Panel Securing: ☐ Regular U-Channel ☐ Glass Clamps
☐ Deep U-Channel

Door to Swing: ☐ In and Out ☐ Out Only

Wipes and Seals: ☐ Yes ☐ No

Corner Joint: ☐ Mitered ☐ Overlapped

Pony Wall or Step: ☐ Yes ☐ No

Notes: _____
_____

REMEMBER A GOOD INSTALLATION REQUIRES:

* Measuring properly
* Identifying ins and outs from plumb or level
* Following manufacturer's specifications and guidelines
* Calculating proper glass deductions and providing correct cut-out details
* Doing a safe installation

The checklist to the left was designed to assist you in covering the many details required to complete a frameless shower enclosure. By marking the boxes or filling in the appropriate blanks that apply to your enclosure, it will help you not overlook design considerations pertaining to your project. Use this checklist to then develop your hardware order, making sure you are choosing hinges that will work with your particular glass thickness. Make copies so you can do this with all your jobs.

CRL Hinge Location Guidelines

Wall Mount and Glass-to-Glass Hinges

C.R. Laurence recommends a distance of 8" (203 mm) to the center of the cut-out, for both the top and bottom hinges on two-hinge doors. If a third hinge is used, it should be centered between the top and bottom hinges. To be perfectly symmetrical within the opening you are working with, you can deduct the clearance gap from the 8" (203 mm) distance, and use the remainder as the distance to the center of the cut-out [i.e., clearance gap at the bottom of the door is 7/16" (11 mm), thus the distance to the center of the cut-out is 7-9/16" (192 mm)]. For glass-to-glass installations consideration must be given to different clearance gaps for both the door and the fixed panel [i.e., clearance gap under the door is 7/16" (11 mm), so the distance to the center of the cut-out is 7-9/16" (192 mm); clearance gap under the fixed panel is 3/16" (5 mm), so the distance to the center of the cut-out is 7-13/16" (198 mm)].

Glass-to-Glass Hinge Applications

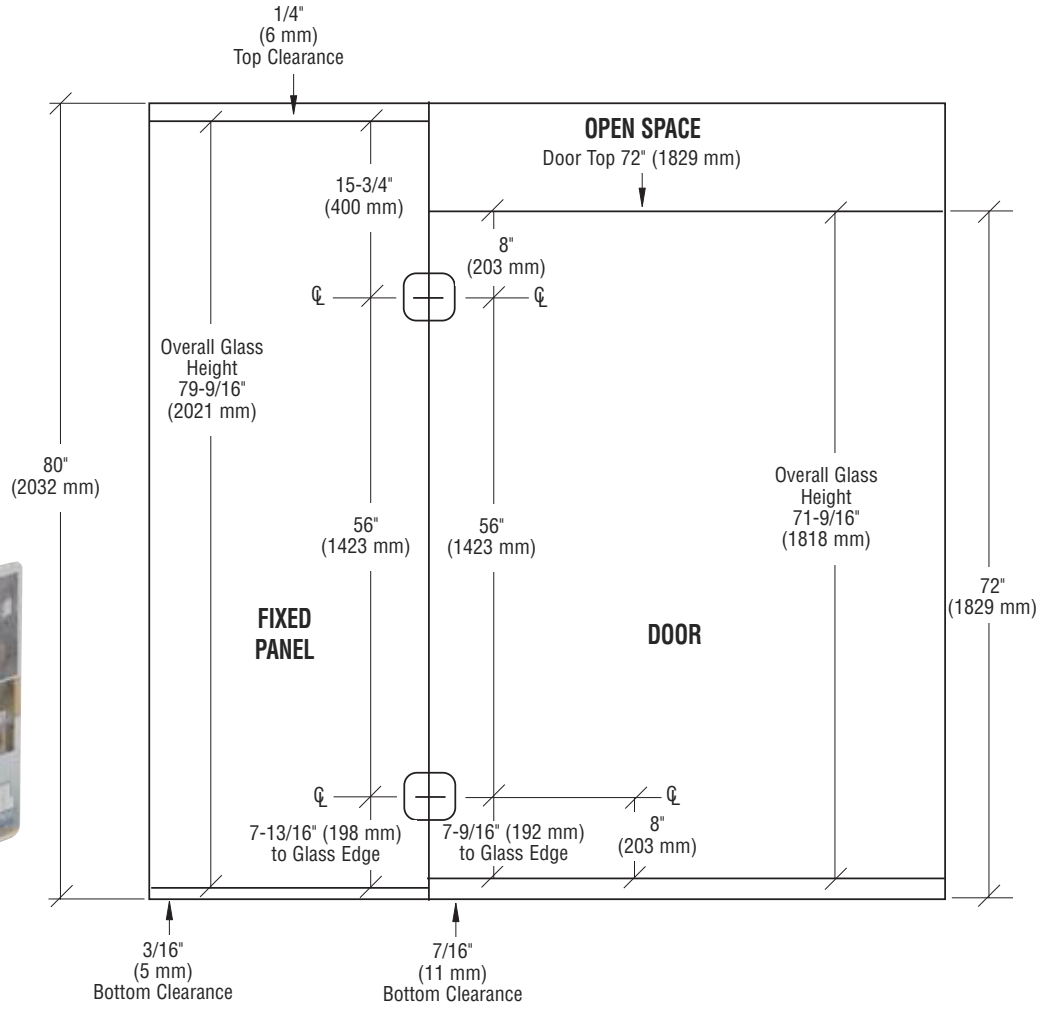

The dimension between the cut-outs on both the door and fixed panel must be identical. After final dimensions are calculated, double-check your work by adding the cut-out dimensions together to get the overall glass height.

Example of Matching Fixed Panel and Door Cut-Outs for Glass-to-Glass Hinges

This and many other helpful diagrams and templates are shown in our SDT21 Frameless Shower Door Guide. It's a comprehensive reference manual and training tool that covers design and proper hardware selection, fabrication, and glass sizing. For more information on this valuable tool, see page 101J.

CAT. NO. SDT21
Frameless Shower Door Guide

For Top and Bottom Pivot Hinge Installations (Prima, Junior Prima, Senior Prima, Cardiff, Senior Cardiff, Rondo, and Shell Series)

The Top or Bottom Mount and Glass-to-Glass styles (01 and 02 models) offer a choice of templates that allow you to edge mount the hinges at the top and bottom of the door, or actually inset the hinges toward the center of the door at any distance you desire. Wall Mount and Inline Panel Mount styles (03, 04, and 05 models) offer a template restricted to edge mounting only. Many customers prefer using the inset template for 01 and 02 models because it will allow a full edge of glass to run from top to bottom of the door, thus allowing a seal to run top to bottom. If using the inset template for the 01 or 02 models, we suggest a guideline of 2-5/8" (67 mm) where the template reads "Distance to Wall Varies". This leaves an approximately 1" (25 mm) strip of glass in the corners to apply a seal completely from top to bottom.

CRL Keys to a Successful Frameless Shower Installation

- Pre-Installation Design Considerations
- Common Installation Problems/Solutions
- Tools and Supplies Required for Installation
- Reviewing Installation Instructions

When you are in the initial stages of designing a frameless shower enclosure, it is important that you consider all the facets of the job. This includes potential problems that may arise, and any safety issues that you should be aware of.

It is interesting that in the many years we have taken phone calls from our shower door customers, we often hear customers say that they have a design problem that could have been prevented with better preparation.

We encourage you to review the information on these next two pages carefully (and many times) to assist you in completing the project in an efficient and safe manner, while maximizing your profit because of the sound decisions you have made in the planning stages.

PLEASE READ THESE IMPORTANT PRE-INSTALLATION TIPS

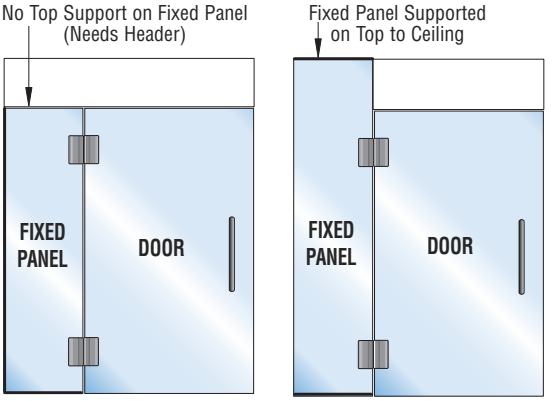

- **Don't Wait to Measure Your Glass at the Job Site.** Measure your glass dimensions, cut-outs and hole locations prior to leaving for the job. Check to see that the glass is not warped. This will prevent an unnecssary return trip to the job site.
- **Don't Install Warped Glass Panels.** Hoping that Glass Clamps and U-Channels will straighten out the warped panel will put undue tension on the panel, increasing the possibility of glass breakage.
- **Don't Install Hinges, Clamps, Handles or U-Channels** without proper cushioning gaskets. Metal-to-glass contact may cause the tempered glass to explode.
- **It is important to Use the Proper Lubricant if Oiling CRL Hinges.** CRL Hinges come lubricated, and should not require further lubrication. However, if needed, white lithium grease should be used on pre-installation applications. When lubricating pre-installed hinges 3 in 1 Oil should be used. Do not use WD40 or similar spray lubricants.
- **If You Use Vinyl Seals,** apply a light coat of petroleum jelly to the surfaces that come into contact with the wall or glass. This will present sticking or chattering, and allow smoother closing action of the door.

Common Installation Problems and Solutions

DO NOT HINGE A DOOR OFF OF A FIXED PANEL USING GLASS-TO-GLASS HINGES, IF THE FIXED PANEL IS NOT SUPPORTED AT THE TOP.
If a door is to be hinged off of a fixed panel using Glass-to-Glass Hinges, one of the following criteria must be met:

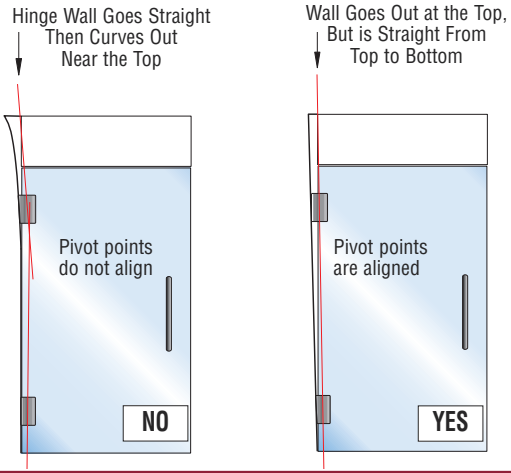

(A) The door must be hinged off a fixed panel that is secured at both the curb and the ceiling with either U-Channel or Glass Clamps.
(B) If the fixed panel does not go to the ceiling, the top of the panel must be secured with a Header System or a Support Bar.

If the design allows, using Wall Mount Hinges instead of Glass-to-Glass Hinges (to avoid swinging a door off of an unsupported fixed panel), is a good solution. A door swinging off of an unsupported fixed panel can cause the panel to wobble or flex, and be unsafe.

ALWAYS ADHERE TO MANUFACTURER'S SPECIFICATIONS CONCERNING BOTH WEIGHT AND DOOR WIDTH CAPACITIES WHEN DECIDING THE PROPER AMOUNT OF HINGES TO USE ON THE DOOR. It may be tempting to cut corners and save on hardware costs by stretching manufacturer's recommendations of hardware limitations. This is not a good business decision. Also, by no means should you ever put four CRL Hinges on a door. You will note that all of our recommended specifications addess the use of two or three hinges.

WHEN USING WALL MOUNT HINGES, PUT A STRAIGHT EDGE ON THE WALL THAT THE HINGES WILL BE MOUNTED ON. Remember, the wall can be out of plumb, but it has to be straight. Hinges operate on a pivot point, and pivot points must align with one another. When the pivot points are not aligned, and are clamped to a heavy piece of glass that will not flex, the glass can slip when the door swings. By identifying this condition when measuring, you can avoid the problem by either using Top and Bottom Pivot Hinges (to avoid the wall completely), or plan on putting a shim plate behind the back plate of the hinge that is closest to the wall, pushing it out so that it aligns with the pivoting point of the other hinge/hinges.

CRL Keys to a Successful Frameless Shower Installation

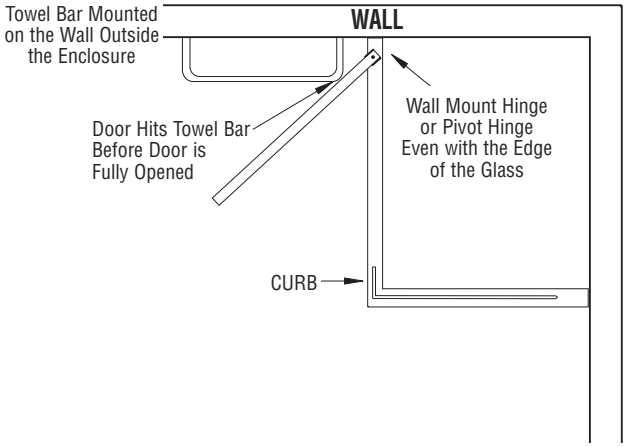

MAKE SURE THAT WHEN USING WALL MOUNT HINGES the wall has a wood stud behind it, or the surface substrate is strong/thick enough and secured sufficiently to accommodate proper screw anchors.

REVIEWING INSTALLATION APPLICATIONS

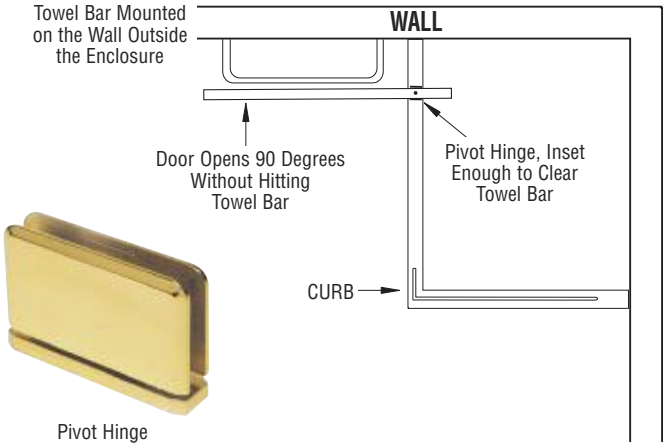

- **Applications Vary** depending on hinge type, use of U-Channel or Glass Clamps and Headers on the fixed panels.
- **Please Refer to the SDT21 Installation Guide** for specific installation details and recommendations pertaining to each type of Hinge, Glass Clamp, and U-Channel application.
- **If You Require More Detailed or Custom Assistance** please contact our experienced Shower Technical Sales Staff. They can assist you with all aspects of planning, design, fabrication, and installation.

WHEN USING WALL MOUNT HINGES, AND THE SAME WALL HAS A TOWEL BAR MOUNTED ON IT, design consideration must be given as to whether that Towel Bar will be struck by the door when it opens to a full 90 degrees. This situation can restrict access to the shower, and more importantly, with the glass hitting the Towel Bar, there is a chance of the door exploding. A possible solution is to use Top and Bottom Pivot Hinges, and inset the Hinges enough so that the pivot point projects far enough from the wall to clear the Towel Bar.

SITUATION: DOOR HITS THE TOWEL BAR BEFORE OPENING 90 DEGREES

SOLUTION: USE TOP AND BOTTOM PIVOT HINGES, INSET FROM THE EDGE OF THE GLASS FAR ENOUGH TO CLEAR THE TOWEL BAR

Pivot Hinge

AN ALUMINUM SHOWER DOOR THRESHOLD SHOULD BE CONSIDERED WHEN A FLAT OR OUTSLOPING CURB CONDITION EXISTS UNDER THE DOOR. We offer Thresholds in stock lengths that can be adhered to the curb with silicone under the door. The rounded, low contour of the Threshold will not harm feet when entering or exiting the shower. The Threshold helps to act as a dam, and will assist in watershed back into the shower. A Bottom Wipe can work in conjunction when positioned above the Threshold. Attention should be given as to whether the slope of the floor causes an uneven clearance gap directly underneath the door. If so, we offer Double Fin Vinyl Wipes (Cat. Nos. SDTDF and SDTDFT2) which offer two different leg lengths. Having the flexibility of the two fins allows you to deal with an uneven clearance gap. The Double Fin simply drags across the top of the Threshold to create a seal.

RECOMMENDED TOOLS AND SUPPLIES. The tools that can be used for installing frameless shower doors and enclosures are varied. There are some tools and supplies you must or should have, and some others that will make the installation process more efficient.

- **TOOLS YOU MUST HAVE**
  Tape Measure, Bubble Vial Level, Cordless Drill, Rubber Mallet, #2 and #3 Phillips Screwdrivers, Single Edge Razor Blades and Holder, Hacksaw and Blades, Aluminum File
- **TOOLS YOU SHOULD HAVE**
  Hammer Drill, Step Stool, 6-Foot Level, Soft Paint Brush, Allen Wrench Set, Various Files, Small Solid Wood Block, Plumb Bob, Caulking Gun, Countersink Set, Spring Clamps, Mitered Saw, Safety Gloves, Framing Square, 100 Foot Extension Cord, Flat Knife, Vacuum Cup, Diagonal Cutters
- **TOOLS YOU COULD HAVE**
  2-Foot Level, Utility Knife, Automatic Center Punch, Pry Bar, Metal Snips, Needle Nose Pliers, Sander, Laser Leveling Tool, Shop Vac
- **SUPPLIES YOU SHOULD HAVE**
  33SMRC or RTV408C Clear Silicone, BL991 Blue Joint Framing Tape, C5192 Duct Tape, 46712 Transfer Adhesive Tape, HR12X112 Plastic Screw Anchors, PSB040 and PSB125 Clear Plastic Setting Blocks, 316 and 416 Spearpoint Drill Bits, 3MD 3/16" and 4MD 1/4" Masonry Drill Bits, WS140 Tube Wax, NWS9 Tapered Wood Shims, various High-Speed Drill Bits, an assortment of Stainless Steel Screws, 1973 Glass Cleaner, BX15 Lint Free Paper Towels.

Have I Chosen the Proper Hinges for My Project?

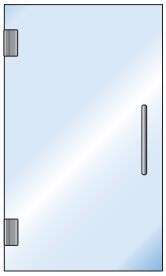

It's a Good Question, and One of the Best Places to Start When First Beginning Your Designing and Planning Stages

The question above considers numerous factors. Sometimes it is as simple as aesthetics. What "look" does the customer want? Other times, job site conditions dictate some creativity, or might limit you to a choice of hinges. A safe enclosure should be your primary concern. Make sure you adhere to the maximum capacities shown for each hinge in our catalog.

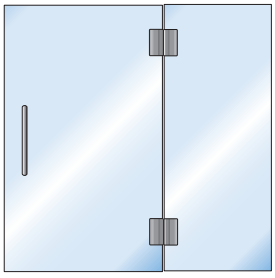

Shown below is information about the common mounting methods. Familiarize yourself with these layouts. Our Shower Technical Sales Staff can assist you in not only selecting the correct hinges, but also with the accessory and component items to put the finishing touches on the enclosure.

Standard Side Mounting Wall Mount and Glass-to-Glass Hinges

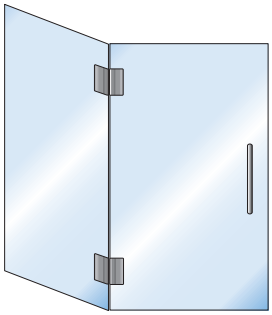

Shown below are typical applications for Wall Mount and Glass-to-Glass Hinges. These drawings are only a sampling, and can be used to assist in the design of your particular enclosure. It is not necessarily a case of right or wrong when selecting between a Wall Mount and Glass-to-Glass Hinge, it is most often a design choice. Sometimes the job site conditions will dictate where one is more proper than the other, but usually it is a certain look that is desired. Generally Wall Mount Hinge jobs are slightly less costly due not only to the cost of the hardware itself (when compared against Glass-to-Glass Hinges) but also savings in the glass cost by making fewer cut-outs. If you have a fixed panel of glass that does not go all the way to the ceiling, and your customer does not want a header, Wall Mount Hinges present a good option. This is because Glass-to-Glass Hinges swinging from a fixed panel not secured at the top and bottom is not recommended. Several of our Hinge Series contain a reversible 5 Degree Pivot Pin, as well as the option of a Custom Pivot Pin manufactured for use on "off-angle" installations. In the end, you will find that with the wide variety of choices available, C.R. Laurence will be able to provide the hardware for most any design.

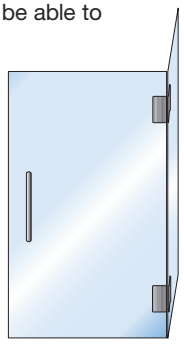

Wall Mount

180 Degree Glass-to-Glass

135 Degree Glass-to-Glass

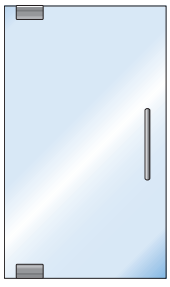

90 Degree Glass-to-Glass

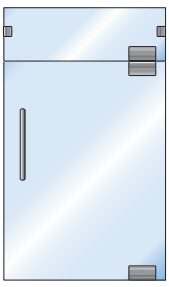

Top and Bottom Pivot Hinges

Top and Bottom Pivot Hinges (Prima, Rondo, Shell, Cardiff, Junior Prima, Senior Prima, and Senior Cardiff Series) are quickly becoming the choice of designers and installers for many reasons. There are advantages to the top and bottom mount models. They carry the majority of the weight on the bottom, and have the ability to be inset from the wall, enabling clearance for towels bars and other projections. Top and Bottom Pivot Hinges provide the answer to several common installation dilemmas. When a glass-to-glass installation is to be done, and the angle of installation does not fall into one of the common mounting degrees (90, 135, or 180), a Top and Bottom Pivot can be used. The Top and Bottom Pivot Hinge is also a good choice as an alternative to the combination of a Wall Mount Hinge positioned on a knee wall with a Glass-to-Glass Hinge above it.

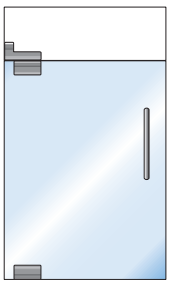

Top and Bottom Pivot Hinges provide more of the desired 'all-glass' look when compared to traditional hinges side mounted on the wall between the top and bottom of the enclosure. Top and Bottom Pivot Hinges are also easily adaptable with our Header Systems to provide an attractive and functional enclosure for units not going all the way to the ceiling. Optional 5 Degree Pivot Pins my be ordered for these hinges to alter the closing position of the door. All in all, the versatility of the Top and Bottom Pivot Hinge makes it the choice of many installers. These drawings illustrate some of the many applications for Top and Bottom Pivot Hinges.

Many CRL Shower Door Hinges Utilize the Same Glass Cut-Out

USE MONOLITHIC TEMPERED GLASS

GROUP 1

PRIMA

CARDIFF

RONDO

SHELL

Many CRL Hinges utilize the same cut-out in the tempered glass. This is by design by CRL, and good for you the customer. It not only allows you to present options to your customers when choosing the particular model of hinge for the job, but even allows an opportunity to go back later and re-install a different hinge in the same cut-out, should a customer make décor changes. This page shows you the different Hinge groupings which share the same glass cut-outs.

IMPORTANT: Make sure you use similar base catalog numbers when comparing glass cut-outs. For instance, GENEVA GEN037 and PINNACLE P1N037 have the same cut-out. However, GENEVA GEN074 and PINNACLE P1N037 DO NOT. So pay careful attention to the model numbers when comparing glass cut-outs. And, as always, contact our Shower Technical Sales Staff for clarification and assistance.

CRL SHOWER HARDWARE FINISHES

CRL Finish Display and Color Chips

- **Attractive Tri-Fold Display Fits Nicely Into a Notebook or Can be Hung in a Showroom Display**
- **The Perfect Tool for Matching Bathroom Décors**
- **Contains Over 20 Labeled Color Chips**
- **Individual Color Chips Available Separately**

We offer this attractive Finish Display to allow color matching in today's modern bathroom décors. Presented in a very nice tri-fold display, you can keep it in a notebook for presentation as part of a portfolio, or simply hang it in your showroom for customers to view. The Finish Display contains over 20 popular hardware finishes, with all Chips labeled for easy identification. Individual Color Chips are also offered for replacement purposes. In addition, a Replacement Vinyl Tri-Fold Display only (with no Color Chips) is available. Another display option is our SDCSK Color Chip Chain (see below left of page).

Beauty

All CRL Frameless Shower Door Hardware has consistent finishes that reflect the "hands-on" manufacturing processes used in its production. It will instantly add a look of quality to the appearance of an enclosure and, with proper care and cleaning, will remain beautiful for years to come.

Variety

CRL Frameless Shower Door Hardware is available in a variety of beautiful finishes to enhance the décor of the surrounding environment. There are bright mirror-like finishes that sparkle, antique and high-tech finishes, brushed finishes for 'soft' décors, and painted finishes such as black and white for enclosures that go beyond the conventional.

Custom Finishes

CRL Frameless Shower Door Hardware is available in custom finishes. If we do not have a stock finish that is to your liking we can produce virtually any finish that is compatible to their brass, stainless steel, or aluminum construction. Contact our Shower Technical Sales Staff for assistance with custom finishes.

CRL Prima Series Top and Bottom Pivot Hinges

Patent Number 5,297,313

See Following Pages for Product Details

Enjoy The View...

CRL Prima Series Hinges (Top and Bottom Mount)

Patent Number 5,297,313

The Best of All Worlds...

- **Aesthetically Pleasing Due to More Glass Exposure**
- **Majority of Weight Rests on Bottom for Smooth Door Movement**

ADVANTAGES

(1) More glass exposure with Top and Bottom Mounting Style. Typical Side Mount Style Hinges "interfere" with the 'all-glass' vision.
(2) Weight distribution principally on the bottom hinge, reducing the leverage condition that Side Mount Hinges cause.
(3) Less glass expense by being able to reduce the amount of cut-outs to usually only two. In many glass-to-glass applications there will be at least four cut-outs required (two in door, two in adjacent side panel) or sometimes six total cut-outs if three Side Mount Hinges were required.

CRL Prima Series Hinges

Patent Number 5,297,313

- **Patented Top and Bottom Mount Design Allows Aesthetically Pleasing Maximum Glass Exposure**
- **Can be Inset From Edge of Door to Enable Clearance From Projecting Towel Bars or Other Fixtures**
- **Can be Easily Adapted to Our Deluxe Header System Using our HAB01 Adaptor Block**
- **Allow Numerous Shower Configurations**
- **For Glass Thickness 5/16" (8 mm) to 3/8" (10 mm)**

USE MONOLITHIC TEMPERED GLASS

3 YEAR WARRANTY

GLASS THICKNESS

5/16" (8 mm) TO 3/8" (10 mm)

CE

Certification (See Page 107J)

Prima Series Pivot Hinges are designed for use with 5/16" (8 mm) to 3/8" (10 mm) tempered safety glass, and provide an extra number of application possibilities. Some advantages of pivot type hinges include the fact that they carry the majority of the weight on the bottom, and have the ability to be inset from the wall, enabling clearance for towel bars and other projections. Prima Series Pivot Hinges are self-centering, with four springs for maximum retention strength. In addition, Pre-Set 5 Degree Hinge models are available (see page 118J). The Prima Series is adaptable to our Deluxe Header System for shower enclosures not going all the way up to the ceiling (see pages 304J-307J).

SPECIFICATIONS

Glass Thickness Range: 5/16" (8 mm) to 3/8" (10 mm) Tempered Safety Glass
Special Feature: Top and Bottom Mount design allows more glass to show. Use of these hinges can reduce quantity of cut-outs required when compared to standard side mount glass-to-glass hinges. Cat. No. PPH01 can be mounted floor and ceiling, or floor and header
Construction: Solid Brass
Hinge Swings: Full Rotation
Closing Type: Self-Centering When Within 15 Degrees of Closed Position
Cut-Out or Cut-Out Plus Holes Required
Includes: Gaskets, Phillips Screws, Allen Screws, and Glass Fabrication Dimensions

*MAXIMUM CAPACITIES	5/16" (8 MM) GLASS		3/8" (10 MM) GLASS	
	WEIGHT	DOOR WIDTH	WEIGHT	DOOR WIDTH
Using Two Hinges	100 lbs/45 kg	31"/787 mm	100 lbs/45 kg	31"/787 mm

* **NOTE:** Do not exceed maximum door weight or width when choosing proper quantity of hinges.

CRL Prima 5 Degree Pre-Set Series Hinges (Top and Bottom Mount)

Patent Number 5,297,313

CE

Certification (See Page 107J)

- **Contain Pivot Pin Already Pre-Set at 5 Degrees Closing Position Into Shower Enclosure**
- **Especially Effective When Wanting to Have Door Close Snugly Against a Strike Jamb**
- **May be Mounted Floor and Ceiling, or Into Our Deluxe Header System**
- **Many Stock Finishes, With Custom Finishes Available**

Prima 5 Degree Pre-Set Hinges are designed for use with 5/16" (8 mm) to 3/8" (10 mm) thick glass. The Number 1 Pivot Pin Model is set so that it would be used at either the top left or bottom right of the door. The Number 2 Pivot Pin Model is set so that it would be used at either the top right or bottom left of the door. When installing, you will always use one Number 1 Model, and one Number 2 Model. They can then be positioned with the options described above. The 5 degree Pre-Set Pivot Pins allow the door to close 5 degrees further into the shower enclosure. This is especially helpful in closing the door tightly against a strike jamb. These hinges may be mounted floor and ceiling, or into our Deluxe Header System shown on pages 304J-307J.

CRL Senior and Junior Prima Series

- **Versions of Our Family of Prima Series Hinges, But for 1/2" (12 mm) or 1/4" (6 mm) Thick Glass**
- **Senior Prima Hinge is Adaptable to Our Deluxe Header System Shown on Pages 304J-307J**
- **Junior Prima Hinge is Adaptable to Our Junior Header System Shown on Page 309J**
- **Two Model Types in Many Popular Stock Finishes**

CE Certification (See Page 107J)

Advantages of Senior and Junior Prima Hinges include the fact that they carry the majority of the weight on the bottom, and have the ability to be inset from the wall, enabling clearance for towel bars and other projections. The Glass-to-Glass Mount Pivot Hinge is used for doors having fixed transoms. When placed vertically either style can be used in movable transom installations. These Pivot Hinges are self-centering, with four springs for maximum retention strength. The Senior Prima Series is adaptable to our Deluxe Header System (see pages 304J-307J). The Junior Prima Series is adaptable to our Junior Header Kit (see page 309J).

CRL Cardiff Series Hinges

Patent Number 5,297,313

- **Square Corner Design for Clean, Sleek Appearance**
- **Will Adapt to CRL Deluxe Header System**
- **Models for 5/16" and 3/8" (8 and 10 mm) Thick Glass**
- **Numerous Finishes Making Décor Matching Easy**

Cardiff Series Pivot Hinges are designed for use with 5/16" to 3/8" (8 to 10 mm) tempered safety glass, and provide an extra number of application possibilities. Some advantages of pivot type hinges include the fact that they carry the majority of the weight on the bottom, and have the ability to be inset from the wall, enabling clearance for towel bars and other projections. Cardiff Series Pivot Hinges are self-centering, with four springs for maximum retention strength. Optional 5 Degree Pre-Set Pivot Pin Sets may be ordered separately (see below). The Cardiff Series is adaptable to our Deluxe Header System for shower enclosures not going all the way up to the ceiling (see pages 304J-307J).

See the complete range of beautiful shower hardware finishes on page 114J

CRL HINGES FOR 1/2" (12 MM) GLASS

CRL Senior Cardiff Series Hinges

Patent Number 5,297,313

- **Larger Version of the Popular Cardiff Series to Accommodate 1/2" (12 mm) Thick Glass**
- **Square Corners for a Sharp, Traditional Look**
- **Adaptable to CRL Deluxe Header System**
- **Stocked in Many Popular Hardware Finishes**

Senior Cardiff Series Top and Bottom Mount Pivot Hinges are designed for use with 1/2" (12 mm) thick tempered safety glass. Some advantages of the Top and Bottom Mount Pivot Hinges include the fact that they carry the majority of the door weight on the bottom hinge, and have the ability to be inset from the door edge, enabling sufficient clearance for towel bars or other projections. Senior Cardiff Hinges are self-centering, with four strong springs for maximum retention strength. The Senior Cardiff Hinge is adaptable to our Deluxe Header System for enclosures not reaching the ceiling, by utilizing our Senior Adapter Block (see page 306J). They also can be simply floor and ceiling mounted for doors that do reach the ceiling. Numerous stock finishes are carried, with custom finishes available upon demand.

CRL Madrid Series Hinges

Patent Number 7,607,199

- **Our First Series of "Notch-Free" Frameless Shower Door Hinges**
- **Top and Bottom Mount Installation Exposes More Glass, Less Hardware**
- **Allows Three Popular Mounting Options**

The Madrid Series of Hinges gives the installer three mounting options, making it the most versatile of all our Pivot Hinges. And because there are no holes to drill, or notches to cut in the glass, the Madrid is also one of the easiest-to-mount Hinges you will ever use. The Madrid's pivot can be mounted in a Header, in a Wall Block, or in a Soffit Sleeve. Take your choice, they're all very simple and provide for a quick installation. Madrid is about choices, and you'll come to discover its elegantly simple lines will blend with most any bathroom décor. There are Madrid Hinge Kits and Mounting Kits in eight of our most popular finishes, and custom finishes are available on special order.

SPECIFICATIONS:

Glass Thicknesses: 5/16" or 3/8" (8 or 10 mm) Tempered Safety Glass

Construction: Solid Brass

Hinge Swings: Full Rotation

Closing Type: Precise Closing to 0 Degrees

No Cut-Out Required

Includes: Gaskets and Mounting Hardware

*MAXIMUM CAPACITIES	5/16" (8 MM) GLASS		3/8" (10 MM) GLASS	
	WEIGHT	DOOR WIDTH	WEIGHT	DOOR WIDTH
Using Two Hinges	120 lbs/54 kg	36"/914 mm	120 lbs/54 kg	36"/914 mm

*** NOTE:** Do not exceed maximum door weight or width when choosing proper quantity of hinges.

IMPORTANT ORDERING TIPS – PLEASE READ

(1) Choose either the MA01 for 3/8" (10 mm) thick glass, or the MA05 for 5/16" (8 mm) thick glass. This will give you the basic Hinge Kit for both top and bottom.

(2) Determine what your mounting application is for the top of the door, and select either the MA02 (Header Mount Kit), MA03 (Wall Block Mount Kit) or MA04 (Soffit Sleeve Mount Kit). Each of these Kits work with either 5/16" or 3/8" (8 or 10 mm) thick glass.

SUMMARY

You have ordered properly for one door when you have selected one each of either the MA01 or MA05 Hinge Kits, plus only one of the MA02, MA03 or MA04 Mount Kits (see next page).

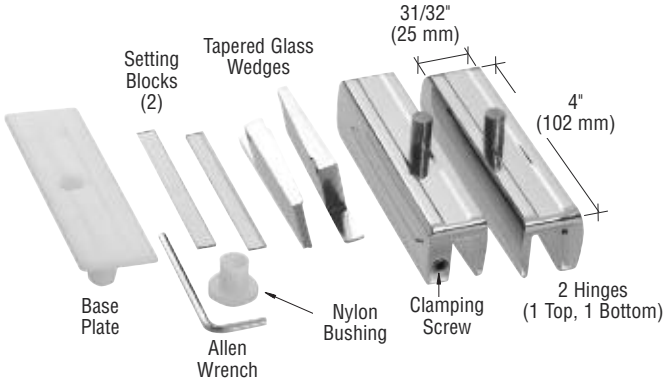

FINISHES:

Most models are stocked in the finishes shown here, others are available on special order.

Madrid Series Basic Hinge Kit

NOTE: The Basic Hinge Kit you order must be for the glass thickness you intend to install, either 5/16" or 3/8" (8 or 10 mm). They are not interchangeable between glass thicknesses. See ordering tips above.

CRL HINGES FOR 5/16" OR 3/8" (8 OR 10 MM) GLASS

CRL Madrid Series Hinge/Clamp

- **Horizontal Adjustability Allows Use of "Pre-Ordered" Glass Widths**
- **No Hinge Cut-Out or Holes for Door**
- **Allows Header Free Design**

new

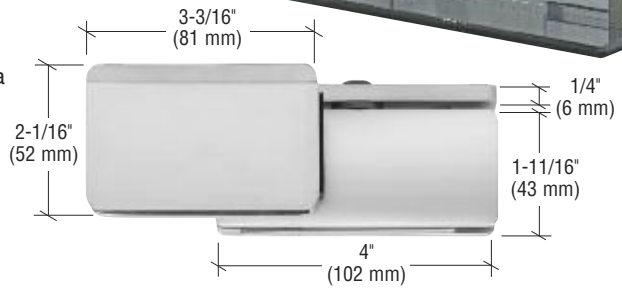

Patent Number 7,607,199

The combination of a Hinge/Clamp continues with the Madrid Series. This new model has virtually unlimited horizontal adjustment and requires no hinge cut-out or holes in the glass for the door. The door overlaps the fixed panel it hinges from, so the amount the door overlaps is the adjustability factor. This allows the use of pre-ordered glass panels of a designated width, then used in conjunction with the door size of your choice. Mandatory use of 1" (25.4 mm) or 1.5" (38.1 mm) height heavy wall Dry Glaze U-Channel and Vinyl ensures the rigidity required for this system (see page below).

The MA06 Model is for use with a 3/8" (10 mm) thick door, and an adjacent 1/2" (12 mm) thick panel. The MA07 Model is for use with a 5/16" (8 mm) thick door and an adjacent 3/8" (10 mm) thick panel. **See crlaurence.com for mounting criteria.**

SPECIFICATIONS:
Glass Thickness for MA06 Model: 3/8" (10 mm) Door and 1/2" (12 mm) Panel(s) Tempered Safety Glass
Glass Thickness for MA07 Model: 5/16" (8 mm) Door and 3/8" (10 mm) Panel(s) Tempered Safety Glass
Material: Solid Brass
Hinge Swings: Out Only
Closing Type: Tight Closure to Strike Jamb (Not Supplied)
No Cut-Out for Door; Fabrication Required for Fixed Panel Being Hinged From
Maximum Door Size: Width 36" (914 mm), Height 84" (2.13 m) - Do Not Exceed Either
Includes: Gaskets and Mounting Hardware

Sold as a Set (One Top, One Bottom)

FINISHES:

Most models are stocked in the finishes shown here, others are available on special order.

CRL HINGES FOR 5/16" TO 3/8" (8 TO 10 MM) GLASS

CRL Rondo Series Hinges

Patent Number 5,297,313

- "Round Shaped" Top and Bottom Mount Pivot Hinges
- Unique Design Allows Matching to Custom Decors
- Contain Same Internal Mechanism as Our Popular Prima Series Top and Bottom Mount Pivot Hinges
- Adaptable to CRL Deluxe Header System

Brass

See the complete range of beautiful shower hardware finishes on page 114J

These beautifully crafted Pivot Hinges are designed for use with 5/16" (8 mm) to 3/8" (10 mm) tempered safety glass, with solid brass construction for superior quality and service performance. Finely manufactured to the most precise tolerances, the pivot mechanism allows fingertip smooth operation with a solid feel. There is a firm "memory" for alignment of door-to-closed position when within 15 degrees of center. Optional 5 Degree Pivot Pin Sets may be ordered separately (see page 117J). Hinges are adaptable to the Deluxe Header System (see pages 304J-307J) when enclosure does not go all the way to the ceiling.

CE Certification (See Page 107J)

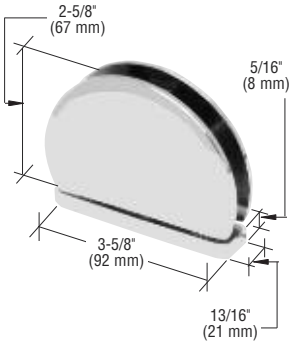

SPECIFICATIONS

Glass Thickness Range: 5/16" (8 mm) to 3/8" (10 mm) Tempered Safety Glass
Special Feature: Top and Bottom Mount design allows more glass to show. Use of these hinges will reduce quantity of cut-outs required when compared to standard side mount glass-to-glass hinges.
Material: Solid Brass
Hinge Swings: Full Rotation
Closing Type: Self-Centering When Within 15 Degrees of Closed Position
Cut-Out Required
Includes: Gaskets, Phillips Screws, Allen Screws, and Glass Fabrication Dimensions

*MAXIMUM CAPACITIES	5/16" (8 MM) GLASS		3/8" (10 MM) GLASS

CRL Geneva Series Hinges

- **Our Most Popular Hinge Series**
- **Choice of Models That Close to Standard Closing Position, or Models That Close 5 Degrees Further Into Shower Enclosure**
- **Reversible Pivot Pin Allows Installation Options**

The Geneva Series of professional Hinges is able to accommodate 5/16", 3/8" or 1/2" (8, 10 or 12 mm) tempered glass. They are made of solid brass with all moving parts (pins and springs) in stainless steel.

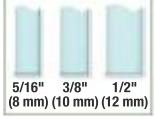

A variety of six styles give design flexibility, including three different Wall Mount and three different Glass-to-Glass models. Geneva Hinges are self-centering, and contain a Reversible 5 Degree Pivot Pin (see below). In addition, Custom Pivot Pins are available to accommodate 'off-angle' installations (see below).

Material: Solid Brass

Hinge Swings: 90 Degrees Inwards and Outwards

Closing Type: Self-Centering When Within 15 Degrees of Closed Position

Cut-Out Required

Includes: Gaskets, Phillips Screws, Allen Screws, and Glass Fabrication Dimensions

STANDARD REVERSIBLE PIVOT PIN

Each Geneva Hinge contains a Reversible Pivot Pin. One side of the Pin is marked at 90 degrees. The opposite side of the Pin is marked 85 degrees. Standard Geneva Hinges come with the 90 degree side activated. Pre-Set Models come with the Pin pre-set for 85 degrees (5 degrees tighter closure into shower interior). The Pin can be rotated (not flipped upside down) to activate the other side.

CE

Certification (See Page 107J)

Custom Pivot Pin

Cat. No. GENP1N

CUSTOM PIVOT PIN

Custom Pivot Pins are available to accommodate "off-angle" installations. As an example, you may encounter a wall that will not meet your door at 90 degrees. If the standard 5 Degree Pivot Pin contained in the hinge does not assist in closing the door to the position desired, you may specify the angle needed for a Custom Pivot Pin (up to 45 degrees). Our Geneva Adjustable Hinge (see page 142J) may also be the solution to your "off-angle" installation. Call for details.

Be sure to order a minimum of two each hinges to install one door.

CRL Geneva Series Pony Wall Hinges

- **Eliminates Need to Cut Into Tile or Marble to Recess Wall Mounting Plates of Regular Geneva Series Hinge**
- **Modified Hinge Mechanism Allows Matching the Pivot Point of Hinge Installed Above It**
- **Has Same Reversible 5 Degree Pivot Pin as Regular Geneva Hinge**

3 YEAR WARRANTY

CE

Certification (See Page 107J)

These hinges can be used in place of the standard wall-to-glass hinges normally utilized when using wall mount hinges on a pony wall, and glass-to-glass hinges above them. The GEN280 model is for use with 180 degree applications, while the GEN245 is for use with 135 degree applications. Previously in this application the tile or marble had to be cut to allow proper installation. Geneva Pony Wall Hinges are modified with a shortened center block (containing only one centering spring) and a small back plate (with only two mounting holes). Each hinge has the same Reversible 5 Degree Pivot Pin as our standard Geneva Hinge.

NOTE: For 135 degree installations it is required that the face of the pony wall be at a 45 degree angle to the wall, and a 90 degree angle to the door plane (see diagram).

*MAXIMUM CAPACITIES	5/16" AND 3/8" (8 AND 10 MM) GLASS		1/2" (12 MM) GLASS	
	WEIGHT	DOOR WIDTH	WEIGHT	DOOR WIDTH
Using Two Hinges	80 lbs/36 kg	28"/711 mm	80 lbs/36 kg	28"/711 mm
Using Three Hinges	120 lbs/54 kg	32"/813 mm	120 lbs/54 kg	32"/813 mm

* **NOTE:** Do not exceed maximum door weight or width when choosing proper quantity of hinges.

SPECIFICATIONS

Glass Thickness: 5/16" (8 mm) to 1/2" (12 mm) Tempered Safety Glass

Special Feature: Mounted to surface of tile or marble as opposed to having to cut into wall to recess the back plate

Material: Solid Brass

Hinge Swings: 90 Degrees Inwards and Outwards

Cut-Out Required

Includes: Gaskets, Phillips Screws, Allen Screws, and Glass Fabrication Dimensions

CRL Adjustable Geneva Series Hinges

- **Ideal for Use When Door Does Not Meet Wall or Adjoining Glass Panel at Standard Angle**
- **Allows Adjustability Up to 90 Degrees From Standard Closing Position**
- **Adjustability Made Easy By Loosening and Tightening of Allen Set Screws After Installation**
- **Many Popular Stock Finishes, With Custom Finishes Available on Request**

CE

Certification (See Page 107J)

The Adjustable Geneva Series has taken our popular Geneva Hinge to a new level. Adjustment to accommodate the desired angle (up to 90 degrees) is done after the door is installed. Once the door is hung, simply loosen the Allen set screws and turn the door to the desired closed position. By merely tightening the Allen screws your door will close precisely to 0 degrees. The door can swing 90 degrees inward and 90 degrees outward (adjusting angle from factory set position will reduce 90 degree swing in that direction). For doors pulling outwards only (using a clear door jamb), you can adjust the hinge to close 5 degrees inside the shower area, thus having the door close snugly against the jamb.

CRL Pinnacle Series Wall Mount Hinges

- **Radius Corners and Beveled Edges for an Attractive, Modern Appeal**
- **Contains Same Internal Mechanism as Our Popular Geneva Hinges**
- **Choice of Models That Close to Standard Closing Position, or Models That Close 5 Degrees Further Into Shower Enclosure**
- **Reversible Pivot Pin Allows Installation Options**

Brass

See the complete range of beautiful shower hardware finishes on page 114J

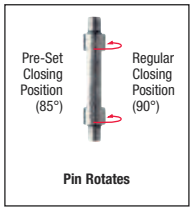

The Pinnacle Series of professional Hinges is able to accommodate 5/16", 3/8", or 1/2" (8, 10, or 12 mm) glass. A variety of six styles gives design flexibility, including five different Wall Mount and three different Glass-to-Glass types. Pinnacle Hinges are self-centering and contain a Reversible 5 Degree Pivot Pin (see below). In addition, Custom Pivot Pins are available to accommodate "off-angle" installations (see below). Made of solid brass with all moving parts (pins and springs) in stainless steel.

*MAXIMUM CAPACITIES	5/16" AND 3/8" (8 AND 10 MM) GLASS		1/2" (12 MM) GLASS	
	WEIGHT	DOOR WIDTH	WEIGHT	DOOR WIDTH

*** NOTE:** Do not exceed maximum door weight or width when choosing proper quantity of hinges.

STANDARD REVERSIBLE PIVOT PIN

Each Pinnacle Hinge contains a Reversible Pivot Pin. One side of the Pin is marked at 90 degrees. The opposite side of the Pin is marked 85 degrees. Standard Pinnacle Hinges come with the 90 degree side activated. Pre-Set Models come with the Pin pre-set for 85 degrees (5 degrees tighter closure into a shower interior). The Pin can be rotated (not flipped upside down) to activate the other side.

Custom Pivot Pin

SPECIFICATIONS

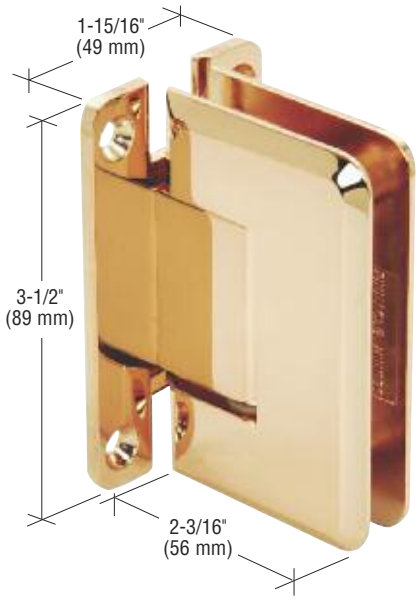

Glass Thickness Range: 5/16" to 1/2" (8 to 12 mm) Tempered Safety Glass
Material: Solid Brass
Hinge Swings: 90 Degrees Inwards and Outwards
Closing Type: Self-Centering When Within 15 Degrees of Closed Position
Cut-Out Required: Except Model P1N092 which requires cut-out for door and holes for fixed panel
Includes: Gaskets, Phillips Screws, Allen Screws, and Glass Fabrication Dimensions

CE
Certification
(See Page 107J)

CUSTOM PIVOT PIN

Custom Pivot Pins are available to accommodate "off-angle" installations. As an example, you may encounter a wall that will not meet your door at 90 degrees. If the standard 5 Degree Pivot Pin contained in the hinge does not assist in closing the door to the position desired, you may specify the angle needed for a Custom Pivot Pin (up to 45 degrees). Our Pinnacle Adjustable Hinge (see page 150J) may also be the solution to your "off-angle" installation. Call for details.

CRL Pinnacle Series Pony Wall Hinges

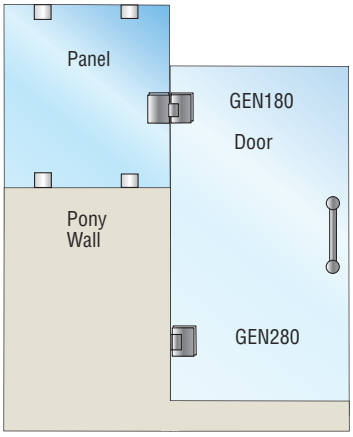

- **Eliminates Need to Cut Into Tile or Marble to Recess Wall Mounting Plates of Regular Pinnacle Series Hinge**
- **Modified Hinge Mechanism Allows Matching the Pivot Point of Hinge Installed Above It**
- **Has Same Reversible 5 Degree Pivot Pin as Regular Pinnacle Hinge**

CE

Certification
(See Page 107J)

This hinge can be used in place of the standard wall-to-glass hinges normally utilized when using wall mount hinges on a pony wall, and glass-to-glass hinges above them. The P1N280 model is for use with 180 degree applications. Previously in this application the tile or marble had to be cut to allow proper installation. Pinnacle Pony Wall Hinges are modified with a shortened center block (containing only one centering spring) and a small back plate (with only two mounting holes). Each hinge has the same Reversible 5 Degree Pivot Pin as our standard Pinnacle Hinge.

FINISHES:

Most models are stocked in the finishes shown here, others are available on special order.

Be sure to order a minimum of two each hinges to install one door.

CRL Adjustable Pinnacle Series Hinges

- **Ideal for Use When Door Does Not Meet Wall or Adjoining Glass Panel at Correct Angle**
- **Allows Adjustability Up to 90 Degrees From Standard Closing Position**
- **Adjustability Made Easy By Loosening and Tightening of Allen Set Screws After Installation**
- **Many Popular Stock Finishes, With Custom Finishes Available**

CE

Certification (See Page 107J)

The Adjustable Pinnacle Series has taken our popular Pinnacle Hinge to a new level. Adjustment to accommodate the desired angle (up to 90 degrees) is done after the door is installed. Once the door is hung, simply loosen the Allen set screws and turn the door to the desired closed position. By merely tightening the Allen screws your door will close precisely to 0 degrees. The door can swing 90 degrees inward and 90 degrees outward (adjusting angle from factory set position will reduce 90 degree swing in that direction). For doors pulling outwards only (using a clear door jamb), you can adjust the hinge to close 5 degrees inside the shower area, thus having the door close snugly against the jamb.

CRL Vienna Series Hinges

CE Certification (See Page 107J)

- **An Ideal Solution for Wider, Heavier Doors**
- **Sometimes Allows Use of Two Hinges When Three "Standard" Hinges Would Have to Be Used**
- **Option of CRL Standard "Mouse-Ears" Cut-Out, or Optional "Rectangular" Cut-Out**
- **Contains Reversible Pivot Pin**

Vienna Hinges are the solution for wider, heavier doors that traditional hinges are not strong enough to support. Two strategically placed steel pins inside the hinge provide template options, and satisfy two schools of thought for mounting shower door hinges. For the safety of "mouse-ears" type cut-outs, the two steel pins should be left in place. This allows the Vienna Hinge to be used with it's own CRL "mouse-ears" cut-out. On the other hand, to enable increased adjustability, the two pins can be removed. This allows the Vienna Hinge to fit it's own CRL rectangular shaped, square cornered cut-out. In some cases, it will also fit some competitive rectangular, square cornered cut-outs, allowing for retrofits.

Cut-Out Required Except Model V1E092 which requires cut-out in door and holes in fixed panel

Includes: Gaskets, Phillips Screws, Allen Screws, and Glass Fabrication Dimensions

Internal View of Vienna Hinge

STANDARD REVERSIBLE PIVOT PIN

Each Vienna Hinge contains a Reversible Pivot Pin. One side of the Pin is marked at 90 degrees. The opposite side of the Pin is marked 85 degrees. Standard Vienna Hinges come with the 90 degree side activated. Pre-Set Models come with the Pin pre-set for 85 degrees (5 degrees tighter closure into shower interior). The Pin can be rotated (not flipped upside down) to activate the other side.

Custom Pivot Pin

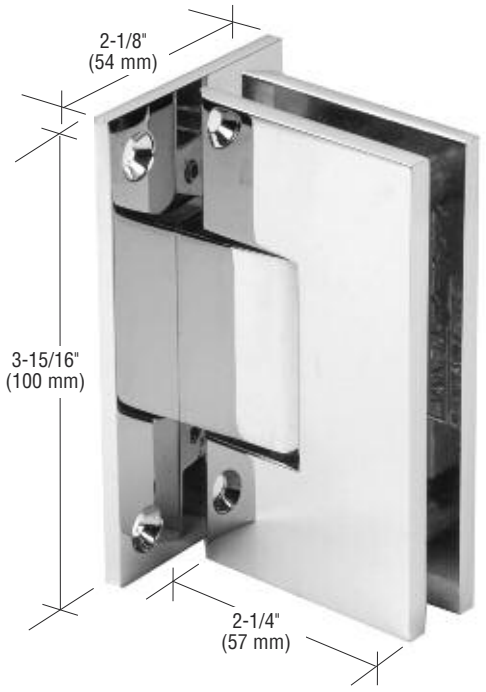

CAT. NO. V1EP1N

CUSTOM PIVOT PIN

Custom Pivot Pins are available to accommodate "off-angle" installations. As an example, you may encounter a wall that will not meet your door at 90 degrees. If the standard 5 Degree Pivot Pin contained in the hinge does not assist in closing the door to the position desired, you may specify the angle needed for a Custom Pivot Pin (up to 45 degrees).

CRL Adjustable Vienna Series Hinges

- **Ideal for Use When Door Does Not Meet Wall or Adjoining Glass Panel at Standard Angle**
- **Allows Adjustability Up to 90 Degrees From Standard Closing Position**
- **Adjustability Made Easy By Loosening and Tightening of Allen Set Screws After Installation**
- **Many Popular Stock Finishes, With Custom Finishes Available on Request**

CE

Certification
(See Page 107J)

new

The Adjustable Vienna Series has taken our popular Vienna Hinge to a new level. Adjustment to accommodate the desired angle (up to 90 degrees) is done after the door is hung. Simply loosen the Allen set screws and turn the door to the desired closed position. By merely tightening the Allen screws your door will self-center to the desired closed position. The door can swing 90 degrees inward and 90 degrees outward (adjusting angle from factory set position will reduce 90 degree swing in that direction). For doors pulling outwards only (using a clear door jamb), you can adjust the hinge to close 5 degrees inside the shower area, thus having the door close snugly against the jamb.

Cologne Hinges are similar to the popular Vienna Hinges, but with one change: They have radius corners and beveled edges to provide a sleek appearance. Cologne Hinges are the solution for wider, heavier doors that traditional hinges are not strong enough to support. Two strategically placed steel pins inside the hinge provide template options, and satisfy two schools of thought for mounting shower door hinges. For the safety of "mouse-ears" type cut-outs, the two steel pins should be left in place. This allows the Cologne Hinge to be used with it's own CRL "mouse-ears" cut-out. On the other hand, to enable increased adjustability, the two pins can be removed. This allows the Cologne Hinge to fit it's own CRL rectangular shaped, square cornered cut-out. In some cases, it will also fit some competitive rectangular, square cornered cut-outs.

STANDARD REVERSIBLE PIVOT PIN

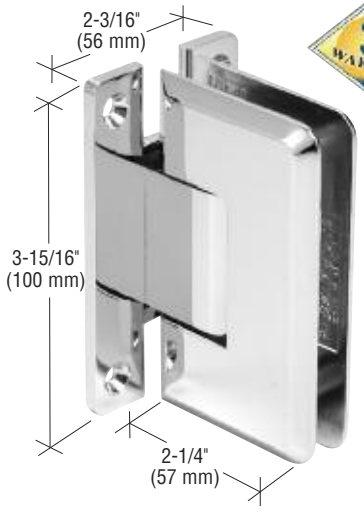

Each Cologne Hinge contains a Reversible Pivot Pin. One side of the Pin is marked at 90 degrees. The opposite side of the Pin is marked 85 degrees. Standard Cologne Hinges come with the 90 degree side activated.

Custom Pivot Pin
CAT. NO. V1EP1N

CUSTOM PIVOT PIN

Custom Pivot Pins are available to accommodate "off-angle" installations. As an example, you may encounter a wall that will not meet your door at 90 degrees. If the standard 5 Degree Pivot Pin contained in the hinge does not assist in closing the door to the position desired, you may specify the angle needed for a Custom Pivot Pin (up to 45 degrees).

CRL Adjustable Cologne Series Hinges

- **Ideal for Use When Door Does Not Meet Wall or Adjoining Glass Panel at Standard Angle**
- **Allows Adjustability Up to 90 Degrees From Standard Closing Position**
- **Adjustability Made Easy By Loosening and Tightening of Allen Set Screws After Installation**
- **Many Popular Stock Finishes, With Custom Finishes Available on Request**

CE
Certification
(See Page 107J)

new

The Adjustable Cologne Series has taken our popular Cologne Hinge to a new level. Adjustment to accommodate the desired angle (up to 90 degrees) is done after the door is installed. Once the door is hung, simply loosen the Allen set screws and turn the door to the desired closed position. By merely tightening the Allen screws your door will self-center to the desired angle. The door can swing 90 degrees inward and 90 degrees outward (adjusting angle from factory set position will reduce 90 degree swing in that direction). For doors pulling outwards only (using a clear door jamb), you can adjust the hinge to close 5 degrees inside the shower area, thus having the door close snugly against the jamb.

3 YEAR WARRANTY

CRL Ultimate Series Hinges

- **All Stainless Steel Construction Makes This Hinge the Ideal Choice for Environments Subject to Accelerated Corrosion**
- **Internal Hinge Mechanism is Same as Popular Geneva Series**
- **Contains Reversible Pivot Pin**

CE
Certification
(See Page 107J)

Featuring the same beautiful rounded corners and beveled edges of the Pinnacle Hinge, the Ultimate Hinge is constructed entirely of stainless steel. This all-stainless construction gives the Ultimate Hinge a durability not usually found in brass hinges. The Ultimate has superior longevity in conditions of accelerated corrosion, such as seaside communities with high atmospheric salt levels. The Ultimate Hinge has stainless steel plunger tips, pins, and springs to ensure long service life and reliable door closure. It also has the same Reversible 5 Degree Pivot Pin featured in our Geneva, Cathedral, Pinnacle, Roman, and Elite Series Hinges (see page 136J). A Custom Pivot Pin is available for "off-angle" installations.

CRL Elite Series Hinges

- **Excellent Choice for Wider and Heavier Doors**
- **Offers Mounting Options for Design Flexibility**
- **Contains Reversible Pivot Pin**

CE Certification (See Page 107J)

The Elite Series is a premium hinge for wider and heavier glass doors. Unlike most other hinges, the Elite can be side mounted on the top and bottom corners of the door, or anywhere in between. Containing a positive three-screw clamping system, the Elite Hinge incorporates a cut-out and hole which eliminates slippage. The Elite features the same 5 Degree Reversible Pivot Pin used in our Geneva, Cathedral, Pinnacle, Roman, and Ultimate Series Hinges. It can also use the "GENP1N" Custom Pivot Pin (shown below) for "off-angle" installations.

*MAXIMUM CAPACITIES	3/8" (10 MM) GLASS		1/2" (12 MM) GLASS	
	WEIGHT	DOOR WIDTH	WEIGHT	DOOR WIDTH

CRL Roman Series Hinges

- **Contain Same Internal Mechanism as Our Popular Geneva Series Hinges**
- **Wall Mount Full Back Plate Model Also Offers 5 Degree Pre-Set Model**
- **Rounded Corners Ideal for Softer Décors**
- **Contains Reversible Pivot Pin**

CE

Certification (See Page 107J)

Brass

See the complete range of beautiful shower hardware finishes on page 114J

Roman Series Hinges contain the same internal mechanism as our popular Geneva Series Hinges, thus providing the same reliability and high performance. The rounded corners of the hinge plates provide a nice blend in a soft décor. Roman Series Hinges accommodate 5/16" to 1/2" (8 to 12 mm) thick glass, and are self-centering within 15 degrees of the closed position. Hinges are constructed of solid brass, and have stainless steel plunger tips, pins, and springs to ensure long service life and reliable door closure. Roman Series Hinges contain the same Reversible Pivot Pin used in our Geneva Series and many other hinges. A Custom Pivot Pin (GENP1N) is also available for "off-angle" installations (see below).

*MAXIMUM CAPACITIES	5/16" AND 3/8" (8 AND 10 MM) GLASS		1/2" (12 MM) GLASS	
	WEIGHT	DOOR WIDTH	WEIGHT	DOOR WIDTH
Using Two Hinges	80 lbs/36 kg	28"/711 mm	80 lbs/36 kg	28"/711 mm
Using Three Hinges	120 lbs/54 kg	32"/813 mm	120 lbs/54 kg	32"/813 mm

*** NOTE:** Do not exceed maximum door weight or width when choosing proper quantity of hinges.

SPECIFICATIONS

Glass Thickness Range: 5/16" to 1/2" (8 to 12 mm) Tempered Safety Glass

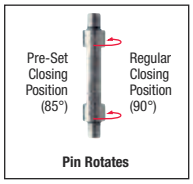

Material: Solid Brass

Hinge Swings: 90 Degrees Inwards and Outwards

Closing Type: Self-Centering When Within 15 Degrees of Closed Position

Cut-Out Required: Except Model R0M092 which requires cut-out in door and holes in fixed panel.

Includes: Gaskets, Phillips Screws, Allen Screws, and Glass Fabrication Dimensions

STANDARD REVERSIBLE PIVOT PIN

Each Roman Hinge contains a Reversible Pivot Pin. One side of the Pin is marked at 90 degrees. The opposite side of the Pin is marked 85 degrees. Standard Roman Hinges come with the 90 degree side activated. Pre-Set Models come with the Pin pre-set for 85 degrees (5 degrees tighter closure into shower interior). The Pin can be rotated (not flipped upside down) to activate the other side.

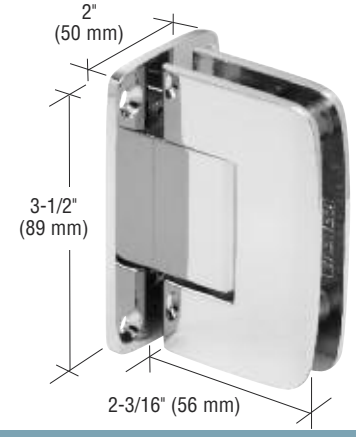

Custom Pivot Pin
CAT. NO. GENP1N

CUSTOM PIVOT PIN

Custom Pivot Pins are available to accommodate "off-angle" installations. As an example, you may encounter a wall that will not meet your door at 90 degrees. If the Standard Reversible Pivot Pin contained in the hinge does not assist in closing the door to the position desired, you may specify the angle needed for a Custom Pivot Pin (up to 45 degrees).

CRL Concord Series Hinges

- **CRL's First Shower Door Hinge, Rich in Tradition and Reliability**
- **Solid Brass Forged Construction for Durability**
- **One Wall Mount and Three Glass-to-Glass Models**
- **Numerous Stock Finishes, With Custom Finishes Available**

CE

Certification
(See Page 107J)

The variety of styles and finishes in our Concord Series allows the installer/designer to create custom shower enclosures limited only by their imagination. These beautifully finished, solid brass forged Concord Hinges make it possible to mount 3/8" (10 mm) to 1/2" (12 mm) thick glass shower doors without surrounding frames, so the door has an almost "floating" appearance. Their heavy-duty stainless steel springs allow the door to swing 90 degrees in and 90 degrees out. A friction cam allows the door to be firmly maintained in any position, except when within 15 degrees of the closed position, where they are tapered to assist in centering the door.

CRL HINGES FOR 3/8" TO 1/2" (10 TO 12 MM) GLASS

CRL Estate Series Hinges

CE Certification (See Page 107J)

- **Attractive and Modern Mitered Edges With Classical Curved Design**
- **Contains Same Internal Mechanism as Our Concord Series**
- **Solid Brass Forged Construction for Durability**
- **Numerous Stock Finishes, With Custom Finishes Available**

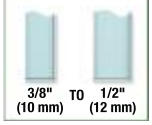

Estate Hinges for 3/8" to 1/2" (10 to 12 mm) glass are a uniquely classic design combining mitered edges with curved corners. They are made of solid brass with stainless steel springs. Choose from the elegant Wall Mount Hinge or 90, 135, and 180 degree Glass-to-Glass styles. The self-centering action of the Estate Series Hinge allows the door to be maintained in any position, except within when 15 degrees of the closed position, where they are tapered to assist in centering the door.

CRL Cathedral Series Hinges

- **Models Offered With Eye-Catching Two-Tone Design for Matching Multiple Decors**
- **Contains Same Internal Mechanism as Our Popular Geneva Series Hinges**
- **Reversible Pivot Pin Standard in Each Model**
- **Up to Nine Finish Combinations to Choose From**

CE

Certification
(See Page 107J)

The Cathedral Series Hinge offers models blending a unique two-tone design, with the same internal mechanism as our Geneva Hinge. The Cathedral Hinge has a positive hold on the glass, utilizing a cut-out plus a hole to prevent door slippage. Constructed of solid brass, they come in one Wall Mount and three Glass-to-Glass styles. Cathedral Hinges are made to fit 3/8" (10 mm) to 1/2" (12 mm) safety tempered glass, and will swing 90 in and out. They contain a reversible Pivot Pin for optional 5 degrees tighter door closure. The self-centering Cathedral Series is available in up to nine finish combinations.

3 YEAR WARRANTY

Closing Type: Self-Centering When Within 15 Degrees of Closed Position
Cut-Out and Hole Required Except Cat. No. CAT090 which requires cut-out and hole in door and three holes in fixed panel
Includes: Gaskets, Phillips Screws, Allen Screws, and Glass Fabrication Dimensions

STANDARD REVERSIBLE PIVOT PIN

Each Cathedral Hinge contains a Reversible Pivot Pin. One side of the Pin is marked at 90 degrees. The opposite side of the Pin is marked 85 degrees. Standard Cathedral Hinges come with the 90 degree side activated. The Pin can be rotated (not flipped upside down) to activate the other side.

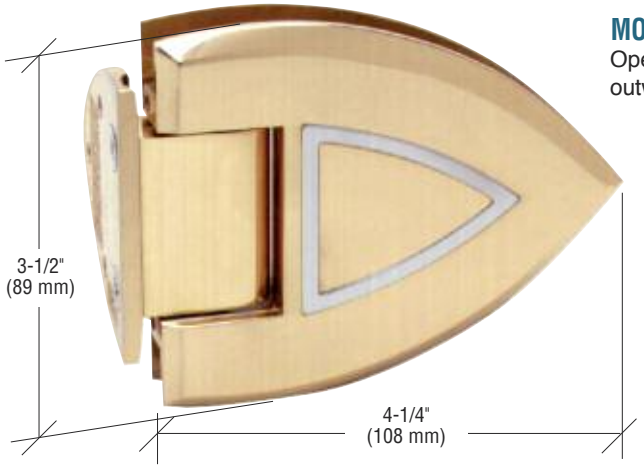

Custom Pivot Pin
CAT. NO. GENP1N

CUSTOM PIVOT PIN

Custom Pivot Pins are available to accommodate "off-angle" installations. As an example, you may encounter a wall that will not meet your door at 90 degrees. If the standard 5 Degree Pivot Pin contained in the hinge does not assist in closing the door to the position desired, you may specify the angle needed for a Custom pivot Pin (up to 45 degrees).

CRL Atlas Series 'All-Glass' Door Hinges

- Ideal for Large Interior Doors
- Self-Centering Function
- Hold Open at 90 Degrees
- Easy Closed Position Adjustment for Double Door or Inline Panel Applications
- Available in Brushed Nickel, Brass, Chrome, and Oil Rubbed Bronze Finishes, as Well as Custom Finishes

This innovative CRL Atlas Series 'All-Glass' Door Hinge gives you the best of two worlds; minimal hardware and self-centering action, all wrapped up in a stylish, heavy-duty Hinge. Two of these double-acting Hinges will allow you to create 'all-glass' doors weighing up to 140 pounds (63.5 kg) with a maximum width of 39" (1 m).
NOTE: Do not exceed two Hinges per door.

When fully opened, the CRL Atlas Series 'All-Glass' Door Hinge will hold open at 90 degrees. These Hinges offer easy fine-tune closed position adjustment.

The solid brass construction and stainless steel components make the CRL Atlas Series 'All-Glass' Door Hinge a natural for sauna or steam room applications, or any location that may involve excess moisture.

SPECIFICATIONS
Glass Thickness Range: 5/16" to 1/2" (8 to 12 mm)

- Hold Open or No Hold Open Models
- Adjustable Closing Speed
- Aluminum Body in Your Choice of Three Finishes: Brite Chrome, Brushed Satin, and Satin Anodized

FINISHES:

Most models are stocked in the finishes shown here, others are available on special order.

3 YEAR WARRANTY

new

The Biloba Hinge represents the evolution and the synthesis between automatic mechanical hinges and hydraulic door closers. Designed for use on interior doors, Biloba allows you to design a self-closing door without the need of a floor-mounted or overhead closing device. This gives you the advantage of being able to install an 'all-glass' door in an existing opening without the need for extensive retrofitting of hardware into the floor or overhead.

Properly mounted, two Biloba Hinges will support a 3/8" to 1/2" (10 to 12 mm) thick glass door up to 39" (1 m) in width and weighing up to 220 pounds (100 kg). A control valve lets you adjust the hinge to the desired closing speed. And Biloba is ambidextrous, with positive stops at 0 and 90 degrees, giving you even more design freedom.

The Biloba Hinge features an aluminum body in distinct configurations for Wall Mount and Glass-to-Glass applications. Biloba has been subject to strict testing (over 1 million cycles), assuring long lasting service.

SPECIFICATIONS:

Glass Thickness Range: 3/8" to 1/2" (10 to 12 mm)

Material: Aluminum

Hinge Swings:
90 Degrees Inwards and Outwards (Except 31M8060 Model, Which Only Swings One Way)

CRL HINGES FOR 5/16" TO 3/8" (8 TO 10 MM) GLASS

CRL Sydney Series Hinges

- **Our Spider Type Design for the Construction of Frameless Showers**
- **Choice of Two Mounting Options: Glass-to-Glass and Glass-to-Wall**
- **Glass-to-Glass Model Has Settings at 90, 135 or 180 Degrees**
- **Constructed of 316 Stainless Steel in Your Choice of Brushed or Polished Finishes**

For a unique design in Frameless Shower Door Hinges, look no further than our Sydney Series. The "Spider Type" design is certain to give the frameless shower door a different look that will surely be noticed. Constructed of durable 316 stainless steel, Sydney Hinges are available in Wall-to-Glass and Glass-to-Glass models. The Glass-to-Glass model offers three settings at 90, 135, and 180 degrees. For doors falling in between these common installation angles, the springs may be removed to allow a "free-swinging" hinge.

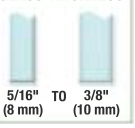

Two holes are required per hinge for each panel to accommodate the through-bolts, with no cut-out necessary. The 316 stainless steel body of the Sydney Hinge allows the door to swing 90 degrees outward. Polished Stainless Steel and Brushed Stainless Steel finishes are offered.

CRL HINGES FOR 5/16" TO 3/8" (8 TO 10 MM) GLASS

CRL Arctic Series Hinges

NOTE: Not Available in Europe

- **Unique Design for the Construction of Frameless Showers**
- **Set Doors at 90, 135, 180 Degrees, or Anywhere in Between**
- **Constructed of Stainless Steel in Your Choice of Brushed or Polished Finishes**
- **Choice of Two Mounting Options; Glass-to-Glass and Glass-to-Wall**

The Arctic Series brings a unique, new look in Frameless Shower Door Hinges. Constructed of stainless steel, the Arctic Hinge comes in Glass-to-Glass and Glass-to-Wall models. Both are intended for use with 5/16" (8 mm) and 3/8" (10 mm) tempered safety glass. Neither requires that the glass be notched, only that each glass panel have two 1/2" (12 mm) holes drilled for the through-bolts. The body of the Arctic Hinge is all stainless steel with a pivot point that swings a full 90 degrees outward. A door stop is required when using this series of hinge. If you're looking for something new in frameless hinges, try the Arctic Series.

FINISHES:

*MAXIMUM CAPACITIES	5/16" (8 MM) GLASS		3/8" (10 MM) GLASS	
	WEIGHT	DOOR WIDTH	WEIGHT	DOOR WIDTH
Using Two Hinges	90 lbs/40 kg	36"/914 mm	90 lbs/40 kg	36"/914 mm
Using Three Hinges	135 lbs/61 kg	36"/914 mm	135 lbs/61 kg	36"/914 mm

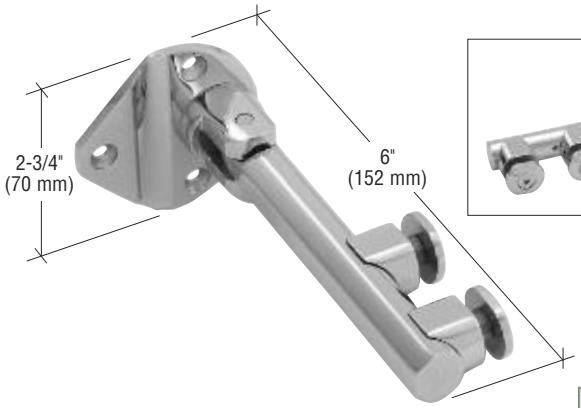

* **NOTE:** Do not exceed maximum door weight or width when choosing proper quantity of hinges.

ARC180BS	Brushed Stainless

Minimum order: 1 each. All Hinges can be combined for quantity pricing. **NOTE:** All Shower Door Hinges are sold by the each, not in pairs. Be sure to order a minimum of two each hinges to install one door.

CRL Adjustable Regal Series Hinges

- **Adjustable to Suit "Off-Angle" Installations With a Simple Turn of an Allen Screw**
- **Due to Adjustability, One Model of Hinge Can Handle All Glass-to-Glass Installations**
- **Allows Continuous Vertical Water Seal**
- **Requires Holes Only, No Cut-Out**

CE

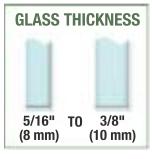

Certification
(See Page 107J)

The Adjustable Regal Hinge is unique in design and function. The Wall Mount requires only two holes in the door per hinge (no cut-out). The Glass-to-Glass Model only requires four holes per hinge (two in the door and two in the fixed panel). The Regal Hinge offers an adjustable closing angle from 0 degrees to 90 degrees. After the door is installed, simply loosen the Allen screw, move the door to the desired closed position, and tighten the Allen screw. You have now solved such problems as walls not meeting the door at the perfect 90 degree angle. This adjustment feature means that the single Glass-to-Glass model can accommodate angles from 90 to 180 degrees. When using vinyl sweeps to make the enclosure water resistant, the Regal Hinges allow you to run the sweep from the top to the bottom without cutting it, as the hinge is on the outside of the glass. Door swings 90 degrees outward only. A door stop is required when using this series of hinge. **NOTE:** Models REG037 and REG180 are not available in Europe. See REG025CH and REG185CH on page 181J for European Models.

CRL Zurich Series Hinges

- **Ideal for Bi-Folding Doors, Either Into Shower Enclosure or Out Into Bathroom Area**
- **Holes Only are Required for Glass Fabrication, No Cut-Out**
- **Models Offered With Stainless Steel or Brass Construction**
- **Over a Dozen Popular Stock Finishes Available**

The Zurich Series of professional Hinges were our first offering of bi-fold hinges (hinges that operate similar to phone booth doors). Using a combination of Wall Mount and Glass-to-Glass Styles, a bi-folding door can be created that either folds into the tub area, or folds out into the bathroom area. Bi-fold doors are popular for several applications, including ease of bathing young children, and handicapped accommodations. Several models of Glass-to-Glass Hinges are also offered for more standard design conditions. Hinge models feature stainless steel or brass construction (depending on the final finish), and are available in up to 13 popular stock finishes. In addition, special Screw and Accent Washer Kits (see page 185J) are sold separately to allow the user to mix finishes for matching multiple decors.

Brass

CRL HINGES FOR 5/16" TO 3/8" (8 TO 10 MM) GLASS

CRL Classique Series Hinges

- **Rounded Design Sets it Apart From Many Traditional Style Hinges**
- **Offering Includes Attractive Offset Back Plate Wall Mount Model for Clean Sight Line**
- **Beveled Edges Lend Elegance to the Design**
- **Many Stock Finishes to Match Popular Décors**

CE

Certification (See Page 107J)

The Classique Shower Door Hinge is a design apart from traditional hinges. Beautiful round design and beveled edges are the result of an artist's unique concept of the perfect hinge for décors with strong curved and contoured influences. There are five distinct models, including an Offset Back Plate Wall Mount Hinge for clean exterior sight lines. The Classique's beveled edges make an excellent presentation of sleek design, while the solid brass construction ensures superior quality and long life.

CRL HINGES FOR 5/16" TO 3/8" (8 TO 10 MM) GLASS

CRL Adjustable Grande Series Hinges

- **Ideal for Use When Door Does Not Meet Wall or Adjoining Glass Panel at Correct Angle**
- **Allows Adjustability Up to 90 Degrees From Standard Closing Position**
- **Adjustability Made Easy By Loosening and Tightening of Allen Set Screws After Installation**
- **Both Cut-Out and Hole Required for Safety**
- **Four Stock Finishes, With Custom Finishes Available**

new

CE

Certification (See Page 107J)

The Adjustable Grande Series incorporates a larger mounting surface to provide superior support for frameless shower doors. Adjustment to accommodate the desired angle (up to 90 degrees) is done after the door is installed. Once the door is hung, simply loosen the Allen set screws and turn the door to the desired closed position. By merely tightening the Allen screws your door will close precisely to 0 degrees. The door can swing 90 degrees inward and 90 degrees outward (adjusting angle from factory set position will reduce 90 degree swing in theat direction). For doors pulling outwards only (using a clear door jamb), you can adjust the hinge to close 5 degrees inside the shower area, thus having the door close snugly against the jamb.

5/16" (8 mm) TO 3/8" (10 mm)

USE MONOLITHIC TEMPERED GLASS

SPECIFICATIONS:

Glass Thickness: 5/16" (8 mm) to 3/8" (10 mm) Tempered Safety Glass
Material: Solid Brass
Hinge Swings: Outwards Only
Closing Type: Self Closes from Approximately 60 Degrees
Countersunk Holes Required
Includes: Gaskets, Screws, Flush Mount Glass Attachments, and Spanner Tool.

FINISHES:

Polished Chrome | Brushed Satin Chrome

Most models are stocked in the finishes shown here, others are available on special order.

The Riviera Hinge will self-close from approximately 60 degrees, and will hold open at 90 degrees. As the door opens, the hinge lifts the glass so the sweep will not bind at the bottom. Being a gravity type hinge, the weight of the door assists with the self-closing feature. An attractive flush mount fastener is on the rear of the hinge, and the mounting screws are concealed. Made of solid brass and stocked in two finishes. Countersunk holes are required in the glass. We suggest that you give your glass fabricator a sample Flush Mount Glass Attachment to ensure a proper flush fit. Riviera Hinges accommodate 5/16" to 3/8" (8 to 10 mm) thick tempered safety glass. **NOTE:** Handing of hinge as viewed from outside the shower.

*MAXIMUM CAPACITIES	5/16" (8 MM) GLASS		3/8" (10 MM) GLASS

Certification
(See Page 107J)

- **Our Most Popular 1/4" to 5/16" (6 to 8 mm) Hinge Series**
- **Choice of Models That Close to Standard Closing Position, or Models That Close 5 Degrees Further Into Shower Enclosure**
- **Reversible Pivot Pin Allows Installation Options**

The same elegant European design that has made our Geneva Series so popular is available in a smaller version, the Junior Geneva, which offers flexibility of application. There are three Wall Mount Styles along with 90, 135, and 180 Degree Glass-to-Glass styles used to accommodate 1/4" (6 mm) to 5/16" (8 mm) thick glass. The Junior Geneva is self-centering and available in up to 10 stock finishes. They contain a Reversible Pivot Pin for optional 5 degree tighter door closure.

Includes: Gaskets, Phillips Screws, Allen Screws, and Glass Fabrication Dimensions

STANDARD REVERSIBLE PIVOT PIN

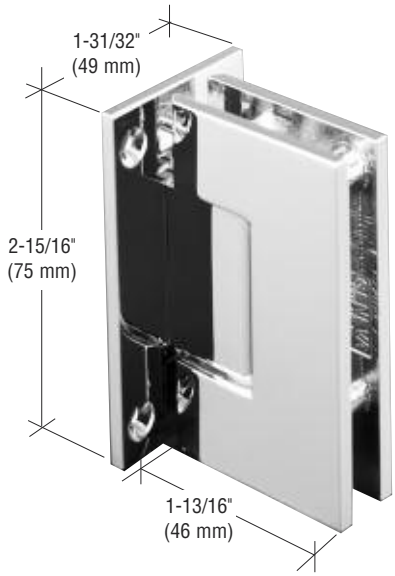

Each Geneva Hinge contains a Reversible Pivot Pin. One side of the Pin is marked at 90 degrees. The opposite side of the Pin is marked 85 degrees. Junior Geneva Hinges come with the 90 degree side activated. Pre-Set Models come with the Pin pre-set for 85 degrees (5 degree tighter closure into shower interior). The Pin can be rotated (not flipped upside down) to activate the other side.

Custom
Pivot Pin
Cat. No.
JRGENP1N

CUSTOM PIVOT PIN

Custom Pivot Pins are available to accommodate "off-angle" installations. As an example, you may encounter a wall that will not meet your door at 90 degrees. If the standard 5 degree Pivot Pin contained in the hinge does not assist in closing the door to the position desired, you may specify the angle needed for a Custom Pivot Pin (up to 45 degrees).

CRL Milano Series Hinges

- **Internal Mechanism Allows Precise Closing Action**
- **Two Wall Mount and Three Glass-to-Glass Models Offered**
- **Subtle Corner Design of Hinges for Soft Appeal**
- **Multiple Finishes Stocked, With Custom Finishes Available**

CE
Certification
(See Page 107J)

Traditionally designed Milano Series Hinges are constructed of solid brass for reliable and durable performance. The closing action of the Milano allows precise closing of the door to zero degrees. Two Wall Mount styles and Three Glass-to-Glass styles provide design flexibility. The Milano Series offers up to five elegant finishes from which to choose, and will accommodate from 1/4" (6 mm) to 5/16" (8 mm) thick tempered safety glass. The "soft corner design" of the hinge makes an attractive appearance.

3 YEAR WARRANTY

CRL HINGES FOR 1/4" TO 5/16" (6 TO 8 MM) GLASS

CRL Petite Series Wall Mount Hinges

- **Four Wall Mount Styles and Five Glass-to-Glass Styles Allow Virtually Any Design**
- **Mitered Edges With Curved Corners for a Chiseled Appearance**
- **Thicker Hinge Plates Reduce Deflection and Provide Excellent Holding Power**
- **Many Popular Stock Finishes, With Custom Finishes Available**

CE
Certification
(See Page 107J)

The Petite Series provides a complete spectrum of hinges for frameless shower doors using 1/4" (6 mm) to 5/16" (8 mm) tempered safety glass. Developed to allow virtually every application configuration, they deliver design freedom. The Petite Series includes three distinctive types: the PET044 Wall Mount Flush Back Plate Hinge allows for a clean exterior sight line by having all the mounting screws inside the shower; the PET045 Glass-to-Wall Hinge is used to mount a door to a Wall at 45 degrees inwards; or the PET054 Glass-to-Wall Hinge at 45 degrees outward.

3 YEAR WARRANTY

CRL Monaco Series Wall Mount Hinges

- **Aesthetically Pleasing Beveled Edges and Corners**
- **Thicker Hinge Plates Reduce Deflection and Provide Excellent Holding Power**
- **A Large Assortment of Wall Mount and Glass-to-Glass Models**
- **Several Popular Stock Finishes, With Custom Finishes Available**

The Monaco Series introduces richness and character to the choice of frameless shower door hinges using 1/4" (6 mm) to 5/16" (8 mm) tempered safety glass. Available in five Wall Mount and six Glass-to-Glass styles, Monaco Hinges present numerous design and configuration options. Aesthetically pleasing beveled edges and corners give Monaco Hinges the look many architects and designers desire. Two distinct models stand out in the Monaco series: the M0N044 model is an Offset Back Plate Wall Mount Hinge that provides a clean exterior sight line because the mounting plate is visible only from the inside of the shower. The M0N244 has also an Offset Back Plate but only needs two holes in the glass instead of a cut-out.

CRL Junior Cathedral Series Hinges

- **Eye-Catching Two-Tone Design Makes This an Ideal Hinge for Matching Multiple Décors**
- **Contains Same Internal Mechanism as our Popular Junior Geneva Series Hinges**
- **Reversible Pivot Pin Standard in Each Model**
- **Five Finish Accents to Choose From**

CE
Certification
(See Page 107J)

The Junior Cathedral Series Hinge blends a unique two-tone design with the same internal mechanism as our Junior Geneva Hinge. The Junior Cathedral has a positive hold on the glass, utilizing a cut-out plus a hole to prevent door slippage. Constructed of solid brass, they come in one Wall Mount and three Glass-to-Glass styles. Junior Cathedral Hinges are made to fit 1/4" (6 mm) to 5/16" (8 mm) tempered safety glass, and will swing 90 degrees in and out. They contain a reversible Pivot Pin for optional 5 degree tighter door closure. The self-centering Junior Cathedral is available in up to five finish blends.

Glass Thickness Range: 1/4" (6 mm) to 5/16" (8 mm) Tempered Safety Glass
Material: Solid Brass
Hinge Swings: 90 Degrees Inwards and Outwards
Closing Type: Self-Centering When Within 15 Degrees of Closed Position
Cut-Out and Hole Required
Includes: Gaskets, Phillips Screws, Allen Screws, and Glass Fabrication Dimensions

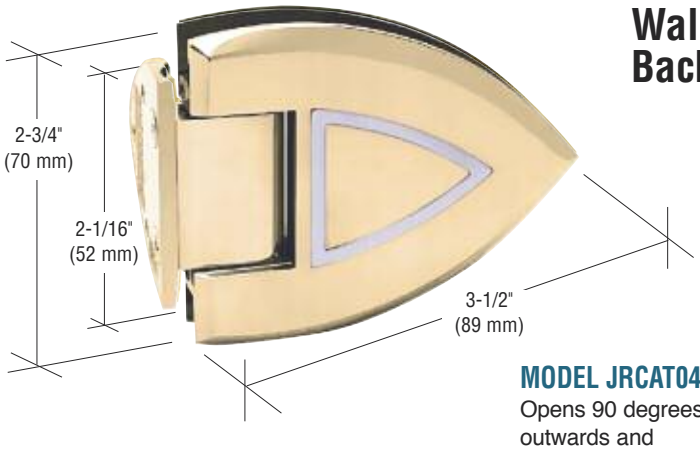

STANDARD REVERSIBLE PIVOT PIN

Each Junior Cathedral Hinge contains a Reversible Pivot Pin. One side of the Pin is marked at 90 degrees. The opposite side of the Pin is marked 85 degrees. The Pin can be rotated (not flipped upside down) to activate the other side.

Custom
Pivot Pin
CAT. NO.
JRGENP1N

CUSTOM PIVOT PIN

Custom Pivot Pins are available to accommodate "off-angle" installations. As an example, you may encounter a wall that will not meet your door at 90 degrees. If the standard 5 degree Pivot Pin contained in the hinge does not assist in closing the door to the position desired, you may specify the angle needed for a Custom pivot Pin (up to 45 degrees).

CRL Berlin Series Hinges

Certification
(See Page 107J)

- **Rounded Shape of Hinge Makes it an Ideal Choice for Softer Decors**
- **Features Wall Mount Hinge With Offset Back Plate**
- **Contains Reversible Pivot Pin**
- **Many Popular Stock Finishes, With Custom Finishes Available**

The Berlin Series of Hinges combines elegant design with superb quality. This family of hinges features a Wall Mount Hinge with Offset Back Plate, which leaves the mounting plate visible only from inside the shower. Three Glass-to-Glass models round out the selection. Choose from a number of beautiful finishes to accentuate the décor of most bathrooms. Berlin Hinges are constructed of solid brass, and will provide a new inspiration combined with classic past. They contain a Reversible Pivot Pin for optional 5 degree tighter door closure.

3 YEAR WARRANTY

USE MONOLITHIC TEMPERED GLASS

GLASS THICKNESS
1/4" (6 mm) TO 5/16" (8 mm)

Brass

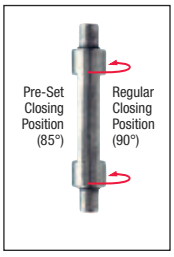

See the complete range of beautiful shower hardware finishes on page 114J

SPECIFICATIONS

Glass Thickness Range: 1/4" (6 mm) to 5/16" (8 mm) Tempered Safety Glass
Material: Solid Brass
Hinge Swings: 90 Degrees Inwards and Outwards
Closing Type: Self-Centering When Within 15 Degrees of Closed Position
Cut-Out and Hole Required
Includes: Gaskets, Phillips Screws, Allen Screws, and Glass Fabrication Dimensions

*MAXIMUM CAPACITIES	1/4" (6 MM) GLASS		5/16" (8 MM) GLASS	
	WEIGHT	DOOR WIDTH	WEIGHT	DOOR WIDTH
Using Two Hinges	60 lbs/27 kg	28"/711 mm	60 lbs/27 kg	28"/711 mm
Using Three Hinges	90 lbs/41 kg	32"/813 mm	90 lbs/41 kg	32"/813 mm

* **NOTE:** Do not exceed maximum door weight or width when choosing proper quantity of hinges.

STANDARD REVERSIBLE PIVOT PIN

Each Berlin Hinge contains a Reversible Pivot Pin. One side of the Pin is marked at 90 degrees. The opposite side of the Pin is marked 85 degrees. Berlin Hinges come with the 90 degree side activated. The Pin can be rotated (not flipped upside down) to activate the other side.

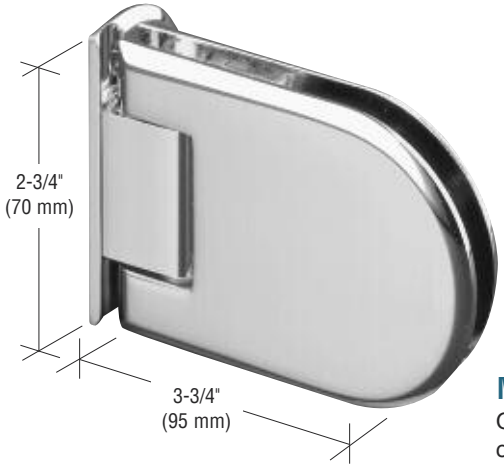

Custom Pivot Pin
CAT. NO. JRGENP1N

CUSTOM PIVOT PIN

Custom Pivot Pins are available to accommodate "off-angle" installations. As an example, you may encounter a wall that will not meet your door at 90 degrees. If the standard 5 degree Pivot Pin contained in the hinge does not assist in closing the door to the position desired, you may specify the angle needed for a Custom pivot Pin (up to 45 degrees).

CRL Light Duty Frameless Shower Door and Cabinet Hinges

- **An Excellent Choice for Small, Single Shower Stalls**
- **Available in Half-Round or Square Corner Shapes for Use With 1/4" to 5/16" (6 to 8 mm) Thick Glass**
- **Also a Great Choice as a Cabinet Hinge**
- **Free-Swinging Hinges Requires a Hole in the Glass**

Light Duty Frameless Shower Door and Cabinet Hinges provide design versatility. They can be used for smaller (see Maximum Capacity Chart below), single stall frameless shower doors, and also prove to be an excellent choice for cabinets in the general bathroom area or anywhere else. Wherever installed, they help perpetuate the 'all-glass' look desired by so many architects and designers.

Light Duty Hinges are free-swinging, meaning they do not have a self-centering or self-closing mechanism. The Half-Round Shape is perfect for softer, more subtle doors. The Square Corner Shape has a stronger, more dominant appearance. These Hinges are stocked in up to four popular finishes, with custom finishes available upon request. Light Duty Hinges will accommodate 1/4" to 5/16" (6 to 8 mm) thick glass. A single hole in the glass is all that is needed for fabrication; no cut-out is necessary. Gaskets are included for glass-to-metal protection. Hinges are sold two per pack.

3 YEAR WARRANTY

CRL Frameless Hinge KD Door Kits

- **Provides the Appearance of a Heavy Glass Unit While You Actually Supply Only 1/4" (6 mm) Glass**
- **Door is Manually Closed and Has a Magnetic Hold**
- **Two 1" (25.4 mm) Holes Required in the Glass**
- **Horizontal Adjustment of 3/16" (5 mm) in Each Direction**
- **Four Popular Stock Finishes in Two Heights are Available**

Our Frameless Hinge KD Door Kit for 1/4" (6 mm) thick glass provides an appearance of a heavier enclosure, while you only need to supply the thinner, less expensive glass. The Hinges are mounted through a 1" (25.4 mm) diameter hole, and feature a molded nylon insert that allows a 3/16" (5 mm) horizontal adjustment in each direction to assist with undesirable wall conditions. This design has the Hinges holding the glass firmly, without relying on clamping or compression pressure.

Kits include a hinge jamb assembly with the Hinges and Fin Seal attached, an Aluminum Strike Jamb, a "slip over the edge" Magnetic Latch Handle, Seals for around the doors, and a complete Hardware Package for installation. Glass is not included as part of the kit. Four popular stock finishes are offered, in a choice of two heights. Kit utilizes two Hinges only. Replacement Hinges also available (see below).

FINISHES:

SPECIFICATIONS

Glass Thickness: 1/4" (6 mm). (Glass not included in kit)
Material: Aluminum
Closing Type: Free Swinging with Magnetic Hold
Maximum Sizes: Width: 36" (914 mm); Height: 72" (1829 mm)
Fabrication: Two 1" (25.4 mm) Diameter Holes Required, 1-1/4" (32 mm) from Edge of Glass to Center of Hole.

KIT CONTAINS:

- Hinge Jamb Assembly With Hinges and Fin Seal Attached
- Aluminum Strike Jamb
- Magnetic Latch Handle
- Door Seals
- Hardware Package

For Replacement Aluminum Jamb With Clear Vinyl Wipe see page 326J.

CRL JAMB MOUNTED HINGE KITS

CRL Jamb Mounted Hinge Kits

- **Square or Radius/Beveled Forged Brass Hinges With Anodized Aluminum Jambs and Clear Vinyl Sweep**
- **72" (1.83 m) and 78" (1.98 m) Height Kits in the Three Most Popular Hinge Finishes Available for 3/8" to 1/2" (10 to 12 mm) Glass**
- **5 Degree Hinge Pins Ensure Positive Closure to Provide a Water Resistant Seal at Both the Sides and the Bottom**
- **Self-Centering From 15 Degrees**
- **All Necessary Mounting Hardware Included**

JAMB MOUNTED HINGE KITS CONSIST OF:

A. Aluminum Jamb with Two Hinges Attached (Plus Vinyl)
B. Aluminum Strike Jamb with Vinyl
C. Clear Vinyl Bottom Sweep with Drip Rail
D. Mounting Hardware

NOTE: Pulls or Knobs must be ordered separately. Glass not included.

Our Jamb Mounted Hinge Kits let you provide an 'all-glass' look shower door in an easy-to-install configuration. Water leakage around the door is minimized with the use of extruded aluminum jambs with vinyl for both the hinge and strike sides (see page 326J for additional information), and a clear vinyl sweep for the bottom. Kits come in your choice of three of our most popular finishes, with glass cut-out templates and installation instructions enclosed.

1/2" Glass maximum door width 30"/762 mm; weight 100 lbs/45 kg.

Heavy-Duty Kits also contain Bottom Sweeps for both 3/8" and 1/2" (10 and 12 mm) glass. All Kits can be mounted with the hinge on the left or right hand side when viewed from inside of the shower, and should be installed so that the door swings outward.

CRL HINGE REPLACEMENT HARDWARE

CRL Replacement Hardware for CRL Hinges, Handles and Other Hardware

- **Replacement Hardware for Our Most Popular Hinges and Handles in All Commonly Used Finishes**
- **Renovate Without the Expense of Replacing an Entire Unit**
- **A Terrific Opportunity to Expand Your Profits While Servicing Your Customers**

Since 1988 C.R. Laurence Co., Inc. has provided Frameless Shower Door Hardware for millions of residential and hotel shower door units. Due to improper cleaning, or hard water, hardware and seals can deteriorate. Some of these early units are now ready for service or replacement. This is another opportunity to service your customer and secure future business. In this catalog we show a variety of the most commonly asked for Replacement Hardware. Some items are not shown, but are available on special order. If you don't see what you want please call our Shower Technical Department at (800) 421-6144 in the U.S., (877) 421-6144 from Canada, or (323) 588-1281 International. Ask for Ext. 7740.

Four Commonly Required Repairs:

Door Alignment

After years of use the shower door has a tendency to get out of alignment and start making contact with other surfaces. If not corrected door glass breakage is the most common result.

Loosen the cover plate and align the door.

After alignment, tighten the cover plate screws by hand. Do not use a power tool, or you risk damaging the screw heads.

Corroded Cover Plate or Screws

Because of hard water or improper cleaning over a period of time, interior cover plates and screws have a tendency to become dull or corroded. Replacement will bring back the original luster.

Block the door to maintain alignment and remove the cover plate. Clean glass in gasket area.

Install a new gasket and interior cover plate, replace screws, then secure in place.

Door Handles or Knobs

Alkaline, rings, and wear and tear will take away the newness and luster of the handle or knob over a period of time. A simple replacement of the handle or knob brings the shower back to life.

Remove existing handle or knob and discard.

Install the new handle or knob and secure washers and set screws.

See Pages 230J-257J for our complete selection of Knobs and Pull Handles.

Water Seals

As good as seal technology has become, over time the water seal will deteriorate or become brittle and allow for leakage. Removing and replacing these seals will contain water leaks and bring the shower back to it's original condition.

Remove the damaged or brittle water seals or wipe.

Cut the new and matching water seals to the same length as the originals and install.

See Pages 319J-326J for our complete selection of Water Seals.

CRL Watertight Cover Plates

- New Watertight Cover Plates Seal the Small Gap Between the Center Block and the Hinge
- Available in Our Four Most Popular Models
- Stocked in Many Popular Finishes

CRL has designed a Cover Plate to reduce water leakage. It's a replacement for the standard plate, and there are no modifications needed for installation. Take off the standard cover plate and replace it with the New Watertight Cover Plate, it's as simple as that.

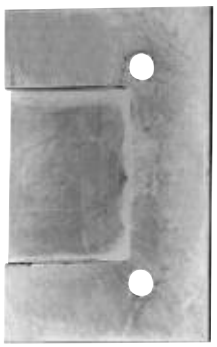

NOTE: When using a Watertight Cover Plate the door can only be opened outwards. A stop or jamb must be used so the door cannot be pushed inwards.

PL2ABR	Antique Brass
PL20RB	Oil Rubbed Bronze

Minimum order: 1 each. Other finishes are available on special order.

INSTALLATION TIP:
From the inside of the shower, wedge the glass door to prevent movement. Then remove the existing cover plate. Clean the area around the existing cover plate and make sure the gasket is aligned. Now install the new Watertight Cover Plate. Tighten the Cover Plate screws by hand so you won't damage the screw heads. Allow gaskets to settle 10 minutes or so and re-tighten.

CRL Watertight Cover Plates

NOTE: When using a Watertight Cover Plate the door can only be opened outwards. A stop or jamb must be used so the door cannot be pushed inwards.

- For Use With 1/2" (12 mm) Thick Tempered Glass Only (Not Included)
- 2" x 3" (51 x 76 mm) Posts Do Not Interrupt Glass Panels
- No Field Fabrication Required – Built to Your Specifications
- Stainless Steel Posts With Concealed Base Fastener
- Posts Mounted Behind Glass to Maximize Frameless Appearance
- Doors Accommodate Slide-Bolt Latches (Sold Separately)
- Doors are Inswing Only
- Allows Thru-Glass Mounted Optional Fixtures
- Polished Stainless, Brushed Stainless, and Powder Coat Colors Available

new

CE
Certification
(See Page 107J)

The CRL Frameless 'All-Glass' Restroom Partition System will modernize any commercial bathroom area with your choice of multiple architectural finishes. Since metal posts do not interrupt the glass panels, a beautiful frameless environment is attained. No field fabrication is required, ensuring easy installation. Vienna or Cologne Series Hinges are utilized for this system that is designed for use with 1/2" (12 mm) thick tempered glass only (not included). Please contact our Frameless Shower Door Department or send us a drawing (see page 228J). We will generate a quote and provide any further details required.

CRL Shower Door Knobs

- Back-to-Back and Single-Sided Models Available
- Through-Glass or Glue-On Styles to Choose From
- Stocked in Numerous Finishes, With Custom Finishes Available
- For 1/4" (6 mm) to 1/2" (12 mm) Thick Glass

Shower Door Knobs are a functional and elegant method of entering and exiting a shower enclosure, while maintaining a low profile and helping to emphasize the 'all-glass' look. Back-to-Back and Single-Sided models are offered, with mounting choices of through-the-glass or glue-on. Some models offer up to 20 stock finishes to choose from, and custom finishes are also available.

Brass

CRL Back-to-Back Style (Through-Glass Installation)

CRL Traditional Style Knobs

- Solid Brass Material
- Fits 1/4" to 1/2" (6 to 12 mm) Thick Tempered Glass

Our solid brass constructed Traditional Style Knobs provide a decorative method of entry and exit to a frameless shower enclosure, and add to the beauty of an 'all-glass' enclosure. Available in numerous stock finishes (custom finishes available), Traditional Style Knobs have an overall diameter of 1-9/16" (40 mm), and an overall height of 1" (25 mm) from the glass.

MODEL SDK100

SPECIFICATIONS:
Material: Solid Brass
Glass Thickness Range: 1/4" (6 mm) to 1/2" (12 mm)
Hole Diameter Required: 3/8" (10 mm) or 1/2" (12 mm)
See page 240J for simple installation instructions

CRL Square Style Knobs

- **Square Shape to Match Configuration of Geneva, Vienna, Concord, Cardiff and Other Square Cornered CRL Hinges**
- **Attractive Ribbed Appearance**

MODEL SDK160

SPECIFICATIONS:
Glass Thickness Range: 1/4" (6 mm) to 1/2" (12 mm)
Hole Diameter Required: 3/8" (10 mm) or 1/2" (12 mm)
See page 240J for simple installation instructions

The new solid brass Square Style Knob will be a favorite of architects, designers, and homeowners who wish to match the square cornered construction of such popular CRL Hinges at the Geneva, Vienna, Concord, Cardiff, and Junior Geneva Series. The ribbed appearance will add to the appeal and create a beautifully aesthetic appearance. The Square Style Knob measures 1-3/16" (30 mm) in diameter, and stands 1-3/16" (30 mm) from the surface of the glass. Stocked in numerous popular stock finishes, the Square Style Knob can also be ordered in custom finishes.

CRL Back-to-Back Style (Through-Glass Installation)

Brass

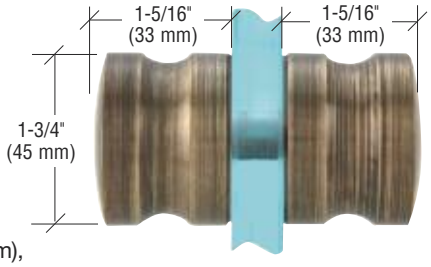

See the complete range of beautiful shower hardware finishes on page 114J

USE MONOLITHIC TEMPERED GLASS

CRL Euro Style Knobs

- **Elegant Style With a Larger Gripping Surface**
- **Finishes to Match Popular Bathroom Décors**

The Euro Style Knob is an elegant brass constructed type preferred by European designers. The larger size of this Knob allows easy gripping. Knob diameter is 1-3/4" (45 mm), and it protrudes 1-5/16" (33 mm) from the glass. Ten beautiful finishes makes matching the décor of most bathrooms easy.

MODEL SDK120

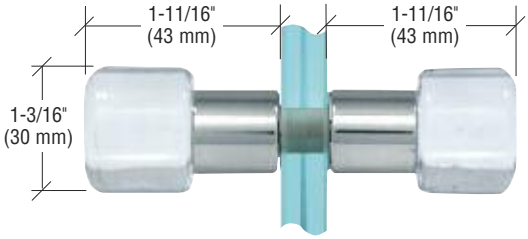

SPECIFICATIONS:
Glass Thickness Range: 1/4" (6 mm) to 1/2" (12 mm)
Hole Diameter Required: 1/2" (12 mm)
See page 240J for simple installation instructions

SDK410CR	Glass Knob with Chrome Plated Ends

Minimum order: 1 each. All Knobs can be combined for quantity pricing.

CRL Knob Latch

- **Provides Positive Closure by Latching Door in Glass-to-Wall or Glass-to-Glass Installations**
- **Centers the Door in Out-of-Alignment Situations Caused by Various Job Site Conditions**

MODEL LAT001

180 Degree Model With 2-1/2" (63 mm) Throw Extension Shown With J-Hook for Glass-to-Glass Installation

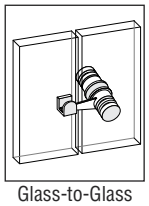

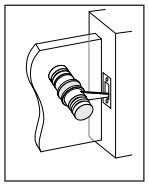

MODEL LAT135

135 Degree Model With 2" (51 mm) Throw Extension Shown With J-Hook for Glass-to-Glass Installation

The Knob Latch assists in latching and centering a door in either glass-to-wall or glass-to-glass installations. It is very helpful in job conditions where a slightly out of alignment situation exists, and positive closure to zero degrees is needed. An internal three-point ball bearing index mechanism keeps the Knob Latch from "free-spinning." The Knob Latch is operational from both sides of the door. Knob measures 1-3/16" (30 mm) in diameter, and stands 1-1/2" (38 mm) from the surface of the glass. It includes a Tapered Strike (180 Degree Model only) for glass-to-wall installation, and a J-Hook for glass-to-glass installations. J-Hook is adhered using our water clear UV70330 Ultraviolet Adhesive (see page 495J).

Glass-to-Glass Inside View

Glass-to-Wall Inside View

Tapered Strike for Glass-to-Wall Installation

SPECIFICATIONS:
Glass Thickness Range: 5/16" (8 mm) to 1/2" (12 mm)
Hole Diameter Required: 7/8" (22 mm)
See page 240J for simple installation instructions
NOTE: LAT001 Knob Latch does not include mounting screws for the tapered strike, due to variations in mounting surfaces. Customer should choose a mounting screw appropriate to surface type.

CRL Mini Bulb Style Knobs

- **A Petite and Practical Knob for Frameless Shower Doors, Sliding Cabinet Doors, and Display Cabinets**

MODEL 19MK

FINISHES:

Most models are stocked in the finishes shown here, others are available on special order.

SPECIFICATIONS
Glass Thickness Range: 1/4" (6 mm) to 1/2" (12 mm)
Hole Diameter Required: 1/2" (12 mm)
See page 240J for simple installation instructions

The Mini Bulb Style Knob is a brass constructed, single-sided model with a blind fastener end cap. Knob extends 1" (25 mm) from surface, and measures 3/4" (19 mm) in diameter. 1/8" (3.2 mm) low profile end cap makes it perfect for sliding doors, standard swinging doors or cabinet doors. Stocked in 12 beautiful finishes. Custom finishes are available upon request.

CRL UV Threaded Adapters

- **Available in Four Popular Thread Sizes**
- **Affix Standoffs, Knobs, Pulls, Towel Bars to Glass Without Drilling Holes**
- **Fabricated From 316 Stainless Steel**

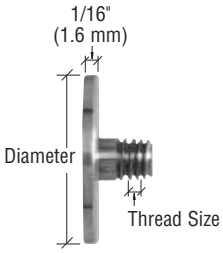

CRL's new UV Threaded Adapters will not only substantially expand your UV business and glass hardware opportunities, but will also save glass fabrication time and expense. Use the Adapters to install glass signage using standoff bases, knobs for glass door cabinets or showers, towel bars or handles without drilling holes. Quickly and easily mount hardware in either new construction or existing installations using CRL's large selection of compatible hardware and UV adhesives, curing lamps, fixation devices, and cleaning supplies (see pages 491J-510J).

UV Adapters are available in seven different diameters and four thread sizes to accommodate almost any requirement. UV Adapters have a bonding plate thickness of 1/16" (1.6 mm). For additional information regarding hardware that can be used with our UV Adapter, contact CRL Glass and Glazing Technical Sales.

Affix knobs and handles to glass doors without drilling

UV6169	5/8" (16 mm)	M4	4/Pack

Minimum order: 1 each. Sizes can be combined for quantity pricing.

CRL UV Glass Knobs

- **Knobs Blend With 'All-Glass' Doors**

CAT. NO. UV367
1-3/16" (30 mm) Diameter;
1" (25 mm) Height

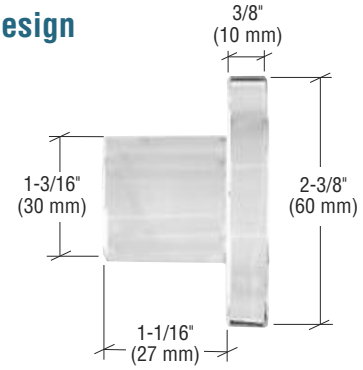

CAT. NO. UVK01
1-9/16" (40 mm) Diameter;
1-5/16" (33 mm) Height

CRL's UV Glass Knobs are perfect for your 'all-glass' cabinet or showcase doors. The clean, simple lines make for a great appearance and creates a total see-through look. Minimum order is one each.

CRL UV Solid Glass Knob

- **Transparent Crystal Design**

CRL's Solid Glass UV Knob is beautifully styled and can provide several applications: Door Knob, Foot for Glass Showcase, or Robe Hook on a Shower Door. Knob extends 1-1/2" (38 mm) from the glass surface. Use UV702 Adhesive for bonding Glass-to-Glass (see page 499J). Minimum order is one each.

CAT. NO. SDK061

CRL UV Contemporary Crystal Knob

- **Transparent and Elegant**

The Contemporary Style UV Crystal Knob and a glass door blend together for a see-through appearance. Use UV702 Adhesive for bonding Glass-to-Glass (see page 499J). Minimum order is one each.

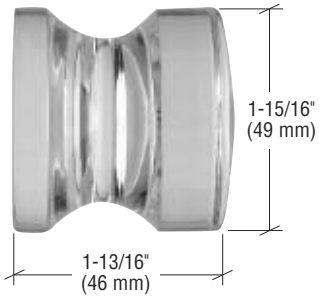

CAT. NO. SDK406CR

CRL UV Traditional Crystal Knob

- **All Crystal Design**

The Traditional Style UV Crystal Knob provides a clean and transparent look. Use UV702 Adhesive for bonding Glass-to-Glass (see page 499J). Minimum order is one each.

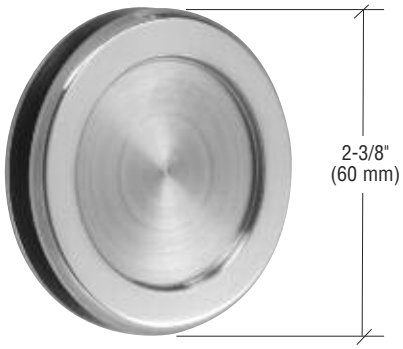

CAT. NO. SDK400CR

CRL UV Pull for Sliding Glass Doors

new

USE MONOLITHIC TEMPERED GLASS

- No Holes Required in Glass
- Solid Stainless Steel
- Ideal for Sliding Glass Doors

FINISHES:

Polished Stainless Steel | Brushed Stainless Steel

This CRL UV Pull for Sliding Glass Doors offers a unique design and easy application using our UV703 UV adhesive. No need to fabricate holes in the glass. Inside diameter measures 1-5/8" (41 mm), and the outside diameter is 2-3/8" (60 mm). Comes two pulls per box, for back-to-back mounting.

CAT. NO.	FINISH
1810PS	Polished Stainless
1810BS	Brushed Stainless

Minimum order: 1 box. All Pulls can be combined for quantity pricing.

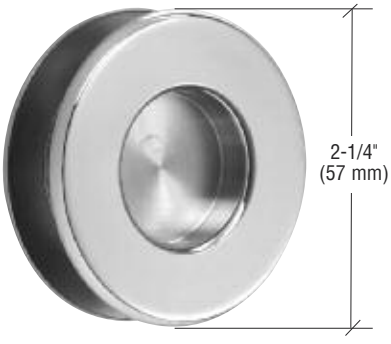

CRL Thru-Glass Pull Handle for Sliding Glass Doors

new

GLASS THICKNESS 3/8" (10 mm) TO 1/2" (12 mm)

USE MONOLITHIC TEMPERED GLASS

- Low Profile
- Solid Stainless Steel
- Hole Required in Glass

FINISHES:

Polished Stainless Steel | Brushed Stainless Steel

The CRL Thru-Glass Pull Handle has a recessed low profile design that screws together to install. Its solid stainless steel construction makes this a rugged yet elegant solution for a pull handle for a sliding glass door. The thickness of this Thru-Glass Pull doesn't impede movement in front of wall or glass sidelites as it allows for full door opening access. It is supplied with clear PVC gaskets to accommodate door glass from 3/8" to 1/2" (10 to 12 mm) thick. Requires a minimum 1-19/32" (40 mm) hole in glass panel for installation.

CAT. NO.	FINISH
1819PS	Polished Stainless
1819BS	Brushed Stainless

Minimum order: 1 each. All Pulls can be combined for quantity pricing.

CRL Installation Instructions for Back-to-Back and Single-Sided Knobs

• Glue-On Installation

1. Prepare both surfaces first by cleaning with a Cleaner and Degreaser, such as our Cat. No. CRL7528 or Cat. No. 20162.
2. Apply a small amount of Cat. No. UV70330 or UV349 UV Adhesive to the knob (just enough to cover the entire surface of the Knob when pressed against the glass door). A 1/4" (6 mm) diameter bead will usually suffice.
3. Move the Knob in a circular motion while pressing down to remove any small bubbles in the Adhesive.
4. Based on testing done in advance, use a UV Lamp to cure the Knob to the glass door just enough to provide an initial set.
5. Clean off any excess Adhesive that has oozed out around the Knob with a single edge razor blade (Cat. No. 51S). Any trace of Adhesive remaining should be removed by using Cat. No. CRL2032 General Purpose Solvent and Adhesive Remover while the Adhesive is still relatively soft after the initial set.
6. Fully cure the UV Adhesive with the UV Lamp by holding the lamp as close to the glass as possible. Prior testing with the UV Lamp is essential to determine full cure time as lamps vary based on strength of lamp, UV wavelength emitted, age of bulb, etc.

CRL Installation Instructions for Back-to-Back and Single-Sided Knobs

• Through-Glass Installation

1. The Single-Sided Knob consists of the Knob, and one End Cap with a threaded stud. The Back-to-Back Knob consists of two Knobs, one with a threaded stud. In addition to these hardware parts, there are two Clear Washers that act as a buffer between the hardware and glass.
2. Take the End Cap with the threaded stud (for single-sided mounting), or one side of the Knob with the stud protruding (for back-to-back mounting), and sleeve a Clear Washer on it.
3. From the inside of the shower, push the threaded stud through the hole in the glass.
4. Sleeve the second Clear Washer on this stud from the outside of the enclosure.
5. Place the Knob into position and thread the components together.

CRL Knob Latch Installation Instructions

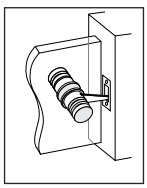

• Provides Positive Closure by Latching Door in Glass-to-Wall or Glass-to-Glass Installations

The Knob Latch is more detailed and has more mounting options than our standard Knobs. Information may be obtained in PDF format from our web site at **crlaurence.com** by entering the product number in the "Entering Your Search Words Here", then clicking on "Technical Drawings". Complete installation information on the Knob Latch and all other CRL Frameless Shower Door Hardware and Supplies may also be obtained by purchasing our SDT21 Frameless Shower Door Guide (see page 101J).

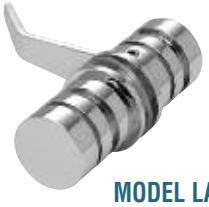

As always, if you have any installation questions, contact our Shower Technical Sales Department. They may be reached at (800) 421-6144 in the U.S., (877) 421-6144 from Canada, or (323) 588-1281 International. Ask for Ext. 7740. You may also contact us by e-mail from the **crlaurence.com** home page. Click on Contact Us, and then click on Technical Sales for Shower Products.

CRL Shower Door Pull Handles

FINISHES **new**

- Choose From Back-to-Back and Single-Sided Models
- Tubular or Solid Brass Construction, Acrylic Models Also Available
- Over 20 Finish Choices in Some Models, With Custom Finishes Upon Request
- Styles to Fit 1/4" (6 mm) to 1/2" (12 mm) Thick Glass

CRL's offering of quality Shower Door Pull Handles continues to grow, with numerous choices of styles to complement the décor of most any shower enclosure. Quality tubular or solid brass construction is offered in a variety of shapes and sizes, along with acrylic handles, a favorite of many.

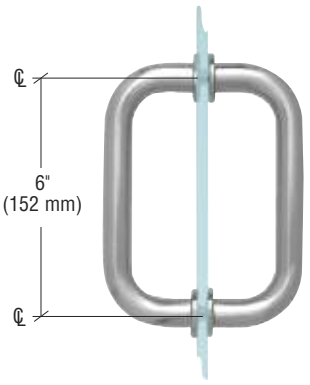

Both Back-to-Back and Single-Sided Handles allow the user to choose the type of shower entry they desire. Some models are stocked in over 20 popular finishes, allowing color matching of modern traditional bathroom fixtures. Custom finishes are available upon request when something special is needed.

CRL Shower Door Pull Handles can be mounted on glass ranging from 1/4" (6 mm) to 1/2" (12 mm) thick. Installation is quick and easy. As always, our Shower Technical Sales Department is available to answer your questions and assist with design choices. They may be reached at (800) 421-6144 in the U.S., (877) 421-6144 from Canada, or (323) 588-1281 International. Ask for Ext. 7740. You may also contact us by e-mail from the **crlaurence.com** home page. Click on Contact Us, and then click on Technical Sales for Shower Products.

CRL MT Series Round Tubing Mitered Corner Pull Handles

- Attractive Handle Adds Contrast to Décor
- Stocked in Popular 6" (152 mm) and 8" (203 mm) Sizes
- Nine Stock Finishes, With Custom Finishes Available

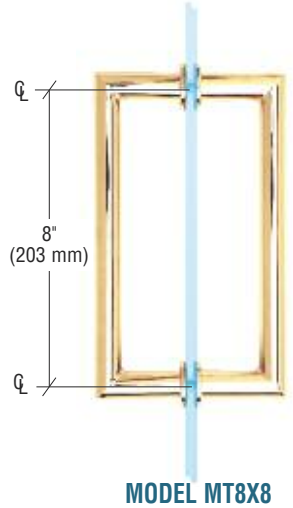

SPECIFICATIONS:
Material: 3/4" (19 mm) Diameter Brass Tubing; 1-1/4" (32 mm) Metal Washers
Glass Thickness Range: 1/4" (6 mm) to 1/2" (12 mm)
Hole Diameter Required: 1/2" (12 mm)
Center-to-Center Hole Spacing: 6" (152 mm); 8" (203 mm)
See page 259J for simple installation instructions

The Round Tubing Mitered Corner Pull Handle offers the contrast of round tubing along with square mitered corners, which makes it a Handle that is sure to be noticed. The round tubing of this Handle provides a comfortable gripping surface and strong feel. The geometry of the Handle shape makes it a favorite to match many of CRL's Hinge shapes and styles. Back-up plastic washers, and nylon spacers are included to protect against glass-to-metal contact. The back-to-back style includes one Pull for each side of the door. Stocked in popular 6" (152 mm) and 8" (203 mm) sizes. Nine standard finishes are offered, with custom finishes available upon demand.

CRL Ladder Style Pulls say "notice me" when mounted to a heavy frameless shower enclosure. The extra height, when compared to typical shower door pull handles, makes for a unique appearance and contemporary design. Ladder Style Pull Handles are for back-to-back mounting using supplied through-bolts on 5/16" (8 mm) to 1/2" (12 mm) thick glass. Five stock sizes are offered in several popular shower door finishes. Custom finishes available.

Minimum order: 1 each. All Pull Handles can be combined for quantity pricing.

The RM Series Back-to-Back Handles offer features from both the popular SQ and MT Series Handles. The RM Series Handle has a flat outside surface, thus having the square cornered appearance of the SQ Series. Therefore it is a good choice for similar CRL Hinge Series such as Geneva, Vienna, Concord, Cardiff, and others. The inside portion of the handle has the same round tubing as the MT Series Handle, ensuring a comfortable grip. Two stock sizes are offered in nine popular shower door finishes. Custom finishes available.

CRL SHOWER DOOR PULL HANDLES

CRL Acrylic Back-to-Back Pull Handles

- **Acrylic Material Helps Perpetuate the 'All-Glass' Look**
- **Choice of Metal Accent Ring Washers to Assist in Matching Various Décors**

RING FINISHES:

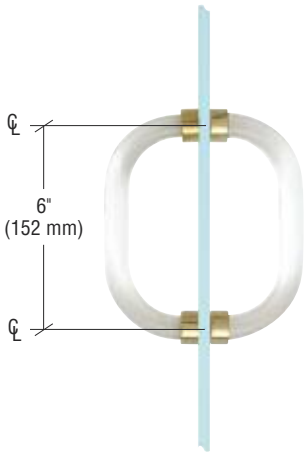

Most models are stocked in the finishes shown here, others are available on special order.

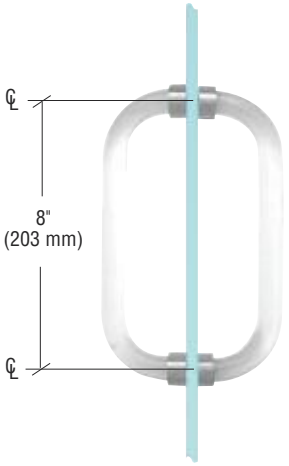

Acrylic Back-to-Back Pull Handles have a "see-through" look that enhances the 'all-glass' appearance of a frameless shower door. They are formed of 3/4" (19 mm) diameter clear acrylic rod, and secured with your choice of brass, chrome or brushed nickel finish washers. Available in 6" (152 mm) or 8" (203 mm) sizes, a set consists of one Pull for each side of the door.

SPECIFICATIONS:
Material: 3/4" (19 mm) Acrylic Rod
Glass Thickness Range:
1/4" (6 mm) to 1/2" (12 mm)
Hole Diameter Required: 1/2" (12 mm)
Center-to-Center Hole Spacing: 6" (152 mm); 8" (203 mm)

CRL Slip-On Handles for Frameless Pivot and Sliding Doors

- **Excellent for New or Retrofit Applications**
- **No Glass Fabrication Required**

FINISHES:

Most models are stocked in the finishes shown here, others are available on special order.

Slip-On Handles are offered for either pivot doors or sliding doors, to accommodate glass thicknesses from 3/16" to 1/4" (5 to 6 mm). These aluminum constructed Handles are ideal for new or retrofit installations. The Pivot Door Handle includes vinyl, a magnet, and stainless steel strike insert. Handle is secured using the provided vinyl, or with silicone. The Sliding Door Handle contains no other components and is secured using silicone. No glass fabrication is required for either Handle.

SPECIFICATIONS:
Material: Aluminum
Glass Thickness Range:
3/16" to 1/4" (5 to 6 mm)
No Glass Fabrication Required

Brass

See the complete range of beautiful shower hardware finishes on page 114J

Solid Brass Pull Handles offer a selection of back-to-back or single-sided styles, with or without 1-1/4" (32 mm) diameter metal washers. The Back-to-Back Handle includes a Pull for each side of the door, and is commonly used in frameless shower door applications. The Single-Sided Handle has an 1/8" (3 mm) protruding end cap, and is commonly used for bypassing cabinet and wardrobe doors. All Pull Handles are offered in a choice of 6" (152 mm) and 8" (203 mm) sizes. Custom finishes are also available on special order.

CRL 1" Diameter Solid Brass Constructed Back-to-Back Pull Handle

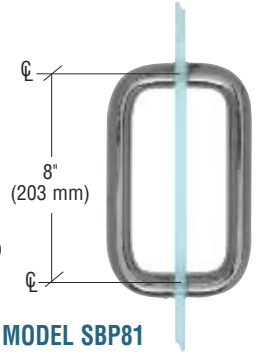

- **Thick 1" (25 mm) Diameter Solid Brass Rod Handle Provides Firm Grip**
- **A Great Choice for Heavy Doors**
- **No Metal Washers for Sleek Profile Appearance**
- **16 Stock Finishes, With Custom Finishes Available**

With its substantial appearance and firm feel, our 1" (25 mm) diameter Solid Brass Pull Handle becomes an integral part of an 'all-glass' frameless shower enclosure. The size and weight of this larger diameter Handle makes it an ideal choice for use with heavier doors. Available only without metal washers to provide a sleek, continous Handle profile. The 8" (203 mm) long Handle comes in sixteen stock finishes, with custom finishes available upon request.

SPECIFICATIONS:
Material: 1" (25 mm) Diameter Solid Brass Rod

CRL Swinging Glass Door Lock With Indicator

- **Suitable for Glass Doors from 5/16" to 1/2" (8 to 12 mm) Thick**
- **Lock Can Be Used Glass-to-Wall or Glass-to-Glass, With Optional Matching Keeper**
- **Indicator on Exterior Displays Red if Lock is Activated; Blue if Lock is Open**

Lock on Single Door
Glass-to-Wall

Lock and Keeper on Double Doors
Glass-to-Glass

Our Swinging Glass Door Lock with Indicator is an attractive and practical way to add security and privacy wherever 5/16" to 1/2" (8 to 12 mm) glass doors are used in glass-to-wall or 180 degree glass-to-glass installations. A turn of the thumbturn on the interior side of the Lock changes the color of the exterior indicator. Emergency access is made possible by a low profile screw on the exterior face. The Lock comes with a wall mounted strike plate, screws, and anchors. Both Lock and Keeper come with gaskets and hex wrench. **NOTE:** Glass must be notched for installation of Lock and Keeper.

CRL PULL HANDLE/TOWEL BAR COMBINATIONS

CRL Acrylic Pull Handle/Towel Bar Combinations

- Acrylic Material Assists in Perpetuating the 'All-Glass' Appearance
- Decorative Metal Ring Finishes Allow Matching of Surrounding Décor
- Three Stock Sizes to Choose From, With Custom Sizes Available

Acrylic Pull Handle/Towel Bar Combinations help maintain the see-through, 'all-glass' look preferred by many architects and designers. Constructed of 3/4" (19 mm) diameter clear acrylic rod, they are accented by attractive metal rings in finishes to match the surrounding décor. Three stock sizes are available, with custom sizes upon request.

SPECIFICATIONS:
Materials: 3/4" (19 mm) Diameter Clear Acrylic Rod; 1-1/8" (28 mm) Diameter Brass Washers
Glass Thickness Range: 1/4" (6 mm) to 1/2" (12 mm)
Hole Diameter Required: 1/2" (12 mm)
Center-to-Center Hole Spacing:
6" Pull Handle = 6" (152 mm); 8" Pull Handle = 8" (203 mm); 18" Towel Bar = 18" (457 mm); 24" Towel Bar = 24" (610 mm)
See page 258J for simple installation instructions

Glass Thickness Range: 1/4" (6 mm) to 1/2" (12 mm)
Hole Diameter Required: 1/2" (12 mm)
Center-to-Center Hole Spacing: 18" Towel Bar = 18" (457 mm) 24" Towel Bar = 24" (610 mm)
See page 259J for simple installation instructions

Our New Towel Bar/Knob Combinations allow the flexibility of design that appeals to many homeowners, designers, and architects. The Towel Bars are constructed of tubular brass, thus keeping lighter weight hardware installed on the door. The Knobs are constructed of solid brass, with a choice of CRL's popular Contemporary or Traditional Styles. Decorative metal washers are included, with plastic washers to protect against glass-to-metal contact. Stocked in nine standard finishes, with custom finishes available upon request.

NOTE: Due to the wide variety of Towel Bars and Knobs that CRL stocks, it may be possible for you to construct the Towel Bar/Knob Combo you desire by purchasing separate component parts. In addition to the stock catalog numbers shown here, virtually all CRL Knobs will thread into our Towel Bars. Call our Frameless Shower Technical Sales Department for assistance.

• Do it the Right Way the First Time

CRL Combination Door Pull and Towel Bar Installation Instructions

There are eleven hardware components for Combination Door Pull and Towel Bar mounting: one Towel Bar; one Pull Handle; two 3/4" (19 mm) tall End Caps with threaded studs; Six 1-1/4" (32 mm) Metal Washers; one Stud Head Screw. In addition to these hardware parts, there are nine Clear Washers that act as a buffer between the hardware and the glass.

STEP 1

Take the Stud Head Screw and sleeve a 1-1/4" (32 mm) Metal Washer on it. Now take both 3/4" (19 mm) tall End Caps with a stud protruding and sleeve a 1-1/4" (32 mm) Metal Washer on them. Sleeve a Clear Washer on each of the screws.

STEP 2

The Towel Bar will be mounted first. Take the Stud Head Screw with the Washers attached, and from inside the shower enclosure push the threaded portion through the top hole in the glass on the strike side of the door. Place a Clear Washer, then a 1-1/4" (32 mm) Metal Washer over the Stud Head Screw on the exterior side of the shower enclosure. Now thread the Stud Head Screw into the Towel Bar and tighten. On the other end of the Towel Bar (the door hinge side) push one of the 3/4" (19 mm) tall End Caps with the stud protruding through the hole. Now place a Clear Washer, then a 1-1/4" (32 mm) Metal Washer over the threaded stud on the exterior side. Thread the 3/4" (19 mm) tall End Cap into the Towel Bar and tighten by hand. Tighten both components down, the Stud Head Screw with a screwdriver, the 3/4" (19 mm) tall End Cap by hand.

STEP 3

The Towel Bar is now complete and it is time to mount the Pull Handle portion. From outside the enclosure, push the 3/4" (19 mm) tall End Cap with the stud protruding through the bottom hole in the door. First place a Clear Washer, then a 1-1/4" (32 mm) Metal Washer over the threaded stud on the inside of the shower enclosure. Now thread the stud into the small threaded opening of the Pull. Do not tighten this end of the Pull down at this time. Place the end of the Pull with the large hole and the set screw over the stud head. Now tighten the 3/4" (19 mm) End Cap by hand as tight as possible. Use the Allen Wrench provided to tighten the Set Screw on the Pull Handle to the Stud Head Screw.

For mounting instructions using Acrylic Pulls or Towel Bars, please call CRL Shower Technical Sales at (800) 421-6144, Ext. 7740 for details.

CRL Single-Sided Towel Bar or Door Pull Installation Instructions

Hardware components for mounting: Two End Caps with threaded studs; the Pull or Towel Bar; Four Clear Washers that act as a buffer between the hardware and the glass; Two Clear Plastic Bushings.

STEP 1 Take both of the End Caps with the threaded studs protruding, and sleeve one Clear Washer on each. Then sleeve a Clear Plastic Bushing onto the stud.

STEP 2 From the inside of the shower, push the End Cap with threaded stud through the hole in the glass. The Clear Plastic Bushing acts as a buffer between the threaded stud and glass.

STEP 3 Sleeve a Clear Washer on the threaded stud on the exterior side of the enclosure.

STEP 4 Place the Pull or Towel Bar into position and thread the stud into the bar until tight. Repeat this process on the other end.

- **Quick, Simple, and Secure**

CRL Back-to-Back Pull or Towel Bar Mounting Instructions

Hardware components for back-to-back mounting: Two Pulls; Four 1-1/4" (32 mm) Metal Washers (some series). In addition to these hardware parts there are: Four Clear Washers; Two Clear Plastic Bushings; Two Stud Head Mounting Screws. A decision must be made at this time as to the location of the half of the Pull that contains the set screws. Most installers put the set screws to the outside of the enclosure so they are not exposed to direct water contact. These instructions will address this application.

STEP 1 Take the two Stud Head Mounting screws and sleeve one 1-1/4" (32 mm) Metal Washer (some Series) on each Screw. Next, sleeve one of the Clear Washers onto the Screw. Sleeve a Clear Plastic Bushing onto the Stud. From the outside of the enclosure, push the thread of the Screw through the hole in the glass. On the inside of the enclosure, sleeve a Clear Washer onto the threads of the Screw. Place the 1-1/4" (32 mm) Metal Washer (some Series) over the threads and onto the glass.

STEP 2 Take the Pull that has the smaller threaded holes in each end and begin to thread the Screw into it. Line up the other end of the Pull with the other Screw and begin to thread it through as well. Tighten both Screws to "finger-tightness", then tighten the Stud Head Screws down permanently with a screwdriver.

STEP 3 Place the remaining Pull, with the large holes in each end as well as a set screw, onto the stud heads of the Screws. Tighten the set screws with the Allen Wrench provided.

For mounting instructions using Acrylic Pulls or Towel Bars, please call CRL Shower Technical Sales at (800) 421-6144, Ext. 7740 for details.

CRL SINGLE-SIDED TOWEL BARS

CRL BM Series Single-Sided Tubular Towel Bars With Metal Washers

- Our Most Popular Single-Sided Towel Bar Series
- Decorative Metal Washers Also Serve to Cover Any Defect in Hole in Glass
- Heavy 3/4" (19 mm) Diameter Tubular Construction
- Numerous Finish Choices in Sizes Ranging From 12" (305 mm) to 30" (762 mm)
- Custom Finishes Available

The BM Series of Single-Sided Towel Bars With Metal Washers are designed for glass mounting on fixed panels or doors. The 3/16" (5 mm) low profile end caps make this an ideal bar for sliding bypass doors as well. Bars are constructed of 1.5 mil thick heavy brass tubing. Decorative metal backup washers are included, as well as plastic washers to protect against glass-to-metal contact.

SPECIFICATIONS:

Material: 3/4" (19 mm) Diameter Brass Tubing (1.5 mil thick); 1-1/4" (32 mm) Diameter Metal Washers

Glass Thickness Range: 1/4" (6 mm) to 1/2" (12 mm)

Hole Diameter Required: 1/2" (12 mm)

Center-to-Center Hole Spacing:

12" Towel Bar = 12" (305 mm); 18" Towel Bar = 18" (457 mm); 20" Towel Bar = 20" (508 mm); 22" Towel Bar = 22" (559 mm); 24" Towel Bar = 24" (610 mm); 26" Towel Bar = 26" (660 mm); 27" Towel Bar = 27" (686 mm); 28" Towel Bar = 28" (711 mm); 30" Towel Bar = 30" (762 mm)

CRL SINGLE-SIDED TOWEL BARS

CRL BM Series Single-Sided Tubular Towel Bars Without Metal Washers

Brass

See the complete range of beautiful shower hardware finishes on page 114J

- **This Single-Sided Towel Bar With No Metal Washers Creates a Sleek, Continuous Profile**
- **Heavy 3/4" (19 mm) Diameter Tubular Construction**
- **Numerous Finish Choices in Sizes Ranging From 12" (305 mm) to 30" (762 mm)**
- **Custom Finishes Available**

SPECIFICATIONS:
Material: 3/4" (19 mm) Diameter Brass Tubing (1.5 mil thick)
Glass Thickness Range: 1/4" (6 mm) to 1/2" (12 mm)
Hole Diameter Required: 1/2" (12 mm)
Center-to-Center Hole Spacing:
12" Towel Bar = 12" (305 mm); 18" Towel Bar = 18" (457 mm);
20" Towel Bar = 20" (508 mm); 22" Towel Bar = 22" (559 mm);
24" Towel Bar = 24" (610 mm); 26" Towel Bar = 26" (660 mm);
27" Towel Bar = 27" (686 mm); 28" Towel Bar = 28" (711 mm);
30" Towel Bar = 30" (762 mm)
See page 259J for simple installation instructions

The BM Series of Single-Sided Towel Bars Without Metal Washers are designed for glass mounting on fixed panels or doors. The 1/8" (3 mm) low profile end caps make this an ideal bar for sliding bypass doors as well. The bars are constructed of 1.5 mil thick heavy brass tubing. Plastic washers protect against glass-to-metal contact.

CRL Glass Clamps for Frameless Shower Enclosures

- For the Truly "All-Glass" Appearance of a Frameless Shower Enclosure
- Various Designs to Assist in Matching CRL Shower Door Hinge Configurations
- Wall Mount, Glass-to-Glass, Transom and Specialty Clamps for Most Any Application
- Over 20 Stock Finishes in Some Models, With Custom Finishes Available Upon Request
- Solid Brass Construction

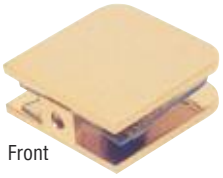

CRL Glass Clamps present a more modern and alternative method of securing vertical lites of glass in frameless shower enclosures. Clamps generally require holes or a notch in the glass, thus truly acting as a mechanical fastener. Therefore, while serving this practical function, they assist in perpetuating the 'all-glass' appearance preferred by many designers, architects, and homeowners. U-Clamps for fixed panels, Glass-to-Glass Clamps for joining fixed panels at various angles, as well as Specialty and Transom Clamps complete a product line that allows the use of these Clamps to assist in most any frameless shower application.

Why Would You Want to Use Glass Clamps to Secure Fixed Panels, Instead of Traditional U-Channel?

The answer to this question is basically a matter of aesthetics and individual customer preference. It is always interesting that while these modern shower enclosures are referred to as "frameless", by installing U-Channel around the fixed panels you are actually starting to give the shower a "framed" appearance. By utilizing the range of CRL Glass Clamps available, the enclosure can have more of a truly 'all-glass', or "frameless" appearance, while maintaining a high level of safety.

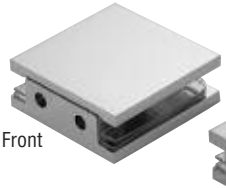

Fixed Panel U-Clamps, Glass-to-Glass Clamps, Transom Clamps, and Specialty Clamps for Most Any Frameless Shower Application

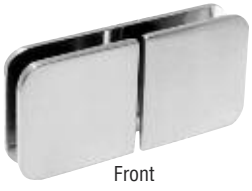

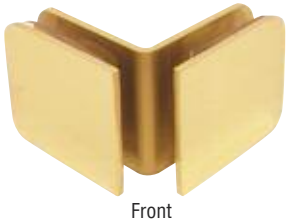

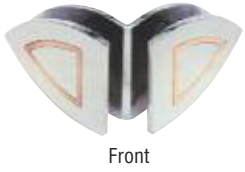

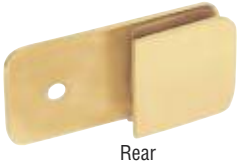

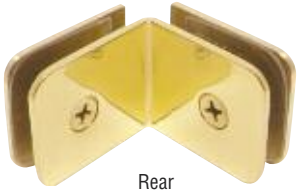

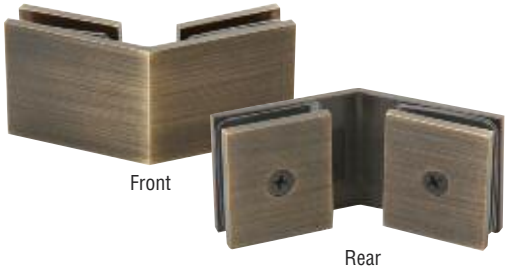

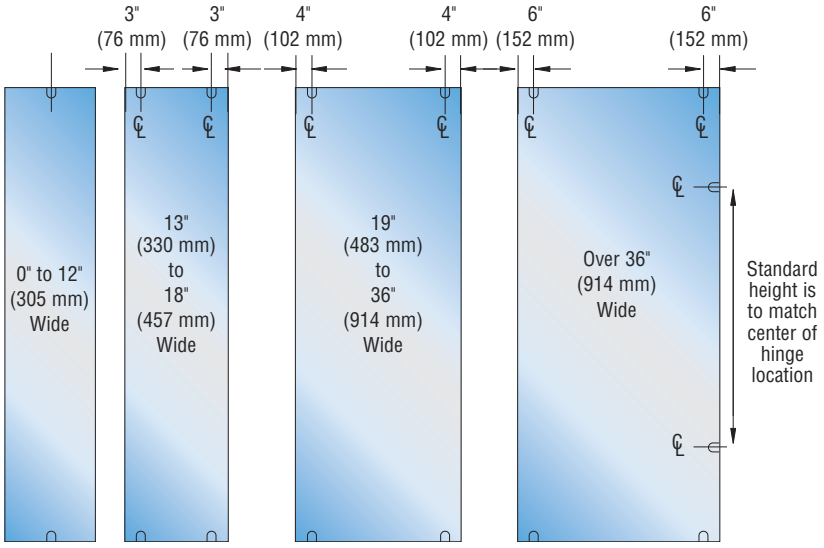

CRL Guidelines for Glass Clamp Positioning

Top and Bottom Placement

In most Clamp installations the top or bottom placement fall under these recommended guidelines.

Depending on the design and symmetry of the shower enclosure, CRL Glass Clamps can be positioned in a variety of locations. However, you should never place the design above the structural strength of the unit. With a little planning you can generally accomplish both feats.

The diagrams to the right were developed as guidelines to assist with proper positioning of our Glass Clamps. As always, if you have any questions concerning Clamp placement, contact our Shower Technical Sales Department for design assistance.

Panel Width	Clamp Location (To Center-Line of Hole)
0 to 12" (305 mm)	Location depends on installation conditions, but at least one Clamp is always recommended.
13" (330 mm) to 18" (457 mm)	Two Clamps recommended, located 3" (76 mm) in from each vertical edge.
19" (483 mm) to 36" (914 mm)	Two Clamps recommended, located 4" (102 mm) in from each vertical edge.
Over 36" (914 mm)	Two Clamps recommended, located 6" (152 mm) in from each vertical edge.

Side Placement

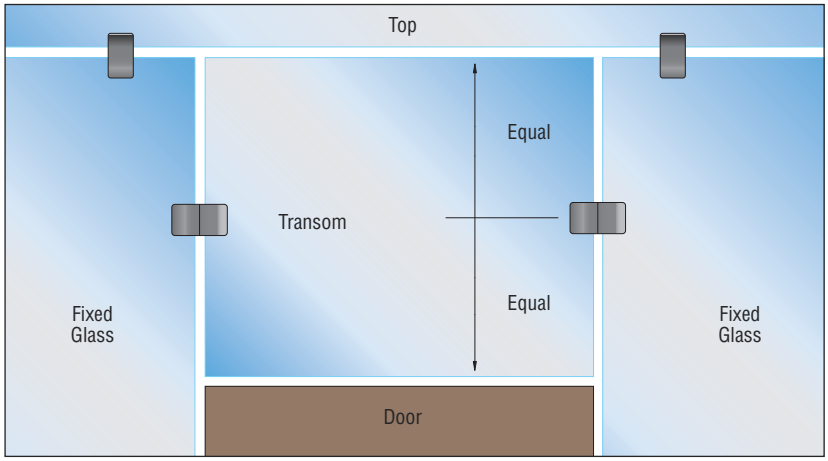

Side placement of the Clamps depends on installation conditions, but most of the time the placement location matches Hinges or some other hardware to achieve symmetry. At least one Clamp should be positioned near the top, unless a header is used.

CAT. NO. SDT21

Movable Transom Clamp Placement

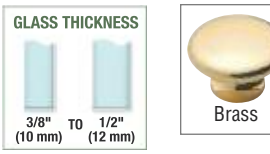

Transom Clamps should be perfectly centered to provide a "teeter-totter" effect to the moving panel.

Complete Glass Clamp Installation Details are shown in our Cat. No. SDT21 Frameless Shower Door Guide. Contact your CRL Sales Representative to purchase this over 800 page Guide to Design Criteria, Glass Fabrication, Installation Details, and a complete set of Templates for CRL Frameless Shower Door Hardware. Or you may contact our Shower Technical Sales Department for individual assistance with your project.

CRL CLAMPS FOR 3/8" TO 1/2" (10 TO 12 MM) GLASS

CRL Traditional Glass Clamps

- For 5/16" to 1/2" (8 to 12 mm) Glass
- Used to Secure Fixed Panels of Glass for Frameless Shower Enclosures
- A Nice Option to More Traditional U-Channel, in that the Clamps Help the Appearance of an 'All-Glass' Look
- Glass Fabrication Required to Accommodate Clamps

USE MONOLITHIC TEMPERED GLASS

Brass

See the complete range of beautiful shower hardware finishes on page 114J

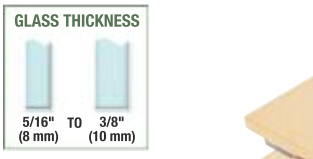

Our solid brass Traditional Glass Clamps are designed to secure glass panels in contemporary shower enclosures. They assist in maintaining the frameless appearance and provide a clean looking alternative to U-Channel "framing". All our Traditional Clamps feature solid brass or stainless steel construction, and a variety of finishes to match our complete line of Shower Door Hinges and Handles. Custom finishes can be ordered.

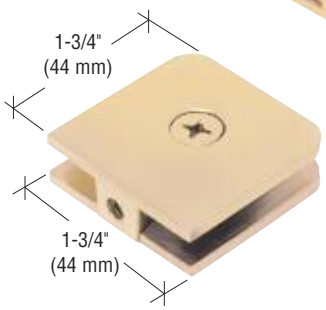

CRL Fixed Panel Standard U-Clamps

Fixed Panel Standard U-Clamps mount directly to the wall, ceiling or floor to secure vertical fixed glass panels. Clearance between the glass and the floor is 5/32" (4 mm) to 3/16" (5 mm). Clear silicone can be used to provide a clean, water-tight seal.

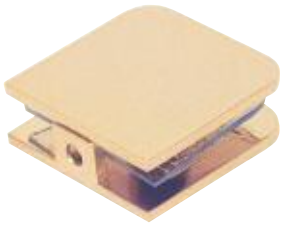

SPECIFICATIONS:
Glass Thickness: 5/16" (8 mm) and 3/8" (10 mm)
Size: 1-3/4" (44 mm) wide x 1-3/4" (44 mm) high
Material: Solid Brass
Includes: Mounting Screw and Clear Gaskets
Hole Diameter Required: 5/8" (16 mm) or 3/4" (19 mm)

NOTE: An additional set of clear gaskets (Cat. No. UCG77) is required for 5/16" (8 mm) glass

CRL Traditional 90 Degree Glass-to-Glass Clamps

A truly versatile 90 Degree Glass-to-Glass Clamp that has two uses: As a 90 Degree Clamp for vertical fixed panels in a glass shower enclosure; as a bracket for horizontal glass shelves within the enclosure. The traditional 90 Degree Clamp design allows for flush mounting of shelf to wall, or for adjoining panels to meet with a minimal gap.

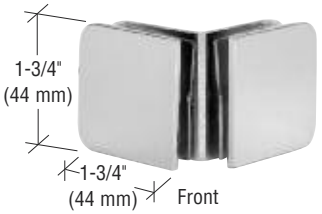

SPECIFICATIONS:

Glass Thickness: 5/16" (8 mm) to 3/8" (10 mm)
Size: 1-3/4" (44 mm) wide x 1-3/4" (44 mm) high (each plate)
Material: Solid Brass or Stainless Steel
Includes: Gaskets and wood screw for wall mount application
Hole Diameter Required: 5/8" (16 mm) or 3/4" (19 mm) each panel

NOTE: An additional set of gaskets is required for 5/16" (8 mm) glass (Cat. No. UCG77)

CRL Traditional 135 Degree Glass-to-Glass Clamps

Traditional 135 Degree Glass-to-Glass Clamps are designed to join 5/16" (8 mm) to 1/2" (12 mm) thick glass panels that meet at 135 degrees.

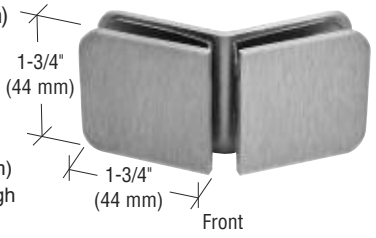

SPECIFICATIONS:

Glass Thickness: 5/16" (8 mm) to 1/2" (12 mm)
Size: 1-3/4" (44 mm) wide x 1-3/4" (44 mm) high (each plate)
Material: Solid Brass
Includes: Gaskets
Hole Diameter Required: 5/8" (16 mm) or 3/4" (19 mm) each panel

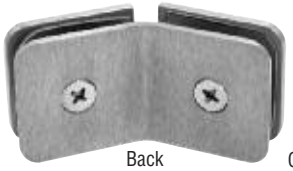

NOTE: An additional set of gaskets is required for 5/16" (8 mm) glass (Cat. No. UCG77)

CRL CLAMPS FOR 5/16" TO 1/2" (8 TO 12 MM) GLASS

CRL Traditional 180 Degree Glass-to-Glass Clamps

Brass

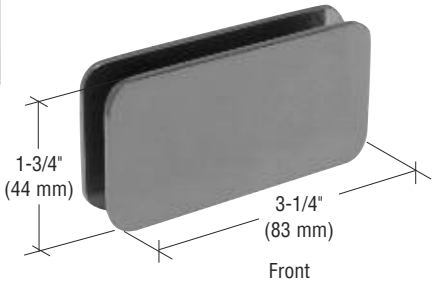

See the complete range of beautiful shower hardware finishes on page 114J

USE MONOLITHIC TEMPERED GLASS

Traditional 180 Degree Glass-to-Glass Clamps are ideal for fixed transom or inline panel installations in frameless shower enclosures. Stud will fit between panels with 7/16" (11 mm) gap, or you can notch the glass around the screw for a tighter gap.

SPECIFICATIONS:
Glass Thickness: 5/16" (8 mm) to 1/2" (12 mm)
Size: 3-1/4" (83 mm) wide x 1-3/4" (44 mm) high
Material: Solid Brass
Includes: Gaskets
Glass Fabrication Required: 7/16" (11 mm) gap required between two panels, or you can notch the panels around the screw stud for a tighter gap

NOTE: An additional set of gaskets is required for 5/16" (8 mm) glass (Cat. No. UCG77)

CRL Adjustable Glass Clamps

- **Adjusts for Non-Standard Angles**
- **Two Models Available**

Our solid brass Wall Mount and Glass-to-Glass Adjustable Glass Clamps are designed to secure glass panels in contemporary shower enclosures. They assist in maintaining the frameless appearance, and provide a clean looking alternative when a wall is not at 90 degrees to the fixed panel, or the glass-to-glass application is not a standard angle. This range of Glass Clamps can accommodate 5/16" (8 mm) to 1/2" (12 mm) glass. Custom finishes are available.

FINISHES:

Most models are stocked in the finishes shown here, others are available on special order.

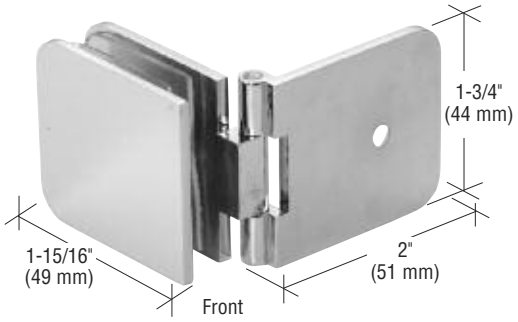

CRL Adjustable Wall Mount Clamps

- **Nine Popular Finishes**

Adjustable Wall Mount Clamps mount directly to the wall, ceiling or floor to secure vertical fixed glass panels at any angle. Clearance between the glass and surface is 5/32" (4 mm) to 3/16" (5 mm). Clear silicone can be used to provide a clean, water resistant seal.

SPECIFICATIONS:
Glass Thickness: 5/16" (8 mm) to 1/2" (12 mm)
Size: 1-15/16" (49 mm) wide x 1-3/4" (44 mm) high
Material: Solid Brass
Includes: Clear Gaskets and Mounting Screw
Hole Diameter Required: 7/8" (22 mm) each panel
NOTE: An additional set of gaskets is required for 5/16" (8 mm) glass (Cat. No. UCG77)

ADJ037ABR	Antique Brass
ADJ0370RB	Oil Rubbed Bronze
ADJ037GP	Gold Plated

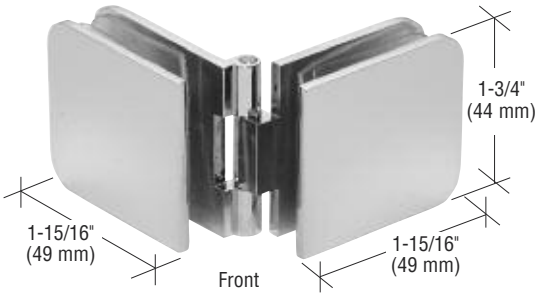

Minimum order: 1 each. All Glass Clamps can be combined for quantity pricing.

CRL Adjustable Glass-to-Glass Clamps

- **Nine Popular Finishes**

Adjustable Glass-to-Glass Clamps are designed to join two glass panels 5/16" (8 mm) to 1/2" (12 mm) thick that meet between 90 and 180 degrees. Clear silicone can be used to seal the gap and provide a clean water resistant appearance.

SPECIFICATIONS:
Glass Thickness: 5/16" (8 mm) to 1/2" (12 mm)
Size: 1-15/16" (49 mm) wide x 1-3/4" (44 mm) high (each plate)
Material: Solid Brass
Includes: Clear Gaskets
Hole Diameter Required: 7/8" (22 mm) each panel
NOTE: An additional set of gaskets is required for 5/16" (8 mm) glass (Cat. No. UCG77)

Minimum order: 1 each. All Glass Clamps can be combined for quantity pricing.

CRL Round Style Fixed Panel U-Clamps

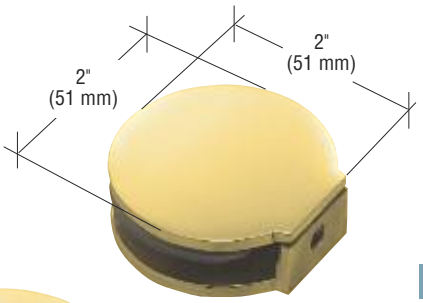

new

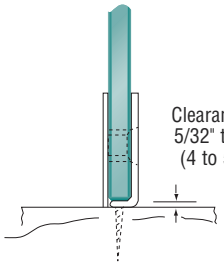

Solid Brass Round Style Clamps are designed to secure glass panels in contemporary shower enclosures. They assist in maintaining the frameless appearance and provide a clean looking alternative to U-Channel. Clear silicone can be used to seal the gap and provide a clean, water-tight seal.

SPECIFICATIONS:
Glass Thickness: 5/16" (8 mm) to 1/2" (12 mm)
Size: 2" (51 mm) Wide x 2" (51 mm) High
Material: Solid Brass
Includes: Mounting Screw and Clear Gaskets
Hole Diameter Required: 5/8" (16 mm) or 3/4" (19 mm)
NOTE: An additional set of clear gaskets (Cat. No. UCG77) is required for 5/16" (8 mm) glass

Minimum order: 1 each. All Glass Clamps can be combined for quantity pricing.

CRL No-Drill Fixed Panel Clamps

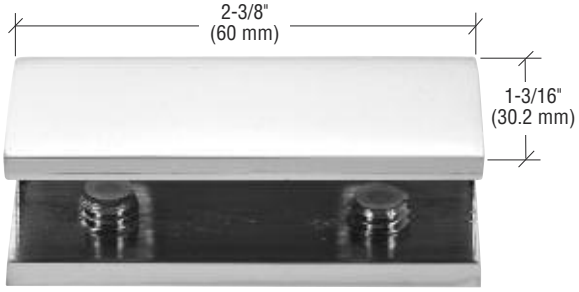

new

Made of solid brass, and available in numerous stock finishes, No-Drill Fixed Panel Clamps provide an alternative to Clamps requiring drilled holes or notches in the glass. Two nylon tipped set screws are tightened to secure the glass. Mounting screws are also provided for the wall/ceiling/floor. Silicone must also be used for reinforcement along all glass edges where Clamps are used.

SPECIFICATIONS:
Glass Thickness: NDC4: 5/16" (8 mm) to 3/8" (10 mm); NDC6: 1/4" (6 mm)
Material: Solid Brass
Includes: Mounting Screw and Clear Gaskets
No Glass Fabrication Required

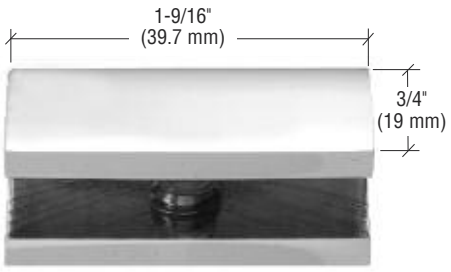

MODEL NDC4
For 5/16" to 3/8" (8 to 10 mm) Glass

FINISHES:

Most models are stocked in the finishes shown here, others are available on special order.

IMPORTANT NOTE: Do not hinge a door off a fixed panel using these Clamps. Clamps must be used on minimum of three sides of fixed panel (top, bottom, and at least one side). Silicone must be used for reinforcement along the entire edge of the glass where Clamps are used. It is the responsibility of the installer to determine if adequate structural backing support is being used.

Minimum order: 1 each. All Glass Clamps can be combined for quantity pricing.

CRL 3-Point Ceiling Mount Movable Transom Clamps

- Mounts to Ceiling Instead of Traditional Side Mounting Application
- Three Stopping Points Include 45 Degrees Out, Closed Position, and 45 Degrees In
- Stocked in Two Styles and Five Popular Finishes

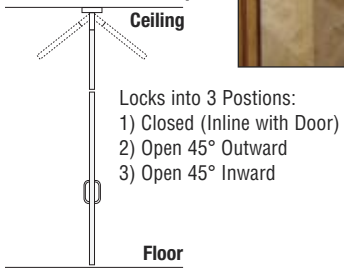

Our new 3-Point Movable Transom Clamps provide design alternatives to the traditional side mounted "teeter-totter" application. Mounted to the ceiling instead of the sides of the transom allows more glass explosure. The Clamps will hold at 45 degrees inward, at the closed position, and at 45 degrees outward. The square or beveled appearance matches many of our popular Hinge Series. Available finishes are Polished Chrome, Polished Brass, Brushed Nickel, Oil Rubbed Bronze, and Satin Chrome. Accommodates 5/16", 3/8", and 1/2" (8, 10, and 12 mm) thick tempered glass. **NOTE:** Maximum transom size is 28" W x 12" H (711 x 305 mm). Two Clamps must be used per transom.

new

MODEL GCB186

MODEL GCB188

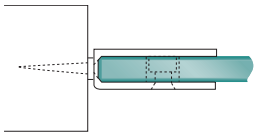

MODEL GCB335

Our Movable Transom Glass Clamps feature solid brass construction and a variety of finishes to match our complete line of Shower Door Hinges. Appropriate mounting screws and one set of gaskets are included with each Clamp. Extra gaskets may be ordered separately (Cat. No. UCG77). Glass fabrication is required.

CRL Standard Wall Mount Movable Transom Glass Clamps

- Simply Screws Into Wall
- Washer Allows Transom to Pivot

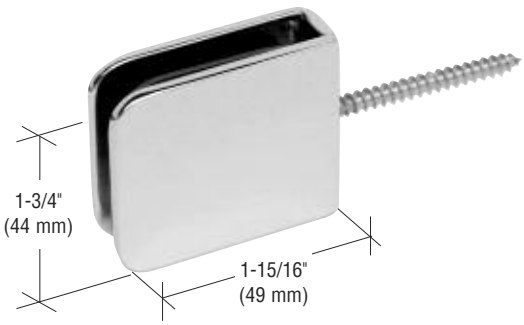

Wall Mount Movable Transom Application

Standard Wall Mount Movable Transom Glass Clamps are designed to rotate a movable transom off a wall. Clamp must be centered on the transom to achieve balanced movement and optimum performance. Replacement Nylon Washer is Cat. No. 90295A120, and Gaskets are Cat. No. UCG77.

SPECIFICATIONS:
Glass Thickness: 5/16" (8 mm) to 1/2" (12 mm)
Size: 1-15/16" (49 mm) wide x 1-3/4" (44 mm) high
Material: Solid Brass
Includes: Gaskets and mounting screw
Hole Diameter Required: 5/8" (16 mm) or 3/4" (19 mm)
NOTE: Maximum transom size is 12" (305 mm) high x 30" (762 mm) wide. Larger transoms require the use of Square or Beveled Transom Clamps, or pivot hinges used as movable transom clamps. Call for details.

CRL Standard 180 Degree Glass-to-Glass Movable Transom Clamps

Brass

See the complete range of beautiful shower hardware finishes on page 114J

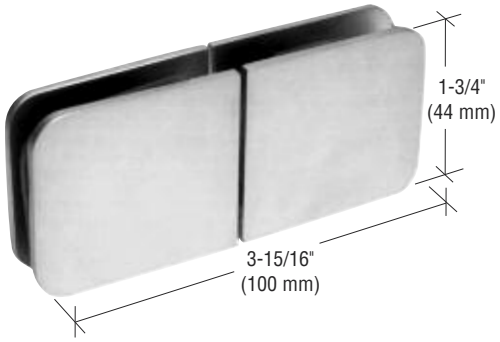

• Special Nylock Nut Allows Pivoting of Clamps

The Standard 180 Degree Glass-to-Glass Movable Transom Clamp is designed to pivot transom panels above the shower door. Wall Mount and 180 Degree Glass-to-Glass Clamps can be used in combination, depending upon the configuration of the enclosure. Clamp should be centered on glass for optimum performance. Replacement Nylon Washer is Cat. No. 90295A120, and Gaskets are Cat. No. UCG77.

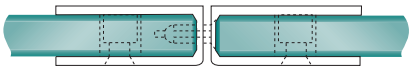

SPECIFICATIONS:

Glass Thickness: 5/16" (8 mm) to 1/2" (12 mm)
Size: 3-15/16" (100 mm) wide x 1-3/4" (44 mm) high
Material: Solid Brass
Includes: Gaskets
Glass Fabrication Required: 5/8" (16 mm) or 3/4" (19 mm) diameter hole in fixed panel and a notch in transom.
NOTE: Maximum transom size is 12" (305 mm) high x 30" (762 mm) wide. Larger transoms require the use of Square or Beveled Transom Clamps, or pivot hinges used as movable transom clamps. Call for details.

CRL Standard 135 Degree Glass-to-Glass Movable Transom Clamps

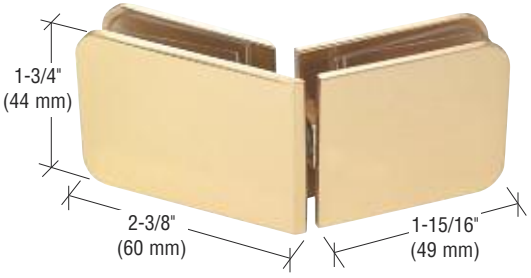

• Can Be Used in Conjunction With Other CRL Movable Transom Clamps

135 Degree Movable Transom Glass Clamps are used to pivot transom panels above the door, when the door is meeting a fixed panel at 135 degrees. These Clamps can also be used in combination with our Wall Mount Movable Transom Clamp (Cat. No. GCB186), or our 180 Degree Glass-to-Glass Movable Transom Clamp (Cat. No. GCB188). The movable transom and the door should be square cut, while the fixed panel using the 135 Degree Movable Transom Clamp should be mitered at 45 degrees. Constructed of solid brass, these Clamps come in all standard finishes, with custom finishes available on special order. Clamp should be centered on glass for optimum performance. Replacement parts are Cat. Nos. 90295A120 (Nylon Washer), 193004 (Nut), 211039 (Screw), and UCG77 (Gaskets).

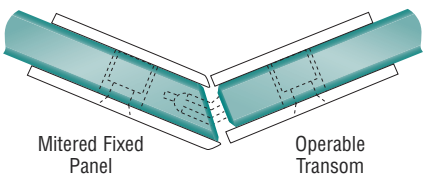

SPECIFICATIONS:

Glass Thickness: 5/16" (8 mm) to 1/2" (12 mm)
Size: 1-15/16" (49 mm) wide x 1-3/4" (44 mm) high
Material: Solid Brass
Includes: Gaskets
Glass Fabrication Required: 5/8" (16 mm) or 3/4" (19 mm) diameter hole in movable transom, notch in the fixed panel
NOTE: Maximum transom size is 12" (305 mm) high x 30" (762 mm) wide.

Minimum order: 1 each. All Glass Clamps can be combined for quantity pricing. **NOTE:** All Shower Door Transom Clamps are sold by the each, not in pairs. Be sure to order a minimum of two each clamps to install one transom.

CRL Sleeve-Over Glass Clamps

Sleeve-Over Glass Clamps were designed with two purposes in mind. The first is to provide a mechanical fastener to assist with shear forces placed on the glass panels. The second is to provide a securing clamp that would hold the glass panels in position while the sealant applied in the joint cures (the silicone sealant glues the glass panels together, prevents water leakage, and provides the pull strength to keep panels from separating). Clamps are secured in place by a nylon tipped Allen screw, and can be used on both square cut or mitered panels.

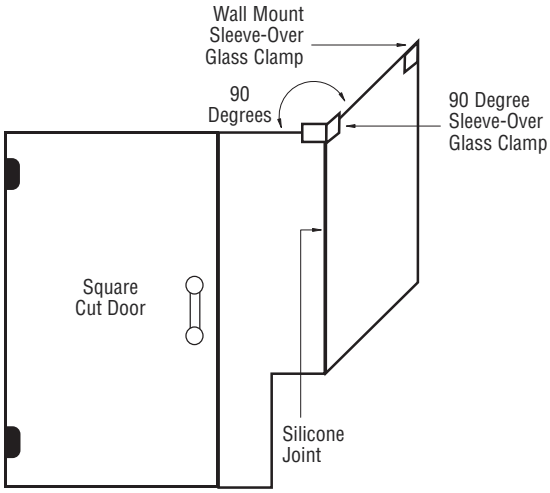

SPECIFICATIONS:
Glass Thickness: 5/16" (8 mm) to 1/2" (12 mm)
Material: Solid Brass
Includes: Gaskets
No Glass Fabrication Required
NOTE: Clamps tighten using nylon tipped Allen screws. These Clamps are not designed to take the place of Headers or a Support Bar. Contact CRL Frameless Shower Technical Sales for more details.

UC66GP	Gold Plated
UC66W	White/Chrome Screw
UC66BL	Black/Chrome Screw

Minimum order: 1 each. All Glass Clamps can be combined for quantity pricing.

CRL Junior Traditional 90 Degree Glass-to-Glass Clamps

A truly versatile 90 Degree Glass Clamp that has two uses: As a 90 Degree Clamp for vertical fixed panels in a glass shower enclosure; as a Bracket for horizontal glass shelves within the enclosure. The traditional 90 Degree Clamp design allows for flush mounting of shelf to wall, or for adjoining panels to meet with a minimal gap.

SPECIFICATIONS:
Glass Thickness: 1/4" (6 mm)
Size: 1-3/4" (44 mm) wide x 1-3/4" (44 mm) high (each plate)
Material: Solid Brass
Includes: Gaskets and Wood Screw for wall mount application
Hole Diameter Required: 5/8" (16 mm) or 3/4" (19 mm) (each panel)

MODEL GCB690
90 Degree Glass-to-Glass Clamp

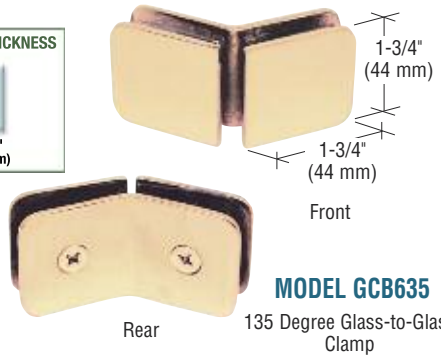

CAT. NO.	FINISH
GCB690CH	Polished Chrome
GCB690SC	Satin Chrome (Matte)
GCB690BN	Brushed Nickel
GCB690BR	Polished Brass
GCB6900RB	Oil Rubbed Bronze
GCB690GP	Gold Plated
GCB690W	White/Chrome Screw
GCB690BL	Black/Chrome Screw

Minimum order: 1 each. All Glass Clamps can be combined for quantity pricing.

CRL Junior Traditional 135 Degree Glass-to-Glass Clamps

SPECIFICATIONS:
Glass Thickness: 1/4" (6 mm)
Size: 1-3/4" (44 mm) wide x 1-3/4" (44 mm) high
Material: Solid Brass
Includes: Gaskets
Hole Diameter Required: 5/8" (16 mm) or 3/4" (19 mm) (each panel)

MODEL GCB635
135 Degree Glass-to-Glass Clamp

These Clamps are designed to join 1/4" (6 mm) thick glass panels that meet at 135 degrees.

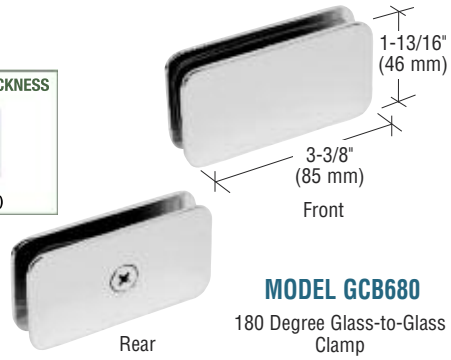

CAT. NO.	FINISH
GCB635CH	Polished Chrome
GCB635SC	Satin Chrome (Matte)
GCB635BN	Brushed Nickel
GCB635PN	Polished Nickel
GCB635BR	Polished Brass
GCB635GP	Gold Plated
GCB635W	White/Chrome Screw

Minimum order: 1 each. All Glass Clamps can be combined for quantity pricing.

CRL Junior Traditional 180 Degree Glass-to-Glass Clamps

SPECIFICATIONS:
Glass Thickness: 1/4" (6 mm)
Size: 3-3/8" (85 mm) wide x 1-13/16" (46 mm) high
Material: Solid Brass
Includes: Gaskets
Hole Diameter Required: 7/16" (11 mm) gap required between two panels, or you can notch the panels around the screw

MODEL GCB680
180 Degree Glass-to-Glass Clamp

180 Degree Glass-to-Glass Clamp ideal for 1/4" (6 mm) inline fixed transom or panel installations.

CAT. NO.	FINISH
GCB680CH	Polished Chrome
GCB680SC	Satin Chrome (Matte)
GCB680BN	Brushed Nickel
GCB680BR	Polished Brass
GCB680GP	Gold Plated
GCB680W	White/Chrome Screw

Minimum order: 1 each. All Glass Clamps can be combined for quantity pricing.

CRL CLAMPS FOR 1/4" (6 MM) GLASS

CRL Junior Cathedral Wall Mount Clamps

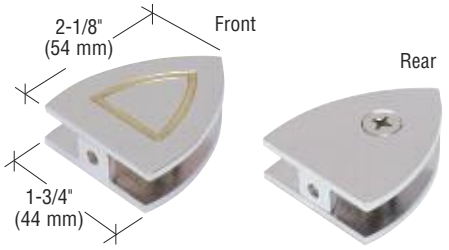

FINISHES:

Most models are stocked in the finishes shown here, others are available on special order.

Junior Cathedral U-Clamps mount directly to the wall, ceiling or floor to secure vertical fixed glass panels. The Clamps are designed to match two-tone Junior Cathedral Hinges. Clearance between the glass and the floor is 5/32" (4 mm) to 3/16" (5 mm). Seal the gap with clear silicone.

SPECIFICATIONS:
Glass Thickness: 1/4" (6 mm)
Size: 2-1/8" (54 mm) wide x 1-3/4" (44 mm) high
Material: Solid Brass
Includes: Gaskets and Mounting Screw
Hole Diameter Required: 5/8" (16 mm) or 3/4" (19 mm)

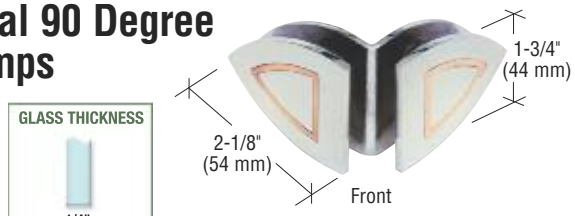

MODEL GCB6279
Wall Mount Clamp

CAT. NO.	FINISH/ACCENT
GCB6279CH	Polished Chrome/Gold Plated
GCB6279SC	Satin Chrome (Matte)/Polished Chrome
GCB6279BR	Polished Brass/Polished Chrome
GCB6279GP	Gold Plated/Satin Chrome (Matte)
GCB6279W	White/Chrome

Minimum order: 1 each. All Glass Clamps can be combined for quantity pricing.

CRL Junior Cathedral 90 Degree Glass-to-Glass Clamps

A truly versatile 90 Degree Glass Clamp that has two uses: As a 90 Degree Clamp for vertical fixed panels in a glass shower enclosure; as a Bracket for horizontal glass shelves within the enclosure. The 90 Degree Glass Clamp design allows for flush mounting of shelf to wall, or for adjoining panels to meet with minimal gap.

SPECIFICATIONS:
Glass Thickness: 1/4" (6 mm)
Size: 2-1/8" (54 mm) wide x 1-3/4" (44 mm) high each plate
Material: Solid Brass
Includes: Gaskets and Wood Screw for wall mount application
Hole Diameter Required: 5/8" (16 mm) or 3/4" (19 mm) each panel

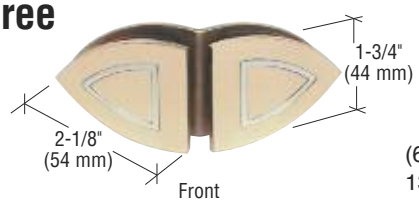

MODEL GCB6290
90 Degree Glass-to-Glass Clamp

GCB6280W	White/Chrome

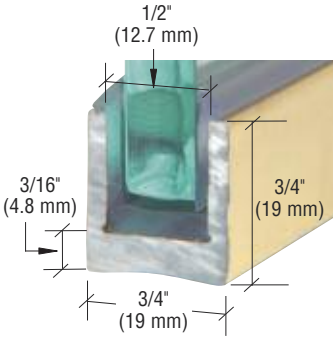

Minimum order: 1 each. All Glass Clamps can be combined for quantity pricing.

CRL Dry Glaze U-Channel With Vinyls for 5/16" and 3/8" (8 and 10 mm) Glass

- **Clear Vinyls Secure Glass in Aluminum Channel and Eliminate the Need for Messy Silicone**
- **Recess in Bottom Channel Hides Caulk Line**

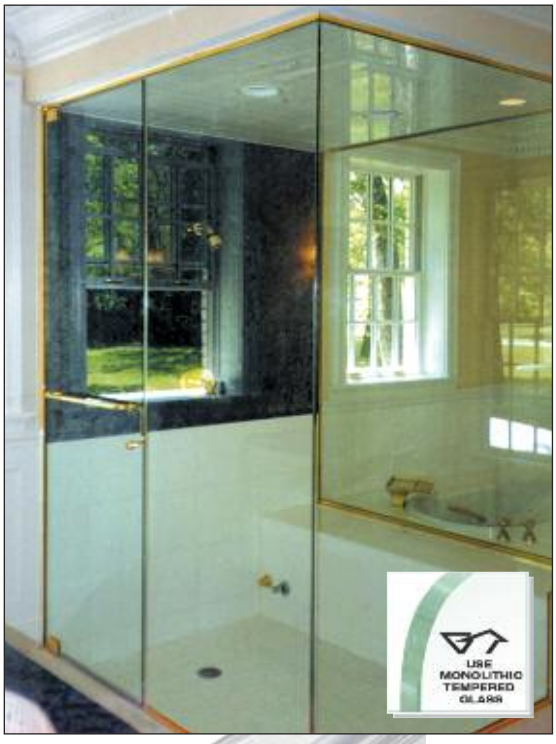

Dry Glaze U-Channel offers the installer many benefits. It eliminates the need for messy silicone between the glass and metal, dramatically reducing installation time. If the glass is ever scratched or damaged, it can be removed without the need to cut the sealant.

The extruded aluminum channel is wrapped in a protective poly sleeve with two pieces of clear vinyl to secure 5/16" or 3/8" (8 or 10 mm) glass. The Flexible Vinyl goes on the interior of the shower, while the Rigid Leg Vinyl is inserted on the exterior side. Matching finish End Caps are available, and must be ordered separately.

U-Channel End Cap
(Sold Separately)

Includes: 98" (2.49 m) lengths of Channel, Rigid Clear Vinyl, and Flexible Clear Vinyl (End Caps are Sold Separately)

98" (2.49 M) STOCK LENGTHS

CRL Fixed Panel Deep U-Channel for 3/8" and 1/2" (10 and 12 mm) Glass

- Deep Pocket Does Excellent Job of Securing Fixed Panels of Glass
- May Be Used Alone or With Regular Depth U-Channel
- Wet Glazed With Clear Silicone to Secure Glass
- Popular 98" (2.49 m) or 144" (3.66 m) Aluminum Stock Lengths
- End Caps Offered to Conceal Ends of Channel

Deep U-Channel is for securing fixed panels of glass to the wall, ceiling or floor. Widths suitable for 3/8" and 1/2" (10 and 12 mm) thick glass are available, and are individually wrapped to protect the finish. The 3/4" (19 mm) tall profile Deep U-Channel can be used also as the top channel in installations where the glass must be inserted into the top, then lowered into the Regular U-Channel used at the bottom of the enclosure.

CRL Fixed Panel Regular U-Channel for 3/8" and 1/2" (10 and 12 mm) Glass

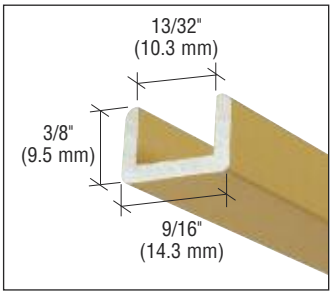

- Wet Glazed With Clear Silicone to Secure Fixed Panels of Glass
- Lower Profile Allows Maximum Glass Exposure
- Popular 98" (2.49 m) Aluminum Stock Lengths in Three Stock Finishes

Fixed Panel Regular U-Channel is used to secure fixed panels of glass in frameless shower enclosures. The 3/8" (9.5 mm) lower profile height of the channel allows maximum glass exposure for a pleasingly aesthetic appearance.

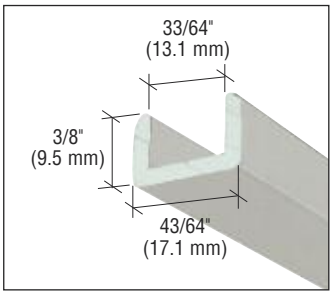

The Regular U-Channel is most commonly used on the bottom and sides of the enclosure, while the Deep U-Channel (see page 302J) is commonly used on top for maximum coverage. Cat. No. 33SMRC Mildew Resistant Clear Silicone is used to secure glass in the channel. Three stock finishes are available.

CRL Phillips Head Stainless Steel Screws

- Stainless Steel to Resist Corrosion
- #8 x 1-1/2" (38 mm) Size
- 10 Screws Per Pack
- Perfect for U-Channels

Use CRL Stainless Steel Installation Screws for a trouble-free installation of shower door extrusions. Minimum order is one pack.

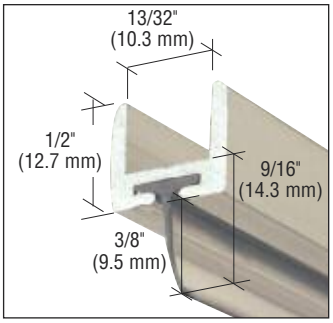

CAT. NO. P815SS

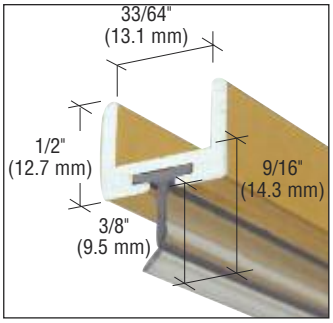

CRL Shower Door U-Channel With Wipe for 3/8" and 1/2" (10 and 12 mm) Glass

- Aluminum Channel With Built-In Vinyl Wipe Fits Onto Bottom of Shower Door
- Maintains Continuous Metal Sightline When Used on Door Next to Fixed Panels With Deep U-Channel

This door bottom mounted U-Channel With Wipe has a 1/2" (12.7 mm) profile, which makes an even sight line when used next to a fixed panel glazed with Deep U-Channel on the bottom. While many will choose to use a clear wipe at the bottom of the shower door for an 'all-glass' look, others will want the continuous appearance of metal while using this Shower Door U-Channel With Wipe. 98" (2.49 m) stock lengths in up to four popular finishes.

CRL Deluxe Header Kit for 5/16", 3/8", and 1/2" (8, 10, and 12 mm) Glass

- **Acts as a Decorative Crown Over Shower Enclosure to Secure Fixed Panels of Glass Not Going All the Way to the Ceiling**
- **Available in Three Standard Lengths**
- **Custom Finishes on Special Order**
- **Includes Snap-In Filler for Door Pocket, Wall Mounting Brackets, and Appropriate Vinyl for Snug Fit of Glass**

Our Deluxe Header Kits will provide additional support and a level of safety while securing fixed panels of glass not reaching the ceiling. Deluxe Header Kits are designed to allow installers to do "in-house" fabrication by being able to cut the Header Extrusion to size and by using a selection of component parts.

Sold in 66" (1.67 m), 98" (2.49 m), and 144" (3.66 m) stock lengths, the Deluxe Header Extrusion has only a 1-1/4" (31.8 mm) tall profile to minimize metal exposure and maximize glass exposure while maintaining safety and security. Header is constructed of Aluminum Alloy. A choice of profiles is available. Our popular "round on one side and flat on the other side" profile has been joined by a new "flat on both sides" profile.

Certain installations will require the use of additional components: Adapter Blocks used with Top and Bottom Pivot Hinges; Metal Corners used for various angled installations; Blank Wall Mounting Bracket for situations where the Header does not meet the wall at 90 degrees are all sold separately (see pages 306J-307J). **NOTE:** See page 309J for Junior Header Kits used with 1/4" (6 mm) glass.

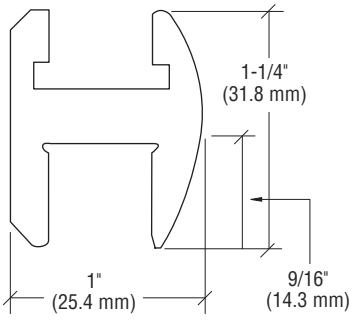

- **Deluxe Headers Will Work Perfectly With Our Prima Series Pivot Hinges (See Pages 117J-119J)**

- **Choice of Profiles: Round on One Side and Flat on the Other, or Flat on Both Sides of Header**

CRL Deluxe Header Kit for 5/16", 3/8", and 1/2" (8, 10, and 12 mm) Glass

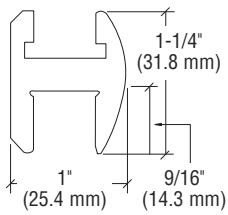

Each Deluxe Header Kit Contains:

- One 66" (1.67 m), 98" (2.49 m) or 144" (3.66 m) Piece of Header Extrusion
- One 36" (914 mm) Piece of Snap-In Filler for Door Pocket, Simply Trim to Fit
- Pack of Two BWB2 Brass Wall Mounting Brackets
- Clear Vinyl for 5/16" (8 mm) and 3/8" (10 mm) Glass

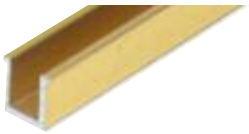

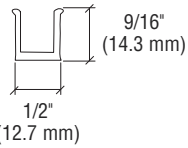

NOTE: If choosing to use this Header Kit with 1/4" (6 mm) glass, Cat. No. HV140 Vinyl may be ordered separately (see page 307J). Vinyl not required for 1/2" (12 mm) glass

Snap-In Filler Insert (Fits in Header Above Door for Even Sightline)
See page 307J

SQH Series
New Flat/Flat Profile Deluxe Header Extrusion

Brass Wall Mounting Brackets Included in Kit. May Be Ordered Separately. (Two Per Pack)

CRL Adapter Block for Prima, Cardiff, Rondo, and Shell Pivot Hinges

- Purpose: Adapts Top Pivot Hinge to Deluxe Header

This CRL Adapter Block is commonly used with the Regular Prima Series (not Junior or Senior Series), Cardiff, Shell, and Rondo Series Hinges. The Adapter Block allows the Hinge to be mounted directly into the Shower Header Assembly, and can be adjusted sideways to any position required. The Adapter Block has a clearance notch which allows it to fit under the wall bracket when the Hinge is mounted close to a wall. A drilled 3/16" (5 mm) hole in the Header is required for installation, and the Hinge base plate must be removed to mount the Hinge to the Header. Each Adapter Block is individually packed with a screw.

CAT. NO.	FOR USE WITH HEADER FINISHES

Minimum order: 1 each. Finishes can be combined for quantity pricing.
Adapter Block is visible only when shower door is open.

CRL Adapter Block for Senior Prima and Senior Cardiff Hinges

- Purpose: Adapts Top Pivot Hinge to Deluxe Header

The CRL Senior Adapter Block is used with our Senior Prima and Senior Cardiff Hinges. The Senior Adapter Block allows the Hinge to be mounted directly into the Deluxe Header Assembly, and can be slid sideways to any position desired. The Senior Adapter Block has a clearance notch, which allows it to fit under the wall bracket when the Hinge is mounted close to the wall. A drilled 1/4" (6.3 mm) hole in the Header is required for installation, and the base plate of the top hinge must be removed to mount the Hinge to the Header. The Senior Adapter Block comes with a pivot attached. The factory-installed Pivot Pin must be removed from the Hinge, and the Pivot Pin attached to the Senior Adapter Block is then installed into the Hinge. Each Senior Adapter Block is individually packed with a screw.

CAT. NO. BHC135

CAT. NO. BHC373

Aluminum or Brass constructed Header Corners connect and secure header pieces meeting at various angles. The appropriately angled Corner slides neatly into the "T" slot in the top of the Header, and is visible from a top view only, thus concealing the appearance from normal bathroom viewing areas. We offer fixed 90 and 135 Degree Corners, along with Adjustable Corners for non-standard angles.

ALUMINUM CAT. NO.	BRASS CAT. NO.	ANGLE
CD390	BHC90	90 Degree
CD395	BHC135	135 Degree
CD373	BHC373	Adjustable

Minimum order: 1 each. Can be combined for quantity pricing.

CRL Wall Mounting Brackets for Use With Deluxe Header

CAT. NO. SHB100
(2 per pack)

CAT. NO. BWB2
(2 per pack)

Aluminum or Brass constructed Wall Brackets connect the Header to the wall surface. Deluxe Brass constructed Wall Brackets (Cat. No. BWB2) are included in every Header Kit. Brackets come two per pack with screws.

NOTE: If the Header does not meet the wall at a 90 degree angle, a Blank Wall Mounting Bracket is offered for field fabrication (see below).

CAT. NO.	MATERIAL
SHB100	Aluminum
BWB2	Brass

Minimum order: 1 pack. Can be combined for quantity pricing.

CRL Replacement Clear Vinyl for Deluxe Header

CRL offers Replacement Vinyl if you want to keep extra on hand. Appropriate lengths of Vinyl for 5/16" (8 mm) and 3/8" (10 mm) glass are included in each Deluxe Header Kit. HV140 Vinyl is only required if using Deluxe Header Kit with 1/4" (6 mm) glass. Vinyl for 1/2" (12 mm) glass is not required, as the fit is already tight enough.

CAT. NO.	FOR GLASS THICKNESS
HV380	3/8" (10 mm)
HV516	5/16" (8 mm)
HV140	1/4" (6 mm)

Minimum order: 8 feet. Sold only in eight foot (2.49 m) increments.

CRL Blank Wall Mounting Bracket for Use With Deluxe Header

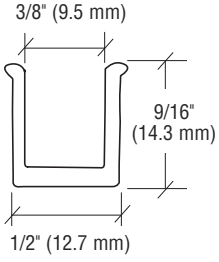

Our Blank Wall Mounting Bracket was designed to work where the Header does not meet the wall at a typical 90 degree angle, and standard Wall Mounting Brackets will not work. Make this Blank Wall Mounting Bracket any angle by identifying the angle needed in the field and fabricating the Bracket accordingly.

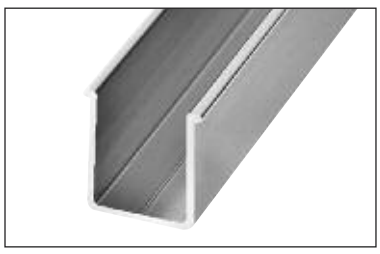

CAT. NO.	DESCRIPTION
SHB225	Blank Wall Mounting Bracket

Minimum order: 1 each.

CRL Replacement Snap-In-Filler for Deluxe Header

A 36" (914 mm) piece of Snap-in-Filler is provided with each Deluxe Header Kit, and is also available for replacement in both 36" (914 mm) and 72" (1829 mm) lengths in most finishes. Snap-in-Filler puts the finishing touch on the installation of the Deluxe Header. By simply press fitting the Filler into the Header directly above the door pocket, you create an even sightline of metal, and fill what would have been an unattractive Header pocket.

CRL EZ-Adjust Header Kit for 5/16", 3/8", and 1/2" (8, 10, and 12 mm) Glass

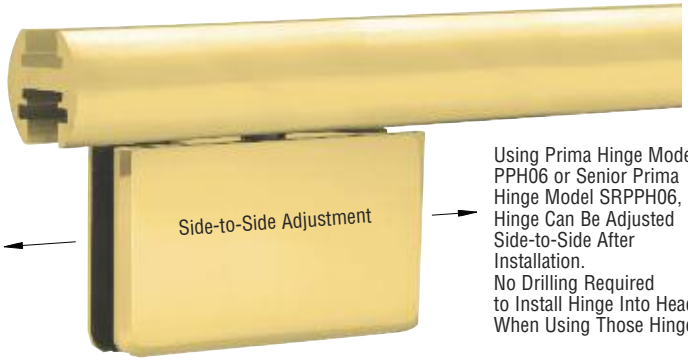

new

- Secures Shower Enclosure Not Going to Ceiling
- Allows Horizontal (Side-to-Side) Adjustment of Hinge After Installation
- No Hole Drilling Required Through Header for Adaptor, if Using Prima Hinge Model PPH06 or Senior Prima Hinge Model SRPPH06
- Constructed of Heavy Aluminum Alloy
- Clear Vinyl Included for 5/16" and 3/8" (8 and 10 mm) Glass

The new EZ-Adjust Shower Door Header Kit provides a safe and beautiful frameless shower installation by securing enclosures that do not reach the ceiling. Acting as a "crown" over the top of the glass, the EZ-Adjust Shower Door Header Kit is bracketed to each wall. The EZ-Adjust System allows adjustability after installation in that the hinge (PPH06 and SRPPH06 only) can be moved left and right as desired. No drilling through the Header is required for an Adaptor Block if using Prima Hinge Model PPH06 or Senior Prima Hinge Model SRPPH06, due to a built-in adaptation to the hinges (see pages 120J and 126J). Constructed of heavy aluminum alloy, the EZ-Adjust Header Kit is stocked in up to eight popular finishes. A choice of 98" and 144" (2.49 and 3.66 m) stock lengths allow the user to cut as desired. A Snap-in Filler Insert for the door pocket, along with Wall Mounting Brackets and Clear Glazing Vinyl round out the Kit. Other accessories that may be ordered separately are shown on page 307J.

IMPORTANT NOTE: Prima Hinge Model PPH06 and Senior Prima Hinge Model SRPPH06 can be used only with the EZ-Adjust Header System, due to a built-in adaptation to the hinges (see pages 120J and 126J). No drilling required in Header when using those hinges. If using other Top MountPivot Hinges with the EZ-Adjust Header System, an Adaptor Block must be ordered from page 306J, and drilling will be required through the Header to accommodate the Adaptor Block. Standard models or SRPPH01 are used for the bottom hinge.

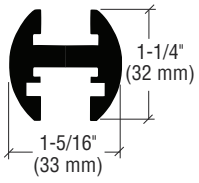

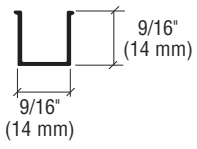

Using Prima Hinge Model PPH06 or Senior Prima Hinge Model SRPPH06, Hinge Can Be Adjusted Side-to-Side After Installation.
No Drilling Required to Install Hinge Into Header When Using Those Hinges.

(Hinge Not Included)

EACH EZ-Adjust HEADER KIT CONTAINS:

1 – 98" (2.49 m) or 144" (3.66 m) Header Length
1 – 36" (914 mm) Snap-In Filler Insert for Door Pocket
1 – Deluxe Wall Mount Bracket Kit (Two Brackets)
8 Feet (2.44 m) of 5/16" (8 mm) and 3/8" (10 mm) Clear Vinyl

Minimum order: 1 each. Finishes and lengths can be combined for quantity pricing.

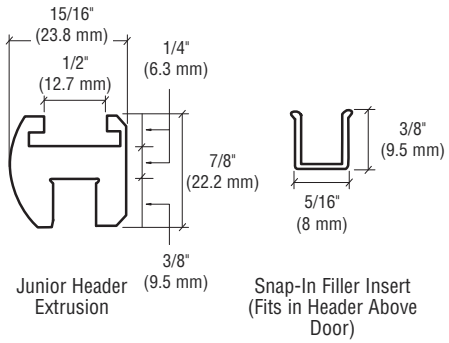

NOTE: Glazing Vinyl Required When Using 5/16" (8 mm) and 3/8" (10 mm) Glass in EZ-Adjust Header System. No vinyl required for 1/2" (12 mm) Glass

CRL JUNIOR HEADER KIT AND THRESHOLDS

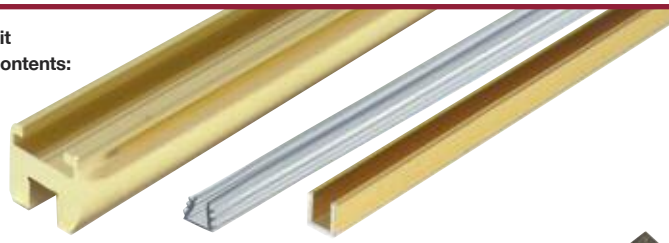

CRL Junior Header Kit for 1/4" (6 mm) Glass

- **Secures Shower Enclosures Not Going All the Way to the Ceiling**
- **Dual Profile Allows User Choice of Soft Rounded Side or Flat Side**
- **98" (2.49 m) Lengths in Your Choice of Five Popular Finishes**

The Junior Header Kit for 1/4" (6 mm) thick glass provides support to shower enclosures not going all the way to the ceiling. Installers can fabricate in-house using the components provided. The Kits contain all items needed for installation, except the JRHAB01 Junior Adapter Block, which must be purchased separately. The Junior Header is constructed of Aluminum Alloy.

Kit Contents:

Header Vinyl Snap-In Filler

EACH JUNIOR HEADER KIT INCLUDES:

- 98" (2.49 m) Piece of Header Extrusion
- 36" (914 mm) Piece of Snap-In Filler for Door Pocket
- Vinyl for 1/4" (6 mm) Thick Glass
- Pack of Two Wall Mounting Brackets
- Six Corners (Two Adjustable, Two Fixed 90 Degree, and Two Fixed 135 Degree)
- 3 mm Allen Wrench
- 12 each 8 x 3/8" Pan Head Phillips Sheet Metal Screws

CRL Shower Door Thresholds

Shower Door Thresholds are mounted directly below the shower door to let water drain back into the shower stall. Ideal for flat or out-sloping curbs. The rounded low contour of the Half Round Threshold will not harm feet. The Tapered Style Sill leaves a minimal sightline from the exterior of the shower. Thresholds may be used in conjunction with a bottom sweep. Use Cat. No. 33SMRC Mildew Resistant Silicone Sealant to adhere to curb of shower stall.

CRL Fixed Panel Support Bars

- **May Be Used as an Alternative to CRL Header Kits to Secure Fixed Panels and Provide Safety**
- **Wall-to-Glass and Glass-to-Glass Models Available for 1/4" to 1/2" (6 to 12 mm) Glass**
- **Simply Cut to Size to Accommodate Individual Configurations**
- **No Hole Drilling Required**

Brass

See the complete range of beautiful shower hardware finishes on page 114J

USE MONOLITHIC TEMPERED GLASS

SPECIFICATIONS:
Material: 3/4" (19 mm) Diameter Tubular Brass Bar, Solid Brass End Caps
Bar Lengths: 39" (1 m); 51" (1.3 m)
Glass Thickness Range: 1/4" to 1/2" (6 to 12 mm)
Includes: All Required Mounting Hardware

These Fixed Panel Support Bars stabilize fixed panels of glass in enclosures that do not go all the way up to the ceiling. The Wall-to-Glass Bar has a bell-shaped clamping device that screws into the wall, and a solid brass end cap with a swiveling U-shaped receptacle to secure the fixed glass panel. The Glass-to-Glass Bar has solid brass end caps with swiveling U-shaped receptacles on both ends to secure each fixed panel. Nylon-tipped set screws secure the glass and prevent glass-to-metal contact. Bars are available in two lengths, and in sizes to secure 1/4" to 1/2" (6 to 12 mm) thick glass. Finishes are available to match most of our Hinges, Knobs, and Pull Handles. No holes or cut-outs are required in the glass. Longer length Bars are available separately on special order.

CRL SUPPORT BARS

CRL Mitered Support Bar Brackets

- A Great Solution for Inline Enclosures Requiring Fixed Panel Support When a Header is Not Desired
- Replace End Fittings on Stock Support Bars
- 45 and 22-1/2 Degree Miters Available
- Available in Many Popular Finishes, With Custom Finishes Available

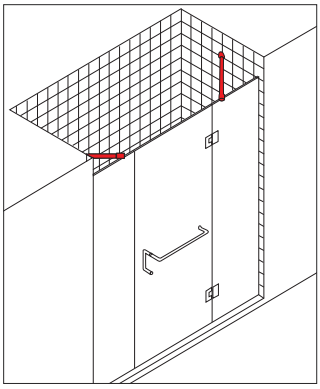

These Mitered Support Bar Wall Mount Brackets are designed to attach to the wall by screw. These Brackets are perfect for inline 180 degree shower enclosures, and fit on the end of our Support Bars. When run at angle toward an adjacent wall, they will fit flush due to their mitered ends, and secure the fixed panel (see diagram to right). Brackets come in many popular stock finishes to match CRL Frameless Shower Door Hardware, with custom finishes available.

- Choice of Wall/Ceiling Mount or Glass-to-Glass Mount
- Helps Strengthen Structural Integrity of Shower Enclosure
- Stocked in Numerous Finishes, With Custom Finishes Available
- All Mounting Hardware Included

Ceiling Mount Front View

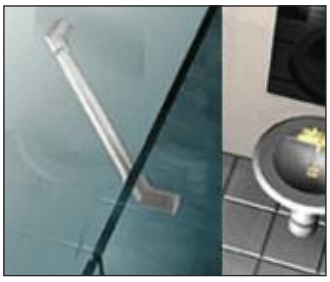

Wall Mount

The Through-Glass Mounted Support Bar creates a means of support that strengthens an enclosure's structural integrity. It may be used in place of a Header in certain applications (call for details), and can be mounted to a wall, ceiling or glass-to-glass. You cut it to fit your exact needs. Supplied Bar is 39" (1 m) long, requires a 5/8" (16 mm) hole in the glass, and comes in finishes to match our Hinges and Pull Handles. All mounting hardware included.

CRL Square Support Bar Accessories and Replacement Parts

- New Square Tubing Matches Geometry of Many Popular CRL Hinges
- Provides Fixed Panel Support for Enclosures Not Going to the Ceiling
- No Hole Drilling Required in Glass
- Five Popular Stock Finishes, With Custom Finishes Available

FINISHES:

Most models are stocked in the finishes shown here, others are available on special order.

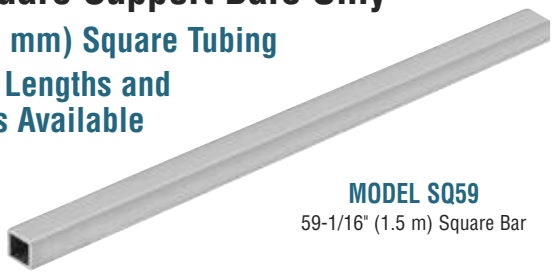

USE MONOLITHIC TEMPERED GLASS

new

Our new Square Support Bar compliments many CRL square corner style hinges. The Bar stabilizes fixed panels of glass in enclosures that do not go to the ceiling. After ordering the Bar itself, choose from a number of various Fittings to complete the desired application. The Fittings come with nylon-tipped set screws that secure the glass and prevent metal-to-metal contact. Finishes are available to match many popular decors. No holes or cut-outs are required in the glass.

CRL Square Support Bars Only

CRL Frameless Vertical Post Systems

new

- **Stock or Custom Kits Allow User to Stabilize Fixed Panels of Glass Not Going to Ceiling**
- **Excellent Alternative to Traditional Horizontal Header Systems**
- **Four Popular Stock Finishes For 5/16", 3/8", and 1/2" (8, 10, and 12 mm) Glass**
- **Glass Fabrication Required for Tube Adaptors/End Caps**
- **Custom Kits Available in Various Finishes, Post Configurations, and With Dome or Ball Style Glue-In End Caps (Two-Point System Only)**

CRL offers two styles of our new Frameless Vertical Post System. They are used to stabilize fixed panels of glass not reaching the ceiling, and provide an excellent alternative to customers not wanting to use the more traditional horizontal Header Systems that run across the entire width of the enclosure. An especially attractive look is when patterned glass with decorative, rippled top edges is used, since a Header System cannot be applied as a crown to the glass. Posts are pre-drilled.

Two stock systems are offered the Floor-to-Ceiling Mount System and the Two-Point Ceiling Mount System. Stock Systems are prepared for behind-the-glass installation. Custom Systems and finishes are available by simply submitting a drawing to our Frameless Shower Door Technical Department. Tube Adaptors/End Caps require 3/4" (19 mm) holes in glass. Complete mounting details and installation instructions can be viewed at **crlaurence.com**.

Typical Floor-to-Ceiling Mount System
Shown Installed Behind Decorative Glass

Typical Two-Point Ceiling Mount System Shown Installed Behind Glass
NOTE: Maximum Bar Length is 33" (838 mm)

Floor-to-Ceiling Mount System

STOCK KIT INCLUDES:

1 Each - 92" (2.3 m) length of 2" (51 mm) diameter Round Tubing with welded Bottom Flange and two Rivet Nuts
2 Each - Tube Adaptors with 1-1/2" (38 mm) diameter End Caps (with Threaded Stud)
1 Each – Removable Top Flange with Set Screw

NOTE: Stock Kit is prepared for one degree floor slope to the inside of the shower. Shimming is required if floor is not a one degree slope to the inside of the shower, or a Custom Kit may be ordered instead.

CRL Thru-Glass to Wall Straight Shower Rod

new

- Ideal for Use as a Shower Curtain Rod
- 72" Length Stocked in Polished and Brushed Stainless Steel
- Custom Length and Painted Finishes Available

FINISHES:

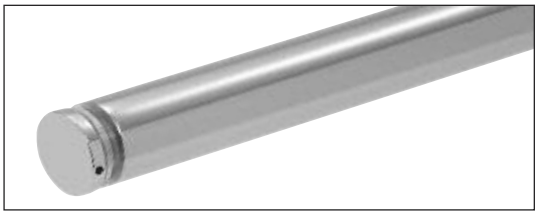

Polished Stainless Steel | Brushed Stainless Steel

Most models are stocked in the finishes shown here, others are available on special order.

You will find our 72" (1.83 m) long Thru-Glass to Wall Rod a handy item with many uses. A typical use is as a thru-glass curtain rod to be fastened to a return panel. The 3/4" (19 mm) diameter tubing is prepped on one end with a 3/4" (19 mm) diameter end cap. A 1/2" (12 mm) diameter hole is required in the glass. Requires additional fitting for wall attachment (either S3 or S12) Support Bar Fitting, see pages 311J-312J.

CAT. NO.	FINISH
TUBE3472PS	Polished Stainless
TUBE3472BS	Brushed Stainless

Minimum order: 1 each.

SPECIFICATIONS:

Material: 3/4" (19 mm) Diameter Stainless Tubing
Bar Length: 72" (1.83 m)
Glass Thickness Range: 1/4" to 1/2" (6 to12 mm)
Glass Fabrication Required: 1/2" (12 mm) Diameter Hole
Includes: 3/4" (19 mm) Diameter End Cap on One End

CRL Adjustable Curved Shower Rods

new

- Adjustable 54" to 72" (1.37 to 1.83 m) Length to Accommodate Most Any Shower Enclosure
- Curved Rod Provides More Shower Space
- Choice of Stainless Steel or Zinc Construction in an Assortment of Popular Finish Options
- Mounting Hardware Included
- Custom Finishes Available

FINISHES:

Polished Chrome | Satin Chrome (Matte) | Brushed Nickel | Brass | Oil Rubbed Bronze | Polished Stainless Steel | Brushed Stainless Steel

Most models are stocked in the finishes shown here, others are available on special order.

Our NEW Curved Shower Adjustable Rods will provide more space for the shower enclosure. The crescent shaped Rods are adjustable from 54" to 72" (1.37 to 1.83 m), therefore accommodating most any typical shower enclosure. The 1" (25.4 mm) diameter Curved Adjustable Shower Rods come in a choice of durable stainless steel construction (polished and brushed), or economical zinc construction in five popular finishes (polished chrome, polished brass, brushed nickel, oil rubbed bronze, and satin chrome). Mounting hardware is included in each box to assist with easy installation. Custom finishes are available upon demand.

Easily Adjusts From 54" to 72" (1.37 to 1.83 m)

No Glass Fabrication Required
Includes: Mounting Hardware

CRL Square Style Frameless Shower Door Stops

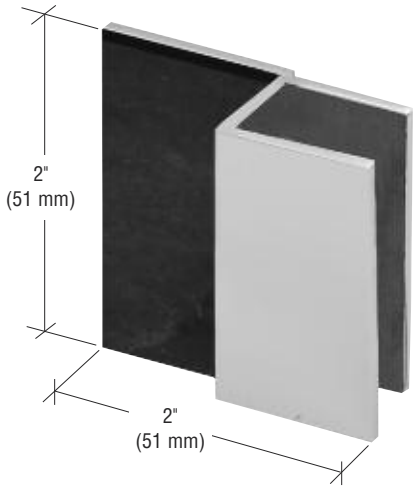

new

GLASS THICKNESS

1/4" (6 mm) 5/16" (8 mm) 3/8" (10 mm)

USE MONOLITHIC TEMPERED GLASS

- For 1/4" to 3/8" (6 to 10 mm) Glass
- Designed to Match Configuration of Geneva, Concord, Vienna, and Cardiff Hinges
- For Use with Door and 180 Degree Inline Fixed Panel
- Prevent Door From Going Into Shower Enclosure
- No Glass Fabrication Required

FINISHES:

Most models are stocked in the finishes shown here, others are available on special order.

Our new CRL Door Stop is for mounting on an inline 180 degree fixed panel to prevent the door from going into the shower enclosure. The door closes into a soft rubber portion of the Door Stop. Seven stock finishes are offered to match most popular décors. The Door Stop fits glass thicknesses ranging from 1/4" to 3/8" (6 to 10 mm). Door Stop is secured to glass with nylon tipped screw.

SPECIFICATIONS:
Material: Solid Brass, Rubber
Glass Thickness Range: 1/4" to 3/8" (6 to 10 mm)
No Glass Fabrication Required

CRL Water Seals and Sweeps

- Water Seals and Sweeps are Designed to Minimize Water Leakage From Frameless Shower Enclosures
- Profiles to Work With Most Any Shower Configuration
- Snap-On and Tape-On Varieties Offered
- Anti-Fungus and UV Protection in Many Seals
- Range of Seals for 1/4" (6 mm) Up to 1/2" (12 mm) Glass

Our offering of Water Seals and Sweeps allows the installer to put the finishing touch on a frameless shower enclosure, and assist in minimizing water leakage. Poorly designed, or certain configurations of enclosures may still be subject to minimal water escape, but our Water Seals and Sweeps contribute to helping control it.

A variety of shapes are available for glass thicknesses ranging from 1/4" (6 mm) all the way up to 1/2" (12 mm). Some profiles are easily snapped-on to fit snugly on the glass, while other profiles require the use of our Clear Double-Sided Very High Bond Adhesive Tapes shown on page 327J. Many profiles offer anti-fungus and UV protectors to maximize seal life.

CRL Water Seal and Sweep Profile Set

- 6" (152 mm) Pieces of All Profiles
- Helpful in Calculating Glass Size Deductions
- Allows Customers to Visualize Seals for Their Shower
- Great for Showrooms and Portfolios

We offer a Water Seal and Sweep Profile Set that consists of 6" (152 mm) pieces of all Wipes and Seals. Use them to show your customers how these profiles will assist in minimizing water escape from their shower. You will also find them helpful in calculating deductions for final glass measurements.

Our Water Seal and Sweep Profile Set is perfect for your showroom or portfolio so customers can evaluate the various options they will have to seal their new frameless shower enclosure.

CAT. NO.	DESCRIPTION
PVPS95	Water Seal and Sweep Profile Set

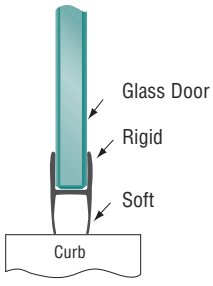

Minimum order: 1 each.

CRL Multi-Purpose 'H' Wipe

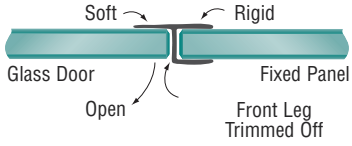

- One of Our Most Versatile Seals
- Available for Four Glass Thicknesses

Versatile Multi-Purpose 'H' Wipe has two rigid legs and two soft legs. It can be used as a bottom sweep, or as a seal if run vertically up the edge of the door or fixed panel. One or both soft legs can be trimmed to accommodate many installation options.

Side View as Door Sweep

Top View as Vertical Edge Seal

98" (2.49 MM) STOCK LENGTHS

P500HW	1/2" (12 mm)

Minimum order: 1 each.

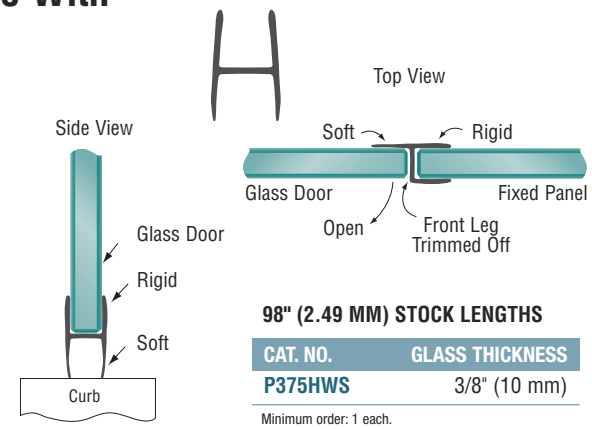

All Seals and Wipes can be combined for quantity shipping. Packing Charge added to orders of fewer than 10 combined lengths.

CRL Multi-Purpose 'H' Wipe With "Extra Soft" Twin Legs

new

- **Very Soft Twin Legs Seal While Providing Quieter Door Closure**

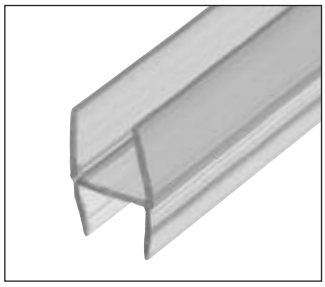

Our NEW Multi-Purpose 'H' Wipe With "Extra Soft" Twin Legs acts as a versatile seal that can be used either on the side or bottom of a door. Because of the very soft dual legs, quieter door closure can be expected, as opposed to closing into harder plastic seals. It is also easy to trim the very soft legs to accommodate your particular application.

98" (2.49 MM) STOCK LENGTHS

CAT. NO.	GLASS THICKNESS
P375HWS	3/8" (10 mm)

Minimum order: 1 each.

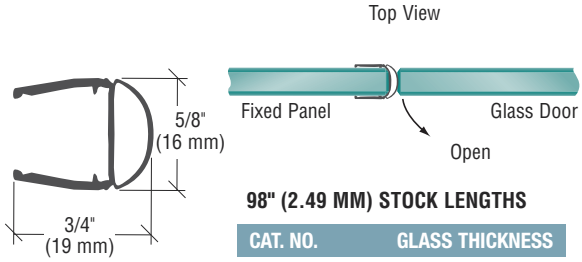

CRL Polycarbonate 'U' With Bulb Attachment

new

- **Can Be Used on Inswing and Outswing Doors**

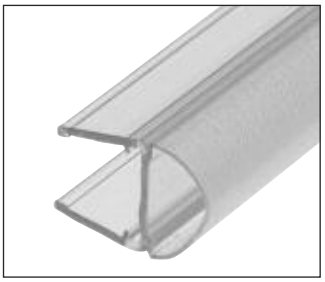

This Clear Polycarbonate 'U' With Bulb Attachment is a versatile seal that can be mounted to the edge of a door or panel for a variety of installation configurations. The soft Bulb portion of the Seal allows doors to swing both in and out of the enclosure if desired.

CRL WATER SEALS AND SWEEPS

CRL Multi-Purpose Clear Strike Angle Jamb

- **Multiple Uses for Versatility**
- **Commonly Used in 135 Degree Neo-Angle Applications**

This clear Angle Jamb is used for both hinge and strike jambs. It can be adhered to the wall or a fixed panel using our Clear Very Hi-Bond Tape (see page 327J). It is also commonly used as a jamb for neo-angle installations when a clean look is most desired.

Minimum order: 5 each.

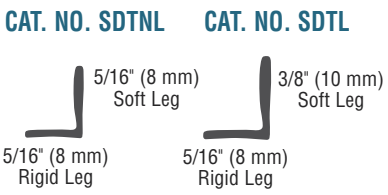

CRL Translucent Vinyl 'L' Seal

- **Now Available With or Without Clear Very High Bond Tape**

Translucent 'L' Seals are offered in two sizes and rigidity. They should be used on outswing doors only, and can be used on both hinge and strike side jambs. Cat. No. SDTNL has a slightly softer and shorter sealing leg than Cat. No. SDTL. Use Clear Very Hi-Bond Tape (see page 327J) to apply the rigid leg of the 'L' Seal to the surface. The soft leg of the 'L' will act as a seal, allowing for a quiet and forgiving door closure.

98" (2.49 M) STOCK LENGTHS

Transparent 3M® VHB® Double-Sided Adhesive Tape

Clear 3M® VHB® (Very High Bond) Tape is a double-sided adhesive ideal for adhering Edge Wipes and Seals. Available in 1/4" or 1/2" (6 or 12 mm) widths, this tape features instant bonding, with full strength attained within 72 hours.

Transparent 3M® Single-Sided Adhesive Tape

Many installations may require a buffer to protect glass-to-glass contact when a double opposed miter on the strike side is required. This transparent 6 mil thick Tape adheres to the miter, and acts as a cushion to protect against chipping.

Translucent CRL Double-Sided Adhesive Tape

This Tape provides a translucent appearance, and is an excellent choice to adhere Edge Wipes and Seals.

CRL Blue Joint Framing Tape

- Ideal for Framing Tooled Silicone Joints
- Available in Four Widths

This Blue Joint Framing Tape is a crepe paper tape with built-in UV resistance. Excellent for use as a masking tape around tooled silicone joints in frameless shower door applications.

CRL Essence Series Rolling Shower Door System (Without Header)

new

- Headerless System Offers Popular Frameless Look
- Bottom Rolling System Has Integrated Height Adjustment
- Rollers Include Anti-Derail/Anti-Pinch Guard
- Choice of Rounded or Square Style Roller System
- For Use Only With 1/2" (12 mm) Thick Tempered Glass (Not Included)

Plumbing Fixture Not Included

Our new Essence Series allows a headerless appearance by utilizing a bottom rolling system that includes an anti-derail/anti-pinch guard feature. The bottom rollers also have an integrated height adjustment for door to vertical jamb alignment. By being completely header-free, a frameless vertical and horizontal appearance is achieved. Smooth and quiet operation of the door is the cornerstone of this bottom rolling unit. At the same time, excellent water management is accomplished at the sill via the bottom track, and vertically with the use of a clear L-shape jamb.

With your separate addition of a free standing shower head and valves, new configurations are possible, such as beautiful island designs, U-shaped designs, and L-shaped designs with unconventionally placed plumbing walls.

The Essence Series Frameless Sliding Shower Door System is for use only with 1/2" (12 mm) thick tempered safety glass (not included). It is stocked in four popular finishes, with a choice of rounded or square corner rollers.

Sold in a Basic Kit that allows both 180 degree and 90 degree installations, the user simply orders the necessary Brackets, and Handle or Knob separately to complete the installation. See the important **HOW TO ORDER** section at the bottom right of this page.

Rounded Roller Style

Square Corner Roller Style

SPECIFICATIONS:

Glass Thickness Range: 1/2" (12 mm) Tempered Safety Glass (Not Included)

Material: Rollers and Top Guide (Solid Brass); Bottom Sliding Track and U-Channel (Aluminum); L-Jamb (Polycarbonate)

Maximum Door Size:
Do Not Exceed Either 34" (864 mm) Wide or 127 Pounds (57.6 kg)

Basic Kit Fabrication:
Notch Required for Bottom Rollers, Holes Required for Top Guide

NOTE: Wall Mount and Glass-to-Glass Brackets also Require Glass Fabrication (see **crlaurence.com** for details)

FINISHES:

Chrome | Brushed Nickel | Brass | Oil Rubbed Bronze

HOW TO ORDER FOR 180 DEGREE WALL-TO-WALL INSTALLATION:

1. Order Basic ESS1 (Rounded) or ESS3 (Square Cornered) Kit in Your Choice of Finish
2. Order Two Each CL90S (Rounded) or GE90S (Square Cornered) Wall Mount Brackets
3. Order Your Choice of Handle or Knob for Door
4. Order Any Other Accessories You May Want for the Enclosure

HOW TO ORDER FOR 90 DEGREE RETURN PANEL INSTALLATION:

1. Order Basic ESS1 (Rounded) or ESS3 (Square Cornered) Kit in Your Choice of Finish
2. Order Two Each CL90S (Rounded) or GE90S (Square Cornered) Wall Mount Brackets plus Two Each CL090 (Rounded) or GE090 (Square Cornered) Glass-to-Glass Brackets
3. Order Your Choice of Handle or Knob for Door
4. Order Any Other Accessories You May Want for the Enclosure

CRL Essence Series Rolling Shower Door System (With Header)

new

- **Header System Allows for Use of 3/8" or 1/2" (10 or 12 mm) Thick Tempered Glass (Not Included)**
- **Bottom Rolling System Has Integrated Height Adjustment**
- **Rollers Include Anti-Derail/Anti-Pinch Guard**
- **Choice of Rounded or Square Cornered Roller System**

Plumbing Fixture Not Included

Our new Essence Series Sliding Door System With Header adds to CRL's growing line of modern systems. The Header is supported by the fixed panel glass with the use of attractive thru-glass fittings. The bottom rolling system has an integrated height adjustment for door to vertical jamb alignment. The Bottom Rollers also include an anti-derail/anti-pinch guard feature. Smooth and quiet door operation is the cornerstone of the Essence Series. At the same time, water management is accomplished at the sill via the bottom track, and vertically with the use of a clear L-shape jamb.

The Essence Sliding Door System With Header is sold in a Basic Kit that allows 180 degree installations. For 90 degree installations a 90RF Return Fitting must be ordered as well. A choice of rounded or square cornered design rollers allows aesthetic matching to the bathroom surroundings.

This System may be used with 3/8" or 1/2" (10 or 12 mm) thick tempered safety glass. It is stocked in four popular finishes in a choice of 60" or 84" (1.52 or 2.13 m) length Kits. See the important **HOW TO ORDER** section at the bottom right of this page.

CRL Deluxe Serenity Series Sliding Shower Door Systems

new

USE MONOLITHIC TEMPERED GLASS

GLASS THICKNESS

5/16" (8 mm) TO 3/8" (10 mm)

- **Unique 180 Degree System With Rollers Above and Below the Header Bar**
- **System Features One Sliding Door and One Fixed Panel**
- **Use of Minimal Hardware Gives Door an Almost Floating Appearance**
- **For 5/16" or 3/8" (8 or 10 mm) Thick Tempered Glass (Not Included)**
- **Specially Designed Roller Bearings Allow Easy Opening and Closing of Door**
- **Accessory Kit Available for 90 Degree Return Panels**
- **Choice of Durable Polished or Brushed Stainless Steel Finishes**
- **Fixed and Sliding Glass Panels are Reversible for Installation**

Our new Deluxe Serenity Series Sliding Door System has an entirely different look from traditional sliding shower door systems. The use of minimal hardware provides a frameless look that gives the enclosure an almost floating appearance. Specially designed roller bearings allow for quiet, easy opening and closing of the door. This unique roller system operates above and below the header bar that spans the top of the enclosure. One sliding and one fixed panel make the 180 Degree Standard Kit beautiful and practical. The Kit includes all items pictured at bottom right of the page, with the exception of the 90 Degree Accessory Kit, which is purchased separately (see bottom left of page). The durable polished or brushed stainless steel units will work with 5/16" or 3/8" (8 or 10 mm) thick tempered glass (not included).

CRL Deluxe Serenity Series Double Door System

- **Create an Attractive 90 Degree Double Door Corner System More Easily Than Ever Before**
- **Simply Purchase Two Serenity 180 Degree Kits and One 90 Degree Double Door Connector Bracket**
- **V-Corner Design Ideal for Smaller Bathrooms**
- **Choice of Polished or Brushed Stainless Steel Finishes**

Creating a unique and attractive V-Corner shower enclosure is now easier than ever. Simply purchase two 180 Degree Serenity Series Sliding Systems (see page 330J), along with one 90 Degree Double Door Connector Bracket (see right). Combining the two sliding doors in a V-corner allows you to build a beautiful double door sliding enclosure even for smaller bathroom areas. A choice of beautiful and durable polished or brushed stainless steel finishes help to match most any modern bathroom décor.

No glass fabrication is required for the Connector Bracket itself. Minimum order is one each.

CRL Hydroslide Sliding Shower Door Systems

FINISHES:

- **Excellent Design for Compact Areas**
- **Clean, Sleek Lines**
- **Accommodates a Wide Range of Shower Designs**
- **Quick and Easy Installation**

CRL Hydroslide Sliding Shower Door Kits were designed for full standing showers or above bathtubs. The Hydroslide System can accommodate a wide range of shower designs with fixed glass panels on either end, or both sides at 90 or 180 degrees. The Hydroslide System also accommodates the option of floor-to-near-ceiling glass panels with a sliding door. Hydroslide Sliding Shower Door Kits feature the latest European 'all-glass' look. Kits are available in either 60" (1.52 m) or 84" (2.13 m) widths. Installers can cut the width to size, and height is optional as long as the sliding door glass weighs less than 88 pounds (40 kg).

The 180 Degree Wall-to-Wall Installation only requires the 180 Degree Standard Kit for the installation. The 90 Degree Wall-to-Glass Installation requires the 180 Degree Standard Kit, plus the 90 Degree Wall-to-Glass Accessory Kit. Individual or replacement parts can also be ordered from the next page. Hydroslide Kits come in four finishes: Chrome Fittings with a Brite Anodized Sliding Track, Polished Brass with a Brite Gold Anodized Sliding Track, Brushed Nickel with Brushed Nickel Anodized Sliding Track, and Oil Rubbed Bronze with Oil Rubbed Bronze Anodized Sliding Track. Each Kit comes with complete fabrication and installation instructions.

NOTE: Bottom Fixed Glass Attachments, Handles or Knobs must be ordered separately.

CRL Hydroslide Bi-Fold Hinges

new

- Wall Mount and Glass-to-Glass Models
- Allow Door to Bi-Fold Into Enclosure
- Four Finishes to Match Hydroslide System

These Hydroslide Bi-Fold Hinges add a different element to the already popular Hydroslide System. Instead of a standard sliding door, you can now "Bi-Fold" two folding panels of glass into the shower enclosure, creating a larger opening than the single sliding door will allow. Made of solid brass and available in four popular finishes. Upper Track, Hanger, and Wall-to-Upper Track Connectors are all sold separately.

FINISHES:

SPECIFICATIONS:

Glass Thickness: 5/16" (8 mm) to 3/8" (10 mm) Tempered Safety Glass
Material: Solid Brass
Hinge Swings: Bi-Fold into Shower Enclosure
Closing Type: Free Swinging
Holes Required in Glass
Includes: Gaskets, Screws, and Glass Fabrication Dimensions
Maximum Capacities: Do not Exceed Either 48" (1219 mm) or 100 lbs. (45 kg) for Both Folding Doors Combined. Use Two Hinges Only on Each Folding Panel.

MODEL HYDH037
Glass-to-Wall Mount

MODEL HYDH180
180 Degree
Glass-to-Glass

Panels "Fold" Into the Shower

Hydroslide Bi-Fold Hinges require holes in the glass

HYDH037BN	HYDH180BN	Brushed Nickel
HYDH037BR	HYDH180BR	Polished Brass
HYDH0370RB	HYDH1800RB	Oil Rubbed Bronze

Minimum order: 1 each. All Frameless Shower Door Hinges can be combined for quantity pricing. Other finishes available on special order. **NOTE:** All Shower Door Hinges are sold by the each, not in pairs. Be sure to order a minimum of two each hinges to install one door.

CRL Cabo Soft Slide Shower Door System

new

- Featuring the New Softbrake Braking System
- Hardware for One Sliding Door and One Fixed Panel
- Concealed Overhead Roller Design
- Mounts Wall-to-Wall or Wall-to-Glass
- For Use With 5/16", 3/8" or 1/2" (8, 10 or 12 mm) Tempered Glass (Not Included)
- Can Accommodate Doors Weighing Up to 176 Pounds (80 kg)
- Available in Five Finishes, With Custom Finishes Available

Plumbing Fixture Not Included

The Cabo Soft Slide Shower Door System is the first to offer the Softbrake Braking System on a frameless sliding shower door, ensuring that you do not have to worry about the door slamming open or closed. Softbrake cushions the opening and closing of the door gently, quietly, and is completely concealed inside the header. Softbrake engages during the last 4" (100 mm) of door travel, preventing the glass from impacting the frame or adjacent glass panel.

The Cabo Soft Slide Series has two clamp cover designs (rounded or square), and is available in five architectural finishes.

Each Kit comes complete with a Header, two Top Clamps, a Bottom Guide, a Wall Seal, and a Half-Round Threshold. Bottom fixed Glass Attachments, Handles, or Knobs must be ordered separately. **NOTE:** Tempered glass is not included.

Bottom Floor Guide Included

SPECIFICATIONS:

Glass Thickness Range: 5/16" (8 mm) to 1/2" (12 mm) Tempered Safety Glass (Not Included)
Material: Anodized Aluminum
Maximum Door Weight: 176 lbs (80 kg)
Finished Opening Size: Minimum 60" (1.52 m) Wide; Maximum 84" (2.13 m) Wide
Fabrication: Holes Required in Sliding Door
Includes: Gaskets, Screws, and Glass Fabrication Information

CRL Cottage "CK" Series Sliding Shower Door Kits With Clear Side Jambs

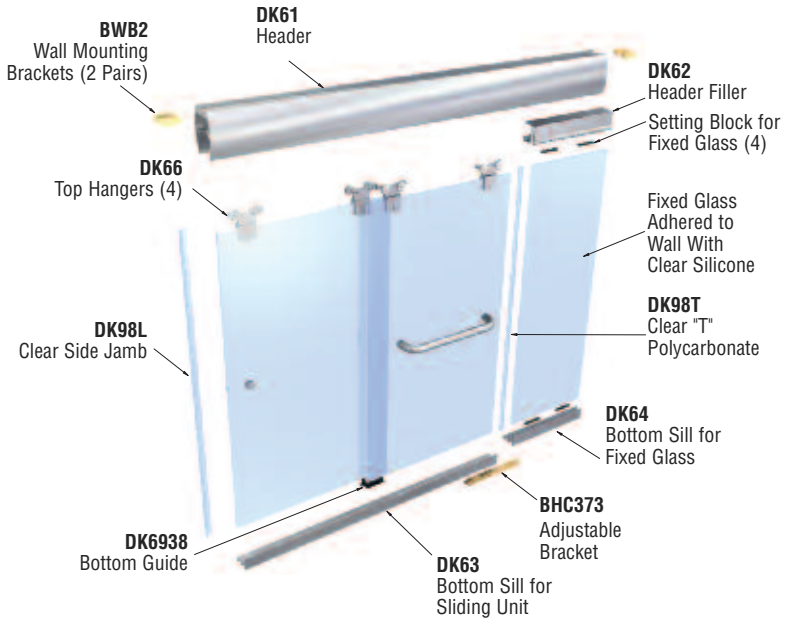

More Glass! Less Metal!

- **Utilizes Clear Polycarbonate Side Jambs Instead of Traditional Metal Jambs**

See the Next Three Pages for Diagrams and Details for Our Cottage "CK" Series Clear Jamb Sliding Frameless Door System

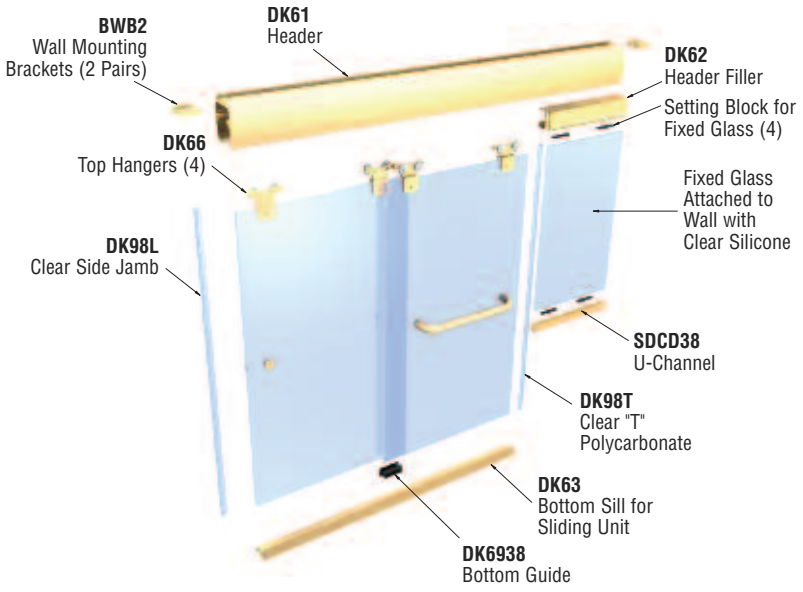

Typical View of a Custom Inline Cottage "CK" Series Shower Door Unit With Clear Side Jambs and an Adjacent Full Length Fixed Glass Panel. Example Shown is for use With 3/8" (10 mm) Tempered Glass

Typical View of a Custom Inline Cottage "CK" Series Shower Door Unit With Clear Side Jambs and an Adjacent Fixed Glass Panel on a Pony Wall. Example Shown is for use With 3/8" (10 mm) Tempered Glass

CRL Cottage "CK" Series Sliding Shower Door Kits With Clear Side Jambs

See Individual Components on Next Two Pages, if Desiring to Fabricate Units Yourself

- **Designed for Use With 1/4" or 3/8" (6 or 10 mm) Tempered Glass**
- **Bolt-Through Top Hangers Allow Immediate Fabrication and Installation**
- **Brite Anodized, Brite Gold Anodized, Brushed Nickel, and Oil Rubbed Bronze in Up to Six Stock Sizes**
- **Custom Units Also Available**

SPECIFICATIONS:

Material: Extrusions (Aluminum); Side Jambs (Polycarbonate); Towel Bar (Brass Tubing); Knob (Solid Brass)

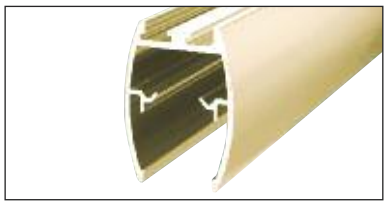

Glass Thickness: 1/4" (6 mm) and 3/8" (10 mm) (Glass not included in Kit)

Glass Fabrication: Towel Bar – Two 1/2" (12 mm) Diameter Holes, 24" (610 mm) Center-to-Center; Knob – One 1/2" (12 mm) Diameter Hole; Top Hangers – Four 1/2" (12 mm) Diameter Holes (two per glass panel)

Cottage "CK" Series Sliders are unique in that they utilize clear polycarbonate side jambs instead of traditional metal side jambs, thus providing more of the popular 'all-glass' look. Bolt-Through Top Hangers allow immediate fabrication and installation, with no waiting for messy adhesive to dry.

Cottage "CK" Series Kits come in Brite Anodized, Brite Gold Anodized, Brushed Nickel, and Oil Rubbed Bronze finishes, with other finishes available on special order. The top hung stock units include: Header, Top Hangers for 1/4" or 3/8" (6 or 10 mm) glass, Clear Polycarbonate Side Jambs, Bottom Sill, Back-to-Back Knob, 24" (610 mm) Towel Bar, Nylon Rollers, Bottom Guide, Screws, and Bumpers. Tempered glass and silicone sealant are supplied by the installer to complete the installation. Since all rollers are overhead, the Bottom Sill and Clear Side Jambs are uncluttered, making cleaning easy.

Available in up to six stock sizes. Extrusions, Bottom Guide, Hardware Packages, and other accessories may be ordered separately as well (see next two pages).

CRL Cottage "CK" Series Sliding Shower Door Components

- **Individual Supplementary Extrusions and Hardware Components to Convert Our Frameless Shower Door Kits Into Angled Enclosures or Wider Inline Units**
- **Brite Anodized, Brite Gold Anodized, Brushed Nickel, and Oil Rubbed Bronze Finishes to Match Our Kits**
- **Do It Yourself, or You Can Send Us a Drawing to Customize a Unit for You**

CRL US ALUMINUM MANUFACTURED IN THE USA

Cottage "CK" Series components were especially designed by CRL to add versatility to our Frameless Sliding Shower Door Kits. They allow the option of adding additional panels to create a designer enclosure, or simply construct your own sliding unit by combining the various parts. Stock lengths of Headers, Header Fillers, Bottom Sills, and Clear Polycarbonate Vertical Jambs, along with Top Hangers and other accessory items round out the items available.

Use these components to build the enclosure you desire, or we can assist with your design. Fax us a drawing (with dimensions) of the shower opening and we will put together a customized kit for you. The Kit will include everything you will need (except the glass and the silicone). Installation instructions are included in each custom kit. **NOTE:** All fixed panels of glass must be 3/8" (10 mm) thick.

SPECIFICATIONS

Material: Extrusions (Aluminum), Jamb Seals (Polycarbonate), Towel Bar (Brass Tubing), Knob (Solid Brass)

Glass Thicknesses: 1/4" (6 mm) and 3/8" (10 mm) (Glass not included)

Recommended Maximum Slider Sizes: 1/4" (6 mm) Glass: 60" W x 72" H or 72" W x 60" H; 3/8" (10 mm) Glass: 72" W x 80" H

Glass Fabrication: Towel Bar – Two 1/2" (12 mm) Diameter Holes, 24" (610 mm) Center-to-Center; Knob – One 1/2" (12 mm) Diameter Hole; Top Hangers – Four 1/2" (12 mm) Diameter Holes (two per glass panel)

DIMENSIONAL DRAWINGS OF "CK" SERIES COMPONENTS

SPECIFICATIONS

Material: Extrusions (Aluminum); Towel Bar (Brass Tubing); Knob (Solid Brass)

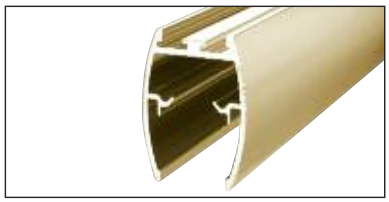

Glass Thickness: 1/4" and 3/8" (6 and 10 mm) (Glass not included in Kit)

Glass Fabrication: Towel Bar – Two 1/2" (12 mm) Diameter Holes, 24" (610 mm) Center-to-Center; Knob – One 1/2" (12 mm) Diameter Hole; Top Hangers – Four 1/2" (12 mm) Diameter Holes (two per glass panel)

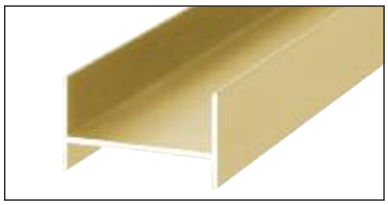

"DK" Cottage Series Sliders utilize metal side jambs for a traditional frameless sliding shower door appearance. Bolt-Through Top Hangers allow immediate fabrication and installation, with no waiting for messy adhesive to dry.

Our "DK" Cottage Series Kits come in Brite Anodized, Brite Gold Anodized, Brushed Nickel, and Oil Rubbed Bronze finishes, with other finishes available on special order. The top hung stock units include: Extruded Aluminum Header, Side Jambs, and Bottom Sill; Top Hangers for 1/4" or 3/8" (6 or 10 mm) glass, Back-to-Back Knob, 24" (610 mm) Towel Bar, Nylon Rollers, Bottom Guide, Screws, and Bumpers. Tempered glass and silicone sealant are supplied by the installer to complete the installation. Since all rollers are overhead, the Bottom Sill and Side Jambs are uncluttered, making cleaning easy.

Available in up to six stock sizes. Extrusions, Bottom Guides, Hardware Packages, plus other accessories may be ordered separately (see next two pages). Custom units are available for special installations.

Use these components to build the enclosure you desire, or we can assist with your design. Fax us a drawing (with dimensions) of the shower opening and we will put together a customized kit for you that will include everything you will need (except the glass and the silicone). Installation instructions are included in each custom kit. **NOTE:** All fixed panels of glass must be 3/8" (10 mm) thick.

DIMENSIONAL DRAWINGS OF "DK" SERIES COMPONENTS

Items may be viewed on **crlaurence.com** by entering catalog number DK386060BA into the "Search Area", then clicking on "Technical Drawings". At that point you may view the PDF File. You may also contact CRL Shower Technical Sales for further information.

SPECIFICATIONS

Material: Extrusions (Aluminum), Towel Bar (Brass Tubing), Knob (Solid Brass),

Glass Thickness: 1/4" (6 mm) and 3/8" (10 mm) (Glass not included)

Recommended Maximum Slider Sizes: 1/4" (6 mm) Glass: 60" W x 72" H or 72" W x 60" H; 3/8" (10 mm) Glass: 72" W x 80" H

Glass Fabrication: Towel Bar – Two 1/2" (12 mm) Diameter Holes, 24" (610 mm) Center-to-Center; Knob – One 1/2" (12 mm) Diameter Hole; Top Hangers – Four 1/2" (12 mm) Diameter Holes (two per glass panel)

- **Top Header Extrusion Acts as a Crown, and is Used in All Cottage Series Applications**

Back-to-Back Knob (with Plastic Sleeve)

SPECIFICATIONS:

Material: Extrusions (Aluminum); Towel Bar (Brass Tubing); Knob (Solid Brass)

Glass Thickness: 1/4" (6 mm) (Glass not included in Kit)

Glass Fabrication: Towel Bar – Two 1/2" (12 mm) Diameter Holes, 24" (610 mm) Center-to-Center; Knob – One 1/2" (12 mm) Diameter Hole

Maximum Recommended Size: 60" W x 72" H (1.52 x 1.83 m)

The Suite "EK" Series Frameless Sliding Shower Door Kit for 1/4" (6 mm) thick glass provides an alternative design and mounting method to our Deluxe Cottage Series Sliders. The Hanger Bracket is a cost-reducing device, as it clamps directly onto the glass and eliminates the need for drilling holes (set screws only). The brackets allow for smooth, quiet operation and long service life at a lower cost.

The specially designed Header is only 2-9/16" (65 mm) tall. This reduces the profile of the top metal, and allows more of the frameless 'all-glass' look. It is reversible so the customer has the choice of using the gently curved side, or the flat side with top and bottom edge bevels.

The Suite "EK" Series is available exclusively with metal side jambs, does not offer the clear jamb system, and is available only for inline units. Kits with fixed panels are not available.

Two popular stock sizes are available: 60" W x 60" H (1.52 x 1.52 m) and 60" W x 72" H (1.52 x 1.83 m). Custom inline sizes are also available, but not to exceed 60" (1.52 m) wide or 72" (1.83 m) tall. The Suite "EK" Series comes in four popular finishes. Custom finishes are available upon request.

CAT. NO.	SIZE (WIDTH X HEIGHT)	FINISH
EK146060BA	60" x 60" (1.52 x 1.52 m)	Brite Anodized
EK146060BN	60" x 60" (1.52 x 1.52 m)	Brushed Nickel
EK146060BGA	60" x 60" (1.52 x 1.52 m)	Brite Gold Anodized
EK1460600RB	60" x 60" (1.52 x 1.52 m)	Oil Rubbed Bronze

Component items for our Suite "EK" Series Frameless Sliding Shower Doors are ideal for use as replacement parts, or for units you wish to fabricate yourself. Stock lengths of the Extrusions, individual Towel Bars, Knobs, and accessory hardware provide all of the options you need to build your own inline enclosures for 1/4" (6 mm) glass. You can also send our Shower Technical Sales Department a drawing of the enclosure. They will be happy to quote a custom unit.

CRL "MK" Series Sliding Shower Door Kits

- For 1/4" and 3/8" (6 and 10 mm) Glass
- Roller System Provides Smooth Gliding Panels With the Touch of a Finger
- Bonded Hanger System for Easy Installation
- Bolt-Through Hanger System Available on Special Order
- Custom Units Available

Our "MK" Series Frameless Slider Kits provide all the extrusions (Header, Top Hanger Rails, Bottom Track, and Side Jambs) necessary for installation, as well as a Towel Bar, Knob, Rollers, Guide, and Installation Hardware. The glass and silicone sealer are supplied by the installer. The easy to clean Bottom Track utilizes a center mounted guide. Each (rolling) panel has two self-leveling roller brackets and four premium quality rollers for quiet effortless panel movement. Available in custom sizes, configurations, and finishes on special order.

CRL Laguna Series Sliding Glass Door System With Anti-Lift Safety Features

- Anti-Lift Feature for Added Safety
- All 316 Alloy Brushed Stainless Steel Construction
- Ideal for Interior Applications
- For Use With 3/8" or 1/2" (10 or 12 mm) Glass
- Comes With All Fasteners Needed for Either Flush (Countersunk) or Surface (Straight Hole) Mounting
- Adaptor Kits Available for Wood Door Applications

Typical Wall Mount Installation

Typical Glass Mount Installation

We have upgraded our popular Laguna Series Sliding Glass Door System to now include an 'anti-lift' feature. Through a combination of additions and very subtle changes, we have improved the performance, safety, and security while still offering a clean, simple look. The Laguna Series Sliding Glass Door System can be installed on glass partitions or directly to the side of a sufficiently reinforced wall. The adjustable Top Rollers make final adjustments quick and easy, without the need to remove the door. Their smooth operation and solid stainless steel construction minimizes maintenance issues.

CRL provides you with all the glass attachment fasteners for either flush mounting, requiring a countersunk hole, or surface mounting, requiring a straight hole. The glass attachment fasteners accommodate either 3/8" or 1/2" (10 or 12 mm) tempered glass. **NOTE:** Laminated glass cannot be used in these systems.

Standardized sets allow you to make planning and purchasing quick and easy for basic installations. We offer four different kits; two for wall mounting, and two for glass mounting. Available accessories give you the opportunity to customize the standard sets to accommodate the most imaginative designers. All components are sized to easily ship via UPS, which helps to keep your job costs and lead times down.

For more information or ordering assistance, contact CRL Technical Sales at (800) 421-6144 in the U.S., (877) 421-6144 from Canada, or (323) 588-1281 International, and ask for Ext. 7700. You can also e-mail us through our web site at **crlaurence.com**. From the home page click on Contact Us, and then click on Technical Sales for Commercial Products.

DOOR SYSTEM LIMITATIONS	
Maximum Door Weight:	220 lbs. (100 kg)
Maximum Panel Width:	53-1/2" (1.36 m)
Maximum Panel Height:	98-7/16" (2.50 m)
Maximum Track Length:	104" (2.64 m)

CRL Laguna Series Wall Mount Single Slider Kit

- **Anti-Lift Design**
- **Assembly Contains All Necessary Hardware to Complete the Installation With 3/8" or 1/2" (10 or 12 mm) Tempered Glass**
- **Brushed Stainless Steel Construction**

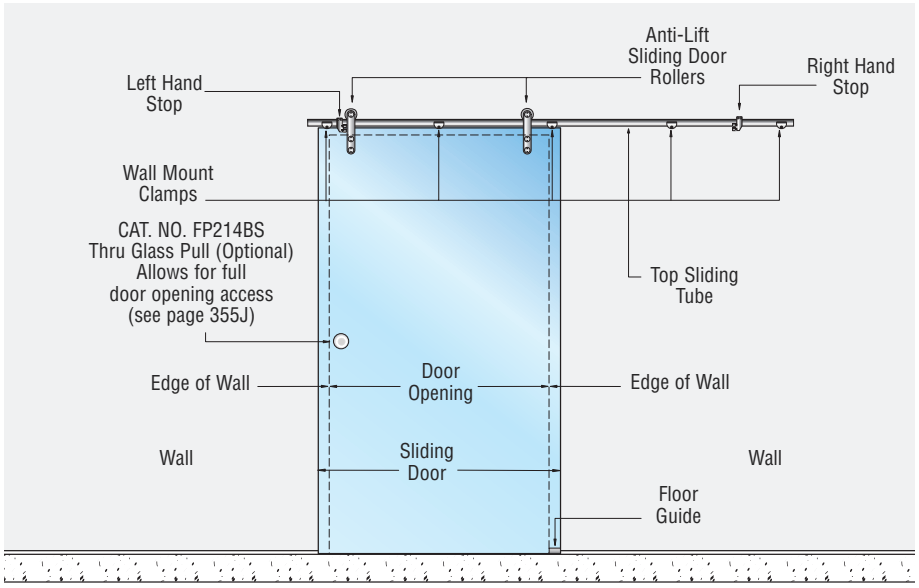

The CRL Laguna Series Wall Mount Single Slider Kit contains all the components you will need (except the tempered glass) to complete this style of installation. This model is used in applications where you are attaching a single sliding door to the inside face of a sufficiently reinforced wall.

The Anti-Lift Sliding Door Top Rollers can be attached to the glass with either Surface Mount or Flush Mount Fittings (both are supplied). The Rollers have a 1/8" (3.2 mm) up or down vertical adjustment to aid in door alignment. This system should only be used with 3/8" or 1/2" (10 or 12 mm) tempered glass. Laminated glass cannot be used.

DOOR SYSTEM LIMITATIONS

Maximum Door Weight: 220 lbs. (100 kg)
Maximum Panel Width: 53-1/2" (1.36 m)
Maximum Panel Height: 98-7/16" (2.50 m)
Maximum Track Length: 104" (2.64 m)

Complete glass fabrication details and drawings are available from **crlaurence.com** or by contacting our Technical Sales Department at (800) 421-6144 in the U.S., (877) 421-6144 from Canada, or (323) 588-1281 International. Ask for Ext. 7700. You can send e-mail through the **crlaurence.com** home page. Click on Contact Us, and then click on Technical Sales for Commercial Products.

CAT. NO. LSWM3BS

Each Kit Contains:

Two CRL Laguna Series Anti-Lift Top Rollers With Glass Fittings

One CRL Laguna Series Top Sliding Tube With End Caps at 104" (2.64 m) in Length

Five CRL Laguna Series Top Sliding Tube Wall Mount Clamps

Two CRL Laguna Series Door Stops (One Left Hand and One Right Hand)

One CRL Laguna Series Bottom Floor Guide

CRL Laguna Series Wall Mount Bi-Parting Slider Kit

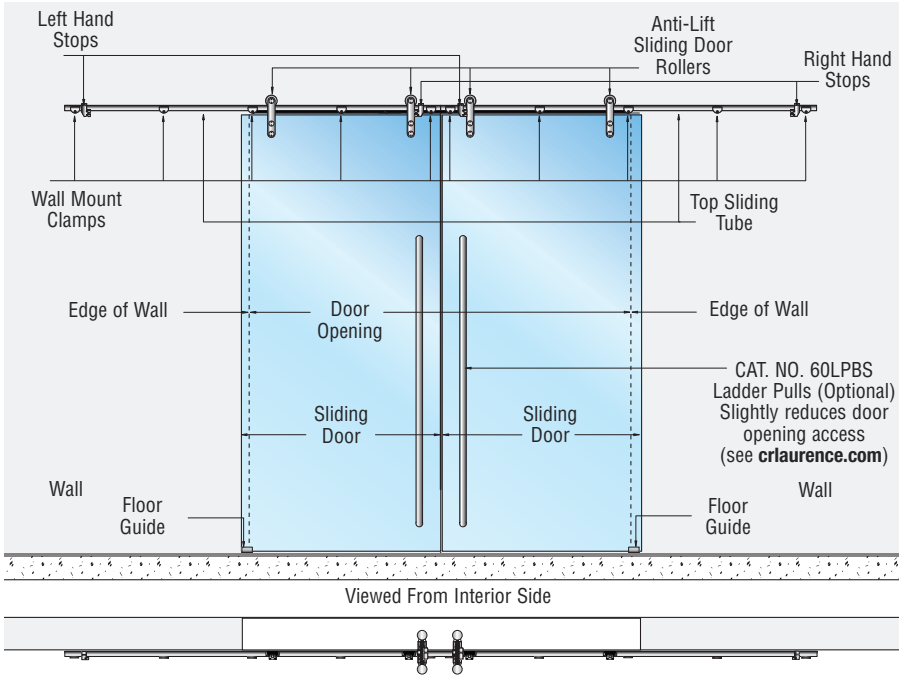

- **Anti-Lift Design**
- **Assembly Contains All Necessary Hardware to Complete the Installation With 3/8" or 1/2" (10 or 12 mm) Tempered Glass**
- **Brushed Stainless Steel Construction**

The CRL Laguna Series Wall Mount Bi-Parting Slider Kit contains all the components you will need (except the tempered glass) to complete this style of installation. This model is used in applications where you are attaching two bi-parting sliding doors to the inside face of a sufficiently reinforced wall.

The Anti-Lift Sliding Door Top Rollers can be attached to the glass with either Surface Mount or Flush Mount Fittings (both are supplied). The Rollers have a 1/8" (3.2 mm) up or down vertical adjustment to aid in door alignment. This system should only be used with 3/8" or 1/2" (10 or 12 mm) tempered glass. Laminated glass cannot be used.

DOOR SYSTEM LIMITATIONS

Maximum Door Weight: 220 lbs. (100 kg)
Maximum Panel Width: 53-1/2" (1.36 m)
Maximum Panel Height: 98-7/16" (2.50 m)
Maximum Track Length: 104" (2.64 m)

Complete glass fabrication details and drawings are available from **crlaurence.com** or by contacting our Technical Sales Department at (800) 421-6144 in the U.S., (877) 421-6144 from Canada, or (323) 588-1281 International. Ask for Ext. 7700. You can send e-mail through the **crlaurence.com** home page. Click on Contact Us, and then click on Technical Sales for Commercial Products.

CAT. NO. LSWM4BS

Each Kit Contains:

Four CRL Laguna Series Anti-Lift Top Rollers With Glass Fittings

Two CRL Laguna Series Top Sliding Tubes With End Caps at 104" (2.64 m) in Length

Ten CRL Laguna Series Top Sliding Tube Wall Mount Clamps

Four CRL Laguna Series Door Stops (Two Left Hand and Two Right Hand)

Two CRL Laguna Series Bottom Floor Guides

CRL Laguna Series Glass Mount Single Slider Kit

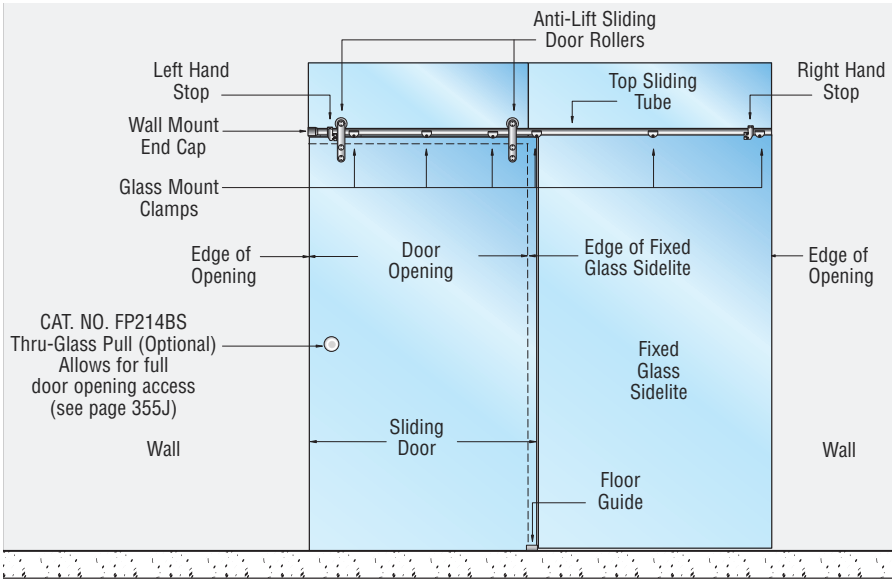

- **Anti-Lift Design**
- **Assembly Contains All Necessary Hardware to Complete the Installation With 3/8" or 1/2" (10 or 12 mm) Tempered Glass**
- **Brushed Stainless Steel Construction**

The CRL Laguna Series Glass Mount Single Slider Kit contains all the components you will need (except the tempered glass) to complete this style of installation. This model is used in applications where you are attaching a single sliding door in an 'all-glass' opening where you have a wall on one end next to the door, a glass transom above the door, and a fixed glass panel on the other side of the door. Bi-parting double doors are not possible for this application.

The Anti-Lift Sliding Door Top Rollers can be attached to the glass with either Surface Mount or Flush Mount Fittings (both are supplied). The Rollers have a 1/8" (3.2 mm) up or down vertical adjustment to aid in door alignment. This system should only be used with 3/8" or 1/2" (10 or 12 mm) tempered glass. Laminated glass cannot be used.

DOOR SYSTEM LIMITATIONS

Maximum Door Weight: 220 lbs. (100 kg)
Maximum Panel Width: 53-1/2" (1.36 m)
Maximum Panel Height: 98-7/16" (2.50 m)
Maximum Track Length: 104" (2.64 m)

Complete glass fabrication details and drawings are available from **crlaurence.com** or by contacting our Technical Sales Department at (800) 421-6144 in the U.S., (877) 421-6144 from Canada, or (323) 588-1281 International. Ask for Ext. 7700. You can send e-mail through the **crlaurence.com** home page. Click on Contact Us, and then click on Technical Sales for Commercial Products.

CAT. NO. LSGM3BS

Each Kit Contains:

Two CRL Laguna Series Anti-Lift Top Rollers With Glass Fittings

One CRL Laguna Series Top Sliding Tube With End Caps at 104" (2.64 m) in Length

One CRL Laguna Series Top Sliding Tube Wall Mount End Cap (fastener to wall is not included)

Six CRL Laguna Series Top Sliding Tube Glass Mount Clamps

Two CRL Laguna Series Door Stops (One Left Hand and One Right Hand)

One CRL Laguna Series Bottom Floor Guide

CRL Laguna Series Glass Mount Single Slider With Sidelites Kit

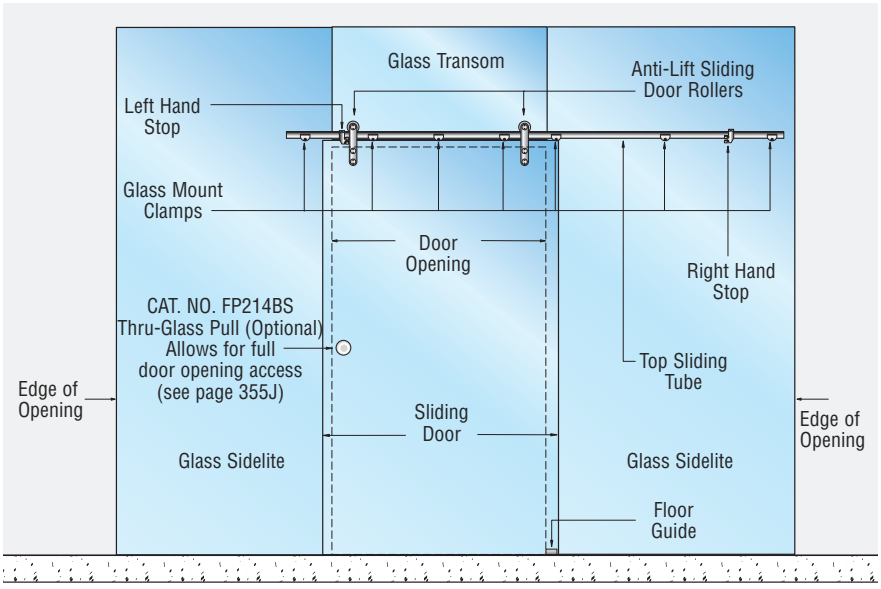

- **Anti-Lift Design**
- **Assembly Contains All Necessary Hardware to Complete the Installation With 3/8" or 1/2" (10 or 12 mm) Tempered Glass**
- **Brushed Stainless Steel Construction**

The CRL Laguna Series Glass Mount Single Slider With Sidelites Kit contains all the components you will need (except the tempered glass) to complete this style of installation. This model is used in applications where you are attaching a single sliding door in an 'all-glass' opening where you have a glass transom above the door and fixed glass panels on both sides of the door. Bi-parting double doors are not possible for this application.

The Anti-Lift Sliding Door Top Rollers can be attached to the glass with either Surface Mount or Flush Mount Fittings (both are supplied). The Rollers have a 1/8" (3.2 mm) up or down vertical adjustment to aid in door alignment. This system should only be used with 3/8" or 1/2" (10 or 12 mm) tempered glass. Laminated glass cannot be used.

DOOR SYSTEM LIMITATIONS

Maximum Door Weight: 220 lbs. (100 kg)
Maximum Panel Width: 53-1/2" (1.36 m)
Maximum Panel Height: 98-7/16" (2.50 m)
Maximum Track Length: 104" (2.64 m)

Complete glass fabrication details and drawings are available from **crlaurence.com** or by contacting our Technical Sales Department at (800) 421-6144 in the U.S., (877) 421-6144 from Canada, or (323) 588-1281 International. Ask for Ext. 7700. You can send e-mail through the **crlaurence.com** home page. Click on Contact Us, and then click on Technical Sales for Commercial Products.

CAT. NO. LSGM4BS

Each Kit Contains:

Two CRL Laguna Series Anti-Lift Top Rollers With Glass Fittings

One CRL Laguna Series Top Sliding Tube With End Caps at 104" (2.64 m) in Length

Seven CRL Laguna Series Top Sliding Tube Glass Mount Clamps

Two CRL Laguna Series Door Stops (One Left Hand and One Right Hand)

One CRL Laguna Series Bottom Floor Guide

CRL Laguna Sliding Door Hardware Adaptor Kit for Wood Doors

- Easily Adapts Our Laguna Slider Kits to Work With Wood Doors
- For Wood Doors From 1-3/8" to 1-3/4" (35 to 45 mm) Thick
- Brushed Stainless Steel Finish

new

Now you can easily adapt any of our Laguna Sliding Door Systems to work with wood doors. The Adaptor Kit allows you to mount Laguna Slider Hardware on wood doors ranging in thickness from 1-3/8" to 1-3/4" (35 to 45 mm). Recommended for solid wood doors, but can be used on hollow core doors that have adequate structure to accept the hardware.

Each kit comes with four Mounting Bolts for attaching the hardware to the wood door, five Wall Mount Bracket Spacers for use on openings with doors thicker than 1-3/8" (35 mm), and one Floor Guide. All parts are made of alloy 316 stainless steel. One kit is required per door.

CAT. NO. LSWMADT

Four Mounting Bolts

Five Wall Mount Bracket Spacers

One Floor Guide

CRL Replacement Parts for Laguna Series Sliding Glass Door System

CRL Laguna Series Top Sliding Tube

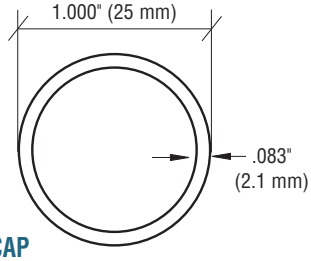

- Supports Sliding Door
- Brushed Stainless Steel
- Includes Two LS104CAP End Caps
- 104" (2.6 m) Long

This CRL Top Sliding Tube provides support for the sliding door when properly attached to walls using Cat. No. LS302BS Top Sliding Tube Wall Mount Clamps, or to glass panels when using Cat. No. LS303BS Top Sliding Tube Glass Mount Clamp Fittings (see page 354J). Minimum order is one each.

CAT. NO. LS104BS

Top Sliding Tube
With Two End Caps

CAT. NO. LS104CAP

Replacement
End Cap

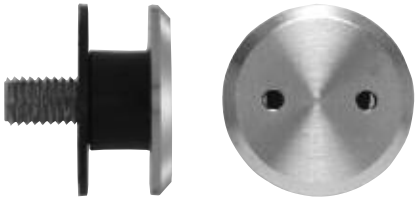

CRL Laguna Series Anti-Lift Top Roller

- Includes Both Surface Mount and Flush Mount Fittings
- Allows 1/8" (3.2 mm) Vertical Adjustment
- Brushed Stainless Steel

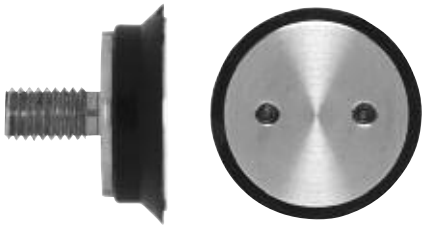

Two CRL Laguna Series Anti-Lift Top Rollers are needed for each sliding door panel. These will be placed on the Cat. No. LS104BS Top Sliding Tube after it has been mounted to the glass panels or wall. The door panel is then positioned and attached to the Rollers. Anti-Lift Top Rollers will allow for 1/8" (3.2 mm) up or down adjustment for final alignment. Rollers are supplied with both Surface Mount and Flush Mount Fittings so the glass fabrication choice is yours. Minimum order is one each.

Supplied With:

Two Surface Mount Fittings

Two Flush Mount Fittings

CAT. NO. LS300BS

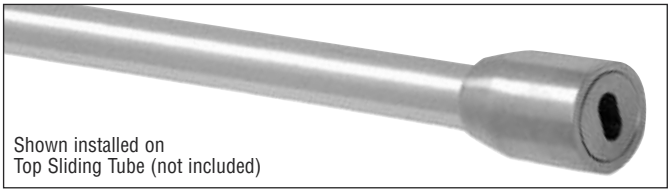

CRL Laguna Series Top Sliding Tube Wall Mount End Cap

- For Top Sliding Tubes That Terminate Into a Wall
- Brushed Stainless Steel

The CRL Top Sliding Tube Wall Mount End Cap is a non-handed fitting. It is used in conditions where the Cat. No. LS104BS Top Sliding Tube terminates into a wall. The elongated hole and internal sleeve make final minor adjustments quick and easy. Fastener to wall is not included. Minimum order is one each.

CAT. NO. LS106BS

Shown installed on
Top Sliding Tube (not included)

CRL Replacement Parts for Laguna Series Sliding Glass Door System

CRL Laguna Series Top Sliding Tube Wall Mount Clamp

- Used in Wall Mounting Applications
- Anti-Lift System
- Brushed Stainless Steel

This CRL Top Sliding Tube Wall Mount Clamp attaches to the surface of a sufficiently reinforced wall. Fasteners are not supplied. The Cat. No. LS104BS Top Sliding Tube is then clamped in place by tightening the jaws of the Clamp. Minimum order is one each.

CAT. NO. LS302BS

CRL Laguna Series Top Sliding Tube Glass Mount Clamp

- Used in Glass Transom and Sidelite Applications
- Anti-Lift System
- Brushed Stainless Steel

This CRL Top Sliding Tube Glass Mount Clamp is used in glass transom and sidelite applications. They mount through the holes prepared in the glass. Supplied with both Surface Mount and Flush Mount Fittings. The Cat. No. LS104BS Top Sliding Tube is then clamped in place by tightening the jaws. Minimum order is one each.

CAT. NO. LS303BS

CRL Laguna Series Door Stops

- Prevents 'Over Travel' of Door Panel
- Protects Finished Opening
- Simple to Install
- Brushed Stainless Steel

These Door Stops prevent 'over travel' of the door panels used in Laguna Series Assemblies, which helps protect the finished opening and the glass. Door Stops are installed by simply sliding them over the end of the Cat. No. LS104BS Top Sliding Tube and then tightening them in place. Minimum order is one each.
NOTE: Left or right handing is determined as viewed from the hardware side of the opening.

CAT. NO. LS105LBS
Left Hand

CAT. NO. LS105RBS
Right Hand

CRL Laguna Series Bottom Floor Guide

- Brushed Stainless Steel Guide Keeps Glass Door Aligned
- Adjustable for 3/8" and 1/2" (10 and 12 mm) Glass Doors

The CRL Laguna Series Bottom Floor Guide is adjustable for 3/8" and 1/2" (10 and 12 mm) glass doors. The Guide keeps the glass door aligned so it can slide straight when opening and closing. It also prevents the door glass from being pushed in at the bottom. 1-15/16" (49 mm) overall length; 29/32" (23 mm) high. Minimum order is one each.

CAT. NO. LS307BS

CRL Accessories for Laguna Series Sliding Glass Door System

CRL Laguna Series Top Sliding Tube Ceiling Mount Clamp

- Used in Ceiling Mount Applications
- Anti-Lift System
- Brushed Stainless Steel

This CRL Top Sliding Tube Ceiling Mount Clamp attaches to a structural ceiling sufficient to carry the loads of the Sliding Glass Doors. These are ordered separately from the kits and would replace the Wall Clamps included in any of the kits.

This Clamp positions the Top Sliding Tube 4-11/16" (119 mm) down from the ceiling and has 3/16" (5 mm) of up or down adjustment to help with leveling the Top Sliding Tube during installation. Comes with four fasteners for mounting, and has a snap-on cover to finish the installation. Minimum order is one each.

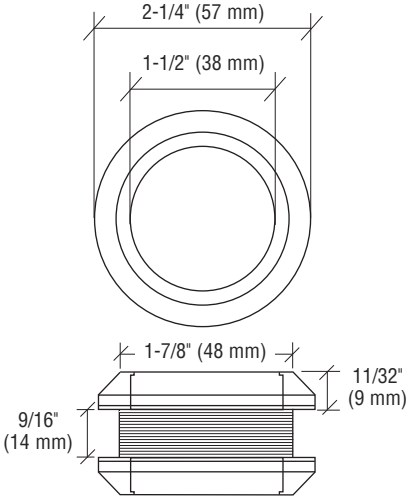

CAT. NO. LS312BS

CRL Laguna Series Thru-Glass Pull

- Low Profile Design Allows for Full Door Opening Access
- Brushed Stainless Steel

The CRL Laguna Series Thru-Glass Pull has a recessed low profile design that you screw together to install. Its solid stainless steel construction makes this a rugged yet elegant solution for a pull handle. The thickness of this Thru-Glass Pull doesn't impede movement in front of walls or glass sidelites as it allows for full door opening access. Supplied with clear gaskets to accommodate door glass from 3/8" to 1/2" (10 to 12 mm) thick. Minimum order is one each. **NOTE:** Requires 1-7/8" (48 mm) hole in glass panel for installation. You can use our Cat. No. PDT48MM Diamond Drill to fabricate the proper size hole.

CAT. NO. FP214BS

CRL Universal Spanner Wrench

Use this CRL Universal Spanner Wrench as a quick and efficient method of attaching or loosening Spanners. Kit includes: one Adjustable Tool, five Metric (1.5, 2, 2.5, 3, and 4 mm) Spanner Pin Sets, five Fractional (1/16", 3/32", 1/8", 5/32", and 3/16") Spanner Pin Sets, and one Molded Carrying Case. Minimum order is one each.

CAT. NO. USW10

CRL Spanner Wrench

Use this CRL Spanner Wrench as a quick and efficient method to secure and tighten Laguna Series Rollers, Brackets, and Fittings to the glass. Minimum order is one each.

CAT. NO. SW19

CRL Spanner Head

This CRL Spanner Head is used with your 1/4" drive ratchet wrench to secure and tighten Laguna Series Rollers, Brackets, and Fittings to the glass. Ratchet wrench not included. Minimum order is one each.

CAT. NO. LSSW1

CRL Laguna Series Pivot Door System

- All 316 Alloy Brushed Stainless Steel Construction
- Ideal for Interior Room Applications
- For Use With 3/8" or 1/2" (10 or 12 mm) Tempered Glass
- Comes With All Fasteners Needed for Either Flush Mount (Countersunk) or Surface Mount (Straight Hole) Glass Fabrication

Our Laguna Series Hardware brings a contemporary look to interior home or office partitions. Made of high-grade 316 alloy stainless steel, it will give years of reliable function and modern beauty to your projects.

The CRL Laguna Pivot Door System can be used with free-swinging doors, or doors controlled by floor mounted door closers. The hardware can be ordered in sets or by individual components.

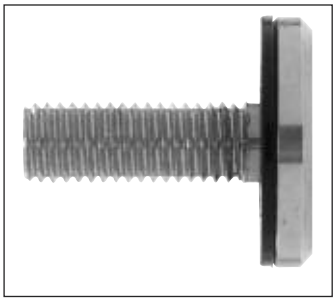

CRL provides you with all of the Glass Fasteners for either flush mounting, which requires a countersunk hole, or surface mounting, where a straight hole is needed. The Glass Fasteners will accommodate either 3/8" or 1/2" (10 or 12 mm) tempered glass. Laminated glass cannot be used with this hardware.

Standardized sets allow easy planning and purchasing for a number of basic configurations. Available accessories give you the opportunity to customize the standard sets to accommodate the most imaginative designers.

NOTE: Care should be taken when using this system in exterior applications to ensure that air and water infiltration can be minimized.

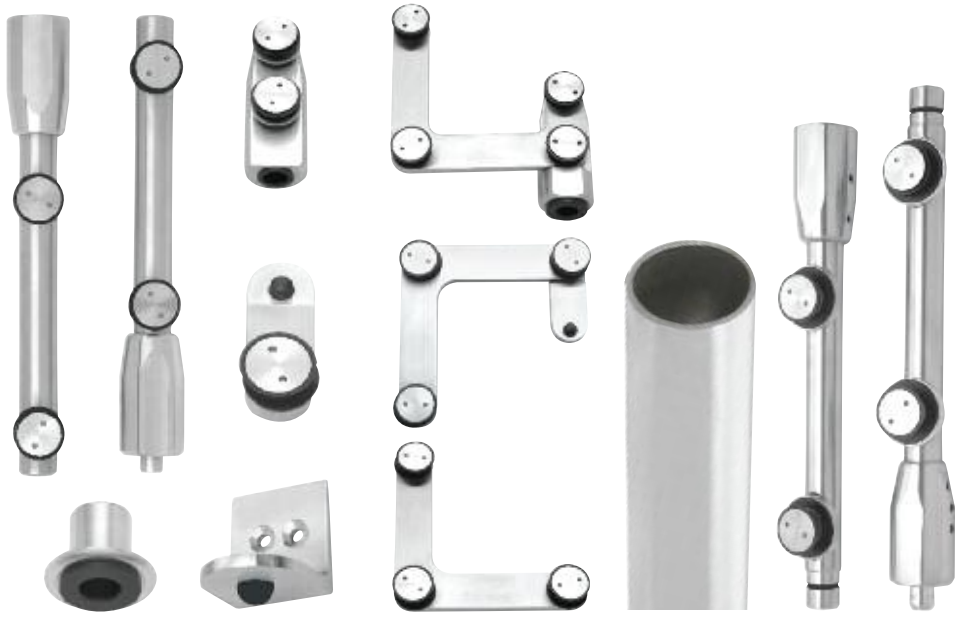

Flush Mount Fastener

Surface Mount Fastener

DOOR SYSTEM LIMITATIONS

Maximum Door Weight: 176 Lbs. (80 kg)
Maximum Panel Width: 47-1/4" (1.2 m)
Maximum Panel Height: 98-7/8" (2.5 m)

Are You Missing Opportunities?

In today's marketplace the winners are those that take advantage of opportunities presented to them. Shower door installations, repair or maintenance are a prime example of an opportunity. Customers call back contractors that provide a quality job, in a timely manner, and leave the job as clean or cleaner than it was before the job started. Replacing or repairing a shower door for the customer greatly increases your chance of being the installer when the customer decides it's time to put in a new unit. On the following pages is a selection of repair and maintenance hardware to assist you in repairing or maintaining shower doors. If you don't see the exact part you need you can e-mail us a photo or send us a sample and we will try to locate the part for you.

Typical Repairs That Can Create Profit Opportunities for You:

Replacing Damaged Rollers

Resealing a Leaking Unit

Adjusting a Sagging Door

Download the Following Catalogs for a Complete Selection of Shower Door Hardware and Tools at crlaurence.com.

new

CAT. NO. SD12

Reacting to the "wish list" of designers and installers has brought about many of the new products that are now part of our extensive selection in the SD12 Frameless Shower Door Hardware and Supplies Catalog. Unsurpassed quality combined with technical expertise, full inventories, and the willingness to listen has contributed to create our complete package of quality hardware backed by excellent service.

CAT. NO. FS14

Our new FS14 Catalog features CRL's full line of Frameless Sliding Shower Door Systems, including our Glass Magazine Award Winning Serenity Series Slider. It's a great way to show your customers all of the choices you can offer them.

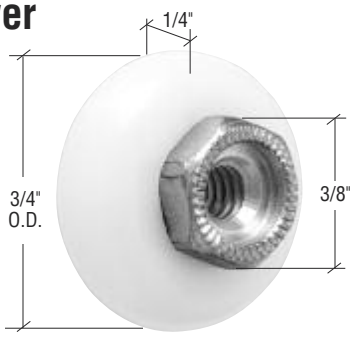

CAT. NO. ST14

Elegant, beautifully designed frameless shower enclosures cannot become a reality without professional installers using state of the art tools and techniques. In this catalog you will see some imaginative ideas brought to production and shared with the trade by C.R. Laurence.

CRL Aluminum Extrusions for Glass Shelving

USE MONOLITHIC TEMPERED GLASS

- **Available in Four Lengths and Finishes for 1/4" and 3/8" (6 and 10 mm) Thick Glass**
- **Easy to Install**

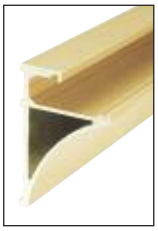

CRL Aluminum Shelf Extrusions are designed to support glass shelves without a lot of visible metal. The cleat easily attaches to studs with screws, and can support a shelf with a maximum projection of 12" (305 mm). Offered in 96" (2.4 m) long Extrusions, so now you are no longer limited to "standard size" shelves. The Extrusions may be easily cut to size, and by installing matching End Caps the shelves make for a beautiful presentation.

Available for both 1/4" and 3/8" (6 and 10 mm) thick glass, the Extrusions come in the following finishes: brite anodized, brite gold anodized, brushed nickel, and white. 18", 24", and 36" (457, 610, and 914 mm) long Shelf Kits come with one pair of matching plastic End Caps. All lengths come with thermoplastic rubber (TPR) strips to cushion the glass.

The Glass Shelf Kit from Knape & Vogt is guaranteed to attract the attention of buyers who want contemporary yet elegant fixtures to grace their homes. The Shelf Anchor is a one-piece support that grips the glass shelf along the full back edge and mounts almost anywhere. The Kit comes complete with 1/4" (6 mm) thick tempered glass, with smoothly radiused front corners and polished edges for maximum safety. Combined with the tempered glass shelf, and properly installed, it easily supports up to a 50 pound (22 kg) load. White and black finishes are a smooth epoxy powder coating.

Minimum order: 1 pack. All Glass Clamps can be combined for quantity pricing.

CRL Single Set Screw Clamps

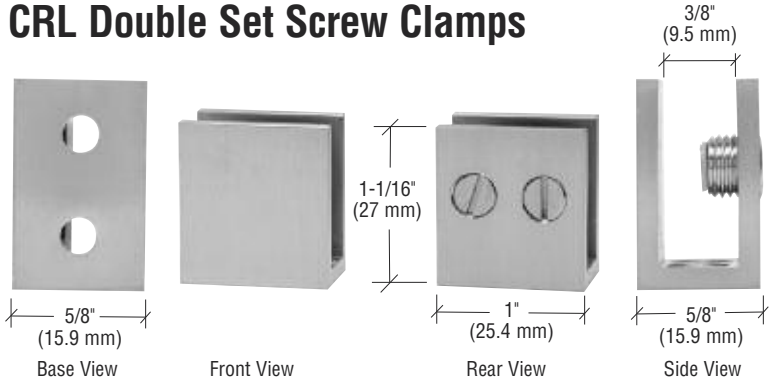

CRL Single Set Screw Glass Clamps are designed for lightweight glass mounting solutions such as erecting small signs, low glass partitions in kiosks, or attaching shelves to walls. These solid brass Clamps can be used for a variety of glass applications. They can be attached to any substrate. The glass is secured by a plastic tipped set screw. One Clamp per pack.

- **Set Screw Type for 1/4" to 5/16" (6 to 8 mm) Glass**

CAT. NO.	FINISH
EH30	Chrome
EH31	Brushed Nickel
EH32	Brass

Minimum order: 1 pack. All Glass Clamps can be combined for quantity pricing.

CRL Double Set Screw Clamps

CRL Double Set Screw Glass Clamps are designed to mount glass just about anywhere. With double plastic tipped set screws, this solid brass Clamp has the strength to support larger panels. Typical applications include connecting panels for railing systems, office partitions, and display merchandise signage. One Clamp per pack.

- **Double Set Screw Type for 1/4" to 5/16" (6 to 8 mm) Glass**

CAT. NO.	FINISH
EH34	Chrome
EH35	Brushed Nickel
EH36	Brass

Minimum order: 1 pack. All Glass Clamps can be combined for quantity pricing.

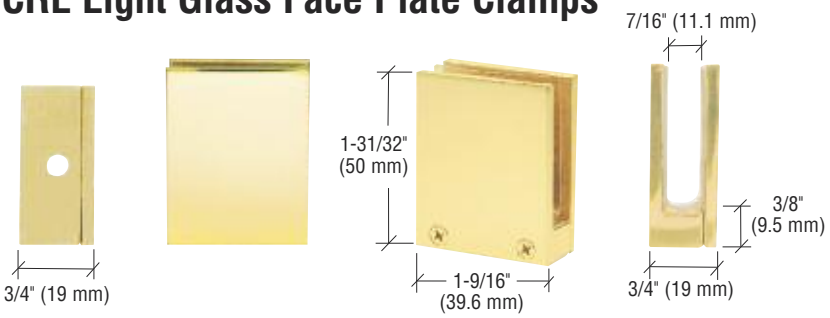

CRL Face Plate Clamps

From Clamps with narrow profiles to traditional designs, CRL offers Glass Clamps with both removable and fixed face plates to provide flush glazing and ease of panel installation. These solid brass Clamps work with glass thicknesses from 1/4" to 1/2" (6 to 12 mm). Drawings and templates for all Clamps are available online at **crlaurence.com**.

CRL Light Glass Face Plate Clamps

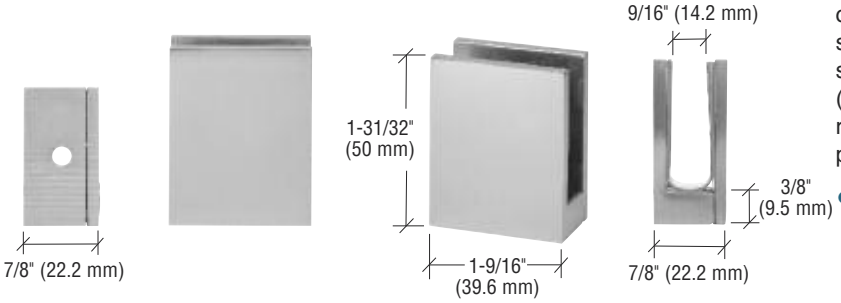

CRL Light Glass Face Plate Clamps are one of our most popular sellers. Universal in design, the Clamp has a removable face plate secured with two screws. Gasket is supplied for 3/8" (10 mm) glass. For use with 1/4" (6 mm) glass we recommend CRL Cat. No. 820 Tuff-Pak Tape. One Clamp per pack.

- **For 1/4" to 3/8" (6 to 10 mm) Glass**

CAT. NO.	FINISH
EH12	Chrome
EH13	Brushed Nickel
EH14	Brass

Minimum order: 1 pack. All Glass Clamps can be combined for quantity pricing.

CRL Heavy Glass Face Plate Clamps

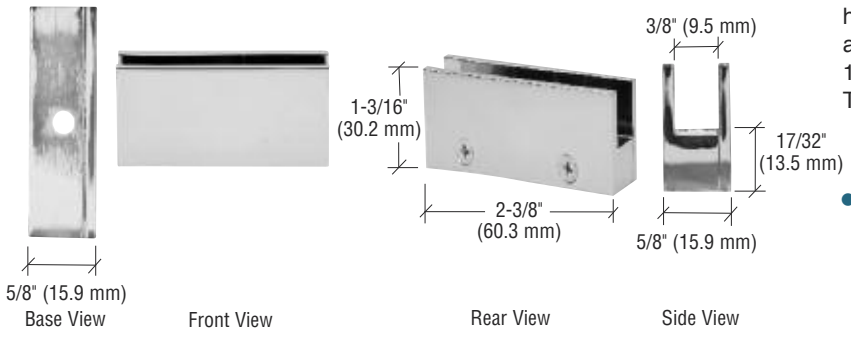

CRL Heavy Glass Face Plate Clamps are universal in design and solve many glass mounting problems. One of our most popular sellers for flush glazing, or attaching shelves to walls, this Clamp has a removable face plate secured with two screws. A gasket is supplied for 1/2" (12 mm) glass. For use with 3/8" (10 mm) glass we recommend CRL Cat. No. 820 Tuff-Pak Tape. One Clamp per pack.

- **For 3/8" to 1/2" (10 to 12 mm) Glass**

CAT. NO.	FINISH
EH15	Brushed Nickel
EH16	Chrome
EH17	Brass

Minimum order: 1 pack. All Glass Clamps can be combined for quantity pricing.

CRL Low Profile Face Plate Glass Clamps

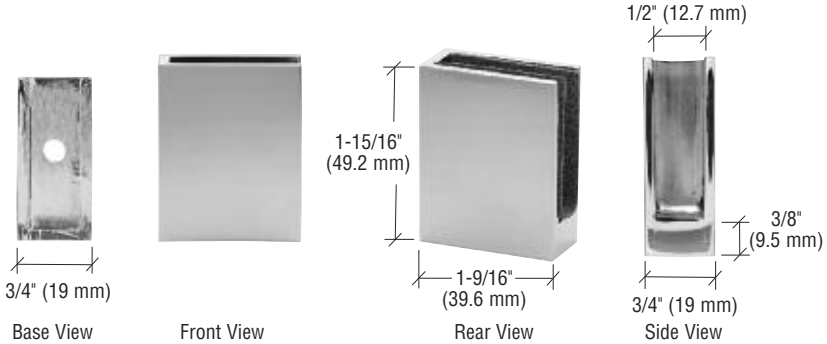

CRL Low Profile Face Plate Glass Clamps are perfect for flush glazing, or attaching shelves to walls. The Clamp has a removable face plate secured with two screws and a gasket for 5/16" (8 mm) glass is supplied. For use with 1/4" (6 mm) glass we recommend CRL Cat. No. 820 Tuff-Pak Tape. One Clamp per pack.

- **For 1/4" to 5/16" (6 to 8 mm) Glass**

CAT. NO.	FINISH
EH09	Brushed Nickel
EH10	Chrome
EH11	Brass

Minimum order: 1 pack. All Glass Clamps can be combined for quantity pricing.

CRL Fixed Plate Corner Glass Clamps

CRL Fixed Plate Corner Glass Clamps are ideal for securing glass at the top or bottom edges of partitions. These blank Corner Clamps have no face plates or set screws; glass is secured with packing. They give a finished look to shelves that are viewed from the front. Gasket is supplied for 3/8" (10 mm) glass. For use with 1/4" (6 mm) glass we recommend CRL Cat. No. 820 Tuff-Pak Tape. One Clamp per pack.

- **For 1/4" to 3/8" (6 to 10 mm) Glass**

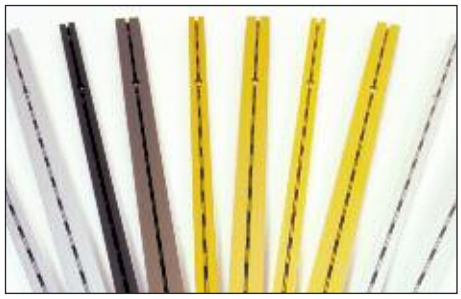

CAT. NO.	FINISH
EH18	Chrome
EH19	Brushed Nickel
EH20	Brass

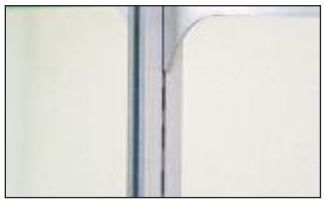

Minimum order: 1 pack. All Glass Clamps can be combined for quantity pricing.

CRL Aluminum Mirror and Wall Mount Standards

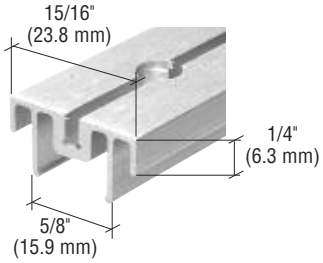

- **Available in Three Standard Lengths: 36", 48", and 72" (914, 1219, and 1829 mm)**
- **Discreet Narrow Bracket Holes**

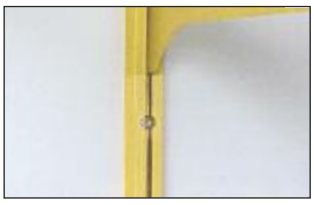

CRL Aluminum Standards are available in two styles. The 22 Series Mirror Standard is "T" Shaped, and fits between two mirror panels to cover the edges and secure them to the wall. The 322 Series Wall Standard simply secures to the wall. Five finishes and three lengths cover just about any application. Both styles provide attractive glass wall shelving for displaying selected items.

CRL Magnifying Mirrors

• Designer Styling With Optical Quality Glass

We have a beautiful collection of Magnifying Mirrors in wall mount, pedestal, suction cup, and counter top models. Made in the U.S.A. with the finest materials and latest technology available, our Magnifying Mirrors will complement and complete your bathroom décor with designer styling. You may choose from lighted and non-lighted types. Each has precision-ground, optical quality glass for distortion-free images of unparalleled sharpness and powerful magnification. Display a few styles in your showroom for your walk-in customers to view and create a new profit center for your business. **NOTE:** Surround Light® Vanity Mirrors are wired for 110V AC.

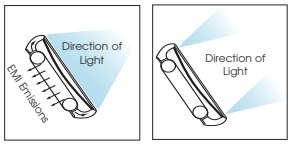

CRL Multi-Mag™ Wall Mount Dual Arm Mirrors With Surround Light®

- The Ultimate Wall Mount Magnifying Mirror
- 110V AC

Surround Light® amplifies light across the mirror surface, outward-illuminating the face at any angle or distance from the mirror.

A traditional lighted mirror only amplifies light outward, producing glare, distortion, reduced sharpness and shadows.

This one has it all! A 9-1/4" (235 mm) 5X Magnification Wall Mount Dual Arm Mirror with Surround Light®, and a 7X high power 6" (152 mm) mirror that swings into position with just a touch. It extends a maximum of 15" (381 mm) from the mounting surface. Available in two finishes: polished chrome and satin nickel, so your customers can match their other bath accessories. **NOTE:** Uses Cat. No. ZP129 Replacement Bulb see page 397J.

CAT. NO.	DIAMETER	BASE FINISH
ZMSW37	6" (152 mm) and 9-1/4" (235 mm)	Polished Chrome
ZMSW47	6" (152 mm) and 9-1/4" (235 mm)	Satin Nickel

Minimum order: 1 each. All CRL Magnifying Mirrors can be combined for quantity pricing.

CRL Wall Mount Dual Arm Mirrors With Surround Light®

- Both 5X and 7X Magnification
- 110V AC

The Surround Light® System of these 9" (228 mm) Wall Mount Dual Arm Mirrors amplifies light both across the mirror surface, and outward to illuminate the face at any angle of viewing. We've selected two high quality finishes to match the most popular bath accessories. As with all Surround Light® Mirrors, they will give you fog-free optics. Instant on/off switch has cord or direct wire connection capability. It extends a maximum of 17" (432 mm) from wall. **NOTE:** Uses Cat. No. ZP129 Replacement Bulb see page 397J.

CRL Chrome Swivel Multi-Mag Wall Mount Dual Arm Mirror

- Oval Mirror has Beveled Edge
- 1X-5X-7X Magnification

CAT. NO. Z0VW5

The CRL Swivel Multi-Mag Wall Mount Dual Arm Mirror features a 1X distortion free oval mirror combined with the functionality of selectable 5X and 7X swivel magnification. The dual arm allows the mirror to extend 11" (279 mm) from the mounting surface, and has the flexibility to be rotated to eye level. The beveled 1X oval mirror measures 12" (304 mm) x 8" (203 mm), and the 5X - 7X inset swivel mirror is 5" (127 mm) in diameter. Minimum order is one each.

Surround Light is a registered trademark of Zadro Products, Inc.

CRL Wall Mount Dual Arm Mirror

- Elegant Styling and Crystal Clear Optics
- Dual Arms Extend to 15" (381 mm)
- 5X Magnification

CAT. NO. ZZ9W5

Solid, smooth swinging action can be expected when you position our 5X Power Wall Mount Dual Arm Mirrors. You'll be impressed with the heavy chrome finish that will match your other quality bath and shower fixtures. The large 9" (228 mm) diameter mirror offers a sharp image, and extends a maximum of 15" (381 mm) out from the wall. Stores neatly against the wall when not in use. Minimum order is one each.

CRL Wall Mount Dual Arm Oval Mirror With LED Surround Light

- Lifetime LED Surround Lighting
- Brushed Nickel Finish
- Mounts Anywhere

CRL's beautifully and conveniently designed Wall Mount Oval Mirror with LED Surround Light provides 10X magnification on one side and 1X on the other. The 9" x 6-1/2" (229 x 165 mm) oval mirror is mounted on a 360 degree swivel with arms that extend 12" (305 mm) from the 1-1/2" (38 mm) thick mounting plate. This mirror can be installed on any wall in your home since it does not require plug-in power. A dimmable on/off switch adjusts LED brightness. Requires four C batteries (not included). An external power adapter is included.

CAT. NO. ZLEDW410

CRL Pedestal Oval Mirror With LED Surround Light

- LED Bulbs Never Need Replacing
- Can Be Placed Anywhere
- Brushed Nickel Finish

CRL's 19" (483 mm) tall Pedestal Oval Mirror is perfect for your vanity, bathroom counter, or dresser. The 9"x 6-1/2" (229 x 165 mm) viewing area can be rotated to use either the 1X or 10X mirror. The LED Surround Light is adjustable using the conveniently located on/off switch. Requires four C batteries (not included). Also comes with external power adapter. Minimum order is one each.

CAT. NO. ZLEDV410

CRL Vanity Mirror With LED Surround Light

- 1X and 5X Magnification
- Elegant Slim Design
- No Power Cord Required

CRL's Vanity Mirror has an LED Surround Light in a 7" (178 mm) diameter brushed nickel frame. This conveniently sized mirror is 14" (356 mm) high, and can be easily carried with you wherever you go. The 360 degree swivel mirror has 1X magnification on one side and 5X on the other. Uses four AA batteries (not included). Minimum order is one each.

CAT. NO. ZLEDV45

CRL Compact Travel Mirror With LED Surround Light

- Easy to Pack for Travel
- Fully Height and Angle Adjustable
- 1X and 10X Magnification

CRL's Compact Travel Mirror with LED Surround Light is the perfect gift for use on the road or at the office. This double compact mirror measures 3-3/4" (95 mm) in diameter and folds to 1-1/2" (38 mm) thick. The LED lights allow you to illuminate either or both mirrors at the same time. The mirror unfolds from the off-white plastic case and conveniently adjusts to any angle. Three AAA batteries are required (not included). Minimum order is one each.

CAT. NO. ZLEDT01

CRL Two-Sided Swivel Mirror

- 1X and 10X Magnification
- 360 Degree Swivel Frame
- Brushed Nickel Finish

CRL's Two-Sided Vanity Mirror has two quality 8" (203 mm) diameter mirrors mounted in a single swivel frame for easy viewing. The 16" (406 mm) tall mirror has a non-slip base and a brushed nickel finish. The perfect size make-up mirror for your guest bath or vanity. Minimum order is one each.

CAT. NO. ZVAN410

CRL MAGNIFYING MIRRORS

CRL Fogless Magnifying Mirror With White Frame

- Permanently Fogless Mirror With Break and Scratch Resistant Optical Quality
- 1X to 5X Magnification

This CRL Fogless Magnifying Mirror is the best ever! With just a few rotations of the attractive white frame, you can change the magnification power of this Fogless Mirror from 1X to 5X. Double razor holder built into the frame. Attaches to any smooth, non-porous surface with double suction cups.

CAT. NO.	DIAMETER	MAGNIFICATION
ZZ500W	6" (152 mm)	1X to 5X

Minimum order: 1 each. All CRL Magnifying Mirrors can be combined for quantity pricing.

CRL 5X and 7X Power Suction Cup Mirrors

- Choice of 5X or 7X Magnification
- Adheres to Any Smooth Non-Porous Surface

Our Suction Cup Mirrors feature a specially developed and patented vinyl cup for long term adhesion to mirror and tile surfaces. The large 7" (178 mm) diameter viewing area and your choice of a 5X or 7X magnification power makes it an ideal make-up mirror. Suction Cup Mirrors are made to be break and scratch resistant. The clear acrylic surround frame blends in with any background surface.

CRL MIRROR DEFOGGERS

CRL Clear View™ Mirror Defoggers

- Enjoy the Clarity of a Mirror That Automatically Defogs
- Now Available in Two Sizes and Three Shapes - Rectangular, Oval, and Round
- Provides a Crystal Clear Reflection in High Humidity Conditions
- Fast, Simple, and Cost Efficient Installation
- UL Approved

c UL us LISTED

CE

Certification
(See Page 107J)

CRL Clear View™ Mirror Defoggers are specially designed thin heating elements that are adhered to the back of mirrors, gently raising their temperature just enough to keep the mirror dry and clear in high humidity conditions. Wiping moisture off the mirror with a towel is unnecessary, making shaving and applying make up easier.

Low voltage CRL Clear View™ Mirror Defoggers are available in three shapes and in two sizes each that can be incorporated into virtually any mirror design. They are easy to install by wiring to any power source, but the most common method is to wire to the bath's 120V AC vanity light switch.

Each maintenance-free Defogger carries a five year unconditional guarantee. Offering them to housing developers, homeowners, spas, and hotels while closing sales for your mirror installations brings added value to the job, and a higher profit yield for you.

Custom sizes and 220 volt models are available on special request. For additional information, contact the CRL Customer Service Department at (800) 421-6144 in the U.S., (877) 421-6144 in Canada, or (323) 588-1281 International, and ask for Ext. 5275. You can also send e-mail from the **crlaurence.com** home page. Click on Contact Us, and then click on Customer Service.

Some Great Opportunities

- Ask Us About Our High Volume Installer Program for Hotels, Housing Tracts, and Condominium Complexes
- Great for Private Residences, Spas and Salons, Apartment Complexes, and Hotels

R20	20" (508 mm)	41	0.041

Minimum order: 1 each. All Defoggers can be combined for quantity pricing.

CRL PIVOT MIRRORS

CRL Frameless Pivot Mirrors

- Beautiful 'All-Glass' Design
- Folds to Wall When Not In Use
- Completely Adjustable for Hands-Free Use
- Clear 3/16" (5 mm) Mirror has Radius Corners and Pencil-Polished Edge
- Two Popular Designer Finishes

CRL now offers a uniquely designed series of Frameless Pivot Mirrors featuring through-glass mounting hardware for an 'all-glass' appearance. This product of CRL Manufacturing utilizes high quality 3/4" (19 mm) tubing and mounting components to provide strength and an attractive designer look to your bath or dressing room. The chrome and brushed nickel finishes match our Frameless Shower Door Hinges and Pulls.

The Frameless Pivot Mirror pivots to provide a 'surround' view, and folds to the wall when not in use. The surface of the mirror sits only 2" (51 mm) off the wall when folded flat. Two available sizes to accommodate hotel, retail or residential applications. These easy-to-install mirrors have a matching finish all-metal back that is adhered to the glass mirror for safety. Mirrors are packed to arrive safely, and come complete with installation instructions and mounting hardware.

NOTE: Frameless Pivot Mirrors in custom sizes are available by special order.

CRL 15" x 23" Frameless Pivot Mirrors

Finishes:

- Ideal Size for Bath or Dressing Rooms
- Folds Flat When Not In Use

Overall Mirror Dimensions:
15" x 23" (381 x 584 mm)

This size is the perfect complement to your master bath or dressing room. When pivot arms are fully extended the mirror is 15-1/2" (394 mm) out from the wall surface, providing ample room for adjustment to any viewing angle. You can choose from two popular finishes.

CAT. NO.	FINISH
FPM1523CH	Chrome
FPM1523BN	Brushed Nickel

Minimum order: 1 each. All Frameless Pivot Mirrors can be combined for quantity pricing.

CRL 15" x 15" Frameless Pivot Mirrors

Finishes:

- Typical Applications Include Hotel Rooms, Retail Dressing Rooms, and Guest Bathrooms

Overall Mirror Dimensions:
15" x 15" (381 x 381 mm)

Easy-to-install, highly functional Frameless Pivot Mirrors are perfect in so many places. The 3/16" (5 mm) thick mirror has rounded pencil-polished edges, and is securely attached to the all-metal back finished to match the pivot arms and mounting hardware. Choose from two decorator finishes.

CAT. NO.	FINISH
FPM1515CH	Chrome
FPM1515BN	Brushed Nickel

Minimum order: 1 each. All Frameless Pivot Mirrors can be combined for quantity pricing.

CRL PIVOT MIRRORS

CRL Pivot-N-View Double-Hinged Mirrors

- Swings Out and Stays in Place for Hands-Free Viewing
- Brushed Nickel and Polished Chrome Finishes in Two Sizes
- Comes Complete With Glass Mirror

Finishes:

- Available in Two Sizes

11" x 11"
(279 x 279 mm)

14" x 22"
(355 x 558 mm)

The CRL Pivot-N-View Mirror is perfect for residential and hotel bathrooms or retail store dressing rooms. It is almost infinitely adjustable, and provides the user with full back and side views. Pivot-N-View Mirrors are designed for installation on a sidewall within 18" (457 mm) or less from the existing mirror. The mirror may also be installed on an opposite wall and should be mounted at the height of the principal user. Pivot-N-View Mirrors have a 180 degree arc from the wall plus 360 degree capability within their own frames. All frames can be mounted on the right or left hand wall by simply reversing the hinges. The arms extend a total length of 10" (254 mm) from the wall. It ships complete with mounting instructions and hardware, making this product easy to install.

CAT. NO.	SIZE (W x H)	FINISH

Our Mirror Pivots will enhance any bath or dressing room. You can install these Pivots anywhere wall space is available and, within minutes, have a useful accessory that will last for years. Mirror Pivots will accommodate 1/8" to 1/4" (3 to 6 mm) thick mirror of just about any configuration, and will hold up to 30 pounds (13.6 kg). Full length vanity mirrors can be mounted and tilted to view any height. Pivots are made of heavy plated cast brass, and beautifully finished. Mounting hardware is included. Minimum order is one pair. All Mirror Pivots can be combined for quantity pricing.

NOTE: Not designed for use with beveled mirror. Mirror Pivots work best with flat polished or pencil polished edges. CRL recommends using Cat. No. 2MT24 Shatterproof Safety Tape for mirrors being installed into Mirror Pivots.

CRL PIVOT MIRRORS

CRL Custom Aluminum Pivot Mirror Frames

- **Ideal for Dressing Rooms or Retail Store Fitting Rooms**
- **Made to Your Exact Specifications**
- **Available in Six Attractive Finishes**
- **Narrow Extrusion Face Allows Increased Mirror Visibility**
- **Individually Packaged to Ship U.P.S.**

The D977 Custom Aluminum Pivot Mirror Frame is made to your exact size requirements and available in six finishes. The frame pivots on an adjustable hinge, which holds the mirror at any angle and then permits "pivot-away" storage when not in use. It is ideal for dressing rooms, retail store fitting rooms or where limited space is a factor.

All Custom Pivot Mirror Frames are quoted on request. Contact CRL Customer Service at (800) 421-6144 in the U.S., (877) 421-6144 from Canada, or (323) 588-1281 International, and ask for Ext. 5275. Specify finish, overall height and width, and the number of frames required. You can also email us through our web site at **crlaurence.com**. From the home page click on Contact Us, and then click on Customer Service.

CAT. NO.	FINISH
D977A	Satin Anodized
D977GA	Gold Anodized
D977DU	Duranodic Bronze
D977BA	Brite Anodized
D977BGA	Brite Gold Anodized
D977FB	Flat Black Anodized

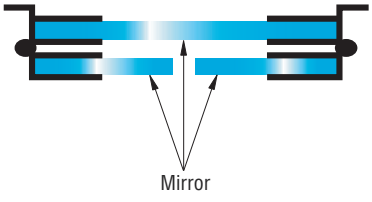

Minimum order: 1 each.

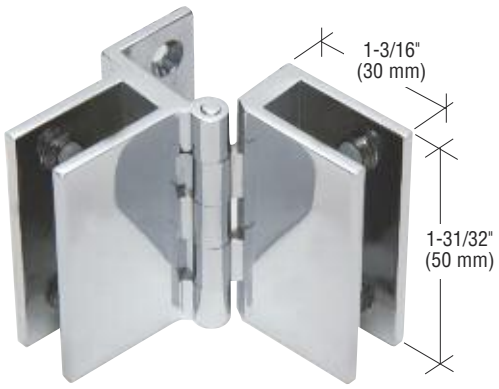

NOTE:
Minimum size is 12" x 12" (305 x 305 mm);
Maximum size is 24" x 36" (610 x 914 mm);
Mirror not included.

CRL Frameless Triple Mirror Hinge

- **For 1/4" to 5/16" (6 to 8 mm) Glass**
- **Secures Mirror With Set Screws**
- **Chrome Finish**

Maximum Panel Size to Be Used With This Hinge:
5/16" (8 mm) Glass:
Wings: 51-3/16" (1300 mm) H x 17-3/4" (450 mm) W;
Center: 51-3/16" (1300 mm) H x 31-1/2" (800 mm) W
1/4" (6 mm) Glass:
Wings: 59-1/16" (1500 mm) H x 19-1/16" (485 mm) W;
Center: 59-1/16" (1500 mm) H x 35-7/16" (900 mm) W

CRL's Frameless Triple Mirror Hinge is a compact general purpose glass-to-glass hinge with set screws on the back. This hinge was designed to make frameless triple mirrors that are mounted to the wall. Plastic tipped set screws secure the glass.

CAT. NO.	FINISH	QTY/PKG
EH66	Chrome	4

Minimum order: 1 pack. Can be combined with other set screw hinges for quantity pricing.

CRL ALUMINUM MIRROR FRAMES

CRL Aluminum Picture Frame Molding

- Easily Fabricated to Produce Beautiful Frames
- Available in Three Attractive Finishes
- Two Hanging Options

You can custom make modern frames of any size from stock with this slim profile CRL Aluminum Picture Frame Molding. Made of extruded aluminum, it comes in three beautiful finishes: brite aluminum, brite gold, and glossy black.

Easy to fabricate and assemble. Simply miter cut the extrusions, insert and tighten the Corner Set. The Spring Clips hold your picture in place in the frame by applying pressure between the frame and the picture. Finally, use either the Hanger Set or Hanger Cleat to suspend the frame on the wall. It's all very quick and easy.

CAT. NO.	FINISH	STOCK LENGTH
4410BA	Brite Aluminum	12 Ft. (3.66 m)
4410BG	Brite Gold	12 Ft. (3.66 m)
4410BL	Glossy Black	12 Ft. (3.66 m)

Minimum order: 1 stock length. All finishes can be combined for quantity pricing. A Packing Charge will be added to orders of fewer than 10 combined lengths. Stock lengths longer than 98" (2.49 m) must ship common carrier, unless you specify we cut them for UPS. A Cutting Charge will apply.

CRL Corner Set for Aluminum Frame Molding

- Holds Mitered Corner Together Firmly

CRL Corner Set is an exclusive set of two plates: one is threaded for screws that apply pressure to the second plate to hold the corner square and secure.

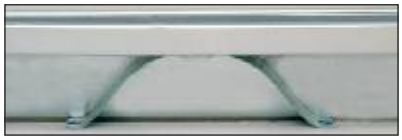

CAT. NO. 4443C
Minimum order: 20 each

CRL Spring Clips for Aluminum Frame Molding

- Holds Framed Object Snugly Against Frame Molding

CRL Spring Clips are designed to hold the framed object snugly against the front lip of the Aluminum Frame Molding.

CAT. NO. 4443S
Minimum order: 100 each

CRL Hanger Set for Aluminum Frame Molding

- Easy to Install Hanger Includes Set Screw

The CRL Hanger Set slides into the back channel on the Aluminum Frame Molding and locks in place with a set screw. Used to hang the fabricated frames to the wall. Consists of a stamped hanger and set screw.

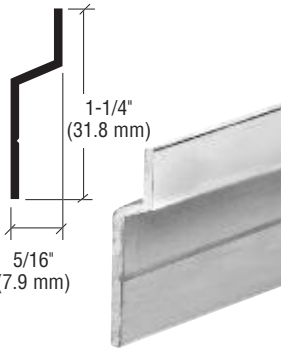

CAT. NO. 4443H
Minimum order: 100 each

CRL Universal Frame Hanging Cleat

- Attaches to Wall Studs for Secure Install

Used as an alternative to the Hanger Set, CRL Universal Frame Hanging Cleat has a unique "Z" profile that holds a frame away from direct contact with the wall surface. The shape of the Cleat locks right into the back channel on the Aluminum Frame Molding. 12 foot (3.66 m) stock lengths.

CAT. NO. MFHC144

Minimum order: 1 stock length. A Packing Charge will be added to orders of fewer than 10 combined lengths. Stock lengths longer than 98" (2.49 m) must ship common carrier, unless you specify we cut them for UPS. A Cutting Charge will apply.

CRL ALUMINUM MIRROR FRAMES

CRL Decorative Aluminum Mirror Frames

- **Available in 12 Foot Extrusions or Custom K.D. Units Fabricated to Your Specifications**
- **Designed for 3/16" to 1/4" (5 to 6 mm) Mirror**
- **Several Popular Architectural Finishes to Complement Bath Fixtures**

CRL Decorative Aluminum Mirror Frames are an excellent way to add profits to your bottom line. If you are already installing a Frameless Shower Enclosure in your client's bath, what better way to complete the project than with complementing Decorative Mirror Frames? Available in the most popular architectural finishes: Brite Anodized, Brite Gold Anodized, Brushed Nickel, Oil Rubbed Bronze, Satin Chrome, and White.

These Aluminum Framed Mirrors are easy to fabricate. Simply miter cut the Frame extrusion, connect the Extrusion with four Corner Brackets and Screws, attach the Hanger Cleat to the wall studs for a secure installation, and hang your mirror.

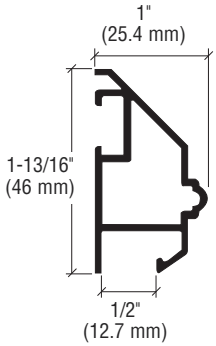

All Decorative Aluminum Mirror Frames below are sold in 12 foot (3.66 m) stock lengths. The Hanger Cleat, Corner Brackets with Screws, Setting and Retainer Blocks are sold separately (see next page for Hanger Cleat and Hardware Pack).

NOTE: Maximum mirror weight should not exceed 35 pounds (15.9 kg). For heavier mirrors a bottom support is required.

CRL Victorian Mirror Frame Extrusion

CRL Victorian Mirror Frames give a vintage look to the framed mirror. A truly stylish frame, your customer will be very pleased, especially when installed over antique style vanities. The Hanger Cleat and Corners are sold separately (see opposite page).

CAT. NO.	FINISH	LENGTH
VF144BA	Brite Anodized	12' (3.66 m)
VF144BGA	Brite Gold Anodized	12' (3.66 m)
VF144BN	Brushed Nickel	12' (3.66 m)
VF1440RB	Oil Rubbed Bronze	12' (3.66 m)
VF144SC	Satin Chrome	12' (3.66 m)
VF144W	White	12' (3.66 m)

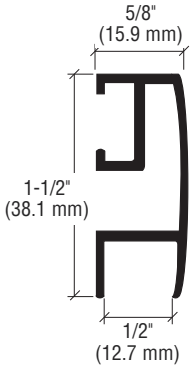

CRL Rectangular Mirror Frame Extrusion

CRL Rectangular Mirror Frames offer a traditional framed look to any mirror. The aluminum frame will last for years, and is offered in several popular architectural finishes to complement bath fixtures. The Hanger Cleat and Corners are sold separately (see opposite page).

CAT. NO.	FINISH	LENGTH
RF144BA	Brite Anodized	12' (3.66 m)
RF144BGA	Brite Gold Anodized	12' (3.66 m)
RF144BN	Brushed Nickel	12' (3.66 m)
RF1440RB	Oil Rubbed Bronze	12' (3.66 m)
RF144SC	Satin Chrome	12' (3.66 m)
RF144W	White	12' (3.66 m)

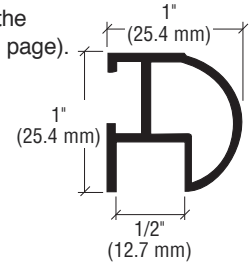

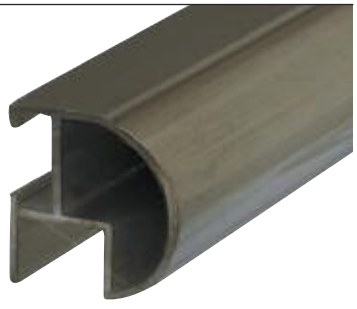

CRL Bull Nose Mirror Frame Extrusion

CRL Bull Nose Mirror Frames offer a full rounded look to the framed mirror. If your customer wishes to match the Bull Nose edge work on their counter tops, this is the frame for them. The Hanger Cleat and Corners are sold separately (see opposite page).

CAT. NO.	FINISH	LENGTH
BF144BA	Brite Anodized	12' (3.66 m)
BF144BGA	Brite Gold Anodized	12' (3.66 m)
BF144BN	Brushed Nickel	12' (3.66 m)
BF1440RB	Oil Rubbed Bronze	12' (3.66 m)
BF144SC	Satin Chrome	12' (3.66 m)
BF144W	White	12' (3.66 m)

Minimum order: 1 stock length. All finishes and shapes can be combined for quantity pricing. A Packing Charge will be added to orders of fewer than 10 combined lengths. Stock lengths longer than 98" (2.49 m) must ship common carrier, unless you specify we cut them for U.P.S. A Cutting Charge will apply.

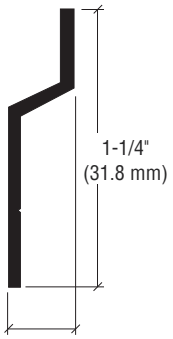

CRL ALUMINUM MIRROR FRAMES

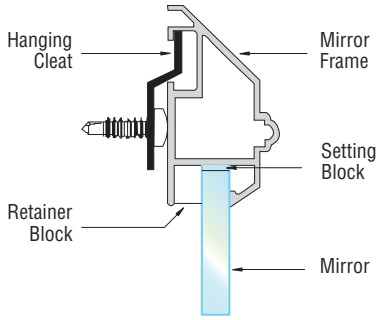

CRL Mirror Frame Hanging Cleat

- **Attaches to Wall Studs for Secure Install of Decorative Aluminum Mirror Frames**

This CRL Mirror Frame Hanging Cleat has a unique "stepped" profile that holds a mirror away from direct contact with the wall surface. The shape of the Cleat helps keep moisture from being trapped behind the mirror, while also concealing screws and support hardware. 12 foot (3.66 m) stock lengths.

Cross Section

CAT. NO. MFHC144

Minimum order: 1 stock length. A Packing Charge will be added to orders of fewer than 10 combined lengths. Stock lengths longer than 98" (2.49 m) must ship common carrier, unless you specify we cut them for UPS. A Cutting Charge will apply.

CRL Decorative Mirror Frame Hardware Pack

- **Corners to Join Mitered Mirror Frame Sections**
- **Complete With Screws and Glass Blocks**

This Hardware Pack for CRL Decorative Mirror Frame works with all three profiles. It includes the Corner Brackets threaded for the screws that apply pressure to hold the mitered corner square and secure.

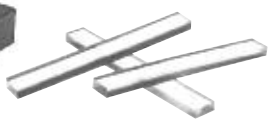

Each package contains four Corner Brackets, eight Screws, eight Retainer Blocks that go behind the mirror to snug it into the frame, and eight Setting Blocks that go along the edge of the mirror in the frame channel. See cross section illustration at top right for details on placement of Blocks.

CAT. NO. DMF144H

Minimum order: 1 pack.

CRL Custom Fabricated Decorative Aluminum Mirror Frames

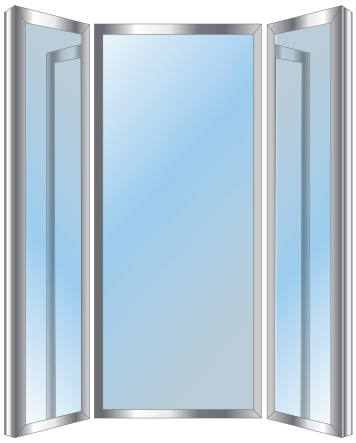

- **Save Time, Let CRL Custom Fabricate Decorative Mirror Frames to Your Specifications**
- **You Just Add Your Mirror and Hang**
- **Frames Can Ship K.D. Via UPS**

CRL can assist you with any of your Custom Fabricated Decorative Aluminum Mirror Frames. Just choose a frame style and finish, give us the overall width and height measurements. It's that easy. You can rest assured that your frame will be ready to receive your mirror and to be hung on your customer's wall. We supply the Frame, miter cut to your specifications, plus the appropriate size Hanging Cleat and Hardware Pack required for assembly.

For additional information, contact CRL Customer Service at (800) 421-6144 in the U.S., (877) 421-6144 from Canada, or (323) 588-1281 International, and ask for Ext. 5275. You can also e-mail us through our web site **crlaurence.com**. From the home page click on Contact Us, and then click on Customer Service.

CRL Stock Aluminum Triple Mirror Frames

- **Continuous Hinge Frame Model With Satin Anodized Finish**

CRL Aluminum Triple Mirror Frames are available in two stock sizes. Offered in a satin anodized finish, stock frames can accommodate up to 1/4" (6 mm) thick mirror. The frame design eliminates fastening screw visibility, which enhances the overall look and quality of this product. Mirror is not included.

CAT. NO.	OVERALL OPEN SIZE	HEIGHT	CENTER WIDTH	WINGS WIDTH
D1971A60X24X18	60" x 60" (1524 x 1524 mm)	60" (1524 mm)	24" (610 mm)	18" (457 mm)
D1971A60X20X20	60" x 60" (1524 x 1524 mm)	60" (1524 mm)	20" (508 mm)	20" (508 mm)

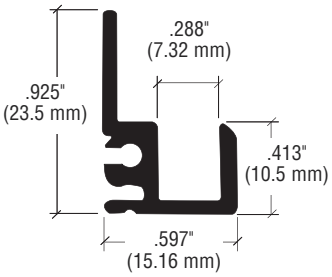

Minimum order: 1 each.

CRL "Make It Yourself" Mirror Frame Extrusions

- **Fabricate Custom Frames From Stock Extrusions**
- **Available in Four Finishes**

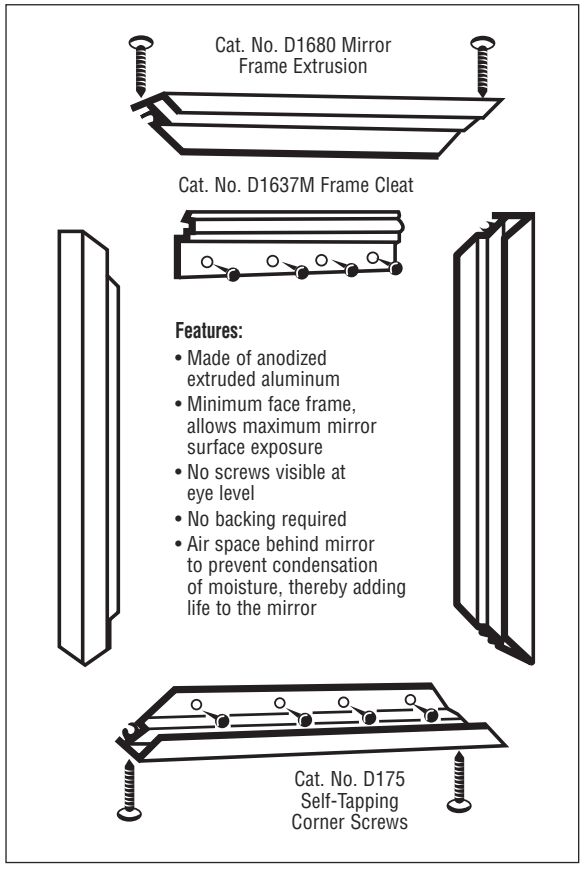

The CRL "Make It Yourself" Mirror Frame Extrusion has a 13/32" (10.5 mm) frame face, which allows for maximum mirror surface exposure and a unique profile, and eliminates the need for a backing. When hung using a Frame Cleat, the space behind the mirror prevents condensation of moisture, which adds life to the mirror. Fabrication consists of simply miter cutting the frame, drilling a 1/8" (3.2 mm) hole, and screwing the frame together using Cat. No. D175 Corner Screws. Stock lengths are 12' (3.66 m).

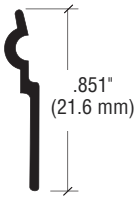

MODEL D1680
Frame Extrusion

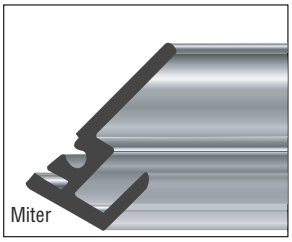

CAT. NO.	DESCRIPTION	FINISH
D1680A	Frame Extrusion	Satin Anodized
D1680BA	Frame Extrusion	Brite Anodized
D1680DU	Frame Extrusion	Duranodic Bronze
D1680GA	Frame Extrusion	Gold Anodized
D1637M	Frame Cleat	Mill
D175	# Corner Screws	Zinc

Minimum order: 1 stock length. All finishes and shapes can be combined for quantity pricing. A packing charge will be added to orders of fewer than 10 combined lengths. Stock lengths longer than 98" (2.49 m) must ship common carrier, unless you specify we cut them for UPS. A Cutting Charge will apply.
Minimum order for Corner Screws: 100 each.

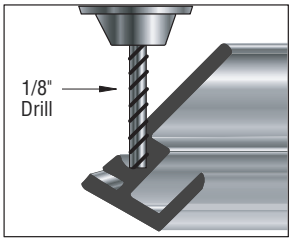

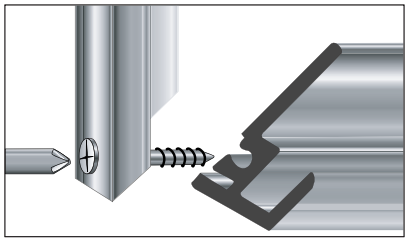

MODEL D1637M
Frame Cleat

1. Miter cut Frame Extrusion to required size.

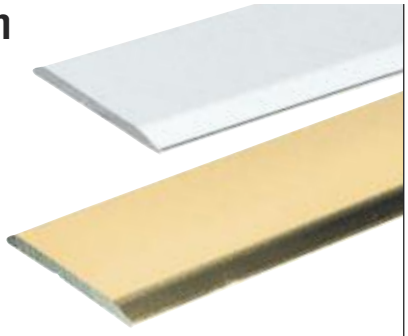

2. Drill screw holes at each end of top and bottom frame members, using 1/8" drill.

3. Screw frame together and hang it on Cat. No. D1637M Frame Cleat.

CRL MIRROR FRAMES

Thickness: .050" (1.27 mm)
Stock Length: 12'-0" (3.66 m)
Typical Use: At the top of a mirror. Fits in the pocket created by the D1637M Cleat.

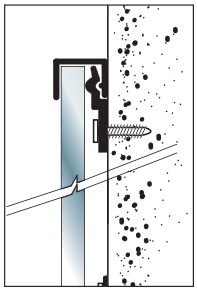

CAT. NO.	FINISH	QTY/CASE
D1638A	Satin Anodized	50
D1638DU	Duranodic Bronze	50

Minimum order: 1 stock length.

CRL Mirror Mount System Cleat

SPECIFICATIONS:
Material: 6063-T5 Aluminum Alloy
Thickness: .047" (1.19 mm)
Stock Length: 12'-0" (3.66 m)
Typical Use: Holds mirror away from direct contact with the wall surface. Can be used with D1680 Mirror Frame Extrusion or D1638 Top Channel.

CAT. NO.	FINISH	QTY/CASE
D1637M	Mill	80

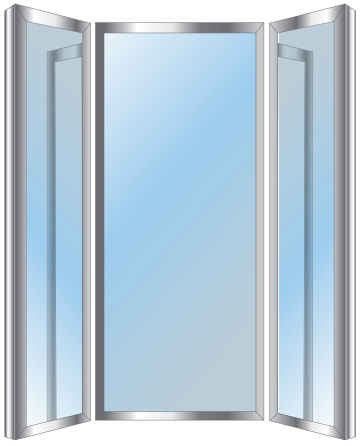

Minimum order: 1 stock length.

All finishes and shapes can be combined for quantity pricing. A Packing Charge will be added to orders of fewer than 10 combined lengths. Stock lengths longer than 98" (2.49 m) must ship common carrier, unless you specify we cut them for U.P.S. A Cutting Charge will apply.

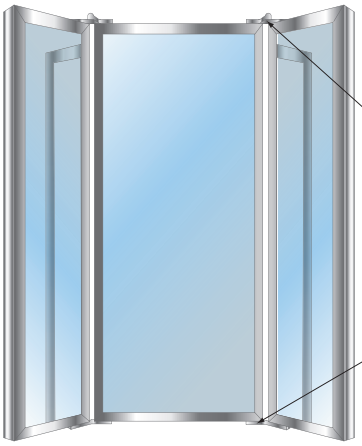

CRL Custom Made Aluminum Triple Mirror Frames

- **Custom Made to Your Specifications in Three Different Styles**
- **Available in Up to Five Popular Finishes: Satin and Brite Anodized, Duranodic Bronze, Satin Gold, and Brite Gold Anodized**

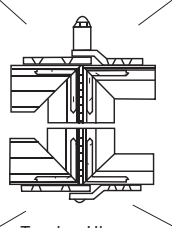

NOTE: Maximum overall height is 72" (1829 mm). Maximum width for each panel is 36" (914 mm). All Custom Mirror Frame orders are non-cancelable, and may not be returned for credit.

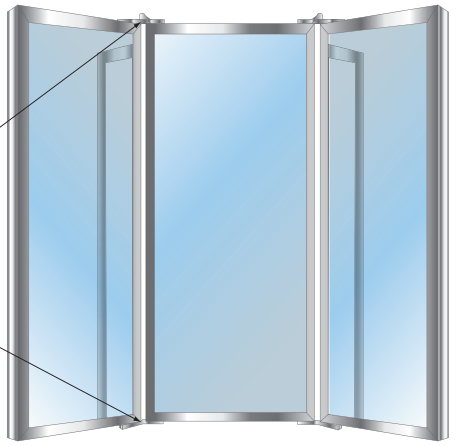

MODEL D1971
Continuous Hinge Frame

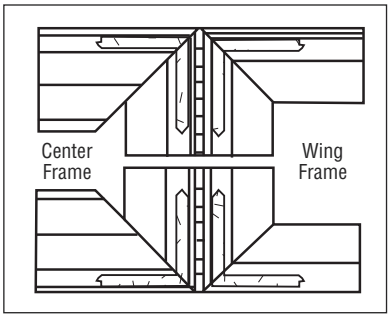

MODEL D1975
Fold Over Frame

Tension Hinge Extends 1-7/8" (48 mm) Above the Top Extrusion and 5/8" (16 mm) Below the Bottom Extrusion.

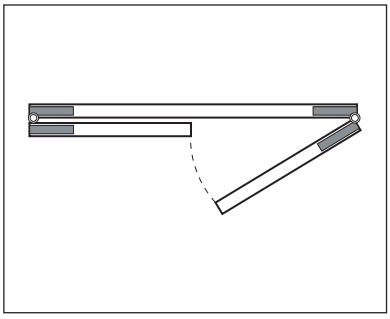

MODEL D1976
Double Fold Over Frame

The CRL D1971 Continuous Hinge Mirror Frame is the most popular model in the Triple Mirror Frame Series. Easy to assemble and adjust, the wings swing out to any desired position. CRL has designed this model to minimize the exposure of hinge hardware. Specify overall height and width of frame and width of wing size when ordering. D750 Glazing Vinyl included. Mirror not included.

CAT. NO.	FINISH
D1971A	Satin Anodized
D1971GA	Gold Anodized
D1971DU	Duranodic Bronze
D1971BA	Brite Anodized
D1971BGA	Brite Gold Anodized

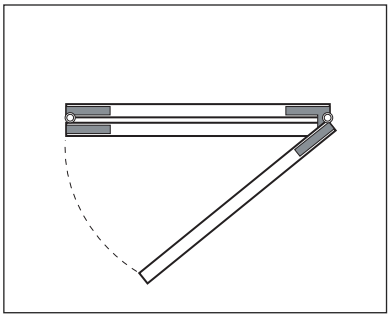

Minimum order. 1 each.

The CRL D1975 Fold Over Mirror Frame uses a "Tension Hinge Set System" to hold the side panels at the preferred angle. The mirror side panels are designed to fold over on the center panel if each wing panel width is half of the overall center panel. This product is an excellent choice if periodic storage is required. Specify overall width and height of frame and width of wing size when ordering. D750 Glazing Vinyl included. Mirror not included.

CAT. NO.	FINISH
D1975A	Satin Anodized
D1975GA	Gold Anodized
D1975DU	Duranodic Bronze
D1975BGA	Brite Gold Anodized

Minimum order. 1 each.

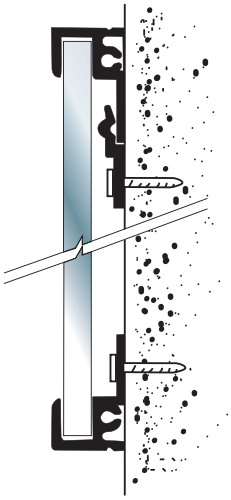

The CRL D1976 Double Fold Over Mirror Frame uses a "Tension Hinge Set System" designed to hold the panels open at any adjusted angle, and to permit the three equally dimensioned panels to fold flat when the mirror frame is not in use. Specify overall width and height of frame when ordering. D750 Glazing Vinyl included. Mirror not included.

CAT. NO.	FINISH
D1976A	Satin Anodized
D1976GA	Gold Anodized
D1976DU	Duranodic Bronze
D1976BGA	Brite Gold Anodized

Minimum order. 1 each.

CRL Stock Size Aluminum Mirror Frames and Shelves

- **Available from Stock in Nine Popular Sizes**
- **Two Finishes: Satin and Brite Anodized**
- **Optional Shelf Available**

- **Easy to Mount**

D1950 Mirror Frame Only

D1950 Mirror Frame With D1684 Shelf

CRL Stock Size Aluminum Mirror Frames can be ordered from inventory for immediate shipment in nine of the most popular sizes in either satin or brite anodized finishes.

Stock Size Mirror Frames are easy to assemble by simply fitting the mitered extrusion lengths around the mirror and inserting screws into the pre-drilled holes. All Stock Size Aluminum Mirror Frames are individuallly packaged for UPS shipment.

NOTE: Mirror not included with Mirror Frames.

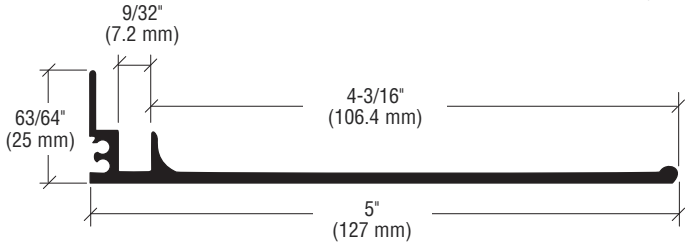

SATIN ANODIZED CAT. NO.	BRITE ANODIZED CAT. NO.	FRAME SIZE WIDTH X HEIGHT

Minimum order: 1 each. Sizes and finishes can be combined for quantity pricing.

CRL Custom Aluminum Mirror Frames

- Made to Your Exact Specifications
- Available in Many Attractive Finishes
- Narrow Extrusion Face Allows Increased Mirror Visibility
- Individually Packaged to Ship U.P.S.

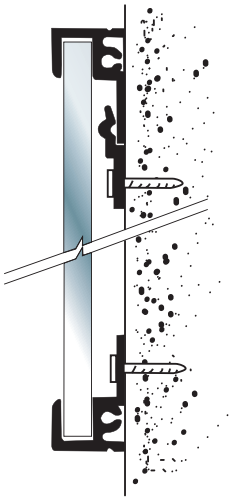

CRL Custom Aluminum Mirror Frames are available in two different styles and many attractive finishes that will match virtually any décor. The entire assembly and mounting process takes only minutes because your custom frame is fabricated to exact specifications and tolerances.

The D1950 Custom Aluminum Mirror Frame is our most popular model for a number of reasons. Its narrow 13/32" (10.5 mm) frame face allows maximum exposure of the mirror surface. The entire assembly and mounting process takes only minutes because only two extrusion components, plus screws, are needed to fabricate the frame. Plus, it's available in six attractive finishes.

The D1984 Custom Aluminum Mirror Frame comes with a 5" (127 mm) wide integral shelf that replaces the normal lower extrusion. Assembly and mounting is just as simple as our D1950 Mirror Frame. It's available in four decorator finishes and custom fabricated to your specifications. The shelf of the No. D1984 makes it a handy addition for use in bathrooms, dressing rooms, etc.

By using the simple ordering guidelines below, your order can be fabricated and on its way in a few days. For additional information, contact CRL Customer Service at (800) 421-6144 in the U.S., (877) 421-6144 from Canada, or (323) 588-1281 International, and ask for extension 5275. You can also e-mail us through our web site at **crlaurence.com**. From the home page click on Contact Us, and then click on Customer Service.

Easy to Mount

• Available in Two Styles - With or Without a Shelf

CUSTOM FRAME WITHOUT SHELF

CAT. NO.	FINISH
D1950A	Satin Anodized
D1950GA	Gold Anodized
D1950DU	Duranodic Bronze
D1950BA	Brite Anodized
D1950BGA	Brite Gold Anodized
D1950FB	Flat Black Anodized

Minimum order: 1 each. **NOTE:** Mirror and Glazing Vinyl not included with Mirror Frames.

CUSTOM FRAME WITH INTEGRAL SHELF

CAT. NO.	FINISH
D1984A	Satin Anodized
D1984GA	Gold Anodized
D1984DU	Duranodic Bronze
D1984BA	Brite Anodized

Minimum order: 1 each. **NOTE:** Mirror and Glazing Vinyl not included with Mirror Frames.

1. Specify Frame Model

D1950 Custom Mirror Frame
D1984 Custom Mirror Frame with Integral Shelf

2. Specify Finish Required

A = Satin Anodized
GA = Gold Anodized
DU = Duranodic Bronze
BA = Brite Anodized
BGA = Brite Gold Anodized
FB = Flat Black Anodized

3. Specify Outside Frame Measurements, Width by Height (W x H)

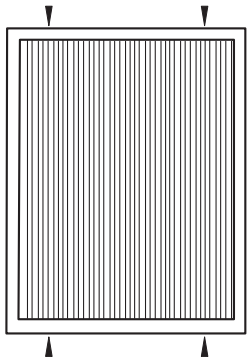

NOTE: If ordering to fit stock mirror sheets, add 5/16" (7.9 mm) to the frame's width and height measurements

4. Specify Screw Type

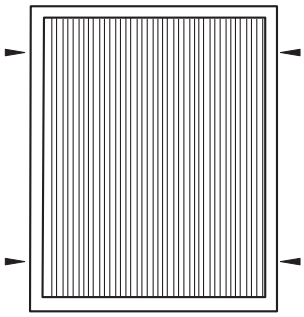

Type "B" has screw holes on the top and bottom members. Type "S" has screw holes on the sides.

NOTE: Maximum frame size is 72 united inches. For example: if width is 24" (610 mm), then height cannot exceed 48" (1219 mm); if width is 36" (914 mm), then height cannot exceed 36" (914 mm). All Custom Mirror Frame orders are non-cancelable, and may not be returned for credit.

Mounting Screw Type

Type "B"

Type "S"

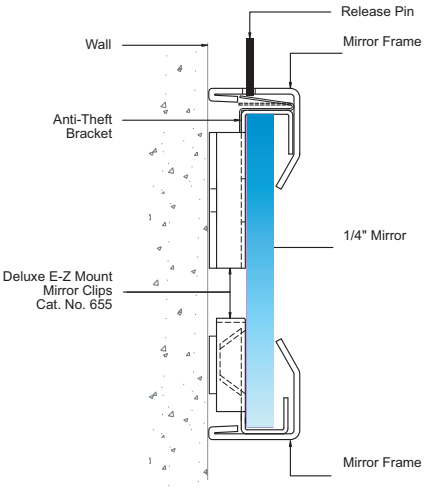

CRL Stainless Steel Theft-Proof Mirror Frames

- 18 Gauge Stainless Steel One-Piece Construction
- New Precision Latching Mechanism for Simplified, Theft-Proof Installation

CRL Stock Size Stainless Steel Theft-Proof Mirror Frames feature a welded, one-piece constructed, 18 gauge stainless steel frame with ground and polished corners. Interior frame hangers provide ventilation to the mirror and silvering. A pre-drilled wall bracket and precision latching mechanisms allow mounting with no exposed screws. The latching mechanisms also keep the mirror theft-proof while permitting easy removal by maintenance personnel. This frame eliminates the need for a cardboard filler and galvanized back methods, providing the mirror with longer life expectancy. Can also be ordered with the optional Stainless Steel Integral Shelf shown below.

NOTE: Mirror not included.

Mounts in Three Easy Steps:

Fasten mounting brackets to wall and insert mirror onto bottom clips

Fasten mirror into top clips

Snap frame over mirror and into the mounting bracket

Custom Size Ordering Information:

CRL Stainless Steel Theft-Proof Mirror Frames are available in custom dimensions to meet your specific requirements. When ordering specify the width and height in inches, Style No. TPM. Also, specify if you require the TPMS Integral Lower Shelf. **NOTE:** For Frames larger than 72" (1829 mm) x 36" (914 mm), specify Style No. TPMC Custom Heavy-Duty 16 Gauge Frame. Both styles are available only in #4 Satin Stainless Steel finish, and are shipped from any CRL service center. Frames larger than 48" (1219 mm) in overall width or height will be assessed a Crating Charge. Custom Size Frames may not be returned for credit or refund.

Stock Sizes: Our most popular Stainless Steel Theft-Proof Mirror Frame sizes are available from stock. Other sizes not shown can be custom made to your specifications.

CAT. NO.	WIDTH	HEIGHT

Mirror Mounting Hardware, Tools, and Supplies (See Section 4, Pages 438J - 564J)

CRL FRAMED MIRRORS

CRL Custom Mirrors With Stainless Steel Frames

- Can Be Glazed With Six Different Reflective Surfaces
- Available in Four Different Frame Styles
- Maximum Size for 100 and 900 Series Mirrors is 60" x 120" (1524 x 3048 mm)
- Maximum Size for 990 and 190T Series Mirrors is 24" x 36" (610 x 914 mm)

Mirror Included

QUICK-FAB

CRL's Quick-Fab Program offers you quick turnaround for your custom size framed mirror requirements. Only seven working days are needed to ship Series 100 and 190T Mirrors; only ten working days are needed for Series 900 and 990 Welded Angle Framed Mirrors. Custom Mirrors are F.O.B. all CRL service centers.

CRL offers our Stainless Steel Mirror Frames in custom sizes with up to six different reflective surfaces: standard float glass mirror, standard float glass mirror with shatterproof backing, #430 stainless steel mirror, acrylic mirror, tempered glass mirror, and laminated glass mirror. Series 100 and 900 Frames can be supplied with 5" (127 mm) stainless steel shelves if desired. They feature the same quality construction of our stock size mirror frames.

Large inventories of bulk material and state-of-the-art equipment at our manufacturing facility allow us to offer prompt delivery on Custom Framed Mirrors. Our Customer Service staff will gladly assist you with information or a quote on all of your framed mirror needs. Contact CRL Customer Service at (800) 421-6144 in the U.S., (877) 421-6144 from Canada, or (323) 588-1281 International. Ask for Ext. 5275. You can e-mail us through our web site at **crlaurence.com**. From the home page click on Contact Us, and then click on Customer Service.

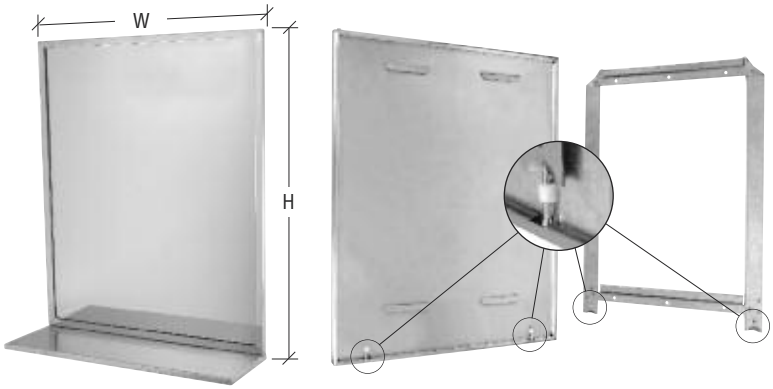

CRL Stainless Steel Theft-Proof Mirror Frame With Shelf Combination

- Polished Stainless Steel Frame Glazed With 1/4" (6 mm) Mirror
- Functional 5" (127 mm) Shelf
- Easy to Install

This CRL Stainless Steel Theft-Proof Mirror Frame With Shelf Combination is a highly functional product with flexibility of usage in a variety of applications. Best suited for restrooms or dressing rooms, it is constructed of Type 430, 22 gauge stainless steel with the front edge of the 5" (127 mm) wide Stainless Steel Shelf hemmed for maximum rigidity. The Shelf is attached to the frame by using heavy gauge concealed brackets, and is constructed of Type 304 Stainless Steel.

CAT. NO.	WIDTH	HEIGHT

Front Back Wall Hanger

CRL Frameless Stainless Steel Mirror

- Non-Breakable, Highly Polished Stainless Steel Mirror

This CRL Frameless Stainless Steel Mirror is non-breakable due to its all 18 gauge stainless steel construction. The mirror is fabricated with a 1/4" (6 mm) hemmed edge that conceals the durable polystyrene backing. This is an ideal product for institutional use. Furnished with mounting screws.

CAT. NO.	WIDTH	HEIGHT
5301824	18" (457 mm)	24" (610 mm)

Minimum order: 1 each. All Stainless Steel Framed Mirrors can be combined for quantity pricing.

Hemmed Edge Conceals Polystyrene Backing

CRL FRAMED MIRRORS

CRL Adjustable "Tilt" Stainless Steel Framed Mirrors

- Fully Adjustable for Use By the Disabled
- Tilts Up to 7" (178 mm) From Wall
- Glazed With High Quality Float Glass Mirror

CRL's Adjustable "Tilt" Stainless Steel Framed Mirrors provide full visibility for the disabled due to the 7" (178 mm) adjustment feature. Two elbow hinges allow the top to tilt while the bottom of the Mirror mounts to the wall with a stainless steel continuous hinge. Constructed from high quality float glass and a 1/2" x 1/2" (12.7 x 12.7 mm) stainless steel frame. Individually boxed and easy to install.

CAT. NO.	WIDTH	HEIGHT
190T1624	16-1/4" (413 mm)	24-1/4" (616 mm)

CRL Switch and Outlet Shims

• Prevents Cover Plates From Bending or Breaking During Installation

CRL Switch and Outlet Shims are quick and easy to install. Brings switch and outlet units to the surface of a mirrored wall. This makes the plates fit flush to the surface, helping to prevent these plates from cracking during installation. This economical investment prior to your installation can save both time and materials plus give your job that professional touch.

CRL SWITCH AND OUTLET COVER PLATES

CRL Acrylic Perimeter Gaskets

- **Fit Behind Cover Plates and Allow Extra Depth to Hide Protruding Outlets**

Single Double Triple

CRL Acrylic Perimeter Gaskets fit behind cover plates and allow extra depth to hide protruding outlets. Simply peel off the protective liner, place Perimeter Gasket around opening in mirror, and then fasten the cover plate in the normal manner. If necessary you can hold the Perimeter Gasket in place with 1/32" (.8 mm) thick Foam Mounting Tape (see page 479J).

Minimum order: 1 each. Sizes can be combined for quantity pricing.

CRL Mirror Hide-A-Plug

- **Hide Unsightly Outlet Receptacles**
- **Perfectly Finish Off Mirror Wall Installations**
- **Clear Acrylic Mirror**

CRL HIDE-A-PLUG

… in mirrored wall. Attach so blank plate can slip upward to reveal plugs. When plug is removed, plate slides down.

Cover up unsightly receptacles in mirror walls to give the total mirror look. Clear acrylic mirror installs with double-faced tape directly to mirror wall. An acrylic adapter plate is included with each Hide-A-Plug for installations on paint or wallpaper surfaces. Hide-A-Plugs leave electrical devices totally functional.

CRL Custom Cut Glass and Acrylic Cover Plates

- **Available for Both Glass and Acrylic Cover Plates**
- **Single Through Six-Gang Styles in Clear, Bronze, and Gray**
- **Can Also Be Cut From Mirror Supplied By You**

You Submit the Drawing

We Make the Cover Plate

CRL Glass and Acrylic Cover Plates are available custom cut to your job requirements. Just send us a full scale drawing of the plate you need, along with your written purchase order (mail, FAX or e-mail to CRL in Los Angeles) and we will provide you with a price quote prior to fabrication.

Custom Cut Cover Plates are available in single through six-gang styles in clear, bronze or gray. Other colors are available on special order, and we can even cut plates out of the same colored mirror being used on your job, when you send us the mirror.

Custom Glass Cover Plates are cut with a Water Jet Cutter, and Custom Acrylic Mirror Plates are cut with a Laser Cutter to give you the cleanest and most precise cut-outs possible. Please allow 2 to 4 weeks for shipping after we receive your drawing.

For more information on this CRL service, contact CRL Customer Service at (800) 421-6144 in the U.S., (877) 421-6144 from Canada, or (323) 588-1281 International, and ask for Ext. 5275. You can also e-mail us through our web site at **crlaurence.com**. From the home page click on Contact Us, and then click on Customer Service.

CRL Mirror Outlet and Switch Hole Nibbler

- **Removes Small, Uneven Pieces of Mirror or Glass from Holes or Cut-Outs**
- **Saves the Task of Removing the Mirror**

CRL's Mirror Outlet and Switch Hole Nibbler was designed by a glazier to handle a problem that frequently happens when installing mirror walls. Sometimes when the ceiling line or seams are matched the drilled outlet hole is slightly off. This tempered steel tool will "nibble" the hole with the mirror already in place, saving you the time and expense of removing the mirror. Minimum order is one each.

CAT. NO. MN1750

CRL Quik-Draw Mirror Outlet Cut-Out Template Set

- **No Slip Feature Increases Your Accuracy**
- **Layout Time for Cut-Outs is Drastically Reduced**
- **Made From Durable Clear Acrylic**

These clear, high impact acrylic Templates were designed to simplify drilling cut-outs in glass and mirror. The non-skid bumpers adhered on the underside prevent slippage and scratches. The hole in the corner lets you hang the Templates in a convenient location near the cutting table. Select one of the three Templates in the set when drilling for switch, designer, duplex, T.V. cable, telephone cable, thermostat, and more. Minimum order is one set.

CRL MIRROR GRILLES

CRL Flat Acrylic Mirror Grilles

- **Available in Clear and Bronze Acrylic Mirror**
- **Attractive, Long Life Acrylic that Enhances Room Décor**
- **Easily Installed Using Double-Sided Foam Mounting Tape**

Clear

Bronze

If you want to replace metal air registers on an air conditioning duct in that mirrored wall, these CRL Flat Acrylic Mirror Grilles are the perfect cover up! They are made of 1/8" (3 mm) mirror-backed, long life acrylic with edges that are beautifully beveled. The slots are 3/8" (9.5 mm) wide to maximize airflow. They are available in clear or bronze acrylic mirror in a variety of widths and sizes from 6" x 6" (152 x 152 mm) to 10" x 18" (254 x 457 mm). Custom sizes can be easily made (see next page). Installation is easy using CRL Foam Mounting Tape (refer to page 479J). **NOTE:** CRL Acrylic Mirror Grilles are intended for use only on air conditioning ducts, and not for hot air registers.

COLOR	HEIGHT	6" WIDE (152 MM)	8" WIDE (203 MM)	10" WIDE (254 MM)	12" WIDE (305 MM)	14" WIDE (355 MM)	16" WIDE (406 MM)	18" WIDE (457 MM)

CRL Adjustable Louver Acrylic Mirror Grilles

- **Available in Clear and Bronze Acrylic Mirror**
- **Adjustable to Direct the Flow of Cool Air**
- **Easily Installed Using Double-Sided Foam Mounting Tape**

Clear

Bronze

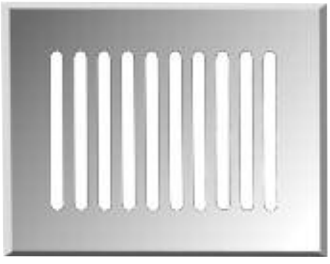

Another way to cover the air conditioning duct in mirrored walls is with CRL's Adjustable Louver Acrylic Mirror Grilles. These grilles feature 1/4" (6 mm) mirror-backed, long life acrylic with edges that are beautifully beveled. The adjustable 1" (25 mm) vanes give a finished look while allowing you to direct the flow of cool air. Available in clear or bronze acrylic mirror. Custom sizes can be easily made (see next page). Installation is easy using CRL Foam Mounting Tape (refer to page 479J). **NOTE:** CRL Acrylic Mirror Grilles are intended for use only on air conditioning ducts, and not for hot air registers.

COLOR	HEIGHT	10" WIDE (254 MM)	12" WIDE (305 MM)	14" WIDE (355 MM)	16" WIDE (406 MM)

Minimum order: 1 each. All Acrylic Grilles can be combined for quantity pricing.

CRL Glass Mirror Grilles

- **Mirror Grilles are 3/16" (5 mm) Plate Glass With Polished Beveled Edges**
- **Install Easily With Double-Sided Foam Mounting Tape**

Clear

Glass Mirror Grilles replace metal air conditioning registers in mirror walls. Their polished, beveled edges accent the décor of the mirror wall. Cut-outs allow air to pass freely from duct work. Grilles install with your two-sided foam mounting tape, so no drilling is necessary. Glass Mirror Grilles are available in widths to 16" (406 mm). Other sizes and/or colors may be available on request.

COLOR	HEIGHT	10" WIDE (254 MM)	12" WIDE (305 MM)	14" WIDE (355 MM)	16" WIDE (406 MM)
Clear	8" (203 mm)	GMG810C	GMG812C	GMG814C	GMG816C

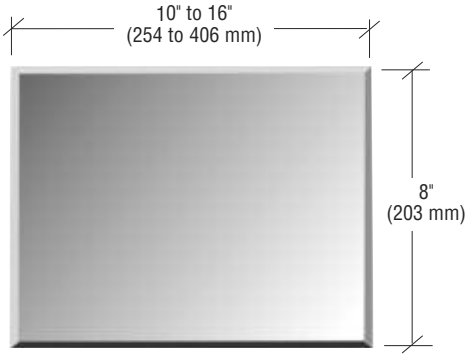

Minimum order: 1 each. All Acrylic Grilles can be combined for quantity pricing.

CRL MIRROR GRILLES

CRL Glass Mirror Grille Blanks

- High Quality 3/16" (5 mm) Plate Glass With Polished Beveled Edges
- Conceals Larger Openings in Mirror Walls
- Available in Four Widths

CRL's Glass Mirror Grille Blanks are designed to conceal larger cut-outs in mirror walls. They can be easily installed using CRL Foam Mounting Tape (refer to page 479J), so drilling holes is not required. Four widths are available from 10" to 16" (254 to 406 mm) with a standard height of 8" (203 mm). Custom sizes and colors are available on special order.

COLOR	HEIGHT	10" WIDE (254 MM)	12" WIDE (305 MM)	14" WIDE (355 MM)	16" WIDE (406 MM)
Clear	8" (203 mm)	BMG810C	BMG812C	BMG814C	BMG816C

Minimum order: 1 each. All Acrylic Grilles can be combined for quantity pricing.

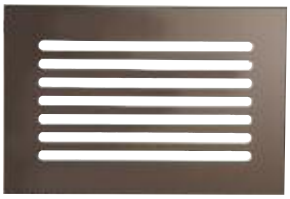

CRL Custom Mirror Grille Ordering Information

- Choose Either Glass or Acrylic Mirror
- Custom Made to Your Specifications
- Available in Clear, Bronze, and Custom Colors

CRL Mirror Grilles are also available custom cut to order. Just send us your full scale drawing of the grille you need, along with your written purchase order and we will provide you with a price quote prior to fabrication. Custom Mirror Grilles are available in glass or acrylic mirror in clear and bronze. Other colors are available. Allow two to four weeks for delivery. For additional information, contact CRL Customer Service Department at (800) 421-6144 in the U.S., (877) 421-6144 from Canada, or (323) 588-1281 International, and ask for Ext. 5275. You can also e-mail us through our web site at **crlaurence.com**. From the home page click on Contact Us, and then click on Customer Service.

Louver Grilles

Flat Grilles

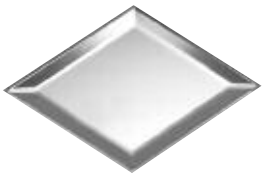

For easy installation of Glass and Acrylic Mirror Grilles use CRL Foam Mounting Tape (see page 479J).

CRL Glass Mirror Baguettes

- Elegant Polished Beveled Edges
- Made of Real Glass in Clear Mirror

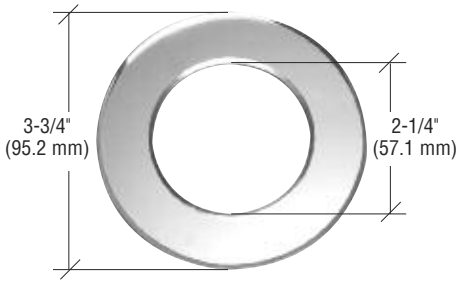

CRL's Glass Mirror Baguettes are fabricated from high quality 1/8" (3 mm) glass, and have beautifully beveled edges. These decorator pieces can be used as accents on mirrored walls, or to cover visible corner joints. Very easy to install.

CRL BEVELED MIRROR PARTS

CRL Fully Beveled Mirror Parts

- 2", 3", and 4" Sizes
- 1/2" (12 mm) Bevel On All Sides

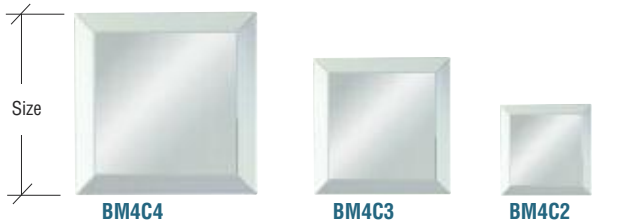

Our Fully Beveled Mirror Parts let you make decorative custom mirrors out of ordinary glass mirrors. Each Fully Beveled Mirror Part is made of 1/4" (6 mm) thick clear plate glass mirror, and has a full 1/2" (12 mm) bevel on all sides. There are four different shapes and three sizes, plus Fully Beveled Mirror Strips in lengths up to 56" (1.4 m). Fully Beveled Mirror Parts are individually carded for resale, and include easy-to-follow instructions. We suggest the use of CRL423212 Black Foam Mounting Tape to secure Mirror Parts and Strips to the base mirror. All Beveled Mirror Parts can be combined for quantity pricing. Minimum order is one each.

NOTE: Mirror Parts are shipped F.O.B. all CRL locations. Mirror Strips are available only at CRL Will Call Trade Counter locations. CRL Mirror Parts are hand beveled, and have a dimensional tolerance of ±1/32" (.8 mm).

CRL Beveled Mirror Parts

- 2", 3", and 4" Sizes
- 1/2" (12 mm) Bevel on Some Sides

These Beveled Mirror Parts are decorative and easy-to-install accents for ordinary glass mirrors. We make each Mirror Part from 1/4" (6 mm) thick clear plate glass mirror with a 1/2" (12 mm) bevel on some sides. You can match the unbeveled or "cut" edges together with other Mirror Parts or Strips to form a continuous design. There are four different shapes and three sizes, and Beveled Mirror Strips with cut ends in lengths up to 56" (1.4 m). We individually card Beveled Mirror Parts for resale, and include easy-to-follow mounting instructions. We suggest the use of CRL423212 Black Foam Tape to secure Mirror Parts and Strips to the base mirror.

NOTE: Mirror Parts are shipped F.O.B. all CRL locations. Mirror Strips are available only at CRL Will Call Trade Counter locations. CRL Mirror Parts are hand beveled, and have a dimensional tolerance of ±1/32" (.8 mm).

CRL Standoff and Glass Connection Systems

CRL's Family of Standoff Products Can Be Used Independently or Together to Create Unique Designs

C.R. Laurence has more than Standoffs. We offer a complete family of Standoff related products. From our standard line of Round and Square Standoffs, to Custom Standoffs, Cap Assemblies, Tube Style Standoffs, Edge Grips, Slot Mount Standoffs, Accent Rings, Swivel Fittings, Framepegs, and Mounting Hardware, CRL has everything you will need to create innovative designs in architecture, store fixtures, signage, and furniture.

CRL's Standoff Display System provides architects and designers unlimited resources for retail store, commercial or restaurant applications. Most are available in Chrome, Brass, Brushed Stainless, Satin Chrome, and Gun Metal finishes. Our SC12 Standoff Catalog will provide the information you will require to select the perfect Standoff products for your project.

For a Full Selection of CRL Standoff Systems and Accessories see our SC12 Catalog or visit **crlaurence.com**.

CRL Custom Manufactured Standoff Service

- **Machined to Your Specifications in Lengths Up to 48" (1219 mm)**
- **Choose From a Variety of Bar Stock Dimensions**
- **Available in These Finishes: Polished Stainless, Brushed Stainless, Polished Brass, Satin Brass, Sandblasted Stainless Steel, and Powder Paint**
- **Custom Finishes Are Also Available**
- **Timely Delivery**

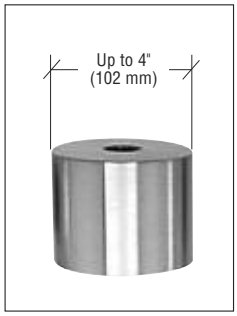

CRL Custom Standoff Fittings may require machining, welding, bending, and special finishing. This can all be accomplished with our in-house equipment for the fastest delivery time in the industry. Not only will we bring your design to reality, but our Technical Sales staff is here to assist you with alternate designs or suggestions. We work every day with our customers to fulfill their glass attachment needs. Fax or e-mail your Custom Standoff requirements to CRL Technical Sales and we will quickly respond with a quote.

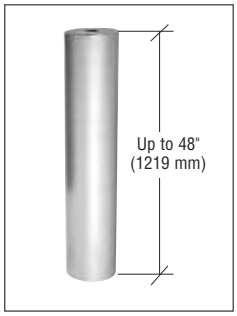

NOTE: If diameter or square is equal to, or less than 3" (76 mm), the maximum length is 48" (1219 mm).
If diameter or square is between 3" and 4" (76 to 102 mm), the maximum length is 8" (203 mm).

Custom Square Base Heights

Which CRL Standoff System Should I Use?

CRL provides the most diverse selection of Standoff products available anywhere. Our 1/2" (12.7 mm) diameter Standoffs are a favorite for lighter weight glass displays or signage. 3/4" (19 mm) diameter Standoffs are the perfect design element for industrial projects such as exhibit building or retail display projects. CRL's 1-1/4" to 2" (31.7 to 50.8 mm) diameter Standoffs are designed to provide solutions for a vast variety of projects. Used to support heavier thicknesses of glass, the applications for this product are only limited by your imagination.

- **Typical Installation for Standoff Base and Cap**

Due to the diversity of applications, weight limitations for Standoff Systems are dependent upon wall or substrate anchoring and material strengths.

CRL Decorative Posters

- **Show Your Customers Beautiful Showers and Tubs Created With CRL Frameless Shower Hardware and a Little Imagination**
- **Large 24" (610 mm) Wide x 36" (914 mm) High Studio Quality Posters Can Be Displayed Anywhere in Their Protective Clear Sleeves**
- **Visit crlaurence.com to See All Decorative Posters Available – New Posters Added Regularly**

We use them in our showrooms

CRL's Decorative Posters will make a quick and dramatic change to your showroom. They feature studio quality images of finished showers in beautiful bathing environments. Display them in your showroom to inspire creativity by your customers and designers for future projects. Each Poster comes in a protective, easy-to-hang clear plastic sleeve, and measures approximately 24" (610 mm) wide x 36" (914 mm) high.

To view larger images and new additions of our Decorative Posters, please visit **crlaurence.com**. Posters using your own images can also be created on special order. Contact CRL Technical Sales for information. Minimum order is one each.

CRL Extrusions and Moldings

The Shapes, Materials, and Finishes You Need, When You Need Them

Selection

Through years of working with the industries, C.R. Laurence Company has developed an extensive line of Extrusions and Moldings that enables professionals to create projects with no limitations of design. Whether you are working with glass, mirror, plastics or other materials, you will find the selection of CRL Extrusions to be made of the highest quality materials, in the most commonly used shapes, along with hundreds of special application configurations.

Our material choices of aluminum, stainless steel, and plastic will allow you to use the most appropriate parts in assembling your jobs. Our large selection of finishes make it easier than ever to accent the applications in either new or existing environments. And if you need something special, custom shapes and finishes can be quoted upon request.

Service

Ordering online at **crlaurence.com**, by toll free phone, toll free fax, or visiting one of our 40 Worldwide Distribution and Manufacturing facilities is easier than ever. We take a business-to-business approach to every transaction with our customers. We are always pleased to receive your orders, and promise to fill them as promptly as possible.

C.R. Laurence's Customer Services are offered in a variety of forms. The CRL Technical Sales Department offers Product Specialist Groups who are trained in the latest product systems and are ready to answer all of our product questions.

Most important is knowing that you can depend on CRL to have the inventory of products you need when you need them. We've invested in huge supplies of Extrusions and Moldings to be ready to serve you.

CRL's High Standards Produce the Results You Need to Achieve Excellence

Material Quality

Our aluminum smelting process starts with the highest quality primary ingots for billet castings. Alloy analysis is made using spectrometers, tensile testers, and impact testers for consistent results. Stainless steel moldings are made from Type 430 and 304 metals, and all of our plastic channels are of the finest materials available.

Aluminum Anodizing

Only high quality materials and chemicals are used in conjunction with 6,000 - 10,000 Amp rectifiers. CRL offers the widest range of anodized, brushed anodized, and polished finishes to precisely match our hardware with guaranteed consistency. Custom finishes are available, just ask.

Powder Coating

Electro-static powder coating of CRL Aluminum Extrusions and Moldings is done with the finest powders and latest technology. Quality control experts constantly monitor pre-treatment chemicals for consistency. Choose from standard stocked colors, or let us match colors to your specific requirements.

Custom Shapes and Fabrication

CRL can produce virtually any shape extrusion from your drawing or samples. Our die makers will precisely design and produce high tolerance tooling with CNC Machine efficiency. Value added fabrication of special orders are never a problem. Services available include hole punching and drilling, cutting, processing, assembly, accessory fitting, stamping, mechanical polishing, and packaging with fasteners.

Superior Packaging

CRL's years of experience in handling and packaging extrusions have helped us design a variety of sound and secure packing methods. Protection of finished surfaces by polywrapping individual lengths and tightly packed full case shipments ensure delivery of flawless materials for your project requirements.

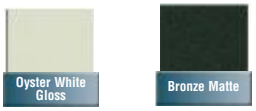

Powder Coat Finishes

The full selection of RAL Colors are also available.

Colors shown are representative only, and may vary slightly from actual gloss, color, and texture. If color match is critical, please contact Technical Sales for additional Information.

CRL Mirror Extrusions and Supplies

• Choose From a Wide Variety of Opening Widths, Front Face Heights, and Beautiful Finishes

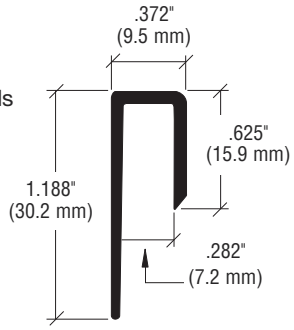

CRL has the largest and most diversified selection of Mirror Extrusions in the glazing industry. Available in a vast variety of finishes and configurations, each aluminum stock length is individually polywrapped for protection against scratching. Extrusions come in standard 12' (3.66 m) lengths and for a nominal cutting charge, can ship via U.P.S. (depending on quantity). Transform an ordinary looking room into a larger expanse of beauty!

CRL Deep Nose Aluminum 1/4" J-Channel

• 11 Finishes
• 12' (3.66 m) Stock Lengths

CRL Deep Nose J-Channels are individually polywrapped to prevent scratching, plus the back leg is punched and slotted for easier installation. Deep Nose J-Channel is normally used on the top in mirror installations.

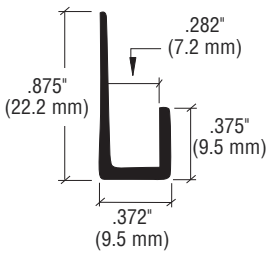

CAT. NO.	FINISH	QTY/CASE
D645A	Satin Anodized	40
D645BA	Brite Anodized	40
D645BGA	Brite Gold Anodized	40
D645BL	Black Electro-Static Paint	40
D645BN	Brushed Nickel	40
D645BRZ	Bronze Electro-Static Paint	40
D645DBA	Dipped Brite Anodized	40
D645DBGA	Dipped Brite Gold Anodized	40
D645GA	Gold Anodized	40
D645P	Polished	40
D645W	White Electro-Static Paint	40

Minimum order: 1 stock length.

CRL Standard Aluminum 1/4" J-Channel

• 11 Finishes
• 12' (3.66 m) Stock Lengths

CRL Standard J-Channels are individually polywrapped to prevent scratching, plus the back leg is punched and slotted for easier installation. Standard J-Channel is normally used on the bottom in mirror installations.

• Individually Polywrapped to Protect the Finish

CAT. NO.	FINISH	QTY/CASE
D636A	Satin Anodized	50
D636BA	Brite Anodized	50
D636BGA	Brite Gold Anodized	50
D636BL	Black Electro-Static Paint	50
D636BN	Brushed Nickel	50
D636BRZ	Bronze Electro-Static Paint	50
D636DBA	Dipped Brite Anodized	50
D636DBGA	Dipped Brite Gold Anodized	50
D636GA	Gold Anodized	50
D636P	Polished	50
D636W	White Electro-Static Paint	50

Minimum order: 1 stock length.

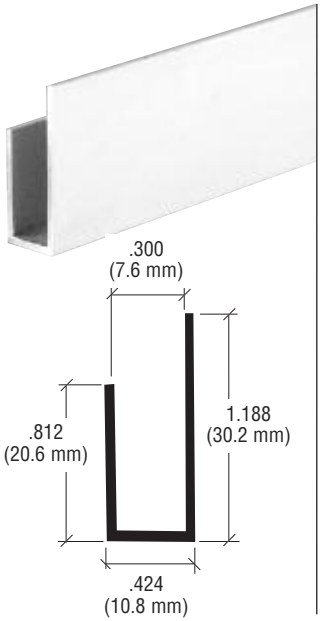

All finishes and shapes can be combined for quantity pricing. A Packing Charge will be added to orders of fewer than 10 combined lengths. Stock lengths longer than 98" (2.49 m) must ship common carrier, unless you specify we cut them for U.P.S. A Cutting Charge will apply.

CRL MIRROR EXTRUSIONS

CRL Extra Deep Nose Aluminum 1/4" J-Channel

- Two Finishes
- 12' (3.66 m) Stock Lengths

This J-Channel has a slightly longer front lip than our Deep Nose J-Channel. Each piece is individually polywrapped.

CAT. NO.	FINISH	QTY/CASE
D318A	Satin Anodized	40
D318BA	Brite Anodized	40

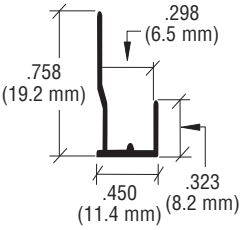

Minimum order: 1 stock length.

CRL FHA Type Aluminum 1/4" J-Channel

- Three Finishes
- 12' (3.66 m) Stock Lengths

This CRL FHA Type J-Channel holds the mirror 1/8" (3 mm) from the wall, and the raised rib at the bottom of the channel prevents moisture from being trapped in the channel. This design meets FHA specifications and prevents damage to the silver mirror backing due to accumulation of condensation. Each piece is individually polywrapped.

CAT. NO.	FINISH	QTY/CASE
D638A	Satin Anodized	50
D638BA	Brite Anodized	50
D638DU	Duranodic Bronze	50

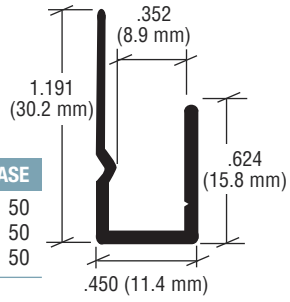

Minimum order: 1 stock length.

CRL Deep Nose Heavy Indented Back Aluminum 1/4" J-Channel

- Three Finishes
- 12' (3.66 m) Stock Lengths

CRL Heavy Indented Back J-Channel allows air to circulate behind mirror to prevent potentially damaging moisture buildup. Each piece is individually polywrapped.

CAT. NO.	FINISH	QTY/CASE
D651A	Satin Anodized	50
D651BA	Brite Anodized	50
D651BGA	Brite Gold Anodized	50

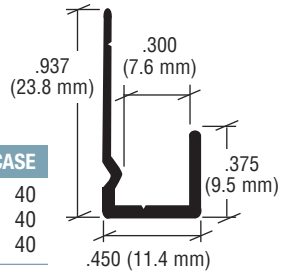

Minimum order: 1 stock length.

CRL Standard Heavy Indented Back Aluminum 1/4" J-Channel

- Three Finishes
- 12' (3.66 m) Stock Lengths

CRL Heavy Indented Back J-Channel allows air to circulate behind mirror to prevent potentially damaging moisture buildup. Each piece is individually polywrapped.

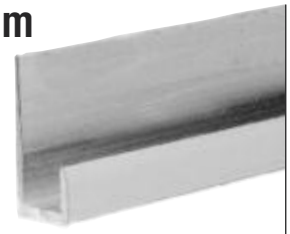

CAT. NO.	FINISH	QTY/CASE
D657A	Satin Anodized	40
D657BA	Brite Anodized	40
D657BGA	Brite Gold Anodized	40

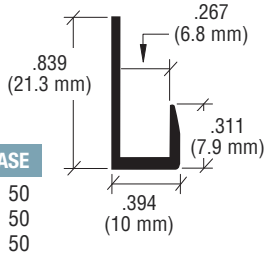

Minimum order: 1 stock length.

CRL Low Profile Aluminum 1/4" J-Channel

- Three Finishes
- 12' (3.66 m) Stock Lengths

This J-Channel has a slightly shorter front lip than our Standard J-Channel. Each piece is individually polywrapped.

CAT. NO.	FINISH	QTY/CASE
D514A	Satin Anodized	50
D514BA	Brite Anodized	50
D514BGA	Buffed Brite Gold Anodized	50

Minimum order: 1 stock length.

CRL Aluminum J-Channel Sample Display

- Convenient Display Board for Showroom
- Shows Available J-Channel and Finishes

CAT. NO. JSAMPLE

This CRL J-Channel Sample Display is designed to be a sales aid to assist customers in the selection of CRL's inventory of J-Channel and available finishes. The J-Channel Display is shrink-wrapped to hold the samples in place and allow for easy handling by customers. The J-Channel Display is a great way to increase sales of J-Channel and mirror products.

All finishes and shapes can be combined for quantity pricing. A Packing Charge will be added to orders of fewer than 10 combined lengths. Stock lengths longer than 98" (2.49 m) must ship common carrier, unless you specify we cut them for U.P.S. A Cutting Charge will apply.

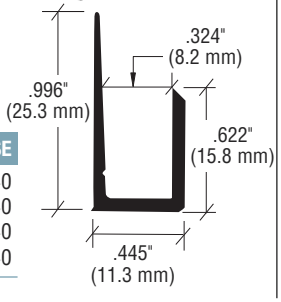

CRL MIRROR EXTRUSIONS

CRL Canadian Style Deep Nose Aluminum 1/4" J-Channel

- Four Finishes
- 12' (3.66 m) Stock Lengths

This CRL Canadian Style 1/4" (6 mm) Deep Nose J-Channel is normally used at the top of the mirror on installations. Each channel is individually polywrapped to prevent scratching during shipping and at the construction site.

CAT. NO.	FINISH	QTY/CASE
DV606A	Satin Anodized	40
DV606BA	Brite Anodized	40
DV606DBGA	Dipped Brite Gold Anodized	40
DV606BL	Black	40

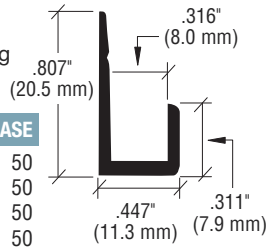

Minimum order: 1 stock length.

CRL Canadian Style Standard Aluminum 1/4" J-Channel

- Four Finishes
- 12' (3.66 m) Stock Lengths

This CRL Canadian Style 1/4" (6 mm) Standard Bottom J-Channel is normally used on the bottom of the mirror. Each channel is individually polywrapped to prevent scratching during shipping and at the construction site.

CAT. NO.	FINISH	QTY/CASE
DV605A	Satin Anodized	50
DV605BA	Brite Anodized	50
DV605DBGA	Dipped Brite Gold Anodized	50
DV605BL	Black	50

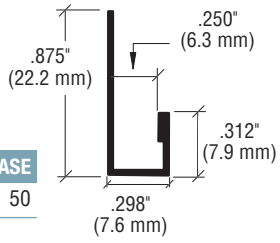

Minimum order: 1 stock length.

CRL Stainless Steel 1/4" J-Channel

- 12' (3.66 m) Stock Lengths

This CRL Stainless Steel Channel is used in glass and mirror installations where a bright finish is required, and the use of Stainless Steel is necessary. When you need to make a miter cut in stainless steel channel, you can use the MT702 Miter Tool. See page 445J. Each piece is individually polywrapped.

CAT. NO.	FINISH	QTY/CASE
SS960	Stainless Steel	50

Minimum order: 10 stock lengths.

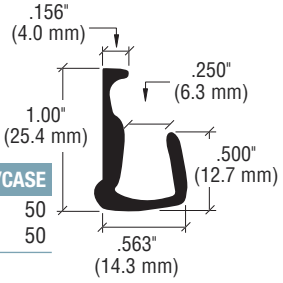

CRL Plastic Reflective 1/4" J-Channel

Mirror-Like Finish

- High Strength, Lightweight
- 12' (3.66 m) Stock Lengths

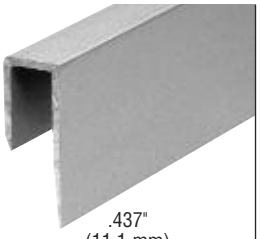

CRL Plastic Reflective J-Channel goes along with our Reflective Trim and Tape, (see page 112G). Made of a high strength, lightweight plastic, J-Channel has a number of outstanding features; a flexible front lip keeps flush to the mirror face because it is reinforced with a metal core; a recessed channel for screws to help keep screw heads from scratching mirror backing; a peel-off protective masking for the lip face.

CAT. NO.	FINISH	QTY/CASE
J2236BR	Brass	50
J2236CH	Chrome	50

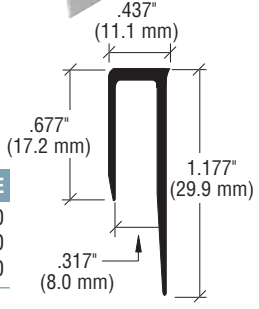

Minimum order: 1 stock length.

CRL Deep Nose Aluminum 5/16" J-Channel

- Three Finishes
- 12' (3.66 m) Stock Lengths

CRL 5/16" Deep Nose J-Channel allows for irregular wall surfaces. It provides extra room for application of light bodied mirror mastics or foam mirror mounting tapes. Stock lengths are individually polywrapped.

CAT. NO.	FINISH	QTY/CASE
D58A	Satin Anodized	40
D58BA	Brite Anodized	40
D58BGA	Brite Gold Anodized	40

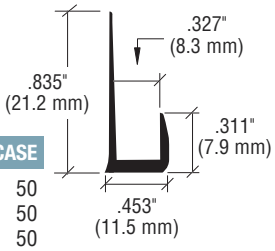

Minimum order: 1 stock length.

CRL Standard Aluminum 5/16" J-Channel

- Three Finishes
- 12' (3.66 m) Stock Lengths

CRL 5/16" Standard J-Channel allows for irregular wall surfaces. It provides extra room for application of light bodied mirror mastics or foam mirror mounting tapes. Stock lengths are individually polywrapped.

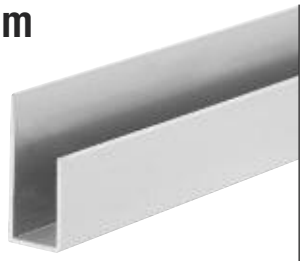

CAT. NO.	FINISH	QTY/CASE
D516A	Satin Anodized	50
D516BA	Brite Anodized	50
D516BGA	Brite Gold Anodized	50

Minimum order: 1 stock length.

All finishes and shapes can be combined for quantity pricing. A Packing Charge will be added to orders of fewer than 10 combined lengths. Stock lengths longer than 98" (2.49 m) must ship common carrier, unless you specify we cut them for U.P.S. A Cutting Charge will apply.

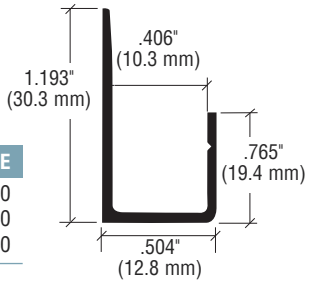

CRL MIRROR EXTRUSIONS

CRL Deep Nose Aluminum 3/8" J-Channel

- Three Finishes
- 12' (3.66 m) Stock Lengths

CRL Deep Nose 3/8" (9.5 mm) J-Channel allows for irregular wall surfaces and provides room behind the mirror for pats of heavy bodied mirror mastic. Each stock length is individually polywrapped.

CAT. NO.	FINISH	QTY/CASE
D838A	Satin Anodized	30
D838BA	Brite Anodized	30
D838BGA	Brite Gold Anodized	30

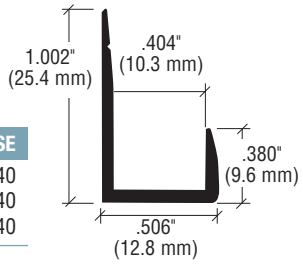

Minimum order: 1 stock length.

CRL Standard Aluminum 3/8" J-Channel

- Three Finishes
- 12' (3.66 m) Stock Lengths

CRL Standard 3/8" (9.5 mm) J-Channel allows for irregular wall surfaces and provides room behind the mirror for pats of heavy bodied mirror mastic. Each stock length is individually polywrapped.

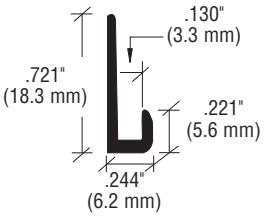

CAT. NO.	FINISH	QTY/CASE
D738A	Satin Anodized	40
D738BA	Brite Anodized	40
D738BGA	Brite Gold Anodized	40

Minimum order: 1 stock length.

CRL Aluminum J-Channels

- Two Finishes
- 12' (3.66 m) Stock Lengths

1/8" J-Channel

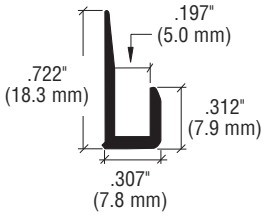

1/8" J-Channel is used for double strength mirror or thin laminates. Each stock length is individually polywrapped.

CAT. NO.	FINISH	QTY/CASE
D18A	Satin Anodized	50
D18BA	Brite Anodized	50

Minimum order: 1 stock length.

3/16" J-Channel

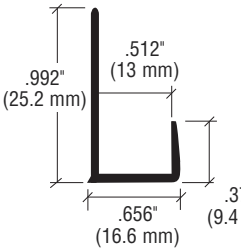

3/16" J-Channel is used for 3/16" (4.8 mm) thick mirrors and other materials. Each stock length is individually polywrapped.

CAT. NO.	FINISH	QTY/CASE
D3316A	Satin Anodized	50
D3316BA	Brite Anodized	50

Minimum order: 1 stock length.

1/2" J-Channel

1/2" J-Channel is used for 7/16" and 1/2" (11.1 and 12 mm) thick materials. Each stock length is individually polywrapped.

CAT. NO.	FINISH	QTY/CASE
D12A	Satin Anodized	30
D12BA	Brite Anodized	30

Minimum order: 1 stock length.

All finishes and shapes can be combined for quantity pricing. A Packing Charge will be added to orders of fewer than 10 combined lengths. Stock lengths longer than 98" (2.49 m) must ship common carrier, unless you specify we cut them for U.P.S. A Cutting Charge will apply.

CRL J-Channel Punch and Countersink Tool

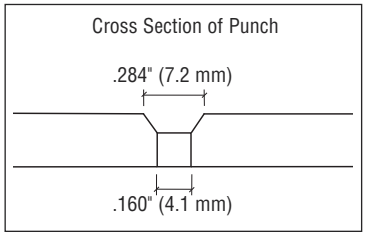

- Cuts a Clean Screw Hole in J-Channel Back Leg

Our powerful J-Channel Punch cuts a clean screw hole in the J-Channel back leg and countersinks at the same time. A side gauge permits accurate throat depth adjustment. Extra dies may be purchased separately.

NOTE: Punched hole is .160" diameter; Countersink size is .284" diameter.

CRL MIRROR EXTRUSIONS

CRL Aluminum L-Bar and J-Bar Face

- Seven Finishes
- 12' (3.66 m) Stock Lengths
- 50 Per Case

CAT. NO.	FINISH
L502A	Satin Anodized
L502BA	Buffed Brite Anodized
L502BGA	Brite Gold Anodized
L502BN	Brushed Nickel
L502BRZ	Bronze Electro-Static Paint
L502GA	Satin Gold Anodized
L502P	Polished

Minimum order: 1 stock length.

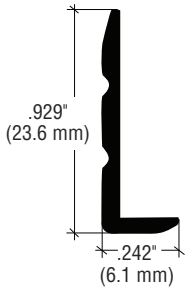

This versatile extrusion can be used as an L-Bar or J-Channel face. The 5/8" (15.9 mm) face height matches our Deep Nose J-Channel. Each piece is individually polywrapped.

CRL Aluminum 3/16" L-Bar Extrusion

- Two Finishes
- 12' (3.66 m) Stock Lengths
- 50 Per Case

This CRL Aluminum L-Bar is a multi-purpose extrusion. Use it as an edge protector on complete mirror door installations, or on wall mirrors where a lower lip extrusion is not required. Also may be used as an edge protector for glass tops.

CAT. NO.	FINISH
DV101BA	Brite Anodized
DV101BGA	Brite Gold Anodized

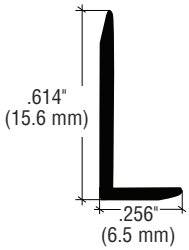

Minimum order: 1 stock length.

CRL Aluminum 1/4" L-Bar Extrusion

- Four Finishes
- 12' (3.66 m) Stock Lengths
- 50 Per Case

This CRL L-Bar Extrusion can be used as an L-Bar or J-Channel face. This extrusion is extremely versatile, and is for use with most mirror installations.

CAT. NO.	FINISH
DV607A	Satin Anodized
DV607BA	Brite Anodized
DV607BGA	Brite Gold Anodized
DV607BRZ	Bronze Electro-Static Paint

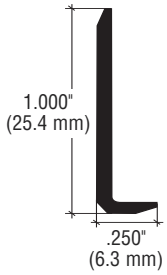

Minimum order: 1 stock length.

CRL Aluminum 1/4" L-Bar Extrusion

- Six Finishes
- 12' (3.66 m) Stock Lengths
- 50 Per Case

L-Bar is an all purpose extrusion. Use it as an edge protector on complete mirror door installations, or on wall mirrors where a lower lip is not required. Also good as an edge protector for glass tops. 1/4" (6 mm) lip is available in seven popular finishes.

CAT. NO.	FINISH
L902A	Satin Anodized
L902BA	Brite Anodized
L902BGA	Brite Gold Anodized
L902BN	Brushed Nickel
L902BRZ	Bronze Electro-Static Paint
L902P	Polished

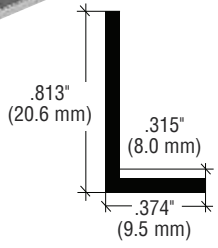

Minimum order: 1 stock length.

CRL Aluminum 3/8" L-Bar Extrusion

- Five Finishes
- 12' (3.66 m) Stock Lengths
- 50 Per Case

This CRL Angle Bar is finished on all surfaces which allows it to be used in any application where angle extrusion is a requirement.

CAT. NO.	FINISH
D317A	Satin Anodized
D317BA	Brite Anodized
D317BGA	Brite Gold Anodized
D317DU	Duranodic Bronze
D317GA	Gold Anodized

Minimum order: 1 stock length.

All finishes and shapes can be combined for quantity pricing. A Packing Charge will be added to orders of fewer than 10 combined lengths. Stock lengths longer than 98" (2.49 m) must ship common carrier, unless you specify we cut them for U.P.S. A Cutting Charge will apply.

CRL MIRROR EXTRUSION ACCESSORIES

CRL Clear Plastic Setting Blocks

- **Barely Visible Blocks are Great for Use in Mirror Installations**
- **Widely Used in Frameless Shower Installations**
- **Available in Six Sizes**

CRL Clear Plastic Setting Blocks are especially suited for use where black neoprene or thermoplastic rubber setting blocks are undesirable, such as mirror or frameless shower door installations. They are barely visible in the bottoms of Mirror J-Channel, or on the bottom of sliding track H-Bar. CRL Clear Plastic Setting Blocks make glass leveling very simple, and are available in six sizes.

CAT. NO.	THICKNESS	THICKNESS	LENGTH

Minimum order: 100 each. Must be ordered in increments of 100. Sizes can be combined for quantity pricing.

CRL Glass Jack

- **A Simple and Affordable Tool That Makes Adjusting Large Glass Panels Easy**
- **Great for the Small Glass Shop**

The CRL Glass Jack makes adjusting (or lifting) large glass and mirror panels a simple, one person job. Used in conjunction with your Vacuum Cup (not included), this precision machined tool lets you adjust and set your glass, while getting a better view of what you are doing without any interference. At the same time, you reduce your risk of back injury.

The CRL Glass Jack is set on a solid surface while you position it's cradle under your vacuum cup. Then by simply attaching your cup to the glass and turning the center adjustment bar by hand, the glass will raise or lower accordingly. The turnbuckle mechanism lets you move glass panels in the smallest of increments, without sudden movements.

Made from the highest quality aluminum, the CRL Glass Jack is built for years of service. Remember: Never exceed the recommended weight limit of your vacuum cup. For additional information, contact CRL Customer Service at (800) 421-6144 in the U.S., (877) 421-6144 from Canada, or (323) 588-1281 International, and ask for Ext. 5275. You can also e-mail us through our web site at **crlaurence.com**. From the home page click on Contact Us, and then click on Customer Service.

CAT. NO. J1

Vacuum Lifter Sold Separately See Pages 556J - 557J.

CRL Black Masking Tape

- **For General Purpose Mirror Use**

CRL Black Masking Tape is used in between and behind joints of mirror walls to leave a clean black line. This tape also acts as a shock-absorbing cushion when applied to the edge of the mirror, eliminating "clam shell" caused by mirror edges striking each other.

CAT. NO.	WIDTH	ROLL/LENGTH	ROLLS/CASE
23534	3/4" (19 mm)	180' (54.8 m)	48
2351	1" (25.4 mm)	180' (54.8 m)	36

Minimum order: 1 roll.

CRL Plate Glass Lifting Tool

- **Helps Prevent Lifting Related Injuries**

Our newest handy tool is used to lift heavy plate glass and mirror while you insert setting blocks or shims. Helps reduce strain on your back. Also handy to scoop and spread mirror mastic.

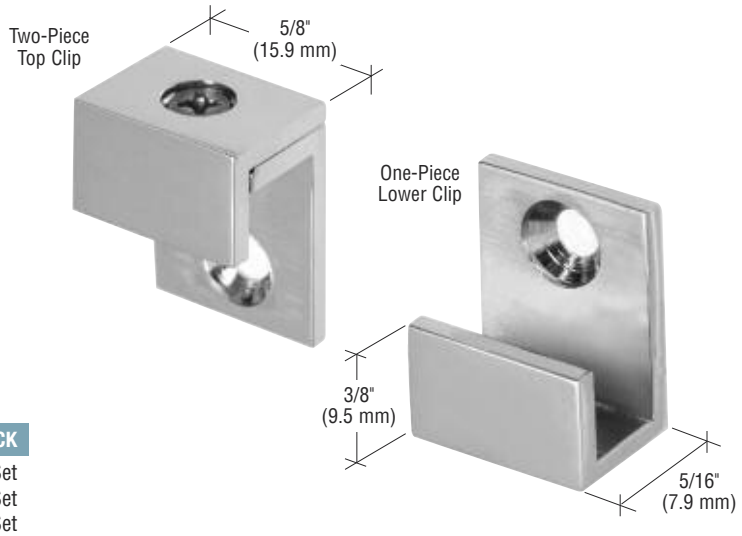

CAT. NO. PGL11

CRL 5/8" Wide Mirror Clips

- **For 1/4" (6 mm) Mirror**
- **Available in Three Finishes**
- **Supplied With Wood Screws and Anchors**

CRL 5/8" (15.9 mm) Wide Mirror Clips are designed for 1/4" (6 mm) mirror. They simplify the process of installing mirrors by using the One-Piece Clip on the bottom and the Two-Piece Clip on top for a quick and easy installation. The Upper Clip is removable by unscrewing the top screw. Supplied with #6 x 3/4" (19 mm) Flat Head Wood Screws and Plastic Anchors. Set includes two Upper and two Lower Clips.

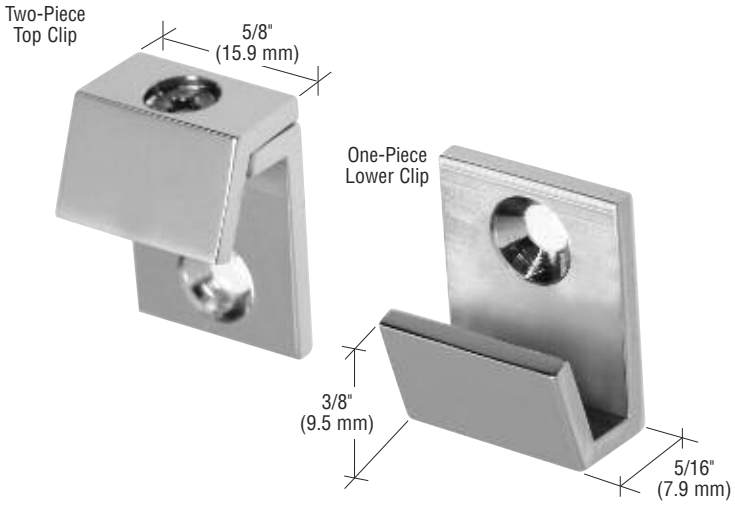

CAT. NO.	FINISH	QTY/PACK
MC01BR	Brass	4 Clips per Set
MC01BN	Brushed Nickel	4 Clips per Set
MC01CH	Chrome	4 Clips per Set

Minimum order: 1 each. All Stainless Steel Theft-Proof Mirror Frames can be combined for quantity pricing.

CRL 5/8" Wide Beveled Mirror Clips

- **For 1/4" (6 mm) Beveled Mirror**
- **Available in Three Finishes**
- **Supplied With Wood Screws and Anchors**

CRL 5/8" (15.9 mm) Wide Beveled Mirror Clips are specifically designed for 1/4" (6 mm) beveled mirror. They simplify the process of installing mirrors by using the One-Piece Clip on the bottom and the Two-Piece Clip on top for a quick and easy installation. The Upper Clip is removable by unscrewing the top screw. Supplied with #6 x 3/4" (19 mm) Flat Head Wood Screws and Plastic Anchors. Set includes two Upper and two Lower Clips.

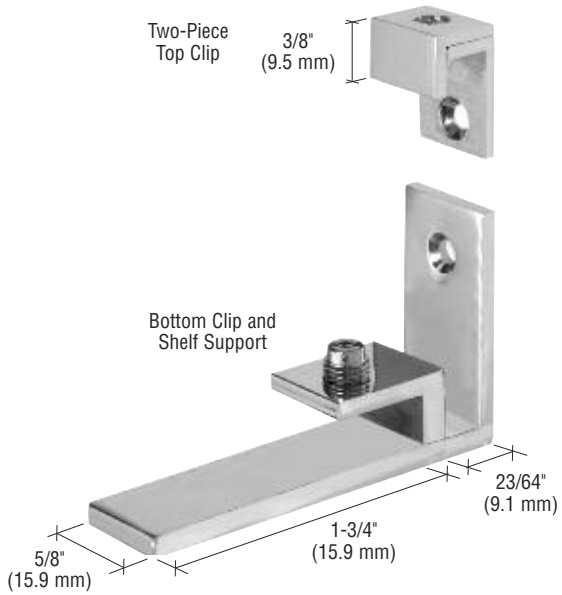

CAT. NO.	FINISH	QTY/PACK
MC00BR	Brass	4 Clips per Set
MC00BN	Brushed Nickel	4 Clips per Set
MC00CH	Chrome	4 Clips per Set

Minimum order: 1 each. Can be combined with all other Mirror Clips for quantity pricing.

CRL Combination Shelf Support and Mirror Clip

- **For 1/4" to 5/16" (6 to 8 mm) Mirror and Shelf**
- **Available in Three Finishes**
- **Supplied With Wood Screws and Anchors**

The CRL Combination Shelf Support and Mirror Clips are uniquely designed for 1/4" to 5/16" (6 to 8 mm) mirror and a shelf. They simplify the process of installing mirrors by using the One-Piece Shelf Support and Clip on the bottom and the Two-Piece Clip on top for a quick and easy installation. The Upper Clip is removable by unscrewing the top screw. The Shelf Support comes with a cork tipped tightening screw. Supplied with #8 x 1" (25 mm) Flat Head Wood Screws and Plastic Anchors. Set includes two Upper and two Lower Clips.

CAT. NO.	FINISH	QTY/PACK
MC04BR	Brass	4 Clips per Set
MC04BN	Brushed Nickel	4 Clips per Set
MC04CH	Chrome	4 Clips per Set

Minimum order: 1 each. Can be combined with all other Mirror Clips for quantity pricing.

CRL MIRROR CLIPS

CRL E-Z Mount Mirror Clip Set

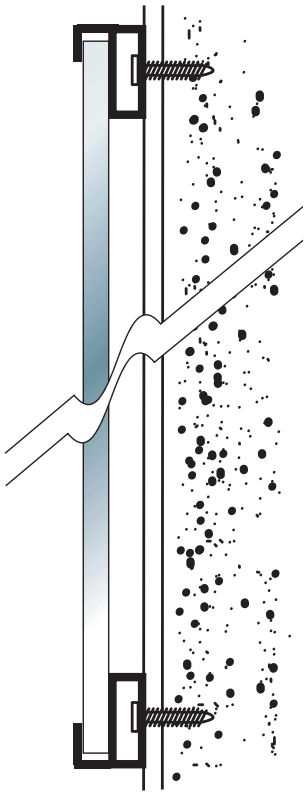

- The Fast and Secure Way to Hang Mirrors
- Unique Spring-Loaded Top Clips
- Made of Nickel Plated Steel

These CRL E-Z Mount Mirror Clip Sets are a secure and economical way to hang mirrors. The Upper Clips have unique, spring-loaded flanges which allow them to expand during installation. The Lower Clips are not spring-loaded, and are designed to carry the mirror's weight.

To install, set your mirror into the Upper Clips, extending them. Then just seat mirror into the Lower Clips. Each set of 655 Mirror Clips consists of two Upper and two Lower Clips, plus four mounting screws. A bulk carton consists of 50 sets. **NOTE:** Maximum recommended mirror size is 36" x 48" (914 x 1219 mm).

Upper Clips: Have unique, spring-loaded flanges. You just expand these clips during installation – it's quick and easy!

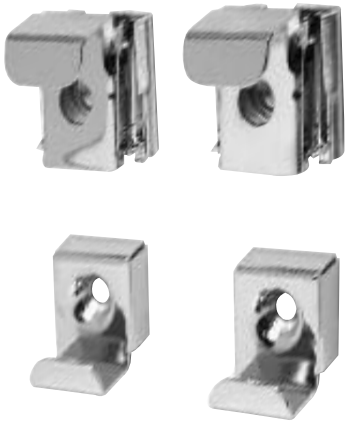

Lower Clips: Always remain stationary, and have a 5/16" (7.9 mm) channel space. These clips are not spring loaded, and are designed to carry the mirror's weight.

50655B	NIckel Plated	Bulk Package of 50 Sets

Minimum order: Cat. No. 655 is one set; Cat. No. 50655B is one carton. Cat. No. 655 Clip Sets can be combined with all other Mirror Clips for quantity pricing.

CRL Plastic Lined Mirror Mounting Clips

- Polished Chrome Finish
- Plastic Lining Helps Protect Clips and Prevent Scratches in Mirror

CRL's Plastic Lined Mirror Mounting Clips are designed to allow maximum air circulation behind the mirror and accommodate uneven wall surfaces. The Upper Clips are spring loaded to expand over the top edge of the mirror as it is being installed, and then return to a position where the mirror is held firmly against the wall. The Lower Clips support the weight of the mirror. A plastic liner inside each Clip protects and cushions the mirror. Four Clips per set.

CAT. NO.	FINISH	QTY/PACK
655KE	Polished Chrome	4 Clips Per Set

Minimum order: 1 set. Can be combined with all other Mirror Clips for quantity pricing.

CRL J-Mirror Clip Set

- Plastic Lined to Protect Mirror Back Against Scratching
- Bright Nickel Plated Finish
- For 1/4" (6 mm) Mirror

These CRL J-Mirror Clip Sets are designed with raised back ribs so the screw head is flush with the Clip, away from the mirror backing, which reduces the chance of scratching. Each Mirror Clip Set includes four Clips, screws, and plastic liners.

CAT. NO.	FINISH	QTY/PACK
KJ9	Nickel Plated	4 Clips Per Set

Minimum order: 1 set. Can be combined with all other Mirror Clips for quantity pricing.

CRL MIRROR CLIPS

CRL Adjustable Mirror Clip Sets

- **Available to Fit Three Thicknesses of Mirror**
- **Models for Flat Seamed or Beveled Type Edges**
- **No Holes to Drill in Mirror or Backboard**
- **Gold and Nickel Plated Finishes**

These CRL Adjustable Mirror Clip Sets are designed specifically for mirrors with flat seamed or beveled type edges. These attractive Clips hold mirrors firmly, yet there are no visible screws or unsightly holders. The expandable Upper Clips make it easy to install most any mirror. Available in nickel or gold plated finishes. They are quick, simple, and easy to use. Each set contains two Upper and two Lower Clips with mounting screws. **NOTE:** Each Lower Clip can hold up to 50 pounds (22.7 kg) when mounted every four feet (1.2 m) into wall studs.

Top Mirror Clips are adjustable to allow for installation.

Top Clip

For top or side mounting: Place screw through back section only. Adjust Clip with your finger.

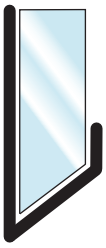

Bottom Clip

Place mounting screw through Clip and back slide section to attain maximum support.

CRL Mirraco Mirror Hangers

- **Greater Holding Strength**
- **Reduces Installation Time**
- **No Holes to Drill in Mirror**
- **No Backboards Necessary**
- **Ample Space Between Mirror and Wall Adds to Life of Mirror**

These CRL Mirraco Mirror Hangers are an excellent choice for larger mirror installations. This system provides greater holding strength than comparable hangers. Installation time is reduced because there are no holes to drill in the mirror, plus the mirror can be centered before hanging. Each Set includes Upper and Lower Hanger Strips, four Clips, screws, and complete mounting instructions. This system offers a complete range of Hanger Sets from 16" to 54" (406 to 1372 mm).

CAT. NO.	HANGER WIDTH	MAXIMUM MIRROR WIDTH
74116	16" (406 mm)	26" (660 mm)
74124	24" (610 mm)	30" (762 mm)
74128	28" (711 mm)	36" (914 mm)
74136	36" (914 mm)	44" (1118 mm)
74142	42" (1067 mm)	56" (1422 mm)
74154	54" (1372 mm)	80" (2032 mm)

Minimum order: 1 each. Sizes can be combined for quantity pricing.

Easy to Install

1. Position and secure bottom hanger to wall.
2. Position top hanger 1/2" lower than eight of mirror and secure to wall.
3. Push top clips up install mirror (bottom first). Push top clip down to hold mirror.

NOTE: Hangers are Stamped Top or Bottom.

- **New 6" (152 mm) Long Four-Hanger Sets**

These New CRL Mirraco 6" (152 mm) Four-Hanger Sets let you mount individual Hangers, instead of a continuous Hanger Strip, in the best position to accommodate mirrors up to 60" (1524 mm) in width. They have the famous Mirraco Clips that make mirrors easy to mount without drilling into the glass. Each Set includes two Upper and two Lower Hanger Strips with Clips, screws, and mounting instructions.

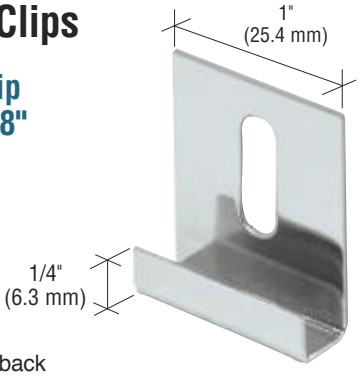

CAT. NO.	MAXIMUM MIRROR WIDTH
7416	60" (1524 mm)

Minimum order: 1 each.

CRL MIRROR CLIPS

CRL Dallas Mirror Clips

- **Very Popular Wide Clip for 1/4", 5/16", and 3/8" (6, 8, and 10 mm) Mirror**

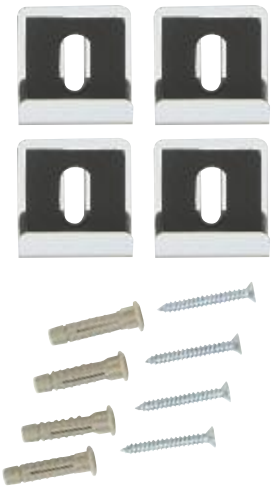

CRL's Dallas Mirror Clips are very popular. They are available for three glass or panel thicknesses. Fabricated from 21 gauge steel, the slotted back allows for a height adjustment of 1/2" (12.7 mm). The clip is 1" (25.4 mm) wide and has a 1/4" (6.3 mm) flange. **NOTE:** Clips are plated to resist corrosion, but any ammonia-based cleaners sprayed on clips will deteriorate the protective nickel plating.

CAT. NO.	FINISH	CHANNEL SIZE	QTY/PACK
778A	Nickel Plated	1/4" (6 mm)	100
778B	Nickel Plated	5/16" (8 mm)	100
778C	Nickel Plated	3/8" (10 mm)	100

Minimum order: 100 each. Can be combined with all other Mirror Clips for quantity pricing.

CRL Quartet Mirror Clip Sets

- **Slotted, Sponge Backing**
- **Includes Clips, Anchors, and Screws**

The CRL Quartet Mirror Clip Set is a beautifully finished heavy gauge steel clip made expressly to support and hold 1/4" (6 mm) mirrors. Available in high luster chrome, the nose is 1-3/16" (30 mm) wide with a sponge backing that helps secure the mirror softly but firmly in place. Each set consists of four clips, anchors, and screws in an attractive package, complete with installation instructions.

CAT. NO.	FINISH	QTY/SET
3061501	Brite Chrome	4

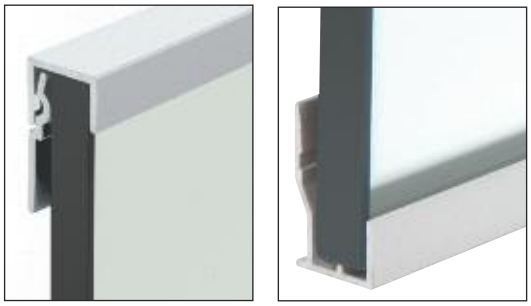

Minimum order: 1 set. Can be combined with all other Mirror Clip Sets for quantity pricing.

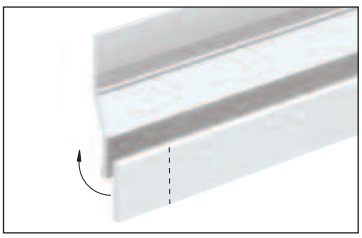

CRL Cleat Mount System for Mirrors

- **Made From Three Easy-to-Use Extrusions**
- **Available in Two Finishes**
- **Neat and Trim in Appearance**

The Cleat Mount System for Mirrors affords the installer a neat, trim way to mount mirrors with a narrow 5/16" (7.9 mm) frame. The unique offset profile of the Cleat, in conjunction with the Top Channel and the FHA J-Channel*, helps keep moisture from being trapped behind the mirror, while also concealing screws and support hardware. 12 foot (3.66 m) stock lengths.

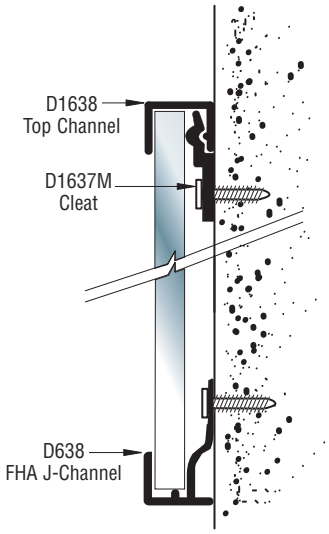

NOTE: Not recommended for schools, hospitals, or institutions where mirror edges should be protected on all four sides (see D1950 Mirror Frames on page 409J.)

Mounting Detail

Closed ends can be created by trimming back a portion of the channel, and bending back the front flaps to close off the ends

Minimum order: 1 each. All finishes and shapes can be combined for quantity pricing. A Packing Charge will be added to orders of fewer than five combined lengths. Stock lengths longer than 98" (2.49 m) must ship common carrier, unless you specify we cut them for U.P.S. A Cutting Charge will apply. *Meets Federal Housing Authority Specifications.

CRL MIRROR CLIPS

CRL Vancouver Mirror Clips

- **Available to Accommodate 1/8" to 1/4" (3 mm to 6 mm) Thick Glass**
- **Two Finishes: Nickel Plated and Zinc Plated**
- **Slotted to Permit Height Adjustment**

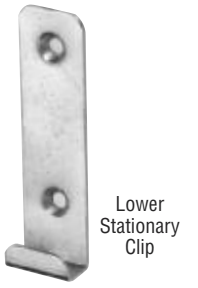

These CRL Vancouver Mirror Clips are available in nickel and zinc plated finishes. The advantage of the nickel plated finish is that it resists corrosion. These Clips are designed with 1" (25.4 mm) slots that allow for height adjustment during installation. They are available for glass thicknesses of 1/8" to 1/4" (3 mm to 6 mm).

CAT. NO.	FINISH	FITS	QTY/PACK
SW0163	Nickel Plated	1/8" (3 mm) Glass	100
SW0164	Zinc Plated	5/32" (4 mm) Glass	100

SW1267	Nickel Plated	1/4" (6 mm) Glass	100

Minimum order: 100 each. Can be combined with all other Mirror Clips for quantity pricing.

CRL Bishop Mirror Clips

- **Nickel Plated Finish**
- **Easy to Install**

CRL Bishop Mirror Clips are available in a nickel plated finish for 1/4" (6 mm) mirror. They hold mirrors firmly in place without any visible screws. The Top Clip consists of two separate parts (Cat. No. SW5232 Upper Male Clip and Cat. No. SW5233 Upper Female Clip) that slide into each other. This makes them expandable so it is easier to install the mirror. Together they work with Cat. No. SW6003, which is a one-piece Lower Stationary Clip that is used on the bottom.

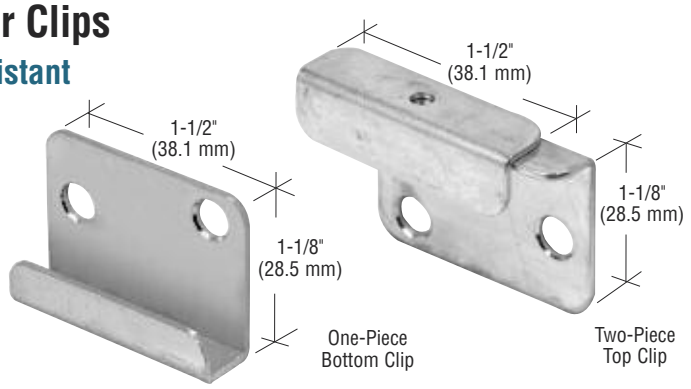

CAT. NO.	FINISH	DESCRIPTION	QTY/PACK
SW5232	Nickel Plated	Upper Clip - Male	100
SW5233	Nickel Plated	Upper Clip - Female	100
SW6003	Nickel Plated	Lower Stationary Clip	100

Minimum order: 100 each. Can be combined with all other Mirror Clips for quantity pricing.

CRL One and Two-Piece Anochrome Mirror Clips

- **Anochrome Finish**
- **Easy to Install**
- **Rust Resistant**

CRL One and Two-Piece Anochrome Mirror Clips for 1/4" to 5/16" (6 to 8 mm) mirror simplify the process of installing large mirrors. Fabricated from anochrome plated brass, these Clips are attractive, easy to install, and do not rust. The One-Piece Clip is used on the bottom, and the Two-Piece Clip on the top for a quick and easy installation.

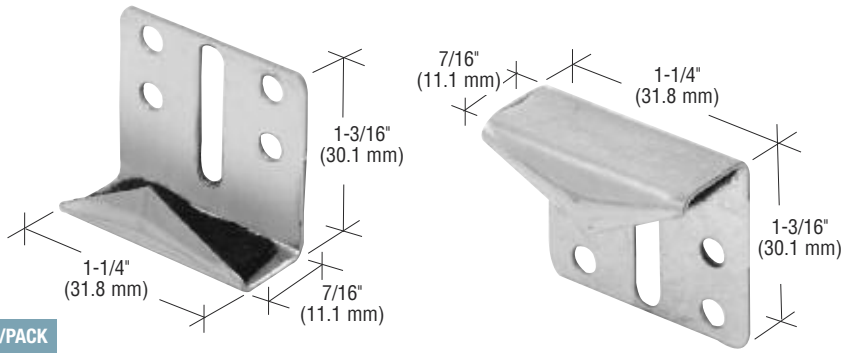

CAT. NO.	FINISH	DESCRIPTION	QTY/BOX
KV278	Anochrome	Two-Piece Top Clip	10
KV277	Anochrome	One-Piece Bottom Clip	10

Minimum order: 10 each (box quantity). Can be combined with all other Mirror Clips for quantity pricing.

CRL Designer Clip

- **Attractive Decorative Design**
- **Stainless Steel Finish**
- **Slotted Back**

These CRL Designer Clips have a beveled lip and a built-in cushion to protect the mirror edge. The channel measures a full 7/16" (11.1 mm), and the slotted back allows for height adjustments.

CRL Plastic Screw Anchors

- **Our Best Selling Plastic Anchors**
- **Available With or Without Shoulders**

Designed to be used with wood or sheet metal screws, their multiple-ribbed construction ensures secure holding power in hard or soft materials, from concrete to plaster. Available in two styles: the shoulderless anchors will fit flush to the surface; the type with shoulders keep the anchor from slipping through the hole. 3/16" and 1/4" (5 and 6 mm) sizes accommodate screw sizes from #4 through #10.

CRL MIRROR HANGING SUPPLIES

CRL Suction Cup Hooks and Clamps

- Made of Crystal Clear Vinyl
- Metal Hook Will Not Rust

CRL Vinyl Suction Cups contain UV stabilizers that protect the cup from yellowing in the sun. Cups generally adhere to smooth, non-porous surfaces with little effort. Designed to hold signs, crafts, thermometers, and so on. All sizes come 25 to a package. Minimum order is one package.

Mini Suction Cups With Metal Hooks

- 3/4" (19 mm) Diameter

Will hold 1/2 pound (.22 kg) of weight. Perfect for hanging small signs in windows. Minimum order is one package.

CAT. NO. ASC34HK

Small Suction Cups With Metal Hooks

- 1-1/8" (28.6 mm) Diameter

Designed for small ornaments or signs, these clear vinyl cups can hold up to 1 pound (.45 kg) safely. Minimum order is one package.

CAT. NO. ASC118HK

Medium Suction Cups With Metal Hooks

- 1-3/4" (44.5 mm) Diameter

The size of this cup allows for the holding of stained glass, bird feeders, thermometers, or just about anything that weighs up to 3 pounds (1.4 kg). Minimum order is one package.

CAT. NO. ASC134HK

Large Suction Cups With Metal Hooks

- 2-1/2" (63.5 mm) Diameter

This cup will carry seven to ten pounds (3.2 to 4.5 kg) of weight. Minimum order is one package.

CAT. NO. ASC212HK

Small Suction Cups With Clamps

- 1-1/8" (28.6 mm) Diameter

The metal clamp will hold small signs, notes or advertisements in its spring-loaded jaws. This small diameter cup will hold up to 1 pound (.45 kg). Minimum order is one package.

CAT. NO. ASC118MC

Medium Suction Cups With Clamps

- 1-3/4" (44.5 mm) Diameter

The metal clamp will hold larger signs or advertisements with its spring-loaded jaws. These medium diameter cups will hold up to 3 pounds (1.4 kg). Minimum order is one package.

CAT. NO. ASC134MC

Medium Suction Cups With Studs and Knurled Nuts

- 1-3/4" (44.5 mm) Diameter

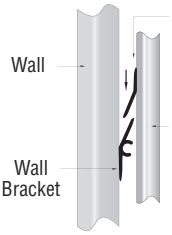

The diameter of these medium-sized cups allow for holding power up to 3 pounds (1.4 kg). No. 8-32 threaded nut secures hanging items. Minimum order is one package.

CAT. NO. ASC134N

CRL MIRROR HANGING SUPPLIES

CRL Hangman® Mirror and Picture Hanging System

- **Easy-to-Install System is Perfectly Level Every Time**
- **Available in Four Sizes**
- **Supports Up to 300 Pounds (136 kg)**
- **Interlocking Design Assures Mounting Stability**
- **High Strength Aluminum Won't Rust or Corrode**
- **Lets You Adjust Item Right or Left**
- **Ideal for Mounting Mirrors, Pictures, and Other Wall Décor**

CRL now offers a unique, patented hardware system for hanging mirrors, pictures, and wall décor safe, easy, and secure. The Hangman® Mirror and Picture Hanging System features a removable bubble level that enables you to quickly and easily hang framed mirrors, pictures, and wall décor perfectly level each and every time.

The CRL Hangman® System is available in four different size widths and weight capacities: the 6" (152 mm) width holds up to 75 pounds (34 kg), the 10" (254 mm) width holds up to 100 pounds (45 kg), the 18" (457 mm) width holds up to 200 pounds (90 kg), and the 30" (762 mm) width holds up to 300 pounds (136 kg).

The Hangman® System comes complete with a removable bubble level and all the hardware (pan head phillips sheet metal screws and plastic anchors) needed for wall installations. The brackets are heavy-duty aluminum, and have mounting holes punched every 4" (101.6 mm) on center.

CAT. NO.	SIZES	RATED FOR	QTY/PKG
HP6	6" (152 mm)	Up to 75 lbs. (34 kg)	6
HP10	10" (254 mm)	Up to 100 lbs. (45 kg)	6
HP18	18" (457 mm)	Up to 200 lbs. (90 kg)	6
HP30	30" (762 mm)	Up to 300 lbs. (136 kg)	6

Minimum order: 1 each. Sizes can be combined for quantity pricing.

1. Attach Mounting Bracket to the back of item to be hung. For best results drill pilot holes and use screws.

2. Attach Wall Bracket to the wall using wall anchors, or screw into studs. Do not use nails. Attach one end first, then pivot until bubble is level.

3. Mark holes and install remaining wall anchors and screws into wall.

4. Remove level and hang item on Wall Bracket. You can slide item left or right for best centering.

CRL NoStud® Drywall Picture Hanger

- **Supports Up to 200 Pounds (90 kg) in Drywall**
- **Works in 1/2" and 5/8" Thick Drywall**
- **Easy to Install - 25 Second Installation**
- **No Stud Needed for Installation**
- **Earthquake Tested**

CRL now offers the "world's strongest" Drywall Picture Hanger, the NoStud® Drywall Picture Hanger. It is designed to work in 1/2" and 5/8" (12.7 and 15.9 mm) thick drywall, and supports up to 200 pounds (90 kg) with no stud needed for installation. It is very easy to install as it only takes three quick and easy steps. Picture Hangers come individually carded with five cards per carton. Minimum order is one carton.

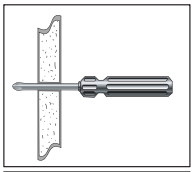

Hangman is a registered trademark of Hangman Products, Inc.
NoStud is a registered trademark of Skorka, Richard.

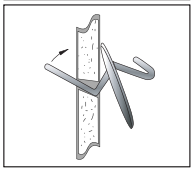

CAT. NO. 200NS

HOW IT WORKS:

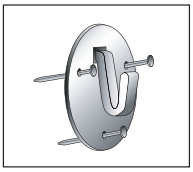

Step 1: Make a 1/4" (6.3 mm) hole with a screwdriver.

Step 2: Insert the NoStud® Picture Hanger.

Step 3: Secure in place using the three nails supplied with each Hanger.

CRL Fletcher® FrameMaster® Point Driver

- Quick Loading Reversible Point Magazine
- Uses 3/8" (9.5 mm) or 5/8" (16 mm) Points
- Adjustable Strike Force

CAT. NO. FM075

Drive home Glazier's and Framer's Points with the CRL Fletcher® FrameMaster® Point Driver. It reliably drives wax-free stacked points straight and flat to the surface, one at a time, without double feeding or jamming. The easy-load magazine holds 100 points at a time. Unique design features a reversible magazine with a short nose for 3/8" (9.5 mm) Glazier's Points, or a long nose for the longer 5/8" (16 mm) Framer's Points.

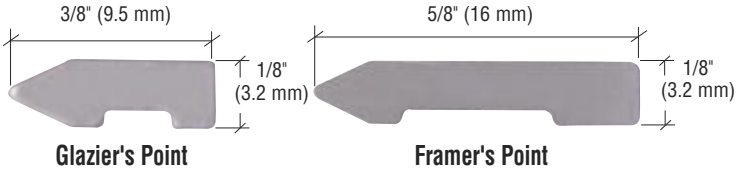

A knurled adjustment screw allows easy tension adjustment: less force for soft woods and more force for hard woods. The 1/8" (3.2 mm) width of the point gives excellent holding power combined with a small profile for easy putty coverage of the Glazier's Points. The 5/8" (16 mm) Framer's Points are long enough to hold mat board and other picture frame backing materials securely in place while still being long enough for easy removal.

The lightweight yet durable plastic frame is designed to provide years of dependable service. Minimum order is one each.

CRL Fletcher® FrameMaster® Points

- Exclusively for the FrameMaster® Point Driver
- Wax-Free for a Strong Hold

CAT. NO.	DESCRIPTION	QTY/PK
FT898	3/8" (9.5 mm) Glazier's Points	5,000
FT895	5/8" (16 mm) Framer's Points	3,000

Minimum order: 1 package. All Glazing Points can be combined for quantity pricing.

CRL Fletcher® PullMate™ Point Removing Tool

- Removes Fletcher® FrameMaster® Points From Wood Frames

The CRL Fletcher® PullMate™ Point Removing Tool is a high-quality finishing tool specifically designed to remove Fletcher® FrameMaster® Points from wood frames. It has a rubberized raised grip that provides added comfort and helps protect framing materials. Minimum order is one each.

CAT. NO. 09517

Fletcher and FrameMaster are registered trademarks of The Fletcher-Terry Company.

CRL MIRROR HANGING SUPPLIES

CRL PD9 Diamond Point Driver

- All Metal Design
- Drives 5/16" Diamond Points
- Adjustable Strike Force

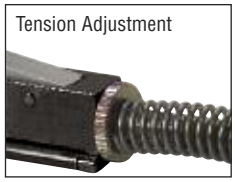

The best and fastest way to glaze wood sash is to start off with a CRL PD9 Diamond Point Driver. Secure the glass in place with CRL No. 1 Diamond Points and warm up the putty. Adjustable strike force allows the user to drive the points deeply enough in hard or soft wood frames to hold the glass with 1/8" (3.2 mm) of exposure over the glass. This low profile is easily covered during putty application.

The CRL PD9 is built with small rubber cushions on the base to make sure tool is perfectly angled to properly set the points. Minimum order is one each.

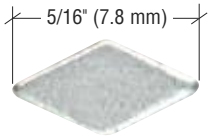

CAT. NO. PD9

CRL No. 1 Diamond Points

- Stacked Points Are Available in Two Package Quantities
- Works With Our PD9 Driver

CAT. NO. 1P

Our No. 1 size Universal Diamond Points fit into our PD9 Point Driver, and also into older model point drivers. Stacked points slide into the magazine for quick and easy reloading. Get them in Packs of 5,000 each or in Bulk Boxes of 45,000 containing nine Packs.

CAT. NO.	DESCRIPTION	TOTAL POINTS
NW1P	Package of 5/16" (7.8 mm) Diamond Points	5,000
1P	Package of 5/16" (7.8 mm) Diamond Points	5,000
1B	Box (9 Packages) of 5/16" (7.8 mm) Diamond Points	45,000

Minimum order: 1 package or 1 box.

CRL Points for Older Point Drivers and Manual Tools

Diamond Points

Triangle Points

We stock Diamond and Triangle Points for older model CRL and Fletcher brand Point Drivers. Stacked Diamond Points come in Packs of 4,000 each or in Boxes of 36,000 containing nine Packs. **NOTE:** Triangle Points are not stacked, but shipped in bulk.

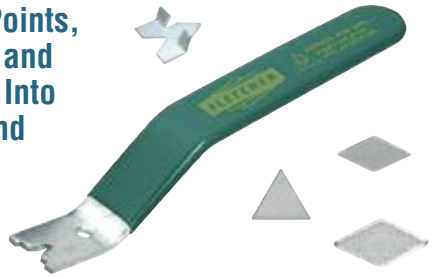

CAT. NO.	DESCRIPTION	SIZE	TOTAL POINTS
2P	Package of Stacked Diamond Points	1/2" (12.7 mm)	4,000
2B	Box (9 Packages) of Stacked Diamond Points	1/2" (12.7 mm)	36,000
NW5P	Package of Stacked No. 5 Triangle Points	3/8" (9.5 mm)	2,700
TP2	No. 2 Triangle Points Non-Stacked in Bulk	1/2" (12.7 mm)	1 lb. (.45 kg)
TP3	No. 3 Triangle Points Non-Stacked in Bulk	7/16" (11.1 mm)	1 lb. (.45 kg)

Minimum order: 1 package, 1 box, or 1 pound.

CRL Fletcher® Point Tool

- Perfect Choice for Inserting Push Points, Triangle Points, and Diamond Points Into Wood Frames and Window Sash

The CRL Fletcher® Point Tool is a high quality finishing tool that is the perfect choice for inserting Push Points, Triangle Points, and Diamond Points into wood frames and window sash. It has a rubberized raised grip that provides added comfort and helps prevent damage to the mat board and other backing material. Minimum order is one each.

CAT. NO. 09515

CRL MIRROR HANGING SUPPLIES

CRL Easy Push Points

- Our Most Popular Push Points
- Packaged in Convenient Display Boxes for Over-the-Counter Sales
- Also Available in Bulk One Pound Containers

CRL Push Points install without the use of special tools, making them a favorite of glaziers and consumers. Just push them into place with a putty knife, chisel or slotted screwdriver. Use Push Points for wood sash glazing, greenhouses, picture frames, mirror frames, and more. They are zinc coated to resist corrosion, and available in two types of packaging; retail counter display containing twelve small packages, and one pound bulk containers for professional use.

NOTE: Cat. No. 30 Points consist of one retail display with 12 small packages containing approximately 50 push points (600 points total). One Cat. No. 31B bulk container holds approximately 1500 points.

CRL Push Points

- Packaged in Attractive Blister Cards for Retail Display
- Zinc Coated to Resist Corrosion
- Approximately 50 Push Points Per Blister Card

Popular CRL Push Points are available on attractive blister cards for retail display. Use them for fast, easy glazing of wood sash, picture frames, and more. Packaged for pegboard or wire rack display. Approximately 50 Push Points per card. 12 blister cards per carton. Minimum order is one carton.

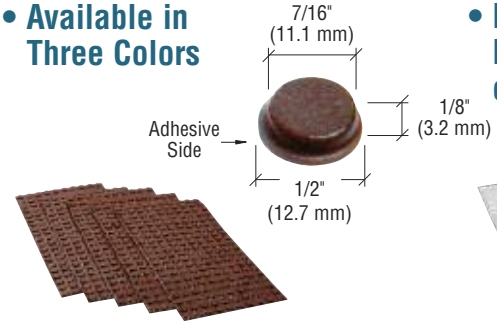

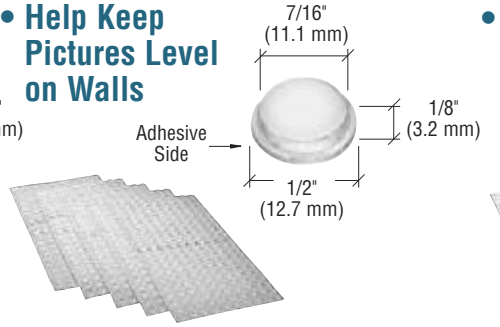

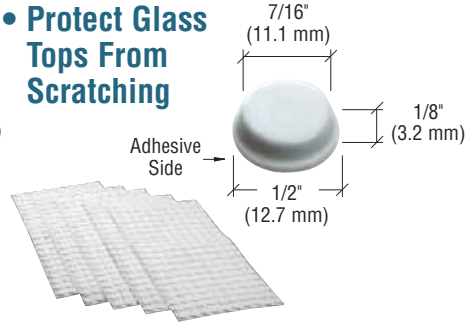

CAT. NO. 30C

CRL Protective Bumpads

- Available in Three Colors
- Help Keep Pictures Level on Walls
- Protect Glass Tops From Scratching

The CRL Protective Bumpads provide a cushion wherever slamming, scratching, nicking, scuffing, sliding or vibration could present a problem. Serving a multitude of purposes, they can be used as spacers for cabinet doors, lids, and drawers.

Bumpads can help keep pictures level on a wall. They can also be used as 'feet' on the bottom of desktop calculators, telephones, clocks, speakers, or computers. Bumpads are excellent padding and cushioning for stacking glass or metal sheets. To use, simply peel and stick. Bumpads are packaged for economical convenience in packs of 1000, and the clear bumpads are also available in bulk cartons of 5000.

CRL Palmer Mirro-Mastic® in Cans

SPEC. DATA MSDS NO AIR FREIGHT VIDEO

- The Industry Standard for High Quality Mastic
- Cures to a Strong, Permanent Bond
- Does Not Become Hard or Brittle With Age
- Palmer Application Guidelines Available

Palmer Mirro-Mastic® is an adhesive mastic formulated for adhering plate glass mirror and acrylic mirror to various substrates, such as drywall, wood, glass, metal, or tile. Mirro-Mastic® is ideal for large mirrored walls, columns and vanities. Mirro-Mastic® does not become hard or brittle with age. Unopened cans have a two-year shelf life. Mirro-Mastic® may be used with CRL Category Two Safety Tape Film (page 478J) that has been washed with a 70% solution of isopropyl alcohol (IPA). All applications must have permanent bottom support and mechanical fasteners. Palmer Mirro-Mastic® also qualifies for **LEED®** (Leadership in Energy and Environmental Design) Green Building Rating System™ credit.

NOTE: Use Mirro-Mastic® Bond (see page 475J) to seal porous substrates.

Coverage: With minimum coverage, one gallon will install approximately 130 square feet (12 square meters) of mirror. 130 to 135 golf ball size pats per gallon.

CRL Palmer Mirro-Mastic® in Cartridges

MSDS SPEC. DATA NO AIR FREIGHT VIDEO

- Same Formula as Above in the Convenience of a Cartridge

Palmer Mirro-Mastic® in cartridges is the same high quality adhesive mastic that is in the can, but with the convenience of a cartridge. It is formulated for adhering plate glass mirror and acrylic mirror to various substrates, such as drywall, wood, glass, metal, and tile. Mirro-Mastic® is ideal for large mirrored walls, columns, and vanities. It has a one-year shelf life. Mirro-Mastic® may be used with CRL Category Two Safety Tape Film (page 478J) that has been washed with a 70% solution of isopropyl alcohol (IPA). All applications must have permanent bottom support and mechanical fasteners. Palmer Mirro-Mastic® also qualifies for **LEED®** (Leadership in Energy and Environmental Design) Green Building Rating System™ credit.

NOTE: Use Mirro-Mastic® Bond (page 475J) to seal porous substrates.

Coverage: With minimum coverage, one 29 ounce (857 ml) cartridge will install approximately 30 square feet (2.8 square meters) of mirror, and one 11 ounce (325 ml) cartridge will install approximately 12 square feet (1.1 square meters) of mirror.

CRL MIRROR MASTICS

CRL Palmer QwikSet™ Mirro-Mastic®

- **Fast Cure Time**
- **Ideal for Overlays and Beveled Strips**

Palmer QwikSet™ Mirro-Mastic® is a fast curing adhesive mastic formulated for adhering plate glass mirror to various substrates, such as drywall, wood, glass, metal, or tile. QwikSet™ is ideal for mirror-to-mirror overlays, beveled strips, and mirrored furniture. At room temperature (72°F / 22°C), QwikSet™ will cure to 80 percent strength in 48 hours. It has a one-year shelf life from the date on the end of the cartridge. **NOTE:** Do not use on acrylic mirror, safety tapes or backings. Use sealer or primer on porous substrates, but not Palmer Mirro-Mastic® Bond.

CAT. NO.	CONTENTS	QTY/CASE
PM711N	10.1 Fl. Oz. (298 ml)	24

Minimum order: 1 each. Can be combined with all cartridge mastics for quantity pricing.

CRL Palmer Mastic Stik™

- **Applicator and Remover for Palmer Mirro-Mastic®**
- **Lightweight, Yet Extremely Durable**

Mastic Stik™ makes it easy to apply or remove mastic

CAT. NO. MS97

The Palmer Mastic Stik™ has a scoop end with a chiseled tip, making it the ideal tool for the application or removal of Palmer Mirro-Mastic®. The scoop end is just the right size for recommended "pats" or "gobs" of mastic, and its chiseled edge lets you remove mastic without scratching mirror backing. Made of lightweight and durable PVC, the Mastic Stik™ measures 16-1/2" (419 mm) long. Chiseled scoop edge is 1-1/2" (38 mm) wide. Minimum order is one each.

CRL Palmer Mirro-Mastic® Bond

- **Made for Priming Wall Surfaces**
- **Apply With a Brush or Roller**

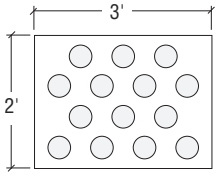

Palmer Mirro-Mastic® Bond is made specifically to seal porous wall surfaces prior to application of CRL Palmer Mirro-Mastic®. Use it to prime walls of wood, concrete, drywall, concrete block or brick before you apply Mirro-Mastic®. Apply with a brush or roller. It penetrates and seals walls, giving the best possible surface for mirror installations. **NOTE:** Mirro-Mastic® Bond is not required for glazed porcelain or tile surfaces, nor for mirror-to-mirror installations. Use only with regular Palmer Mirro-Mastic®. Never use Mirro-Mastic® Bond with Palmer QwikSet™. **Coverage:** Approximately 400 square feet (37 square meters) per gallon.

CAT. NO.	CONTENTS	QTY/CASE
PMB401GL	1 Gallon (3.785 l)	4

Minimum order: 1 each.

CRL Palmer Electric Mastic Applicator

Use the Palmer Mastic Applicator to scoop out regular Mirro-Mastic® in uniform size pats. The heated bowl scoops mastic directly from the can to apply either to the substrate or mirror panel. Applicator operates on 110V AC power, and is the most convenient way to apply CRL Palmer Mirro-Mastic®. When using this tool there are approximately 130-135 pats of mastic per gallon. Preferred application for proper spread of mastic is to apply pats in rows, spacing pats about 8" to 12" (203 to 305 mm) apart and 6" (152 mm) in from the edge of the mirror. Minimum order is one each.

Typical Application of "Pats" on Mirror

- **Heated Scoop Deposits Mastic in Uniform Size Pats**

Mirro-Mastic is a registered trademark of Palmer Products Corporation.

CRL MIRROR MASTICS

CRL Gunther Mirror Mastics

- Two High Strength Formulas
- Extra/Build® Provides Build Out for Large Mirrored Walls
- Ultra/Bond® Compresses for Tight Tolerances Such as Overlays

Gunther Ultra/Bond® and Extra/Build® Mirror Mastics are high quality adhesives formulated to provide a strong, permanent bond between electro-copper-plated glass mirror and various substrates. Both have been field tested for compatibility with silver, copper, and mirror backing. Both have an easy working consistency year round, and will adhere to a wide variety of substrates including drywall, wood, metal, glass, marble, and tile. **NOTE:** Not for use on acrylic mirror. Use Cat. No. GN6 Gunther Prime-N-Seal Primer (see below) on all porous substrates. Application guidelines are available online for all Gunther products. Mechanical support systems are recommended for all mirror applications.

Gunther Ultra/Bond's viscosity provides for a build out of 3/4" (19 mm), and can be compressed to 1/32" (.8 mm) for mirror installations requiring close tolerances, such as overlays, mirrored furniture, and medicine cabinets. At 72°F (22°C) it achieves approximately 30% strength in 24 hours, full cure up to 605 psi in 30 days. It comes in 10.1 Fl. Oz. cartridges and one gallon cans.

Gunther Extra/Build's viscosity provides for a build out of 2-1/2" (63.5 mm) without sag for custom mirrored walls or vanities, where construction is such that there are gaps of over 3/4" (19 mm) between the mirror and the substrate. At 72°F (22°C) it achieves approximately 20% strength in 48 hours, full cure up to 300 psi in 30 days. It comes in 10.1 Fl. Oz. cartridges and one gallon cans.

CRL Gunther Premier® Plus Mirror Mastic

- Bonds to Porous and Non-Porous, Primed and Unprimed Surfaces
- Fast Permanent Bond, Yet Remains Very Flexible
- Ultra Low VOC (10 g/l)

Gunther Premier® Plus at 72°F (22°C) achieves approximately 30 percent strength in 24 hours, full cure in 7 days. Gunther Premier® Plus should be applied in 3/8" (9.5 mm) vertical beads, 5 to 6" (127 to 152 mm) apart and away from the edge to prevent squeeze out. Approximate coverage is 7 sq. ft. per cartridge.

Gunther Premier® Plus Mirror Mastic is a high-quality, urethane based adhesive formulated to provide a strong, permanent bond between electro-copper-plated glass mirror or acrylic mirror and various substrates, including CRL Brand Category II Safety Tape. It is a very versatile product that is ideal for high-traffic areas, such as gyms, dance studios, and commercial projects. It holds firm, yet absorbs movement, vibrations, and allows for thermal expansion and contraction. It can be built out to 2" (51 mm) for large mirrors or uneven wall jobs, or compressed to 1/16" (1.6 mm) for mirror installations requiring close tolerances, such as overlays, mirrored furniture, and medicine cabinets. Mechanical support systems are recommended for all mirror applications. This product also qualifies for the **LEED®** (Leadership in Energy and Environmental Design) Green Building Rating System™ credit.

CAT. NO.	COLOR	CONTENTS	QTY/CASE

CRL Gunther Prime-N-Seal Primer

- Enhances Adhesion of Mastics

Gunther Prime-N-Seal is a superior, quick drying acrylic primer and sealer designed to help eliminate mirror installation failure. It enhances the adhesion of mastics while protecting the mirror from substrate contaminates. Prime-N-Seal promotes exceptional adhesion to drywall, greenboard, cement, plaster, plywood, brick, and other substrates. It does not become brittle with age, is non-flammable, and does not contain environmentally damaging ingredients. Easy to apply by brush, roller or spray. Flat white appearance when dry.

CRL Category II Safety Backing Tape for Mirrors

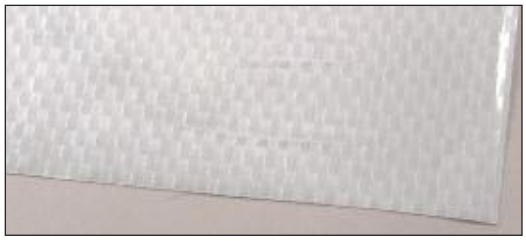

SPEC. DATA MSDS

- **Makes Mirrors Shatter Resistant**
- **Keeps Glass Fragments From Causing Serious Bodily Damage Should Mirror Be Accidentally Broken**
- **Ready to Use and Easy to Apply**

Category II Safety Backing Tape for Mirrors keeps glass fragments together should mirrors be accidentally broken. Comes in 600 foot (183 m) rolls, individually boxed for shipment by U.P.S., except for 60" (1524 mm) width, which must ship via common carrier. You can combine widths for quantity pricing. For specifications, go to our web site **crlaurence.com**.

This pressure-sensitive, adhesive coated film tape is primarily recommended for mirrored wardrobe doors that require a Category II Mirror Safety Backing. The woven scrim embedded in the film for high tensile and impact strength also prevents moisture entrapment and scrim delamination. The high performance adhesive allows for easy roll unwind, yet promotes high bond to a wide variety of mirror backings. Complies with ANSI Z97.1-1984 and 16CFR1201 for impact resistance.

Category II Safety Tape with Woven Scrim

- **Available in Four Widths**

CAT. NO.	WIDTH	ROLL LENGTH
2MT24	24" (610 mm)	600' (183 m)
2MT36	36" (914 mm)	600' (183 m)
2MT48	48" (1219 mm)	600' (183 m)
2MT60	60" (1524 mm)	600' (183 m)

Minimum order: 1 roll. Widths can be combined for quantity pricing.

Mastic Application:

Only regular Palmer Mirro-Mastic® (Cat. No.'s PM201GL, PM205, PM601T, and PM601QT); CRL Heavy Bodied Mirror Mastic (Cat. No. 600GL) and Gunther Premier® Plus Mastic may be used with Category II Safety Tape* that has been washed with 70 percent isopropyl alcohol (Rubbing Alcohol). Palmer Qwikset Mirro-Mastic®, Gunther Extra/Build®, or Gunther Ultra/Bond® are **NOT** to be used with any Safety Tape unless holes are cut out prior to applying mastic (see image at right). *Gunther Premier® Plus has only been tested and approved for CRL Brand Category II Safety Tape.

Applying mastic to mirror with Category II Tape applied to back with no holes cut out

Tape applied to back with holes cut out for application of mastic. Application temperature range is 60 to 100°F (15 to 37°C).

CRL MOUNTING TAPES

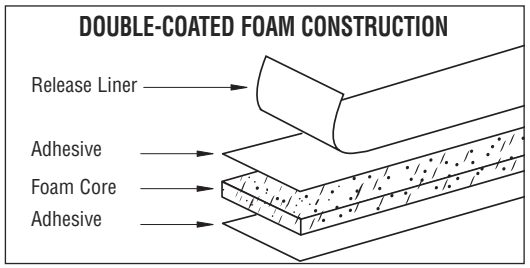

CRL All-Purpose Foam Mounting Tape

- Conforms to All Surfaces
- Available in Black or White Colors
- Excellent for Mirrors, Glass, Metals, Plastics, and Other Surfaces

SPEC. DATA

Paper Backing Peels Off Easily and Exposes the High Quality Foam Core and Adhesive

All-Purpose Foam Mounting Tape has a high-strength adhesive with tenacious holding power. A flexible foam core is double-coated with a high-tack adhesive that makes a strong tape which will conform to irregular shapes and surfaces. Just peel off the release liner and apply to glass, metal, plastic, Masonite, cardboard, and wallboard; making sure all are dry, clean, and dust-free surfaces. Applications include mounting small mirrors and mirror tiles; metal or plastic signs; mounting posters or pictures; adhering edge moldings.

Minimum order: 1 roll. All tapes on this page can be combined for quantity pricing.

3M and VHB are both registered trademarks of 3M Company.

Transparent 3M® Polyurethane Single-Sided Adhesive Tape

Transparent 3M® Polyurethane Tape is most commonly used as a cushion to protect against chipping in installations with glass-to-glass contact, such as frameless shower doors, or in glass display cases.

Transparent 3M® VHB® Double-Sided Adhesive Tape

Transparent 3M® VHB® (Very High Bond) Tape features instant bonding with full strength attained within 72 hours. You will find VHB® Tape can be the clear replacement for mechanical fasteners in many instances.

Translucent Double-Sided Adhesive Tape

Our Translucent Double-Sided Adhesive Tape is an economical alternative to higher priced Transparent Tapes. It is a good choice for adhering edge wipes and seals in frameless shower enclosures.

CRL Clear Double-Sided PVC Tape

- **Easy to Peel Off Liner, Tape Does Not Stretch**
- **Excellent Water Vapor Resistance**

This CRL Double-Sided PVC Tape adheres to rubber, plastic, glass, metal, and wood substrates. Great for adhering polycarbonate seals to frameless shower doors. Excellent temperature, UV, aging, and water vapor resistance.

CAT. NO.	WIDTH	THICKNESS	ROLL LENGTH
4420C	23/64" (9 mm)	.009" (.23 mm)	180' (55 m)

Minimum order: 1 roll. Can be combined for quantity pricing with adhesive bond tapes.

CRL Blue Joint Framing Tape

- **Ideal for Framing Tooled Silicone Joints**

CAT. NO.	WIDTH	ROLL LENGTH	RLS/CASE
BL9934	3/4" (19 mm)	180' (55 m)	48
BL991	1" (25.4 mm)	180' (55 m)	36

Minimum order: 100 each. Sizes can be combined for quantity pricing.

CRL Clear Plastic Setting Blocks are especially suited for use where black neoprene or thermoplastic rubber setting blocks are undesirable, such as mirror or 'all-glass' frameless shower door installations. Clear Plastic Setting Blocks make glass leveling very simple in shower enclosures, and are available in six sizes. Transparent blocks help maintain an attractive appearance.

CRL MIRROR PROTECTION SUPPLIES

CRL Aerosol Mirror Edge Sealant

MSDS

NO AIR FREIGHT

- Sprays On Clear to Seal Mirror Edges After Sanding and Beveling
- Prevents Cut Mirror Edges From Turning Black as They React to Moisture

Aerosol Spray for Faster Application

CRL Aerosol Mirror Edge Sealant sprays on clear to seal mirror edges after cutting, seaming or polishing. Edge Sealant protects the edges from turning black, which occurs when silver backing is exposed to humidity. The sealant provides long lasting protection against moisture and other harmful conditions.

CAT. NO.	NET WEIGHT	QTY/CASE
S209	10.5 Oz. (298 g)	12

Minimum order: 1 each.

CRL Mirror Edge Sealant

MSDS

NO AIR FREIGHT

- Prevents Mirror Edges From Turning Black
- Sponge Applicator Included

No Wasteful Overspray

CRL Mirror Edge Sealant protects the silver on seamed or finished edges from turning black. Black edges occur when silver is exposed to humidity or acidity. Easy to use brush on product has no wasteful overspray, and will guard edges against harmful conditions. 1" (25 mm) wide Sponge Applicator included with every can.

SPEC. DATA

MSDS

10.3 Fl. Oz. (305 ml);
30 Cartridges Per Case;
1440 Cartridges Per Pallet

CRL 33S Silicone is a high quality sealant that delivers the performance you demand at a price you will find very competitive. It is a one component, room temperature curing, 100% silicone elastomer that does not require the addition of activators, stabilizers or catalysts to achieve optimum properties. CRL 33S is especially designed for joining and sealing a variety of structural materials: glass, aluminum, metal alloys, stainless steel, and plastics. It will join and seal specialty glass assemblies, glass entries and partitions, glass block installations, and many art projects. It is an excellent product for showers, bathtubs, and sanitary installations. It has a wide operating temperature range of -80 to 400°F (-62 to 204°C), and can be applied at outdoor temperatures as low as -35 to 140°F (-37 to 60°C). 33S is also available in pails containing 4.5 Gallons (17 Liters) and 52 Gallon (197 Liter) Drums.

33S Meets or Exceeds These Federal Specifications:

- TT-S-001543A (COM-NBS) Class A, for Silicone Building Sealants
- TT-S-00230C (COM-NBS) Class A, Non-Sag for One-Component Sealants
- ASTM C-920 Standard Specification for Elastomeric Joint Sealants as Type S, Grade NS, Class 25, Use NT, G, and A
- CGSB 19.13

CRL Silicones for Sanitary Applications

SPEC. DATA MSDS

- **Mildew Resistant Formulations Make These Silicones Excellent for Bathrooms, Spas, Kitchens, and Other Sanitary Applications**

Mildew Resistant Clear | White | Translucent White | Tan

Color deposits shown here are approximate

Description

These high quality CRL Silicone Sealants contain a fungicide in their formulas, making them resistant to mildew. 33S is an acetic cure silicone that is also certified by NSF to Standard 51 – Plastic Materials and Components used in Food Equipment. 33S meets the requirements of FDA Regulation Number 21 CFR 177.2600 for use in food-related applications. RTV408 is a neutral cure silicone with better adhesion to stone, masonry, and plastics.

Basic Uses

Tub and shower enclosures, sinks, kitchens, spas, hot tubs, glass blocks, and other sanitary applications.

CRL Mildew Resistant Clear Silicone Sealant

SPEC. DATA MSDS

- **Excellent Choice for 'All-Glass' Shower Enclosures**
- **Color Blends Well With Porcelain Fixtures**

Description

Mildew Resistant Clear color makes it ideal for use with porcelain fixtures, as well as glass, tile, and marble surfaces. Also blends well with highly polished metal shower enclosures and fixtures.

Basic Uses

33SMRC adheres to most clean surfaces, including ceramic tile, glass, porcelain, marble, stainless steel, and aluminum. It's a terrific choice for use in 'all-glass' tub and shower enclosures, around sinks, in pools and spas, and with glass block.

Additional Screw-On Nozzles Available

CRL Translucent White Silicone Sealant

SPEC. DATA MSDS

- **Color Blends Great With Marble and Tile**

Translucent White Silicone Sealant vs. White Silicone Sealant

Description

Unique Translucent White color blends in with tile and marble better than bright white silicones. Contains mildew resistant additives that provide durable, long-lasting seals that withstand repeated exposure to humidity and high temperature conditions (400°F; 204°C).

Basic Uses

33STW adheres to most clean surfaces, including ceramic tile, solid decorative surfaces, glass, porcelain, marble, stainless steel, and aluminum. Excellent for use around tubs, sinks, showers, as well as laminates and solid surface countertops.

Additional Screw-On Nozzles Available

CAT. NO. S1LN0Z

Clear | Aluminum | Black | Bronze

Beige | Dark Tan | Tan | White

Color deposits shown here are approximate.

Description

CRL RTV408 Silicone is a neutral cure, medium modulus, 100% silicone sealant that cures to a tough, flexible rubber when exposed to moisture. RTV408 features primerless adhesion to: aluminum, stainless steel, chromium, tin, iron, plastics, rigid PVC, phenolic resin, glass, ceramic, and most reflective-coated glasses.

Basic Uses

Its fast cure time and easy tooling make it ideal for many in-house production applications. It is non-corrosive to most building materials such as glass (including insulating glass), tiles, and sanitary equipment. Seals curtainwall joints; vinyl, steel and aluminum windows; and skylights. It is also used in vehicles, ships, aircraft, as well as for electrical insulation.

CRL RTV408 does not cause corrosion in contact with metals. It is suitable for alkaline materials such as mortar and cement, and other applications where metal corrosion could be a problem. CRL RTV408 stays flexible and is resistant to cracking or becoming brittle in a wide range of temperatures approximately -65 to 400°F (-54 to 204°C). It can be applied in outdoor temperatures from -20°F (-29°C), provided that surfaces are clean, dry and frost-free, or on surfaces as high as 100°F (38°C).

Use RTV408C to adhere Cat. No. S1LB Translucent Silicone Bulb Seal to glass (see page 325J).

Technical Data

Meets or exceeds Federal Specifications: TT-S-001543A (COM-NBS) Class A for silicone building sealants; TT-S-00230C (COM-NBS) Class A for one-component silicone sealants; ASTM C-920 for elastomeric joint sealants, Type S, Grade NS, Class 25, Use NT, G, A and O; CAN/CGSB 19.13-M87. AAMA 802.3-92 Type I, 802.3-92 Type 2, 805.2-94 and 808.3-92.

RTV408W and RTV408T contain a fungicide. The cured sealant is mildew resistant.

CRL Water Clear Silicone Sealant

SPEC. DATA MSDS

- **Water Clear Formulation for Sealing Glass-to-Glass, Glass-to-Tile and Glass-to-"U" Channel**
- **Optically Clear When Cured**
- **Applications Include Shower Enclosures and Specialty Glass Assemblies**

Removable, reusable, resealable screw-on nozzles with a screw-on cap

CAT. NO. WCS1

10.3 and 5.0 Fl. Oz. (305 and 148 ml) Cartridges; 30 Cartridges per Case

CAT. NO. WCS5

Description

CRL Water Clear Silicone Sealant is an optically clear acetic cure silicone sealant that cures in the presence of atmospheric moisture to produce a durable and flexible silicone rubber. Its unique weatherability enables it to retain its original properties, even after years of exposure.

Basic Uses

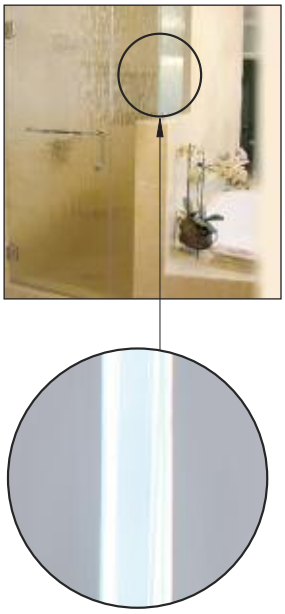

Water Clear Silicone Sealant is intended for building construction applications, and is particularly effective for glazing butt and lap shear joints, and sealing curtainwall projections and other glass, plastic, and metal assemblies. Its exceptional clarity makes it the ideal sealant to use in frameless shower enclosures. It is also appropriate for general construction and industrial applications.

Water Clear Silicone is packaged in two sizes of heavy plastic cartridges that feature removable, reusable, resealable screw-on nozzles with a screw-on cap for convenience and product savings. Water Clear Silicone cures quickly with a tack-free time of 10 minutes. It adheres to clean metal, glass, most types of wood, silicone resin, ceramic, natural and synthetic fiber, and most painted surfaces. For single use applications you'll find the five ounce size meets your needs exactly!

CLARITY COMPARISON

CRL
Water Clear

Typical Clear
(Translucent) Silicone

Technical Data

Meets or exceeds the test requirements of Federal Specification TT-S-001543A (COM-NBS) Class A for silicone building sealants; TT-S-230C (COM-NBS) Class A Non-Sag for one-component building sealants; ASTM C-920 Standard Specifications for Elastomeric Joint Sealants as Type S, Grade NS, Class 25, Use NT, G and A; CAN/CGSB-19.13-M97.

Important Note

Exceptional clarity of product will not hide application or tooling errors. A small number of bubbles may form during the curing process of the sealant, so considerations should be made up front regarding standards of appearance and subsequent repairs (eg: limited to sight lines). Not recommended for use in the following applications: Glazing or edge sealing of insulating glass; copper, brass, magnesium, zinc, galvanized surfaces. Water Clear Silicone is not mildew resistant. Check cartridge label and Spec Data Sheet for additional limitations.

Description

A premium quality Acrylic Latex Caulk With Silicone, featuring outstanding properties including adhesion, weather resistance, low shrinkage, water clean up, and more. The acrylic base offers outstanding adhesion and resistance to oxidation and ultraviolet rays. The siliconized feature improves the flexibility and adhesion to ceramic and glass substrates.

Basic Uses

CRL 321 Acrylic Latex With Silicone is truly a versatile caulk featuring easy tooling and water clean up. A special blend of Silicone and Acrylic Latex that provides superior primerless adhesion to building materials such as wood, brick, glass, plastic, vinyl, plaster, drywall, metal, and ceramics. The Silicone gives it flexibility, the Acrylic promotes long life expectancy. Together they form an excellent sealant that can be used around window and door frames; for siding and trim work; caulking tubs and sink tops; thresholds and baseboards. It may be used to grout marble and ceramic tile. CRL321 is used in areas with high moisture, such as showers, bathrooms, sinks and kitchens, since it is mold and mildew resistant, and is paintable with oil or latex-based paints.

Technical Data

Exceeds the requirements of ASTM C-834 Standard Specification for Latex Sealing Compounds.

CRL DAP® Kwik-Seal Tub and Tile Caulk

SPEC. DATA MSDS

- Dries Tack Free in Only 15 Minutes
- Mildew Resistant Bright White Color
- Water Clean-Up

White

Description

CRL DAP® Kwik-Seal Tub and Tile Caulk makes a neat, white, watertight seal around tubs, sinks, and shower stalls. It also resets loose tile, caulks indoor window and door frames. It adheres to ceramic and plastic tile, wood, metal, plaster, glass, porcelain, and fiberglass.

Basic Uses

DAP® Kwik-Seal can be used to seal tubs, sinks, fixtures, back splashes, shower stalls, and loose tiles. DAP® Kwik-Seal dries fast, yet stays flexible and resists mildew. Kwik-Seal is paintable and easy to apply. It is easy to clean up using just water.

CRL 12 Volt DC Variable Speed Cordless Cartridge Caulking Gun for Lightweight Sealants

- Variable Speed Trigger Controls Flow of Sealant
- Use to Dispense Lightweight Sealants Such as Silicones and Acrylic Latex
- Complete With 12 Volt Battery, One Hour Charger, and Molded Plastic Carrying Case

This CRL 12V DC Cordless Cartridge Caulking Gun operates on a 12 volt Rechargeable Battery and comes with a One Hour Charger. The variable speed control is in the trigger for easy adjustments in speed. It is ideal for glazing contractors, building contractors, roofers, cabinet makers, OEM fabricators, window manufacturers, or anyone who applies a lot of silicone or acrylic latex sealants and wants an easier, more professional way of getting the job done, without the restrictions of cords or hoses. Affordable and effective, this gun also comes with a 90 day warranty. For uninterrupted production, you can order additional LD188B 12 Volt Battery Packs.

WARNING: Not for use with high viscosity automotive urethane adhesives and construction polyurethane sealants. Use Only to dispense lightweight sealants such as silicone and acrylic latex.

CRL 12:1 Ratio Strap Frame Caulking Gun

- Low to Medium Viscosity Materials
- Smooth Rod With Thumb Release

This CRL 12:1 Ratio Caulking Gun has the smooth operation of a friction rod, plus a large handle and trigger. Perfect for dispensing low to medium viscosity materials, such as silicones and acrylic latex sealants. The strap frame rotates to move the nozzle tip where needed. The spring release plunger lets you load and dispense quickly and easily. The thumb-activated instant pressure release button prevents sealant run-on. Includes a built-in ladder hook. Minimum order is one each.

CAT. NO. GA1203

CRL 26:1 Ratio Strap Frame Caulking Gun

- Effortless Dispensing of Medium to High Viscosity Materials

This CRL Heavy-Duty 26:1 Ratio Gun has the smooth operation of a friction rod and the mechanical advantage to dispense high viscosity sealants, such as auto urethanes or construction sealants, even during cold weather. The strap frame rotates to move the nozzle tip where needed. The spring release plunger lets you load and dispense quickly and easily. The thumb-activated instant pressure release button prevents sealant run-on. Includes a built-in ladder hook. Minimum order is one each.

CAT. NO. AB26

CRL Standard Smooth Rod Caulking Gun

- Our Best Selling, Most Economical Gun
- Thumb Pressure Release Button

This Standard Smooth Rod Caulking Gun is CRL's most popular caulking gun because it is quality constructed, and so easy and economical to use. The spring release plunger lets you load and dispense quickly, and easily releases pressure on the plunger to prevent sealant run-on. Perfect for dispensing low viscosity materials. Minimum order is one each.

CAT. NO. ER3

CRL Small Tube Dispenser Handle

- Makes Small Tubes of Sealants or Adhesives Easy to Dispense

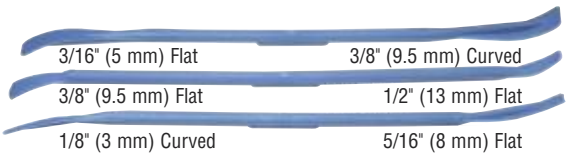

The Small Tube Dispenser Handle is the fast and easy way to dispense materials (such as silicones, adhesives, etc.) from squeeze tubes. It lets you apply just the right amount of pressure for the proper bead size, and since you apply just the right amount of material, there is less mess and clean up. The open back design lets you draw the tube through the handle, so you can get virtually all of the material from the tube, reducing waste. Holds all flexible plastic or metal tubes up to 2-1/2" (63 mm) wide. Minimum order is one each.

CAT. NO. 710XX006

CRL CAULKING TOOLS

CRL Sealant Spatulas

- Tools Six Different Joint Widths
- Easy to Clean After Use

CRL Sealant Spatulas are a unique kit of three spatulas for tooling applied sealants. Tapered on each end for use in six different joint widths. Lightweight material is strong, will flex under pressure, and is easy to clean up after use. Overall length of each Spatula is 7-1/4" (184 mm). Comes in a divided vinyl pouch you can carry in your pocket or toolbox. Minimum order is one set.

CAT. NO. AB556

CRL Sealant Finishing Tools

- Lightweight and Flexible, Simplifies Tooling of Sealants
- Titanium Catalyst Material Won't Stick to Silicone or Other Sealants

CAT. NO. 55BSS

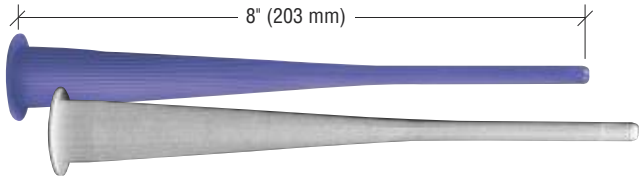

These CRL Sealant Finishing Tools are made of a lightweight and flexible titanium catalyst material that will not stick to silicone and other sealants. This makes tooling fresh sealant joints easy, with smoother results and faster clean up. Minimum order is one each.

CAT. NO. G2410
Available in Australia Only

CRL Problem Solver Nozzles

- Reaches Areas You Never Thought Possible
- Rigid, Flexible or Combo Pack

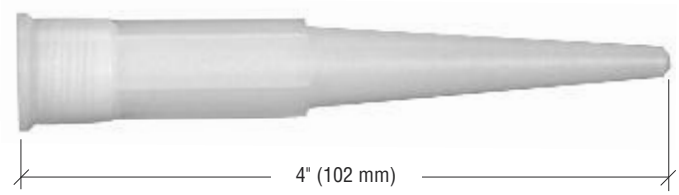

Problem Solver Nozzles fit virtually any caulking cartridge by sliding over the existing nozzle, or screwing onto the threaded nipple. Choose from either Rigid or Flexible Nozzles (four Nozzles per pack), or order the Combo Pack with two flexible and two rigid Nozzles per pack.

CAT. NO.	DESCRIPTION	COLOR
PSN2	Four Rigid Problem Solver Nozzles	Blue
PSN4	Four Flexible Problem Solver Nozzles	White
PSN6	Combo Pack of Four Problem Solver Nozzles	Mixed

Minimum order: 1 pack. Sizes can be combined for quantitiy pricing.

CRL Screw-On Silicone Nozzles

- Additional Nozzles for Screw-On Type Silicone Cartridges

CRL Screw-On Silicone Nozzles are tapered so you can trim the nozzle to exactly the bead size you need. NOTE: These Nozzles will not fit auto glass urethane cartridges because of the different thread size. For auto glass urethane cartridges, use Cat. No. UN0Z. 24 Nozzles per pack. Minimum order is one pack.

CAT. NO. S1LN0Z

CRL Little Red Nozzle Caps

- Economical and Reusable
- Reduces Sealant Waste

These CRL Little Red Nozzle Caps have an award winning design for capping tubes of sealant, caulk, wood glue, paint, or anything else on your shop shelf that needs to be sealed and reused after it has been opened. These economical, reusable Little Red Nozzle Caps cut sealant waste. Placed over the nozzle of partially used sealant cartridges, they seal out air and dirt to preserve the quality of the remainder of the sealant. Little Red Nozzle Caps also make a perfect Romex wire termination, air tool inlet, and felt pen cap. The possibilities are limitless. 35 Caps per package. Minimum order is one pack.

CAT. NO. LRC35

CRL Nozzle Cutter

- Use on All Plastic Cartridges to Cut Nozzle Tip and Threaded Tip

Our CRL Nozzle Cutter is used to cut off the plastic threaded tip of the cartridge and then cut the nozzle tip to the desired opening size at the proper angle. **NOTE:** Keep SAFELY AWAY from children! EXTREME DANGER to fingers if accidentally inserted in the cutter inlet! Minimum order is one each.

CAT. NO. NC594

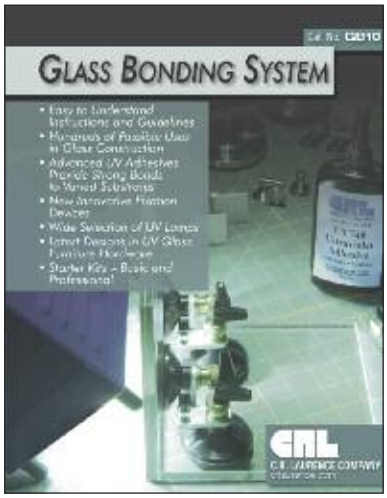

CRL UV Glass Bonding System Catalog

• Simplified Technology for Efficient and Safe Glass Bonding

CRL takes the mystery out of glass bonding with our complete line of UV and UV/Visible Light Adhesives, Fixation Devices, and UV Lamps. Everything you need with easy-to-understand instructions and guidelines to produce glass bonded work from functional glass furniture to beautiful glass artwork. There are hundreds of possible uses in glass construction with the Glass Bonding System from CRL.

New innovative Fixation Devices make construction faster and easier. Advanced UV Adhesives provide strong bonds to many different substrates including laminated glass, tempered glass, steel, aluminum, stainless steel, ceramic, stone, wood, and plastics. We have a wide selection of UV Lamps for fast bonding of all sizes of glass furniture. We even have basic UV Starter Kits for first time users and Professional Kits for full time users, plus all the right cleaners and accessories needed to make your job easier and more profitable. See them all in this full color catalog.

CAT. NO. GB10

CRL Fixation Devices

• Used When Curing UV Adhesives
• Prevents Bonding Parts From Moving While Curing
• Adjustable to Multiple Angles

It is absolutely critical that the bonded surfaces are kept stabilized and in a fixed position while UV Adhesives are curing. This is made possible by using these specially designed CRL Fixation Devices. From simple economical clamps to precision engineered, adjustable holders that are capable of placing the parts in precise angled positions, CRL offers a complete line of Fixation Devices designed for use when bonding UV Adhesives. These devices allow just one person to manage the steps involved when working with UV Adhesives. Using our CRL Fixation Devices properly will give professional results.

CRL UV GLASS BONDING KITS

CRL Small Project UV Glass Bonding Kit

- **An Affordable Way to Learn UV Glass Bonding Techniques**
- **Low Viscosity UV Adhesive in Crystal Clear and Colors**
- **Ships With Easy-To-Follow Instructions**

Modern technology has allowed development of UV Glass Bonding Adhesives and Equipment to become user friendly to a point that by following simple step-by-step instructions, beautiful small UV bonding projects can be created easily. Small display cases, crystal repairs and even art projects with the colorful UV Adhesives provided are easy to complete. Minimum order is one each.

CAT. NO. UVSK1

CRL SMALL PROJECT UV GLASS BONDING KIT INCLUDES:

- 1 each Cat. No. UB80 DC UV Adhesive Curing Lamp
- 1 each Cat. No. UV701T10 Low Viscosity UV Adhesive
- 1 each Cat. No. UV90130 Red UV Adhesive
- 1 each Cat. No. UV90230 Yellow UV Adhesive
- 1 each Cat. No. UV90330 Blue UV Adhesive
- 5 each Cat. No. UVN35 Low Viscosity Applicator Needles
- 1 each Cat. No. UVS30 UV Spectacles
- 1 each Cat. No. UVA1 Application Needle Adapter
- 1 each Cat. No. RS65 Glass Scraper
- 12 pair Cat. No. 700512 Nitrile Gloves
- 1 pack Cat. No. Z100 Extra Fine Steel Wool
- 1 each Cat. No. T1408 Carrying Case

CRL Basic UV Glass Bonding Kit

- **Complete Glass-to-Glass and Glass-to-Metal Projects**
- **Crystal Clear Medium-Bodied UV Adhesive**
- **Ships With Easy-to-Follow Instructions**

Keep up with the growing trend of UV Glass Bonding with the CRL Basic UV Glass Bonding Kit. We provide you with the very versatile Medium Viscosity Glass-to-Glass and Glass-to-Metal UV Adhesive that allows you to UV bond our special selection of UV hardware to create displays, showcases, furniture, and more. Simple instructions included with the Kit will have you completing projects in no time. Minimum order is one each.

CAT. NO. UVSK2

CRL BASIC UV GLASS BONDING KIT INCLUDES:

- 1 each Cat. No. UV240 110 Volt UV Adhesive Curing Lamp
- 1 each Cat. No. UVS30 UV Protective Spectacles
- 1 each Cat. No. UV604L25 Medium Viscosity UV Adhesive
- 5 each Cat. No. UVN85 Medium Viscosity Applicator Needles
- 2 each Cat. No. UVA1 Application Needle Adapters
- 1 each Cat. No. RS65 Glass Scraper
- 100 each Cat. No. 51S Single Edge Razor Blades
- 12 pair Cat. No. 700512 Nitrile Gloves
- 1 pack Cat. No. Z100 Extra Fine Steel Wool
- 1 each Cat. No. CRL7528 Solvent Degreaser
- 1 each Cat. No. T1418 Carrying Case

CRL UV GLASS BONDING KITS

CRL Professional UV Glass Bonding Kit With Tube Lamp

- **Professional Quality Kit for UV Bonding**
- **Complete Larger Projects**
- **Ships With Easy-to-Follow Instructions**

The CRL Professional UV Glass Bonding Kit With Tube Lamp provides you with all the basic equipment required to produce beautiful projects in your shop or on the job site. The Cat. No. UVBL15 UV Tube Lamp can be used to cure glass-to-metal hardware applications as well as longer bonding joints for furniture and display assemblies. Minimum order is one each.

CAT. NO. UVSK3

CRL PROFESSIONAL UV GLASS BONDING KIT WITH TUBE LAMP INCLUDES:

- 1 each Cat. No. UVBL15 110 Volt Adhesive Curing Tube Lamp
- 1 each Cat. No. UV604L25 Medium Viscosity UV Adhesive
- 1 each Cat. No. UV701T25 Low Viscosity UV Adhesive
- 5 each Cat. No. UVN85 Medium Viscosity Applicator Needles
- 5 each Cat. No. UVN35 Low Viscosity Applicator Needles
- 2 each Cat. No. UVA1 Application Needle Adapters
- 1 each Cat. No. RS65 Glass Scraper
- 100 each Cat. No. 51S Single Edge Razor Blades
- 12 pair Cat. No. 700512 Nitrile Gloves
- 1 pack Cat. No. Z100 Extra Fine Steel Wool
- 1 each Cat. No. CRL7528 Solvent Degreaser
- 1 each Cat. No. UVS30 UV Protective Spectacles
- 1 each Cat. No. UV69962 Mini Clamp-It® 90 Degree Fixation Set
- 1 each Cat. No. UV69954 Clamp-It® 90 Degree Fixation Set
- 2 each Cat. No. UV282 Adjustable Angle Fixation Device
- 4 each Cat. No. UV285 Eccentric Height Adjustment Stops
- 1 each Cat. No. UVB1N1 Storage Container

CRL Professional UV Glass Bonding Kit With High Intensity Lamp

- **Our Four Most Popular UV Bonding Adhesives for a Wide Variety of Applications**
- **Fixation Devices Securely Position Your Work Pieces for Precise Fabrication**

This CRL Professional UV Glass Bonding Kit features our powerful Z7596 High Intensity UV Lamp, designed to emit wave lengths of 365 nm, perfect for curing CRL UV Bonding Adhesives. Projects will take less time to complete, with full curing achieved quickly.

The different Fixation Devices included will enable you to position multitudes of glass arrangements securely during the UV Adhesive application and curing stages. These, combined with all of the other basic supplies and tools shown below, will set you apart from the competition and on your way to the growing popularity of finished UV bonded glass products. Minimum order is one each.

CAT. NO. UVSK4

CRL PROFESSIONAL UV GLASS BONDING KIT WITH HIGH INTENSITY LAMP INCLUDES:

- 1 each Cat. No. Z7596 110 Volt UV Adhesive Curing Lamp
- 1 each Cat. No. UV602L85 Medium Viscosity UV Adhesive
- 1 each Cat. No. UV604L25 Medium Viscosity UV Adhesive
- 1 each Cat. No. UV701T25 Low Viscosity UV Adhesive
- 1 each Cat. No. UV70310 High Viscosity UV Adhesive
- 2 each Cat. No. UV9SET Application Needle Sets
- 4 each Cat. No. UVA1 Application Needle Adapters
- 1 each Cat. No. RS65 Glass Scraper
- 100 each Cat. No. 51S Single Edge Razor Blades
- 12 pair Cat. No. 700512 Nitrile Gloves
- 1 pack Cat. No. Z100 Extra Fine Steel Wool
- 1 each Cat. No. CRL7528 Solvent Degreaser
- 1 each Cat. No. UV1575 Non-Contact Laser Thermometer
- 1 each Cat. No. WH7080 Small 90 Degree Fixation Device
- 1 each Cat. No. UV280 Large 90 Degree Fixation Device
- 1 each Cat. No. UV69962 Mini Clamp-It® 90 Degree Fixation Set
- 1 each Cat. No. UV69954 Clamp-It® 90 Degree Fixation Set
- 2 each Cat. No. UV282 Adjustable Angle Fixation Device
- 4 each Cat. No. UV285 Eccentric Height Adjustment Stops
- 1 each Cat. No. UVB1N2 Storage Container

CRL UV GLASS BONDING PREP SUPPLIES

CRL Solvent Degreaser

- Cleans Up Uncured Adhesive
- Contains No Ozone Depleting Chemicals
- Evaporates Quickly

20 Oz. (567 g)

CRL Solvent Degreaser is a general-purpose cleaner ideal for preparing surfaces prior to use of adhesives and sealants. It removes all traces of grease and oils, and leaves no residue. 12 cans per case. Minimum order is one each.

CAT. NO. CRL7528

CRL S50 Sprayway® Glass Cleaner

- A Glass Industry Favorite for Years
- Ammonia Free Formula
- Fast Evaporation Rate
- Just Spray and Wipe Clean

19 Oz. (539 g)

CRL S50 is Sprayway's leading Glass Cleaner. The formula includes perfume-grade alcohols, which are the best cleaning agents you can use. It also has a fast evaporation rate, which keeps it from leaving a film and adversely interacting with other materials. 12 cans per case. Minimum order is one case.

CAT. NO. S50

CRL Hot Air Gun Kit

- Dual Heat and Fan Settings

After cleaning the bonding surfaces an invisible moisture residue remains which can negatively affect the strength of the bond. Remove this moisture quickly and reliably with the CRL Hot Air Gun Kit. It has dual heat and fan settings: 1000 W - 375°C/700°F and 1500 W - 495°C/925°F. Also excellent for use in putty removal, paint removal, plastic pipe welding, and other jobs that require this type of tool.

CAT. NO.	DESCRIPTION
LD121	110V Hot Air Gun Kit
LD121AU	240V Hot Air Gun Kit w/AU Plug
LD121EU	220V Hot Air Gun Kit w/EU Plug

Minimum order: 1 each.

CRL Milwaukee® Heat Gun

- Variable Temperature With Heat Adjustment Dial
- Ideal for Removing Residual Moisture After Cleaning

After cleaning the bonding surfaces an invisible moisture residue remains which can negatively affect the strength of the bond. Remove this moisture quickly and reliably with this variable temperature Heat Gun. It offers a range from 200 to 1050°F (93 to 565°C) that is controlled with a heat adjustment dial. The electrical heat control allows extra reduction of airflow for more accurate and concentrated heat location without damage to the heating element. Double insulated 110V AC tool features a unique impact resistant heating element. Minimum order is one each.

CAT. NO. UV8978

CRL Non-Contact Thermometer

- Monitors Glass Temperature While Heating for Optimum Bond Results
- Built-In Laser Pointer
- Digital Display Switches Easily From Fahrenheit to Celsius

Now you can easily confirm the temperature of your bonding materials with the CRL Non-Contact Thermometer. No more guessing or risking burns with a touch test. This tool will tell you via digital display when your bonding components reach the 140 to 160°F (60 to 71°C) preheat stage required for a permanent bond. Easy one button control for switching between Fahrenheit and Celsius readings. Powered by two AAA batteries (included). Minimum order is one each.

CAT. NO. UV1575

Milwaukee is a registered trademark of Milwaukee Electric Tool Corporation.

CRL UV Glass Bonding Adhesives

The Benefits of UV Curing Adhesive Technology Are Many

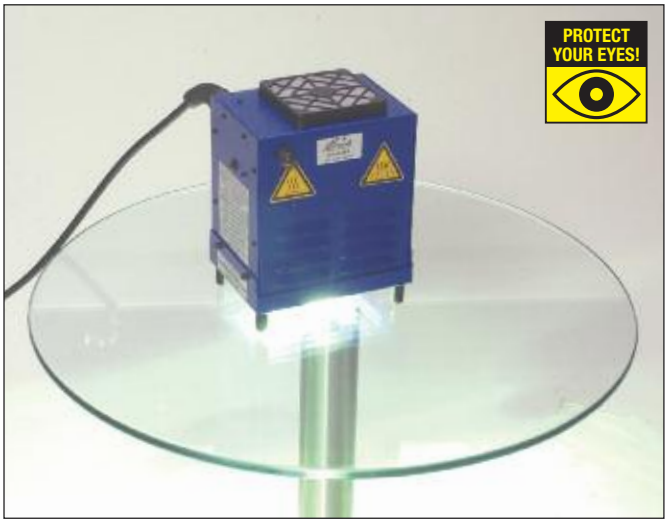

Join the Growing Trend of UV Glass Bonding

The use of glass combined with other materials continues to grow year after year. Store displays, showcases, and furniture designs are being produced without the usual mechanical fasteners and moving toward the clean, transparent look of UV bonded components.

The technological development of UV Glass Bonding over the years has enabled us to present a range of adhesives with a unique combination of performance, design, and processing benefits. You now have choices of adhesives with varying curing times that allow you to align parts precisely prior to curing.

UV Adhesive Technology for Common Use

These amazing materials have properties that allow them to remain in a liquid state during proper storage and are able to then cure with UV light exposure in a matter of seconds.

Using the properties of ultraviolet light, high curing speeds take the place of common slow evaporation methods for maximum processing production. Material construction combinations now include glass-to-glass, glass-to-metal, and glass-to-stone, further expanding the opportunities for creative designs more than ever.

Maximum strength developed between components is developed by keeping the gap between their surfaces as small as possible, optimally between 0.04 and 0.5 mm.

It's Now Easier to Fabricate Than Ever Before

The best finished appearance for projects is achieved when glass edges are precisely ground and polished and when all other surfaces to be bonded are as smooth as possible.

Following the simple, step-by-step instructions provided to you for pre-treatment, proper fixation of the components, careful application of the adhesive, and the correct method for curing, can result in the production of unique, creative, and practical products.

CRL's staff of trained technicians is always available to provide you with the answers to your production questions and any other UV bonding requirements you may have as you familiarize yourself with this exciting new industry segment.

Contact CRL Customer Service Department at (800) 421-6144 in the U.S., (877) 421-6144 from Canada, or (323) 588-1281 International, and ask for Ext. 5275. You can also e-mail us through our web site, **crlaurence.com**. From the home page click on Contact Us, and then click on Customer Service.

CRL UV703 High Viscosity UV Adhesive

SPEC. DATA MSDS

- Use to Adhere All-Glass Showcases, Shelves, Furniture, Towel Bars, and Standoff Bases
- Optically Clear
- Fast, High-Strength Bonds

CRL UV703 is a high viscosity, 100% solids, general purpose adhesive that forms resilient, high strength bonds between materials such as glass, steel, aluminum, stainless steel, and many plastics.

CRL UV703 is ideal for making all-glass showcases, glass shelves, and glass furniture. This adhesive does not have capillary properties; therefore it must be applied to the bonding surface prior to assembling the parts. It is ideal for bonding Glass Door Knobs or Metal Towel Bars in frameless shower door installations, as well as adhering metal Standoff Bases to glass.

Bonds prepared with CRL UV703 are optically clear as well as resistant to moisture and yellowing. The adhesive cures within seconds upon exposure to ultraviolet light. The speed of cure depends on the UV intensity as measured at the product surface, as well as the adhesive depth. CRL UV703 has outstanding ability to cure through large gaps, and cures to a hard surface that is transparent. Store adhesive away from sunlight.

CRL7528 Solvent Degreaser provides for optimum adhesion when used first to prepare the glass by removing any dirt and grease that is present.

NOTE: When bonding plastics, always test first, as not all plastics can be bonded properly. Do not bond any coated parts (powder coated or galvanized) with this adhesive.

CRL UV701T Low Viscosity UV Adhesive

SPEC. DATA MSDS

- Ideal for Production of Glass Furniture
- Cures Within Seconds Upon Exposure to UV Light
- Capillary Action
- Optically Clear

CRL UV701T is a low viscosity, 100% solids, adhesive that forms resilient, high strength bonds coupled with good elasticity between materials such as glass, steel, aluminum, stainless steel, and many plastics.

Due to its excellent capillary action (low viscosity) it is ideal for glass-to-glass and tempered glass-to-tempered glass bonding, primarily in the construction of showcases and the efficient production of glass furniture. Reduced clean-up time means glass furniture production cycles are done quickly and efficiently.

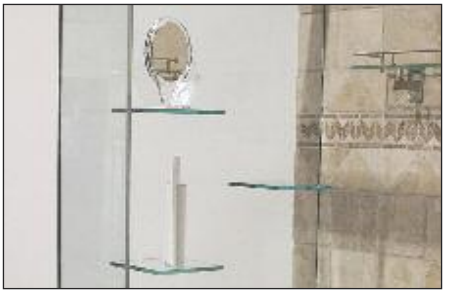

Bonds prepared with CRL UV701T are optically clear as well as resistant to moisture and yellowing. The adhesive cures within seconds upon exposure to ultraviolet light. The speed of cure depends on the UV intensity as measured at the product surface, as well as the adhesive depth. Store adhesive away from sunlight.

CRL7528 Solvent Degreaser provides for optimum adhesion when used first to prepare the glass by removing any dirt and grease that is present.

NOTE: When bonding plastics, always test first, as not all plastics can be bonded properly. Do not bond any coated parts (powder coated or galvanized) with this adhesive.

CRL UV602L UV/Visible Light Adhesive

SPEC. DATA MSDS

- Bonds Laminated Glass
- UV and Visible Light Cure
- Medium Viscosity With Capillary Action
- Optically Clear
- Best Adhesion to Plastics

CRL UV602L is a medium viscosity, 100% solids, UV/visible light curable adhesive that bonds to a variety of substrates such as glass, laminated glass, metal, ceramic, and many plastics. It has good capillary action with glass up to 1/4" (6 mm) thick. For thicker glass apply to the bonding surface prior to assembly.

Of particular interest is its suitability for bonding laminated safety glass. The PVB film between laminated glass panes absorbs almost all of the UVA radiation, but because this adhesive has been made to also cure by daylight, it reacts with the remaining radiation (above 380 nm) and cures completely. Butt-edge bonding is also no problem, as the adhesive does not affect the PVB film.

Cured bonds of CRL UV602L are optically clear, extremely flexible, and demonstrate outstanding elongation, making this adhesive ideal for bonding different material combinations. Bonds are tough, durable, exhibit high vibration resistance, and are very resistant to moisture and yellowing. Store adhesive away from sunlight.

CRL7528 Solvent Degreaser provides for optimum adhesion when used first to prepare the glass by removing any dirt and grease that is present.

NOTE: When bonding plastics, always test first, as not all plastics can be bonded properly. Do not bond any coated parts (powder coated or galvanized) with this adhesive.

CRL UV604L UV/Visible Light Adhesive

SPEC. DATA MSDS

- Especially Strong Glass to Metal Bonds
- UV and Visible Light Cure
- Medium Viscosity
- Optically Clear

CRL UV604L is a medium viscosity, 100% solids, UV/visible light curable adhesive formulated to form high tensile shear and peel strength bonds to a variety of substrates such as glass, laminated glass, steel, stainless steel, aluminum, ceramic, stone, wood and some plastics. This adhesive does not have capillary properties; therefore it must be applied to the bonding surface prior to assembling the parts.

Of particular interest is its suitability of bonding laminated safety glass. The PVB film between laminated glass panes absorbs almost all of the UVA radiation, but because this adhesive has been made to also cure by daylight, it reacts with the remaining radiation (above 380 nm) and cures completely.

Cured bonds of CRL UV604L are optically clear, resistant to moisture and thermal cycling. Store adhesive away from sunlight.

CRL7528 Solvent Degreaser provides for optimum adhesion when used first to prepare the glass by removing any dirt and grease that is present.

NOTE: When bonding plastics, always test first, as not all plastics can be bonded properly. Do not bond any coated parts (powder coated or galvanized) with this adhesive.

CRL UV601 Low Viscosity UV Adhesive

SPEC. DATA MSDS

- **Ideal for Glass-to-Glass Bonding**
- **Capillary Action**
- **Optically Clear**

CRL UV601 is a low viscosity, 100% solids adhesive that forms resilient, high strength bonds between materials such as glass, metal, wood, and many plastics.

Due to its high purity UV601 is especially suited for bonding glass-to-glass where looks are paramount, making it suitable for bonding optical components. Because of its excellent capillary action (low viscosity) it is ideal for glass-to-glass and tempered glass-to-tempered glass bonding, primarily in the construction of showcases and the efficient production of glass furniture. Reduced clean-up time means glass furniture production cycles are done quickly and efficiently.

Bonds prepared with CRL UV601 are optically clear. The adhesive cures within seconds upon exposure to ultraviolet light. The speed of cure depends on the UV intensity as measured at the product surface, as well as the adhesive depth. Store adhesive away from sunlight.

CRL7528 Solvent Degreaser provides for optimum adhesion when used first to prepare the glass by removing any dirt and grease that is present.

CRL UV603T Medium Viscosity UV Adhesive

SPEC. DATA MSDS

- **Extremely Flexible for Bonding Different Materials and Surface Bonding**
- **Capillary Action**
- **Optically Clear**

CRL UV603T is a medium viscosity, 100% solids, general purpose adhesive that forms resilient, high strength bonds between materials such as glass, metal, ceramic, and many plastics.

CRL UV603T is extremely flexible, and demonstrates outstanding elongation, making it ideal for bonding different materials, as well as for surface bonding up to 1 m^2 (10.8 ft^2). It shows good capillary action with glass up to 1/4" (6 mm) thick. For thicker glass apply to the bonding surface prior to assembly.

Bonds prepared with CRL UV603T are optically clear as well as resistant to moisture and yellowing. The adhesive cures within seconds upon exposure to ultraviolet light. The speed of cure depends on the UV intensity as measured at the product surface, as well as the adhesive depth. Store adhesive away from sunlight.

CRL7528 Solvent Degreaser provides for optimum adhesion when used first to prepare the glass by removing any dirt and grease that is present.

CRL UV ADHESIVES

CRL UV702 High Viscosity UV Adhesive

SPEC. DATA MSDS

- **Withstands High Static and Dynamic Forces**
- **Optically Clear**
- **Suitable for Universal Applications**

CRL UV702 is a high viscosity, 100% solids, general purpose adhesive that forms resilient, high strength bonds between materials such as glass, metal, stone, wood, and many plastics.

CRL UV702 is ideal for making 'all-glass' showcases, glass shelves, and glass furniture. This adhesive does not have capillary properties, therefore it must be applied to the bonding surface prior to assembling the part. Ideal for bonding glass door knobs or metal towel bars in frameless shower door installations, as well as adhering metal standoff bases to glass.

Bonds prepared with CRL UV702 are optically clear as well as resistant to moisture and yellowing. The adhesive cures within seconds upon exposure to ultraviolet light. The speed of cure depends on the UV intensity as measured at the product surface, as well as the adhesive depth. CRL UV702 has outstanding ability to cure through large gaps and it cures to a hard surface that is transparent. Store adhesive away from sunlight.

CRL7528 Solvent Degreaser provides for optimum adhesion when used first to prepare the glass by removing any dirt and grease that is present.

NOTE: When bonding plastics, always test first, as not all plastics can be bonded properly. Do not bond any coated parts (powder coated or galvanized) with this adhesive.

CRL Colored UV Adhesives

SPEC. DATA MSDS

- **Five Colors Plus Clear for Surface Bonding of Glass Parts**
- **Brilliant, High Intensity Colors**
- **Bonds Bevels Onto Glass or Mirror**
- **Thin Viscosity**

CAT. NO. CRL7528*
Solvent Degreaser

CRL Colored UV Adhesives are designed for bonding larger glass surfaces to make decorative colored pieces. An example would be a mirror with beveled clear glass bonded to the surface. The five different moisture-resistant colors can be used separately or mixed together for a wide range of color effects that are seen through the clear glass overlays. The Clear Base Adhesive is used to dilute the high intensity colors to produce a wide range of color options or to create separations between colors. This adhesive is intended for surface bonding only, and should never be used to bond edges (furniture construction). Due to the high color pigmentation the setting time is three to five times longer than typical clear UV adhesives and bonds are not as strong. Hands should be protected from the high color pigments by wearing our Disposable Nitrile Gloves Cat. No. 700512.

- Cures Within Seconds

CAT. NO. UV349
UV Adhesive

CAT. NO. 20162*
Cleaner and Degreaser

CRL Loctite® UV Adhesive is a one-part, high viscosity adhesive with an ultraviolet cure system. Tough, durable bonds can be formed with excellent adhesion to glass, metal and some thermoplastics. Ideal for making all glass showcases, glass shelves, furniture, etc. The adhesive cures within seconds upon exposure to UV light from a curing lamp to form a transparent bond. This product is cured when exposed to UV radiation of 365nm. The speed of cure will depend on the UV intensity as measured at the product surface, as well as the coating depth. UV349 has an outstanding ability to cure through large gaps and to cure to a hard, dry surface that is water clear. CRL Loctite® 20162 Cleaner and Degreaser is offered for optimum glass preparation, and removal of dirt and grease.

COVERAGE:
Approximate coverage of a 1.69 fl. oz. bottle:
1/16" (1.6 mm) bead - 1,000 linear inches (25 m)
1/8" (3 mm) bead - 250 linear inches (6.3 m).

CRL Loctite® Poxy-Pak™ Clear Two-Part Epoxy

- Pre-Measured Resin and Hardener for Easy Applications, Consistent Strength
- Resealable – No Waste
- Bonds Virtually Any Material

CRL Loctite® Poxy-Pak™ Clear Adhesive is a rapid cure two-part epoxy that reaches handling strength in about five minutes, and fully cures in 45 to 60 minutes. Poxy-Pak™ is easily dispensed from the two-cylinder syringe in any amount you need. It bonds metals, ceramics, concrete, wood, glass, and most plastics. It's inexpensive to use, as the unused portion can be re-sealed and saved. May be drilled, tapped, sanded, machined and painted after it cures. Poxy-Pak™ cures at room temperature, and can withstand temperatures up to 300°F (149°C).

CRL Double/Bubble® Extra Fast Setting Epoxy

MSDS

- Clear Color

Fold Snip

Squeeze Mix/Apply

This extra fast setting, two-component, room temperature curing Epoxy is clear in color, and provides handling strength in only 15 to 30 minutes. Bonds to most substrates including: glass, metal (carbon steel, stainless steel, aluminum), wood, concrete, stone, ceramics, leather, china, and many plastics. Cures in temperatures as low as 0°F (-18°C). Cured epoxy withstands temperatures to 180°F (82°C). Net weight per pouch is 3.5 grams (.12 oz.). Minimum order is five each.

CRL UV ADHESIVE PROPERTIES AT A GLANCE

UV ADHESIVE	PROPERTIES	APPLICATIONS	BONDING SUBSTRATES (BY PRIORITY)	STORAGE IN ORIGINAL CONTAINER
CRL UV601	Excellent capillary action, resistant to moisture.	Efficient production of glass furniture and showcases. Easy clean-up. Suitable for optical components.	Glass-to-glass, glass-to-metal, wood, many plastics.	Cool, dry, dark location (without UV radiation).
CRL UV701T	Excellent capillary action, resistant to moisture and yellowing.	Efficient production of glass furniture and showcases. Easy clean-up.	Glass-to-glass, tempered glass-to-tempered glass, glass-to-metal (steel, aluminum, stainless steel), glass to many plastics.	Cool, dry, dark location (without UV radiation).
CRL UV602L	Good capillary action, high vibration resistance, resistant to moisture and yellowing.	Especially for bonding laminated glass, ideal for bonding different material combinations.	Laminated glass to: glass, laminated glass, metal, ceramic, many plastics.	Cool, dry, dark location (without UV radiation).
CRL UV603T	Good capillary action, extremely flexible, high vibration resistance, resistant to moisture and yellowing.	Ideal for bonding different material combinations, surface bonding up to 1 m^2.	Glass-to-glass, glass-to-metal, glass-to-ceramic, glass to many plastics.	Cool, dry, dark location (without UV radiation).
CRL UV604L	Apply prior to glass assembly, resistant to moisture and thermal cycling, high tensile shear and peel strength bonds.	Especially for glass-to-metal bonding in furniture production.	Glass-to-metal, glass-to glass, tempered-glass-to tempered glass, glass-to-metal (steel, aluminum, stainless steel), ceramic, stone, wood, and some plastics.	Cool, dry, dark location (without UV radiation).
CRL UV702	Apply prior to glass assembly, resistant to moisture and thermal cycling.	Constructions subject to high static loads, difficult climate conditions especially for glass/metal bonding in furniture production.	Glass-to-metal, glass-to-glass, tempered glass-to-tempered glass, glass-to-stone, glass-to-wood, glass to many plastics.	Cool, dry, dark location (without UV radiation).
CRL UV703	Apply prior to glass assembly, resistant to moisture and yellowing.	Shower enclosure glass knobs and metal towel bars, metal standoff bases, glass shelves, showcases, glass sculptures.	Glass-to-glass, glass-to-metal (steel, aluminum, stainless steel), glass to many plastics.	Cool, dry, dark location (without UV radiation).
LOCTITE® IMPRUV®	Apply prior to glass assembly.	Shower enclosure glass knobs and metal towel bars, metal standoff bases, glass shelves, showcases, glass sculptures.	Glass-to-glass, glass-to-metal.	Cool, dry, dark location (without UV radiation).

CRL UV BONDING FIXATION DEVICES

CRL Adjustable Inside 90 Degree Suction Holder

- Adjustable Height and Position
- Suction Cups Hold Glass Firmly in Place at 90 Degrees While Adhesive Cures

This CRL Adjustable Inside 90 Degree Suction Holder firmly grips glass from the inside surface at 90 degrees. Height and position can be adjusted up to 5/16" (8 mm) by knobs located on each arm for precise UV adhesive application. Glass pieces are held firmly in place by 2-1/8" (54 mm) diameter rubber suction pads until they are bonded. Minimum order is one each.

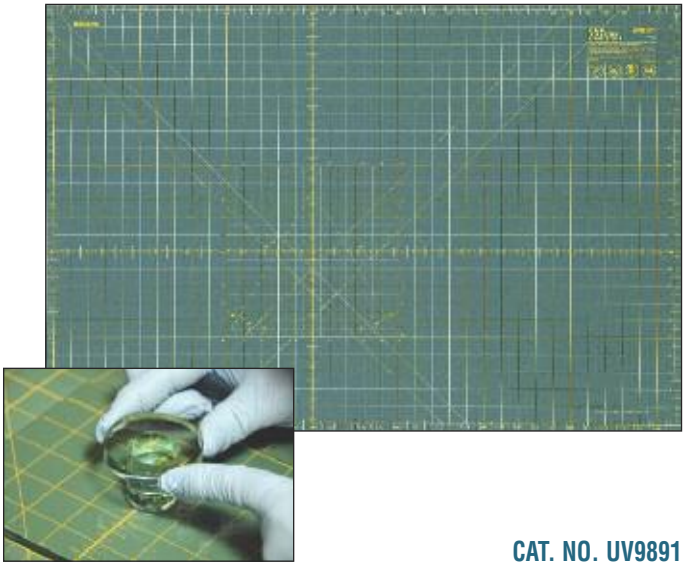

CAT. NO. WH7080

CRL UV Lay-Out Mat

- Accurately Position Your UV Projects
- Easy to Read Grid Lines With 45, 90, and 135 Degree Calibrations

CRL's UV Lay-Out Mat covers a large 24" x 36" (610 x 914 mm) work surface and lets you check your bonding project for square prior to adhesive application. The surface is self-healing should you also use it for razor cutting. Flip it over to the blank side and you have a durable, protective surface for your other work. Minimum order is one each.

CAT. NO. UV9891

CRL UV Bonding Work Surface Carpet

- Dark Color Absorbs UV Light
- Special Long Wearing High Density Material

This CRL UV Bonding Work Surface Carpet makes an ideal work area and protects against glass damage. It's light-absorbing material is appropriate when setting your UV bonding lamps aside. Note that you should never set your lamps face-down directly on this carpet as excessive heat build up will take place (always use a guard or other support). Carpet measures 36" x 72" (914 x 1829 mm). Minimum order is one each.

CAT. NO. UV3672

CRL UV BONDING FIXATION DEVICES

CRL Adjustable Angle Suction Holder

- **Holds Glass From Inside or Outside Surfaces While UV or Silicone Adhesive Cures**
- **Adjustable**

CRL Adjustable Angle Suction Holder holds glass panels from the inside or outside surfaces. Glass panels can be fixed at desired angle and adhered by UV or silicone adhesives easily. Height and position can be adjusted 11/16" (18 mm) by knobs at each arm. The 4-3/4" (120 mm) rubber suction pad with lip holds the glass panels firmly until the adhesive cures and they stick to each other. It is adjustable between 40 and 300 degrees. Minimum order is one each.

CAT. NO. UV282

CRL 90 Degree Outside Surface Tool

- **Holds Glass From Outside Surfaces While UV or Silicone Adhesive Cures**
- **Adjustable**

CRL 90 Degree Outside Surface Tool holds glass panels from the outside surfaces. Glass panels can be fixed at 90 degree angles and adhered by UV or silicone adhesives easily. Height and position can be adjusted 11/16" (18 mm) by knobs at each arm. The 4-3/4" (120 mm) rubber suction pad with lip holds the glass panels firmly until the adhesive cures and they stick to each other. Minimum order is one each.

CAT. NO. UV281

CRL 90 Degree Inside Surface Tool

- **Holds Glass From Inside Surfaces While UV or Silicone Adhesive Cures**
- **Adjustable**

CRL 90 Degree Inside Surface Tool holds glass panels from the inside surfaces. Glass panels can be fixed at 90 degree angles and adhered by UV or silicone adhesives easily. Height and position can be adjusted 11/16" (18 mm) by knobs at each arm. The 4-3/4" (120 mm) rubber suction pad with lip holds the glass panels firmly until the adhesive cures and they stick to each other. Minimum order is one each.

CAT. NO. UV280

CRL 90 Degree Clamp-It Square Tool Kit

- **Ideal For Drill-Press Jigs or Adding a Shelf**
- **Rigid Polycarbonate Construction**

CRL 90 Degree Clamp-It Square Kit includes everything needed to clamp two corners at a time: two original Clamp-It Assembly Squares and four 5" (127 mm) Clamp-It Bar Clamps. The Bar Clamp is held in place on the Clamp-It Assembly Square with a friction fit to make operation quick, easy, and one-handed. Assembly Square measures 8" x 8" x 1-1/2" (203 x 203 x 38 mm). Minimum order is one each.

CAT. NO. UV69954

CRL Angle Suction Holder Adjustable Between 45 and 300 Degree

- **Adjustable Between 45 and 300 Degrees**
- **Precise Adjustment to Any Desired Position**
- **Suction Cups Hold Glass Firmly in Place While Adhesive Cures**

This CRL Adjustable Angle Suction Holder grips glass from outside or inside surfaces. Position can be precisely adjusted by a knob. Glass is held firmly in place with 4-1/2" (114 mm) diameter rubber suction pads until the surfaces are firmly bonded.
NOTE: Do not use to lift or carry glass or marble. Minimum order is one each.

CAT. NO. WH9602G

CRL UV BONDING FIXATION DEVICES

CRL Frameless Shower Super Kit

- **Convenient Kit Containing Everything Needed for a Professional Frameless Shower Door Installation**

The CRL Frameless Shower Super Kit provides the professional installer with a good selection of tools to assist with frameless shower door installs.

CAT. NO. FSSK1

new

FSSK1 FRAMELESS SHOWER SUPER KIT CONSISTS OF ONE EACH OF THE FOLLOWING UNLESS NOTED OTHERWISE:

CAT. NO.	DESCRIPTION
FA3W	Frameless Alignment Tool
GRT14	1/4" GROO-V Tip® Granite Drill Bit (5 Each)
GRT316	3/16" GROO-V Tip® Granite Drill Bit (5 Each)
MAT1	Magnetic Alignment Tool
PLF1	Plumb/Level Gauge Set
PR2S	Perfect Reveal Tool (1 Pair)
SS2L	Super Shim Leveler (1 Pair)
UV282	Adjustable Suction Clamp
T1418	Tool Box With Tray

Minimum order: 1 each.

CRL Third Hand Fixture Device

- **4-1/2" (114 mm) Vacuum Cup**
- **Adjustable Clamp Bar**
- **Dual Threaded Screw Clamps**

The CRL Third Hand Fixture Device is the perfect solution for applying the pressure needed to bond UV and shower door hardware in place during heating and curing. The adjustable steel sliding bracket allows for precise positioning of clamp tips over your hardware. The clamp screws can accommodate knobs or bars exceeding 2" (51 mm) in height. Simply attach the 4-1/2" (114 mm) pump action vacuum cup within 2" or 3" (51 to 76 mm) of the hardware mounting point, adjust the clamp bar to center a clamp tip over the hardware, and screw one of the clamps down to secure the hardware in place. For added pressure when working with higher viscosity adhesives, lower the second clamp tip down onto the surface and tighten. Using the vacuum cup as a fulcrum in this way helps to force air bubbles out of adhesive and create the tightest possible gap to enhance adhesive performance. The CRL Third Hand Fixture Device can also be used to hold automotive trims and moldings in place while the adhesive cures. Minimum order is one each.

CAT. NO. UV91111

CRL Multi-Purpose SwasiClamp

- **Use for Inside or Outside Angle Applications**
- **Shower Door Fixed Panel Assembly**
- **UV Assembly Bonding**
- **UV Hardware Clamping**

The CRL Multi-Purpose SwasiClamp is a totally new clamp design intended to solve a variety of problems in fastening components together while bonding or sealing. This unique clamping device features a lever-actuated 4-3/4" (121 mm) vacuum cup connected to a three-piece articulated arm, which ends with a threaded plunger arm. SwasiClamp can be turned, twisted, or reversed to solve virtually any clamping job ranging in length up to 13" (330 mm).

Add the CRL SwasiClamp Accessory Kit and double your range of options. Consisting of an additional 4-3/4" (121 mm) vacuum cup and another threaded plunger arm, this Kit allows clamping of additional angles and added force to original configurations. The Accessory Plunger Arm can clip onto the SwasiClamp articulated arm or into the Accessory Vacuum Cup. Whether your work scope involves shower doors or glass furniture bonding with UV Adhesives, the CRL SwasiClamp and SwasiClamp Accessory Kit are the installer's new best friend.

GROO-V Tip is a registered trademark of Relton Corporation.

CRL UV Curing Lamps and Accessories

Curing UV Adhesives

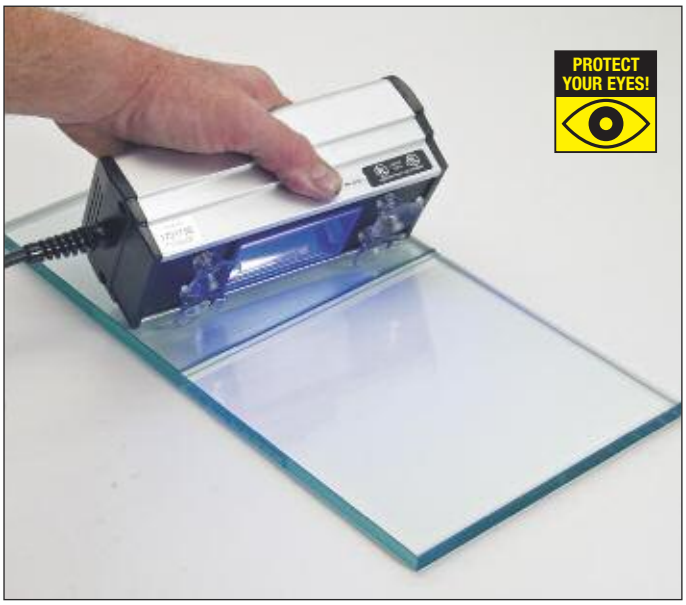

To cure the technologically advanced UV Adhesives offered by C.R. Laurence, UVA Lamps emitting wave lengths in the range of 315-400 nm are required. A comprehensive selection of models is available to meet all the requirements to construct beautifully finished showcase, display, furniture, and specialty projects.

Depending on the type of construction used, the choice of the proper UV Curing Lamps is essential. Depending on the choice of lamp used, prior testing is recommended to determine full cure time based on the lamp's strength and the age of the bulb. Our Cat. No. UV1365 UV Transmission and Power Meter (see page 510J) can provide precise ratings when needed.

Safe lamp use must take into account the considerable heat developed by our high intensity bulb lamps. Always be sure to keep lamps away from combustible materials. Place them on a non-flammable surface when putting lamps aside. Lamps should never be positioned with the filter screen face down as this will cause excessive heat build-up that could destroy the lamp.

CRL UV Lamps are equipped with filter screens to reduce potential damage to eyes and skin. However, we strongly recommend the use of our Nitrile Gloves Cat. No. 700512 to protect your skin, and the appropriate eye protection provided by our UV Spectacles, Goggles or Face Mask (see page 510J).

Bonding metal hardware to glass requires a smaller UV light area for the quickest cure times. Our Cat. Nos. UV255 and Z7596 Lamps are ideal choices. Only about 10 to 15 seconds are required for an initial set, and 90 to 120 seconds for full cure. Our Cat. No. UB80 Lamp takes longer for the initial set, approximately 60 to 90 seconds, and four to six minutes for final cure. Our Cat. No. UV240 Lamp provides an initial set of 25 to 30 seconds, and three to four minutes for full cure.

Longer lengths of glass in showcase and furniture construction should have the adhesive cured with Tube Lamps such as our Cat. Nos. XX40 or UVBL15 to assure tension-free results. Keep in mind that bond tension caused by curing shorter lengths at a time result in bond damage or glass breakage. UVA Tube Lamps take approximately 30 seconds for pre-curing, and three to five minutes for a full cure.

CRL Hand-Held Spot Bulb UV Curing Lamp

- **Powerful 100 Watt Lamp Cures UV Adhesives in Seconds**
- **Lamp Head is Ergonomically Designed to Prevent Fatigue**
- **Impact Resistant Polymer Housing is Dent-Proof**

The CRL Hand-Held Spot Bulb UV Curing Lamp provides up to a 40mW/cm² of UV-A energy to cure all of our UV Adhesives in just seconds. Perfect for fabricating with our UV Bonded Hardware components, its unique filter provides maximum curing energy while minimizing the hazardous radiation inevitably produced by all high-intensity UV-A lamps.

Cat. Nos. Z7596 and AUZ7596 combine state-of-the-art design innovations with traditional proven features like the detachable lamp head with 96" (2.44 m) cord for lightweight hand-held use. Keep the lamp head mounted on the transformer and rotate it 360 degrees in either the horizontal or vertical positions for bench use. Included with each lamp is one pair of Cat. No. UVG50 Goggles, one pair of Cat. No. UVS30 Spectacles, and a Cat. No. UVG100 Heat Guard Stand to minimize the risk of accidental burn injury. Replacement bulbs and filters are available. Minimum order is one each.

CAT. NO.	DESCRIPTION
Z7596	Hand-Held Spot Bulb UV Curing Lamp 110V AC 60Hz
AUZ7596	Hand-Held Spot Bulb UV Curing Lamp 240V AC 50Hz
Z100SM	Replacement Bulb for Lamps with Serial Numbers 1567104 and Higher
Z100S	Replacement Bulb for Lamps with Serial Numbers 1567103 and Lower
Z2F100C	Replacement Filter for Z7596/AUZ7596
UVG100	Heat Guard Stand for Z7596/AUZ7596

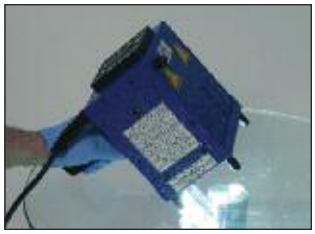

Minimum order: 1 each.

CRL High-Intensity Hand-Held UV Curing Lamp

- **High-Intensity Light Cures Fast**
- **Lightweight, Under 3 Lbs. (1.3 kg)**
- **13' (4 m) Electrical Cord**
- **Built-In Cooling Fan**

CRL's High-Intensity Hand-Held UV Adhesive Curing Lamp provides the best uniform UV adhesive curing with a 96 square inch (8" x 12"), 620 square centimeter (20 x 30 cm) curing area at a distance of 8" (20 cm) by use of it's highly efficient 250 watt halide UV bulb. The uniform intensity distribution is guaranteed by its optimized reflector surface.

Designed to cure all CRL UV Bonding Adhesives, the Cat. No. UV255 features spacer spots near the lamp's lens to prevent overheating when the lamp unit is laid down. An hour counter integrated into the ballast box provides for operational monitoring and control over lamp life.

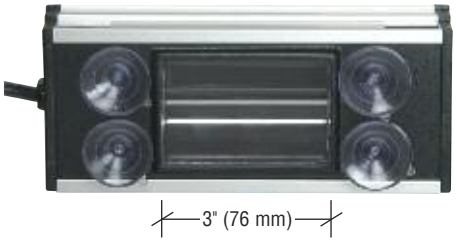

The high-strength aluminum and polycarbonate lamp housing makes this lamp a very durable UL 2422 Approved curing device.

CAT. NO.	DESCRIPTION
UV255	High-Intensity Hand-Held UV Curing Lamp 110V
UV255230	High-Intensity Hand-Held UV Curing Lamp 230V
UV255B	Replacement Bulb
UVH255F	Replacement Filter

Minimum order: 1 each.

CRL UV CURING LAMPS AND ACCESSORIES

CRL Compact AC UV Curing Lamp

PROTECT YOUR EYES!

- Lightweight and Durable
- Excellent for Smaller Projects
- Built-In Suction Cups for Positioning

The CRL Compact AC UV Curing Lamp is a great tool to assist you in the introduction to UV glass bonding. Although small in size, initial pre-cure and full cure bonding is assured with it's 3,500 micro watts/cm² light output. The built-in suction cups allow you to fix the lamp's position securely during the curing process.

CAT. NO.	DESCRIPTION
UV240	Compact Curing Lamp 110 Volts AC 60Hz
UV240230	Compact Curing Lamp 230 Volts AC 50Hz
UV240BULB	Replacement Bulb for UV240, UV240230 and UB80

Minimum order: 1 each.

CRL Battery Operated UV Curing Lamp

PROTECT YOUR EYES!

- Cures All CRL UV Bonding Adhesives
- Built-In Suction Cup for Positioning

Our Battery Operated UV Curing Lamp may be small, but when allowed the appropriate initial pre-cure and final curing times, the resulting bonds will be high quality in strength and appearance. Power comes from the four "AA" batteries included with the Lamp, producing 1,000 micro watts/cm² of light output. This is the most affordable tool to use when starting out with UV bonding on a small scale.

CAT. NO.	DESCRIPTION
UB80	Battery Operated UV Adhesive Curing Lamp
UV240BULB	Replacement Bulb for UB80, UV240, and UV240230

Minimum order: 1 each.

CRL High-Intensity LED UV Curing Lamp Kit

PROTECT YOUR EYES!

- Small in Size, Big in Energy Savings
- 30,000 Hour LED Bulb Life
- Perfect for Affixing UV Bonding Hardware
- Cures All CRL UV Bonding Adhesives

CAT. NO. OPX365

CRL's High-Intensity LED UV Curing Lamp provides ultra-high intensity up to 18,000 micro watts/cm² of light output to cure UV adhesives incredibly fast. Push the 'on' button and the lamp immediately reaches full power and is ready for use, eliminating the down time waiting for bulbs to warm up. Cordless operation lets you move around your work unencumbered, and the powerful NiMH battery will operate the lamp continuously for 90 minutes before a recharge is needed.

The 2" (51 mm) lamp diameter and 8" (203 mm) length of the lamp's body is encased in durable anodized aluminum. The LED bulb is made with an electronic intensity stabilizer to ensure consistent performance, which also means that the beam strength will not fade while operating between charges. Kit comes complete with smart AC and DC Chargers, UV Absorbing Spectacles, Belt Holster, and padded Carrying Case. Optional 240V AC Chargers are available and sold separately.

CAT. NO.	DESCRIPTION
OPX365	High-Intensity LED UV Curing Lamp Kit
RB3FA	Optional Australian Use 240V AC Charger
RB3FB	Optional European Use 240V AC Charger

Minimum order: 1 each.

CAT. NO. RB3FA
Optional 240V Charger with Australian Plug

CAT. NO. RB3FB
Optional 240V Charger with European Plug

CRL Single Tube UV Curing Lamp

PROTECT YOUR EYES!

- Cures All CRL UV Bonding Adhesives
- Extra Long 30 Foot (9.1 m) Cord
- 17-1/2" (444 mm) Irradiation Length

The CRL Single Tube UV Curing Lamp is easily moved from position to position due to its lightweight and long 30' (9.1 m) electrical cord. The 365 nm output is ideal for curing all CRL UV Bonding Adhesives for glass-to-glass and glass-to-metal applications. The 17-1/2" (444 mm) irradiation length will cure seams up to that length. You can add more lamps end-to-end for longer lengths.

The on/off switch is conveniently located at the hand held end of the lamp. The fluorescent bulb is protected by a heavy-duty acrylic tube, and has a light shield around the back side. A hanging hook is built in for temporary mounting positions.

CAT. NO. UVBL15

CAT. NO.	DESCRIPTION
UVBL15	Single Tube 15 Watt UV Curing Lamp 110 Volts 60Hz
UVBL15BULB	Replacement Bulb for 15 Watt Single Tube UV Curing Lamp

Minimum order: 1 each.

CRL Long Double Tube UV Curing Lamp

PROTECT YOUR EYES!

Listed

- 48" (1219 mm) Tubes for Long Seam UV Bonding
- Most Powerful Lamp of Its Type
- Mountable Fixture Housing

The CRL Long Double Tube UV Curing Lamp is perfect for use where high-intensity, wide-area UV coverage is needed. Specially filtered 40 watt bulbs make it the most powerful lamp of it's type available. Suited to cure all CRL UV Bonding Adhesives, it features an enameled sheet metal housing that can be side mounted, hung overhead, or used as a portable lamp to accommodate many different requirements.

A corrosion-resistant, specular aluminum reflector ensures maximum UV irradiance. On/off switch is conveniently located on the lamp's housing. Lamps are U.L. listed.

CAT. NO. XX40
Double Tube Lamp

CAT. NO.	DESCRIPTION

Minimum order: 1 each.

CAT. NO. XX40BULB
Replacement Bulb

CRL Double Tube UV Curing Lamp

Available Only in Europe

PROTECT YOUR EYES!

CE

- Cures All CRL UV Bonding Adhesives
- 17-1/2" (444 mm) Irradiation Length
- Fully Enclosed, Filtered Housing

The CRL Double Tube UV Curing Lamp delivers 25 watts of curing power via two 18" (457 mm) fluorescent UV bulbs providing 17-1/2" (444 mm) of irradiation. This 230 volt lamp is fully enclosed and filtered to control and focus UVA radiation on the bonding joint. The 365 nm output is tuned to quickly cure all CRL UV Adhesives. Includes convenience of body mounted on/off switch and handle.

This powerful and durable tool with its 230 volt, 50 cycle wiring is CE approved for the European Market. **NOTE:** For sale in Europe only.

CAT. NO. UVBL25EU

CAT. NO.	DESCRIPTION
UVBL25EU	Double Tube 25 Watt UV Curing Lamp 230 Volts 50Hz
UVBL25BULB	Replacement Bulb for 25 Watt Twin Tube Curing Lamp

Minimum order: 1 each.

CRL UV-Absorbing Spectacles

- Protects Against UV Exposure
- Fits Easily Over Regular Eyeglasses

Ultraviolet light is an invisible band of electromagnetic radiation just beyond the violet end of the visible spectrum. Although UV exposure is a natural part of our environment, prolonged and unprotected exposure to UV light can result in eye damage.

These CRL UV-Absorbing Spectacles are specially designed to protect the user against limited exposure to low intensity UV sources. Attractive and durable, these well proportioned frames fit easily over conventional eyeglasses. Minimum order is one each.

CAT. NO. UVS30

CRL UV-Absorbing Goggles

- Protects Eyes From UV Sources
- Meets ANSI and OSHA Standards
- Fits Easily Over Regular Eyeglasses

Ultraviolet light is an invisible band of electromagnetic radiation just beyond the violet end of the visible spectrum. Although UV exposure is a natural part of our environment, prolonged and unprotected exposure to UV light can result in eye damage.

These CRL UV-Absorbing Goggles are recommended for extended or high intensity exposure to UV sources. They meet ANSI specification Z87.1 for safety eye wear, and OSHA standard 1910.133 for eye and face protection. These comfortable goggles easily fit over conventional eyeglasses. Minimum order is one each.

CAT. NO. UVG50

CRL UV-Absorbing Face Shield

- Adjustable to Fit All Sizes
- Can Be Pivoted Off the Face

Ultraviolet light is an invisible band of electromagnetic radiation just beyond the violet end of the visible spectrum. Although UV exposure is a natural part of our environment, prolonged and unprotected exposure to UV light can result in eye damage.

The CRL UV-Absorbing Face Shield provides the recommended maximum protection for both eye and face from extended or high intensity UV sources. This Face Shield is adjustable to fit all sizes and has a visor that can be pivoted off the face. The shield meets ANSI specification Z87.1 for safety eye wear, and OSHA standard 1910.133 for eye and face protection. Minimum order is one each.

CAT. NO. UVF80

CRL UV Transmission and Power Meter

- Checks Strength of UV Curing Lamps
- Displays UV Transmission % or Power Readings
- Measures Temperature in F° or C°

The CRL UV Transmission and Power Meter is the most versatile product available for measuring UV. It measures UV intensities (irradiance), or UV Transmission percentage. Perfect for checking the output of your UV curing lamps (must check new lamp or replacement bulb to set benchmark), you can even confirm the protection level of your UV spectacles, goggles and facemasks. An added feature allows you to also measure temperatures in Fahrenheit and Celsius.

Unlike other UV products on the market, this Meter is extremely simple to operate. The digital display is continually updated with real-time readings. Powered by a 9V battery (included). Minimum order is one each.

CAT. NO. UV1365

CRL GLASS PROTECTORS

CRL Corner Protectors

- **Protect Corners of Glass and Mirror**
- **Six Different Sizes for 1/8", 1/4", 5/16", 3/8", 1/2", and 3/4" (3, 6, 8, 10, 12, and 19 mm) Thicknesses**

These CRL Corner Protectors are designed to protect glass and mirror edges during shipping, handling or storing. Black plastic Corner Protectors will not scratch or damage glass or mirror surfaces, and they help protect large cut-offs from breakage or becoming scrap. Protectors are re-usable, they simply slide on and off the corners of glass and mirror. Ensure your customers are getting a quality piece of glass; protect the corners with CRL Corner Protectors. Available in economical bulk packs or handy boxes of 100 each.

CRL Armored Corner Protectors

new

VIDEO

- **Economical, Reusable Corners Absorb Impact When Glass or Mirror is Bumped or Dropped**
- **A Small Investment Can Save Expensive Glass and Help Prevent Costly Accidents**

CAT. NO. ACP14
1/4" (6 mm)

CAT. NO. ACP38
3/8" (10 mm)

CAT. NO. ACP12
1/2" (12 mm)

CAT. NO. ACP58
5/8" (15 mm)

Glass fabricators, shower door installers, glazing contractors, and anyone handling glass panels can worry less about glass breakage using our new Armored Corner Protectors. These uniquely designed corners can absorb impacts during transport. The Corner's heel offers the maximum impact protection while the interior surfaces channel away impact energy from the surface of the glass. Cut-outs formed on the Corner's edge allow belt fastening.

CRL Armored Corners can be used for all types of flat and beveled glass. Packed in bags of 12 or bulk boxes of 100 each, they are color-coded by size for easy selection. See our online video at **crlaurence.com** for a demonstration of how effective these corners are against the worst type of dropped glass impacts.

CAT. NO.	GLASS THICKNESS
ACP14	1/4" (6 mm)
ACP38	3/8" (10 mm)
ACP12	1/2" (12 mm)
ACP58	5/8" (15 mm)

Minimum order: 12 each. All Armored Corner Protectors can be combined for quantity

CRL GLASS PROTECTORS

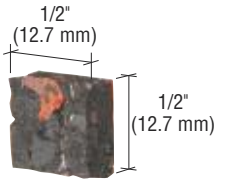

CRL Sponge Rubber Shipping Pads

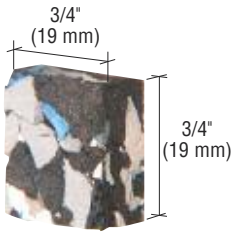

- Economical and Easy to Use
- Leave No Residue When Removed
- For Storing and Transporting Glass
- Now in 1/8" (3.2 mm) and 1/4" (6.3 mm) Thickness

Developed for the tempering industry for use on hot glass during processing, and made of heavy-duty composition rubber, these CRL Shipping Pads have a special adhesive that leaves no residue when removed from the glass. They are excellent to use when transporting or storing glass to prevent surface scratches and breakage. Application is simple - just peel from the release paper roll and stick them to the glass. No special equipment, tools or solvents are needed to remove them. Pre-cut pads are available in two ways: on rolls of 1,000; in bulk quantities of 5,000 each of the 3/4" (19 mm) size, and 10,000 each of the 1/2" (12.7 mm) size.

Bulk Roll

1,000 Pad Roll

CAT. NO.	PAD SIZE	THICKNESS	PADS/ROLL
SP1412	1/2" (12.7 mm) Square	1/4" (6.3 mm)	1,000
SP1412B	1/2" (12.7 mm) Square	1/4" (6.3 mm)	10,000
SP1834	3/4" (19 mm) Square	1/8" (3.2 mm)	1,000
SP1834B	3/4" (19 mm) Square	1/8" (3.2 mm)	25,000
SP1434	3/4" (19 mm) Square	1/4" (6.3 mm)	1,000
SP1434B	3/4" (19 mm) Square	1/4" (6.3 mm)	5,000

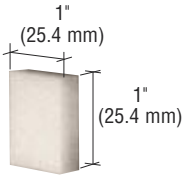

Minimum order: 1 roll. Sizes can be combined for quantity pricing.

CRL Super-Duty Shipping Pads

- Used by Aluminum Window and Door Fabricators
- Handles Heavy Loads and Shock
- Easy-to-See Light Yellow Color

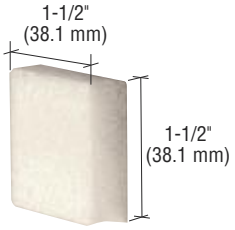

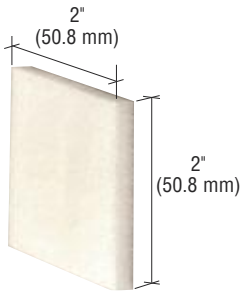

These CRL Super-Duty Shipping Pads are used by aluminum window and door fabricators to support and separate finished units during transport and storage. The highly condensed white trocellen foam compresses slightly under load, and has great capacity to handle shock and heavy loads. The adhesive coating sticks tight in all climates, yet leaves no residue or discoloration on metal surfaces when removed, even after months of storage. CRL Super-Duty Shipping Pads are die-cut on sheets of release paper, and peel off easily for application, even in high-production situations. Standard thicknesses are 1/4" and 1/2" (6.3 and 12.7 mm), and all sizes are packed in boxes that will ship U.P.S.

Die-cut Sheets

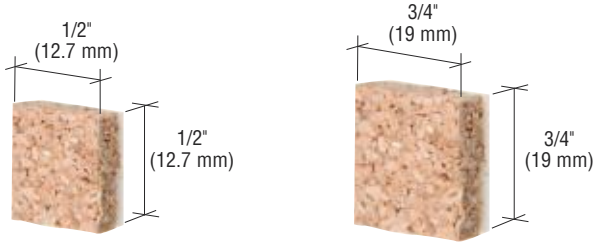

CAT. NO.	PAD SIZE	THICKNESS	PADS/ROLL
NSP1411	1" x 1" (25.4 x 25.4 mm)	1/4" (6.3 mm)	12,096
NSP141515	1-1/2" x 1-1/2" (38.1 x 38.1 mm)	1/4" (6.3 mm)	5,376
NSP14152	1-1/2" x 2" (38.1 x 50.8 mm)	1/4" (6.3 mm)	4,032
NSP1422	2" x 2" (50.8 x 50.8 mm)	1/4" (6.3 mm)	3,024
NSP1211	1" x 1" (25.4 x 25.4 mm)	1/2" (12.7 mm)	6,048
NSP121515	1-1/2" x 1-1/2" (38.1 x 38.1 mm)	1/2" (12.7 mm)	2,668

Minimum order: 1 box. Sizes can be combined for quantity pricing.

CRL Cork No-Adhesive Shipping Pads

- **Extra Firm for Minimal Compression Under Heavy Loads**
- **Peel Off Without Leaving Residue**

These CRL Cork No-Adhesive Shipping Pads are laminated with cork instead of sponge, therefore they are firmer and will not compress like sponge. This makes them excellent for use with heavy or large stacks of glass. Adhesive cleanup is eliminated since CRL Cork No-Adhesive Shipping Pads peel off without leaving any residue. They are even reusable if kept clean! Available in two ways: on rolls of 1,000 pre-cut pads, or on bulk rolls for volume users.

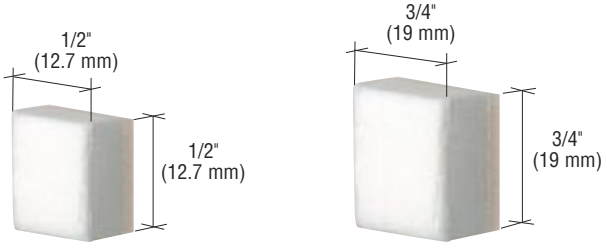

CAT. NO.	PAD SIZE	THICKNESS	PADS/ROLL
CNA12	1/2" (12.7 mm) Square	1/4" (6.3 mm)	1,000
CNA12B	1/2" (12.7 mm) Square	1/4" (6.3 mm)	10,000
CNA34	3/4" (19 mm) Square	1/4" (6.3 mm)	1,000
CNA34B	3/4" (19 mm) Square	1/4" (6.3 mm)	5,000

Minimum order: 1 roll. Sizes can be combined for quantity pricing.

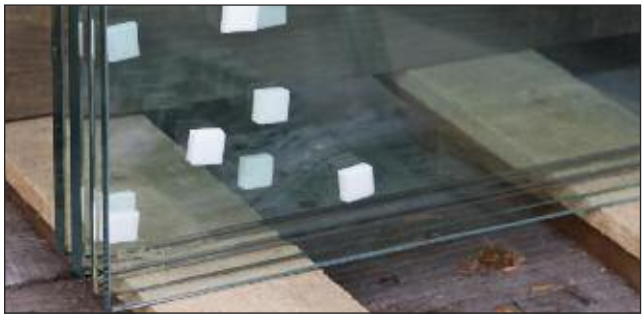

CRL Foam No-Adhesive Shipping Pads

- **Adhesion by Static Electricity**
- **No Adhesive to Clean Up**

CRL Foam No-Adhesive Shipping Pads attach themselves to glass by static electricity. This eliminates many problems caused by the adhesives on normal shipping pads, such as adhesive residue cleanup, adhesive staining, and the limited shelf life of some adhesives. They are even reusable if kept clean! Foam Pads come 1,000 per roll. Economical bulk rolls for volume users contain either 5,000 pads in the 3/4" (19 mm) square size, or 10,000 pads in the 1/2" (12.7 mm) size on release paper rolls.

CAT. NO.	PAD SIZE	THICKNESS	PADS/ROLL
NAP12	1/2" (12.7 mm) Square	1/4" (6.3 mm)	1,000
NAP12B	1/2" (12.7 mm) Square	1/4" (6.3 mm)	10,000
NAP34	3/4" (19 mm) Square	1/4" (6.3 mm)	1,000
NAP34B	3/4" (19 mm) Square	1/4" (6.3 mm)	5,000

Minimum order: 1 roll. Sizes can be combined for quantity pricing.

CRL GLASS PROTECTORS

CRL Felt Glass Protectors

- Easy to Apply
- Helps Prevent Breakage
- Protects Glass From Scratches

Used to separate glass during shipping or storage, these high density CRL Felt Glass Protectors have an adhesive backing that holds them to the glass. This prevents scratches or breakage that sometimes occurs when two glass surfaces come in contact with each other. They are easy to apply and remove.

CRL Felt Glass Protectors can also be used on the base of objects such as vases, statuettes or ashtrays to keep them from scratching glass table tops. Green in color, they come on rolls of release paper for easy application. They are also available in other colors such as, black, white, brown, gray, blue, red, or yellow in quantities of 100,000 or more.

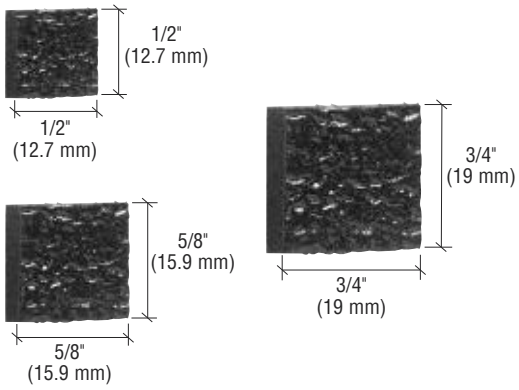

CAT. NO.	DIAMETER	THICKNESS	PADS/ROLL
FGP126	1/2" (12.7 mm)	1/16" (1.6 mm)	1,000
FGP128	1/2" (12.7 mm)	1/8" (3.2 mm)	1,000
FGP346	3/4" (19 mm)	1/16" (1.6 mm)	1,000
FGP348	3/4" (19 mm)	1/8" (3.2 mm)	1,000

Minimum order: 1 roll. Sizes can be combined for quantity pricing.

CRL Pebbled No-Adhesive Shipping Pads

- Heavy Density 25 Pound Pebbled PVC on a Cling Foam Backing
- No Sticky Residue Left After Removal Means No Clean Up

CRL Pebbled No-Adhesive Shipping Pads are a heavy density, 25 pound pebbled PVC laminated to a special cling foam. Since there's no adhesive, there's no residue, making clean up unnecessary. They are non-marking on glass, and can be reused in extremely clean conditions.

CAT. NO.	PAD SIZE	THICKNESS	PADS/ROLL
PNA12B	1/2" (12.7 mm) Square	1/4" (6.3 mm)	10,000
PNA58B	5/8" (15.9 mm) Square	1/4" (6.3 mm)	5,000
PNA34B	3/4" (19 mm) Square	1/4" (6.3 mm)	5,000

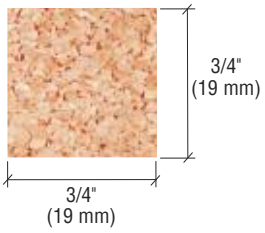

Minimum order: 1 roll. Sizes can be combined for quantity pricing.

CRL Cork Tabs on a Roll

- Cork Pads With a Low Tack Adhesive
- Ideal for Mirror or Tempering Lines

These CRL Cork Tabs on a Roll are great for fabricators, distributors, glass shops or for any of your production needs. With thorough testing and industry feedback, we have found that these low-tack adhesive pads are a popular and reliable size. There are 3,000 pads per roll. Other sizes and types are available on special order.

CAT. NO.	PAD SIZE	THICKNESS	PADS/ROLL
CSP34X132	3/4" (19 mm) Square	1/32" (0.8 mm)	3,000

CRL and Sprayway, an Alliance of Two Industry Leaders Bringing You the Best in Glass Cleaners

- CRL is Sprayway's Master Distributor to the Glass Industry
- CRL's Glass Cleaners are Manufactured Exclusively for Distribution Through the Glass Industry
- All Glass Cleaners Come in Cases of Twelve Big 19 Ounce (539 g) Cans

All Are Also Available With Your Logo or Private Label (See Below)

NEW Comfort-Use Finger Pad Nozzle for S50, 1973, and 2000 Glass Cleaners

Four Powerful Glass Cleaners to Fit Every Need

CAT. NO. S50

- Ammonia-Free
- Spray and Wipe Clean
- Fast Evaporation

CRL S50 is Sprayway's leading glass cleaner, and has the CRL logo on the same 19 ounce can that you are familiar with. It has a fast evaporation rate, which keeps it from leaving a film and adversely interacting with other materials. Minimum order is one case.

CAT. NO. 1973

- A Long Time Favorite of the Glass Industry
- Low-Ammoniated
- Pleasant Aroma

CRL 1973 Glass Cleaner, a long time favorite of CRL customers, is a low-ammoniated glass cleaner packaged in a new, easier-to-handle 19 ounce can. The same effective cleaning agents and pleasant aroma remain, with the added feature of Sprayway's logo. Minimum order is one case.

CAT. NO. 3371100

- Industrial Strength Cleaner
- Won't Leave Streaks, Blurs or Rainbows

CRL Hi-SHEEN® Glass Cleaner has been faithfully cleaning commercial and residential glass since 1970. It's dependable, no-nonsense aerosol formula is the reason, year after year, Hi-SHEEN® is always a popular product! Minimum order is one case.

CAT. NO. CRL18X

- Our Best All Purpose Glass Cleaner for Around the House
- Extra Strong Ammonia-Free Formula for Really Tough Cleaning Jobs

Use extra strong, ammonia-free CRL18X Cleaner on glass, mirror, porcelain, enamel surfaces, ceramic tile, aluminum, brass, and chrome. Excellent for really tough cleaning problems around the house or on the job site. Large 19 ounce cans include the CRL and Sprayway names known throughout the industry for quality cleaning performance. Minimum order is one case.

CRL Logo Label and Private Label Aerosols

- You Can Now Get Any of the CRL-Sprayway Glass Cleaners and Other Quality Aerosol Products With Your Company's Name and Logo Right on the Can

CRL Logo Label Program

- 40 Case Minimum Order (12 Cans Per Case)
- Choose from Many of Our Most Popular Formulations, Including S50, 1973, and Hi-SHEEN® Glass Cleaners
- Freight Paid to Any Location in the Continental U.S.

The CRL Logo Label Program uses our label templates with designated areas for your company's name or logo, address, and product name. Packaged in one to two color UV coated labeled cans and shipped in white custom stenciled boxes. We can manufacture and ship your first order in approximately four weeks from the date your input is received at the packaging plant. Call CRL Customer Service at (800) 421-6144 for details and pricing for this unique service.

CRL Private Label Program

- 60 Case Minimum Order (12 Cans Per Case)
- Choose from Many of Our Fine Formulations, Including S50, 1973, and Hi-SHEEN® Glass Cleaners
- Freight Paid to Any Location in the Continental U.S.

CRL's Private Label Program lets you choose from one to four color UV coated labeled cans that ship in white custom stenciled boxes. Design your labels within our guidelines for that custom look. Your aerosols will ship to you in oyster white custom stenciled boxes. First orders take approximately six weeks, and re-orders can ship within 10 to 15 business days.

CRL Bio-Clean Water Stain Remover

MSDS

- **Effectively Removes Water and Mineral Stains, Rust, Tree Sap, Paint Overspray, Soap Scum, and Mildew From Glass and Other Surfaces**
- **Works Great On: Shower Doors, Windows, Glass Surfaces, Tile, Fiberglass, Windshields, Chrome, Porcelain, Corian®, Anodized Brass and Aluminum, Stainless Steel, and Hard Vinyl**

CRL Bio-Clean is a professional strength cleaner recommended by both glazing contractors and professional window cleaning companies. It is successfully used in hospitals, nursing homes, manufacturing plants, hotels, supermarkets, and other public facilities with difficult to clean surfaces. **NOTE:** Do not use on surfaces that can be harmed by the use of a mild abrasive.

Apply CRL Bio-Clean directly onto surface or on a cloth, sponge, brush or electric buffer. Press firmly to loosen stain with a rubbing action, and then just rinse with water until residue free. Dry with cloth or paper towel. It can be reapplied as needed until surface is sparkling clean. On severely stained shower doors use a non-scratch pad. On tile and porcelain use a Cat. No. SB7447F Scotch Brite Pad.

CAT. NO.	CONTENTS	QTY/CASE
WSR1	16 Fl. Oz. (473 ml)	12
WSR1P	5 Pouches	1

Minimum order: 1 each of WSR1 and 1 pack of WSR1P.

CAT. NO. WSR1
16 Fl. Oz. (473 ml)

- **Removes Stage One Corrosion Quickly**

Stage One Corrosion is defined as glass with light corrosion, and little or no damage to the glass. Stage Two Corrosion occurs when the deposits are no longer on the surface of the glass, but have started to break down the molecular structure of the glass, leaving an etched or white haze on the glass after the stain has been removed. CRL Bio-Clean Water Stain Remover will not repair glass with Stage Two Corrosion.

CRL Bio-Clean Water Stain Remover Pouches

- **Five Sample Pouches Per Pack**

CRL Bio-Clean Water Stain Remover Pouches keep your customers coming back. Leave one or two pouches with your customer after each beautiful frameless shower door installation. Once they see how well CRL Bio-Clean removes soap scum and water stains, they will be ordering 16 fluid ounce (473 ml) bottles from you. Works well in combination with CRL TPC16 Surface Protector (see page 520J).

CAT. NO. WSR1P

CRL A-Maz Water Stain Remover

MSDS

- **Removes the Toughest Stains**
- **Contains No Acids, Bleach, or Chlorides**
- **Includes Nylon Scrub Pad**

CRL A-Maz Water Stain Remover removes the toughest stains on glass, chrome, porcelain, fiberglass, metal, tile - water stains, mineral deposits, and sealant stains. It can also be used on all types of bathroom surfaces to remove lime scale, oxidation, and soap scum. A nylon pad is provided with product. Pad measures approximately 6" x 3-1/2" x 1" (152 x 89 x 25 mm) Net Weight: 14 oz. (396 grams). Minumum order is one each. **NOTE:** Do not use on surfaces that can be harmed by the use of a mild abrasive.

CAT. NO. 3379520
14 Fl. Oz. (396 g)

CRL TPC Surface Protector

MSDS NO AIR FREIGHT

- Transparent Polymer Coating
- Water, Soil, and Stain Repellant
- Protects Glass and Many Other Surfaces

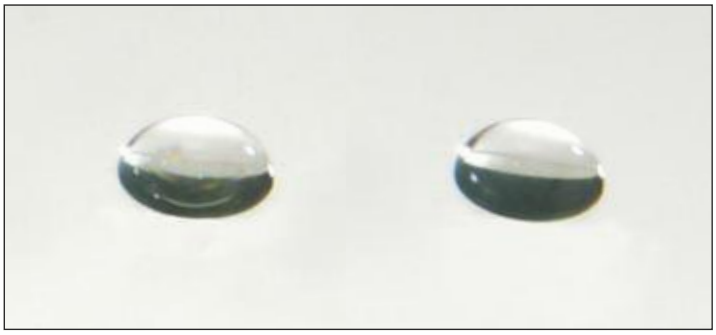

CAT. NO. TPC16

CRL TPC Surface Protector will actually seal the pores of glass, porcelain, ceramic, plastics, polished metals, fiberglass, and marble to make the surface water, soil, and stain resistant. The clear coating guards against the adhesion and build-up of dirt, grime, mold, mildew, rust, and mineral deposits. Environmentally friendly and non-toxic, CRL TPC Surface Protector permits the practice of preventive cleaning and maintenance, reducing costly cleaning, repairs, and replacement. One fluid ounce protects approximately 15 square feet (1.4 meters square) of glass. Also available in 55 gallon (208 l) drums on special order.

UNTREATED GLASS

Water does not "bead" on glass. Dirt sticks to water that dries on the glass and leaves stains.

TREATED GLASS

Water "beads" up on sealed, polished glass and easily runs off, taking any dirt with it.

CRL TPC Surface Protector Towelettes

new

- Sample Pouches
- Five Towelettes Per Pack

CRL TPC Surface Protector Towelettes keep your customers coming back. Leave one or two with your customer after each beautiful frameless shower door installation. Once they see how well CRL TPC Surface Protector keeps their new glass clean, they will be ordering 16 fl. oz. (473 ml) bottles from you. Works well in combination with CRL Bio-Clean Water Stain Remover (see page 519J).

CAT. NO. TPC16P

Visit our web site, **crlaurence.com**, for Application Tips and Most Common Uses. Also Protects Sand-Blasted Glass

CRL "Sparkle" Cleaner and Stain Remover

- Cleans Light Water Stains From Glass
- Removes Soap Scum From Shower Doors
- A Longtime Favorite

CRL "Sparkle" Cleaner does those glass cleaning jobs too tough for spray-on cleaners. It removes light water spots and stains in glass caused by weather, sea air, or pollution; also removes soap scum from shower doors and ceramic tile. Wipe on with a damp cloth or paper towel, rub stained areas, then wipe off.

CRL Sprayway Crazy Clean All Purpose Cleaner

- All Purpose Cleaner that Cleans and Deodorizes
- Great on Smooth Finishes

MSDS

NO AIR FREIGHT

Great for all washable and painted surfaces, window sills, venetian blinds, and all porcelain and tile surfaces. Excellent for removing dirty hand prints from walls and doors, scuff marks on floors, crayon and grease spots, soot and smoke film. Also suitable for bathtubs, washbowls, toilet bowls, kitchen sinks, cabinets, stoves, and refrigerators. For best results, spray a small area until wet, let stand for several seconds, wipe off with a clean dry cloth, then rinse if desired. When using on plastic seat covers or plastic tile, rinse with a clean damp cloth.

CRL Alumin-Nu Metal Cleaner

- For Use On Aluminum, Brass, Copper, Nickel, Chromium, Stainless Steel, and All Bright Metals
- Ideal for Removing Heavy Oxidation
- Leaves No Residue

This concentrated liquid restores metal to its original finish. It is a proven metal cleaner and polish for aluminum, copper, brass, bronze, nickel, chromium, and stainless steel. CRL Alumin-Nu not only cleans flat or extruded sections of metal, it is also used to clean metal plaques and relief work because it does not leave any residue in crevices. It dissolves accumulations of abrasives and grime that have been deposited by ordinary metal polishes. After the surface has been cleaned, a protective film remains which retards discoloration. Alumin-Nu applies easily with a soft cloth, and a little goes a long way.

CRL Autosol® Shine Metal Cleaner

- Cleans and Conditions in a Single Treatment
- Produces a Brilliant Gloss
- Low Ammonia Content

Ideal for all chrome, aluminum, stainless steel, brass, copper, gold, pewter, platinum, silver, and tin, as well as fiberglass, ceramic, and certain painted surfaces. Mild abrasives help to remove built-up tarnish, oxidation, and even rust, leaving behind a protective coating which helps to condition the metal and protect against corrosion while providing a longer lasting shine. Contains an extremely low ammonia content. Other brands with higher concentrations of ammonia can cause long term damage to metals, resulting in premature stress corrosion cracking. **NOTE:** Not suitable for anodized aluminum and fine silver.

CRL Lint Free Glass Wipes

- New, Convenient Pop-Up Dispenser Box
- Strong, Four-Ply White Paper Wipes are Virtually Lint Free
- Reinforced Nylon Scrim in Both Directions so They Work Great Wet or Dry

- Six Pop-Up Boxes in Each Case

CAT. NO. 1550
900 Wipes Per Case

CAT. NO. BX15
150 Wipes Per Box

Extra-tough CRL Lint Free Glass Wipes bring the absorbing power you need in a lighter weight material that's reinforced with a nylon scrim for extra strength. The ripple texture makes them easy to hold during use, and provides just the right amount of surface area for cleaning solutions to do their work.

CRL Lint Free Glass Wipes have no adhesives or binders so they leave nothing behind except clean, lint free surfaces. Besides glass, they are ideal for your most demanding shop clean up tasks.

CRL Lint Free Glass Wipes measure a big 16-1/2" x 9-3/4" (419 x 248 mm). Each case has six pop-up boxes containing 150 wipes each for a total of 900 wipes per case.

CAT. NO.	DESCRIPTION
1550	Case of 900 Wipes
BX15	Box of 150 Wipes

Minimum order: 1 case of 1550; 1 box of BX15.

CRL Lint Free Glass Wipes Dispenser Bracket

- Positions Pop-Up Boxes of 1550 and BX15 Wipes Right Where You Need Them

Mount the K73900 Dispenser Bracket to walls or work benches for quick and easy pull-down dispensing of our 1550 and BX15 Lint Free Glass Wipes. Mounting screws, wall anchors, and double face tape patches are included. After attaching the bracket, simply press the perforated edge of the Wipe box against the two forks to mount. Minimum order is one each.

CRL Cross-Line Self Leveling Laser Kit

new

- Self-Leveling Within 3 Degrees, 49' (15 meter) Range
- Vertical Line, Horizontal Line, or Both
- Locking Mechanism Blocks Self Leveling and Locks Display

The CRL LD200 Cross-Line Self Leveling Laser Kit allows you to cast a vertical or horizontal solid line, or both at the same time. When the device is tipped beyond 3 degrees, the laser will begin flashing and an audio alarm will sound. This kit also includes: three AA batteries, a 1/4-20 threaded mounting hole for use with tripods, a 360 degree swivel mount, a magnetic wall mount, a laser target (to extend useful range), and a rugged nylon storage bag. Minimum order is one each.

CAT. NO. LD200

CRL Standard Spot Laser Tool

- Establishes Plumb and Level
- Projects Laser Beams 3 Ways

PLS3 LASER SPECIFICATIONS:
Working Range: +/- 100 Feet
Accuracy: 1/4" @ 100 Feet
Leveling: Automatic
Leveling Range: +/- 6°
Dimensions: 1-1/2" x 4-1/2" x 3-1/8"

The CRL Standard Spot Laser Tool gives you the convenience of a torpedo level with the quality of information available only from a professional point-to-point laser. Three bright laser points allow the PLS3 to be used anywhere on the job site for level reference and point-to-point plumb from floor to ceiling, or from up to 50 feet (15.2 m) off the ground. Weighing only 12 ounces (.33 kg), this hand held unit operates on three AA batteries (not included) for up to 30 hours. It comes with a Leather Carrying Pouch, Operating Manual, and full one-year manufacturer's warranty. Minimum order is one each.

CAT. NO. PLS3

CRL Deluxe Spot Laser Tool

- Establishes Plumb, Level, and Square
- Projects Laser Beams 5 Ways

PLS5 LASER SPECIFICATIONS:
Working Range: +/- 100 Feet
Accuracy: 1/8" @ 100 Feet
Leveling: Automatic
Leveling Range: +/- 8°
Dimensions: 1-1/2" x 4-1/2" x 3-1/8"

The CRL Deluxe Spot Laser Tool provides simultaneous plumb, level, and square references in a compact, accurate, and affordable package. True point-to-point alignment information speeds layout and installation of curtainwalls, doors, windows, and skylights. Five bright reference points are easily seen indoors or out, and the unit is powered by three AA batteries (not included). It comes complete with Floor Mount, Magnetic Wall Mount, Layout Targets, Carrying Case, Operating Manual, and full one-year manufacturer's warranty. Minimum order is one each.

CAT. NO. PLS5

CRL Prexiso® X2 Laser Distance Measurer

- Measures to 100' (30.5 m) With Accuracy of 1/8" (3.2 mm) or Better
- Measures Distances, Areas, and Volumes for Material Estimates

This CRL Prexiso® X2 Laser Distance Measurer will measure distances in feet-inches, inches or meters from 4" to 100' (0.1 m to 30.5 m). It is accurate to 1/8" (3.2 mm) or better over the entire range. This unit is designed for indoor and limited outdoor applications while being able to measure and calculate areas and volumes. Minimum order is one each.

CAT. NO. 3350

CRL Stanley® Levels

- Professional Quality
- Aluminum Construction

All Stanley® Levels are constructed from heavy-duty aluminum. They all have a level accuracy of 0.0005" (.01 mm). The vials are made from a unique acrylic block design to greatly increase their impact resistance and ensure maximum accuracy. The "Torpedo" model has a powerful magnetic strip on the base which allows for "hands-free" operation, and holds the Level securely to all iron and steel surfaces.

CAT. NO.	DESCRIPTION	LENGTH
ST42465	Magnetic Torpedo Level	9" (229 mm)
ST43524	FatMax® Level	24" (609 mm)
ST43548	FatMax® Level	48" (1219 mm)

CRL Plumb Perfect Level®

new

- Take "Out-of-Plumb" or Level Measurements Quick and Accurate
- No More Guessing With Standard Levels
- Stop Scraping Glass That Doesn't Fit
- Two Sizes Available

The CRL Plumb Perfect Level® was invented by a glazier who was looking for an easy method of establishing the distance a wall is "out-of-plumb" from top to bottom. This figure is necessary for many types of installations, especially when laying out storefront and shower projects. The end design is a simple, "one-person" tool that can be quickly extended to the correct height, trued to plumb, and then with a twist of the scale locking knob you can extend the scale to read the distance "out-of-plumb" the wall is from top to bottom.

The CRL Plumb Perfect Level® is an expandable aluminum frame with a built-in level, plus a calibrated steel scale which protrudes horizontally. Frames have a minimum height of 24" or 56" (610 or 1422 mm) and a maximum extended height of 42" or 98" (1066 or 2489 mm) to fit most common install jobs. These accurate and durable tools will save time and money during each installation.

PPL98 Shown

Vertical Bubble Vial Level

Horizontal Bubble Vial Level

Long Extension Lock and Horizontal Scale

CAT. NO.	DESCRIPTION
PPL42	Expands 24"- 42" (610-1066 mm)
PPL98	Expands 56"- 98" (1422-2489 mm)

Minimum order: 1 each.

CRL Electronic Level and Angle Locater With Digital Display

- Front Laser Beam for Quick Transference of Reference Points
- LCD Screen Automatically Inverts for Overhead Measurements
- LCD Displays Level or Angle
- Audible Indicator for Both 0 and 90 Degrees

The CRL Electronic Level is the most advanced level and angle finder in the industry. The bright and clear LCD indicator shows both degrees of level or percent of level; at the same time when the pivot arm is lifted the indicator reads degrees of angle. When turned upside down to determine the level of a header or overhead beam, the LCD screen automatically inverts right-side-up for easy reading. There is a powerful built-in laser, which makes transference of level points a snap. It also features an audible tone when the unit is in perfect level or plumb. Unit is easily field calibrated for level, and the entire tool operates on just 3 "AA" batteries (included). Minimum order is one each.

CAT. NO. 406065

How-To-Do-It

A Winning Combination-Use your 406065 Electronic Level and Angle Locator with your CRL Cat. No. CM6 Construction Master® Pro Calculator to solve difficult "out-of-square" measurements. Complete detailed instructions can be found on the CRL web site. Just hit the "How To Do It" icon to view step-by-step instructions when you are viewing 406065 online.

CAT. NO. CM6

CRL Plumb/Level Finder Gauges

- Use With Your Level to Determine "Out-of-Plumb"
- Five Individual Thickness Gauges

This handy set of CRL Plumb/Level Finder Gauges makes it simple to determine the amount or distance a wall or floor is "out-of-plumb" when using your bubble vial level. Set includes: 1/16", 1/8", 3/16", 1/4" and 3/8" (1.6, 3.2, 4.8, 6.4 and 9.5 mm) thick neoprene gauges. Simply hold the level tight against a horizontal or vertical surface. True the level and then use the thickness gauges to determine the amount out of level or plumb the surface is at that point. You can combine gauges when necessary for gaps exceeding 3/8" (9.5 mm). Minimum order is one each.

CRL Super Shim Shower Door Leveler

- Easy Adjustable Micro Leveling
- Eliminates Stacks of Wood or Plastic Shims
- Works With 3/8" or 1/2" (9.5 or 12.7 mm) Thick Tempered Glass Doors

The CRL Super Shim Shower Door Leveler is a remarkably simple device that every shower door installer will want in their tool box. The Super Shim is a micro adjustment device which will lift and level any shower door, ensuring a precise alignment every time.

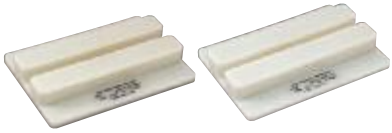

The CRL Super Shim lifts the door panel by way of a threaded adjustment bolt: Turn the bolt clockwise and raise the panel. When used in conjunction with a level the CRL Super Shim will eliminate the phrase "close enough" from every shower door installer's vocabulary. Now every door installation will be a perfect fit.

The CRL Super Shim is manufactured with non-slip materials which prevent damage to tile or glass, while still allowing smooth movement where necessary. Ratchet wrench included. Minimum order is one pair.

CAT. NO. SS2L

CRL Frameless Blocks

- Use With 3/8" (10 mm) and 1/2" (12 mm) Thick Glass to Assist in Aligning and Leveling

CRL Frameless Blocks are used to help with the installation of 3/8" (10 mm) and 1/2" (12 mm) frameless shower doors and panels. You can set your door and panels in the blocks to assist in plumbing, aligning, and leveling your glass. Adjust your height by adding setting blocks in the rails. The base is 5/16" (8 mm) thick. The opening size for 3/8" (10 mm) glass is 7/16" (11 mm) wide, and for 1/2" (12 mm) glass the opening is 9/16" (14 mm).

Frameless Blocks help to avoid chipping, flaking, and breakage while helping to reduce installation time. Your installers will appreciate all of these features, as well as added safety. They can also be used to help with the installation of 3/8" (10 mm) and 1/2" (12 mm) commercial storefront doors and panels.

CAT. NO.	FOR USE WITH
FB38G	3/8" (10 mm) Glass
FB12G	1/2" (12 mm) Glass

Minimum order: 1 each.

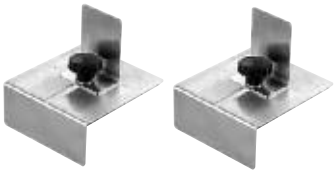

CRL Perfect Reveal Tool

- Establish and Maintain Perfect Reveal Depth
- Easy to Adjust
- Non-Marring Bottom Cushions
- Works For Doors and Fixed Panels

GLAZIER INVENTION

new

The CRL PR2S Perfect Reveal Tool is another glazier designed tool produced by CRL to further aid shower door craftsmen in perfecting their trade. The Perfect Reveal Tool allows the installer to preset and repeat the reveal depth for all panels in any frameless shower enclosure installation. Single knob allows vertical glass stop to be adjusted and set for correct depth. Dimensional scales are etched into the stainless steel body. Non-marring surface gripping cushions on bottom of tool protect the curb from the metal body of the PR2S, and prevents movement or slippage. Sold in pairs. Minimum order is one pair.

CAT. NO. PR2S

CRL Frameless Hinge Jig

- Rapid Mounting of Wall Hinge Plates
- Accurately Mark Hole Locations Without Mounting Hinges on Glass
- Includes Templates for CRL Geneva, Pinnacle, Cologne, and Vienna Series Hinges

GLAZIER INVENTION

new

The Frameless Hinge Jig is the latest in a long line of "glazier inspired" tools that makes the installation of a wall mounted door more rapid and increases the accuracy of the hinge placement. The jig has been designed to accommodate many different wall mount hinge plate designs and, in doing so, acts as a template for marking the wall for drilling holes.

The Frameless Hinge Jig comes equipped with a folding straight edge that supports two adjustable hinge plates used for marking the wall. Minimum order is one each.

CAT. NO. FHJ1

CRL Frameless Assist Shower Door Panel Clamp

GLAZIER INVENTION

new

- Holds Fixed Panels and Doors in Perfect Alignment
- Works With 3/8" to 1/2" (10 to 12 mm) Tempered Glass
- Clear Construction Keeps All Points Visible
- Adjustable for 90˚, 180˚ or "T" Configurations

The CRL Frameless Assist Shower Door Panel Clamp is another in a long line of tools developed by, and for, professional glaziers. This ingenious tool was invented by a detail-oriented CRL customer with a perfectionist's eye. It helps you maintain precise, even spacing in door to fixed panel assemblies, whether in 180 or 90 degree installations.

Tool arrives configured for 3/8" (10 mm) glass. Simply loosen the four rear knobs, insert the 1/8" (3 mm) spacer plate to change over to 1/2" (12 mm) glass. Use in conjuction with Cat. No. MAT1 kit (shown below), for the most precise panel installation ever. Each kit is sold separately. Minimum order is one each.

CAT. NO. FA3W

CRL Magnetic Shower Installation Alignment Tool

GLAZIER INVENTION

new

- Provides Accurate, Consistent Gaps Between Doors and Panels
- Works With 3/8" to 1/2" (10 to 12 mm) Tempered Glass
- All Components are Re-Usable

Developed by a frameless shower door installer with exceptional concern for efficiency and detailed workmanship, the CRL Magnetic Shower Installation Alignment Tool can serve many other butt-glazed glass applications. The tool's two spacer assemblies, placed one at the top and one at the bottom, perform in two planes. First, it works vertically by use of the desired gap size running top to bottom. Secondly, it aligns the two panels horizontally. You can use it in conjunction with our new Frameless Assist Tool and our Super Shim Shower Door Levelers for even faster and more precise installations. Powerful neodymium rare earth magnets maintain the spacer's position. Kit includes a durable utility tool box that organizes all of the kit's components. Minimum order is one each.

CAT. NO. MAT1

CRL "Best Friend" Shower Door Installation Assistant

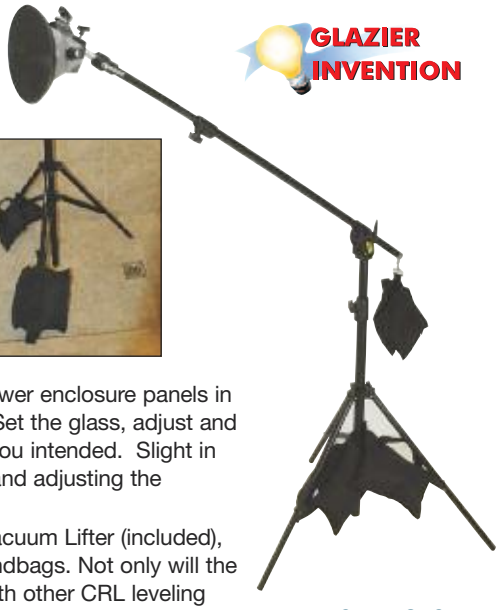

GLAZIER INVENTION

- Replaces Second Person on Many Shower Door Installations
- Adjustable to Any Angle
- Works Inside or Outside of Enclosure

The CRL "Best Friend" Shower Door Installation Assistant works to stabilize and hold shower enclosure panels in place during set-up and installation, permitting a single glazier to perform the work of two. Set the glass, adjust and attach the "Best Friend", and you can be sure of the panel being held in the exact position you intended. Slight in and out adjustment can be accomplished by simply loosening the lock ring on the top arm and adjusting the extension tube.

The CRL "Best Friend" Clamp Head provides a firm grip on the CRL S338 8" (203 mm) Vacuum Lifter (included), and the stand base can be stabilized as needed with the two included 10 pound (4.5 kg) sandbags. Not only will the CRL "Best Friend" help with holding fixed panels and sidelights in place, when combined with other CRL leveling and alignment devices, it can also make hanging the door panel a one person operation. Minimum order is one each.

CAT. NO. SDBF1

CRL Production Diamond Glass Drilling Machine

PROTECT YOUR EYES!

CAT. NO. AMZ1
110V AC Model

CAT. NO. AMZ1AU
230V AC Model

- **Variable Speed, High Torque DC Motor**
- **Drills Holes Faster and More Precisely Than Any Other Portable Glass Drilling Machine**
- **Built-In Water Coolant Chuck**
- **Locking Vacuum Cup Base**
- **Accepts Belgian Thread Diamond Drills 1/8" to 4" (3 to 102 mm) in Diameter**

AMZ1 Features:

- Advanced electronic circuitry
- A powerful DC motor with an electronic variable speed control that provides full torque at all speeds ranging from 0 to 2900 RPM
- Twin vertical guide posts for precise drilling
- A dual locking vacuum cup base keeps the machine steady while drilling

Standard Accessories:

- 12' (3.6 m) Heavy-Duty Power Cord
- Coolant Retaining Ring
- Coolant Chuck With Supply Hose
- Externally Serviceable Motor, Brushes, and Fuse
- Built-in Handle for Easy Carrying
- Service Wrenches
- Complete Operation Manual

The CRL AMZ1 Production Diamond Drilling Machine drills 1/8" to 4" (3 to 102 mm) holes faster and more precisely than any other portable glass drilling machine. In comparison to other machines on the market, drilling a 2" (50.8 mm) hole in 1/4" (6 mm) mirror can be done in less than ten seconds while using a properly dressed drill bit (tests done under controlled conditions).

The CRL AMZ1 ships ready for use with a grounded plug for use with a Ground Fault Circuit Interrupt Device, such as our Cat. No. GF1. It is also loaded with popular features, and durable enough to give you years of dependable service. Make the move up from steel and brass tube drills, and their messy silicon carbide slurry, to our technically advanced Belgian Mount Multi-Layer Metal Bond Drills. Most commonly used with the AMZ1 are the Belgian Mount PDT Series (Metal Bond) and HBT Series (Electro-Formed) Diamond Drills (see pages 532J – 533J).
NOTE: When purchasing the AMZ1 Drill Machine you should also purchase a Sharpening Stone to dress your Metal Bond Diamond Drills. The stone should be wider than the diameter of the drill being sharpened. Sharpening Stones are located on page 534J.

Electronic Variable Speed Control

Center Fed Coolant Chuck

Depth Indicator (A) and
Twin Vertical Guide Posts (B)

Locking Rubber Vacuum Cup Base

Optional Accessories

Optional Straight Shank
Conversion Collet
CAT. NO. AMZ229

Optional Base Ring With Drain Tube
CAT. NO. AMZ228

Optional Coolant Supply Pressure Tank
CAT. NO. AMZ200

Accepts Threaded Belgian
Mount Drills, Countersinks,
and Spot Facers

PRODUCTION DRILLING MACHINE AND ACCESSORIES

CAT. NO.	DESCRIPTION
AMZ1	Drilling Machine 110V AC
AMZ1AU	Drilling Machine 230V AC
AMZ200	Optional Coolant Pressure Tank
AMZ228	Base Ring With Drain Tube
AMZ229	Conversion Collet for Straight Shank Drills

Minimum order: 1 each.

REPLACEMENT PARTS FOR AMZ1 DRILLING MACHINE

CAT. NO.	DESCRIPTION
AMZ205	Spindle With Drill Chuck
AMZ213	Replacement 10 x 6 mm Brush
AMZ214	Two Motor Brushes 8 x 7 mm
AMZ215	Replacement 250-Volt 7amp Fuse
AMZ226	Replacement Circuit Board
AMZ227	Replacement Motor

Minimum order: 1 each.

CRL Tripod Glass Drilling Machine

CAT. NO. CRL2

- Our Best Selling Drill Machine
- For Use With Diamond, Steel or Brass Tube Drills, as Well as Spearpoint and Prismatic Drills
- Heavy-Duty, 4 AMP Variable Speed Motor With Ball-Type Thrust Bearings
- Variable Speed Adjustment Up to 1,300 RPM
- Dual Adjustment System for Quick and Micro-Depth Adjustments to Reduce Chipping of the Glass
- Self-Drilling Design Eliminates the Need for Operator Applied Pressure
- Lubricated Sealed Bearings to Reduce Maintenance Costs
- Non-Skid Rubber Leg Caps Add Stability and Minimize Vibration
- Compound Action Handle for Easy Lifting

Years of experience in the sales and service of glass machinery, combined with extensive market research, has enabled C.R. Laurence to develop a superior piece of equipment to fill the glass drilling needs of the glass business. The CRL Tripod Glass Drilling Machine is the most widely used machine in the industry.

It is completely portable so it can be used at the shop or on the job site. It plugs into any 110V AC circuit. The drill can easily be positioned directly over any area to be drilled. The non-skid rubber leg caps hold the machine firmly to the drilling surface. It has a heavy-duty motor with a 3/8" (9.5 mm) ball bearing supported chuck to eliminate wobble.

Quick adjustment pre-sets the desired drilling depth slightly less than the thickness of the glass, stopping within a fraction of an inch of the bottom surface so that the last little bit may be drilled slowly to reduce chipping of the glass. This is extremely important when drilling mirrors.

Variable speed adjustment allows for use with most Tube Drills (Brass, Steel or Diamond Types) along with Spearpoint Drills. Our Prismatic Carbide Tipped Drills can only be used at a reduced speed. The CRL2 comes complete with a chuck key and eight foot (2.4 m) power cord.

Heavy-Duty 3/8" (9.5 mm) Chuck

Accepts Drills Up to 6" (152 mm) in Diameter

Works with Diamond, Brass, Steel, Spearpoint, and Prismatic Glass Drills

Fast and Easy Micro-Depth Adjustment System Ensures Minimal Breakouts

Cat. No. CRL2DK Starter Kit. See **crlaurence.com** for details.

NOTE: We recommend using our Cat. No. GF1 Ground Fault Circuit Interrupt Device (see page 535J).

TRIPOD GLASS DRILLING MACHINE

CAT. NO.	DESCRIPTION
CRL2	110 Volt Tripod Glass Drilling Machine
EU3	230 Volt Tripod Glass Drilling Machine-European Plug
AU3	230 Volt Tripod Glass Drilling Machine-Australian Plug

REPLACEMENT PARTS

CAT. NO.	DESCRIPTION
CRL2MB*	1/4" x 5/16" (6 x 7 mm) Replacement Motor Brushes
869734#	1/4" x 1/4" (6 x 6 mm) Replacement Motor Brushes
DMP103	Replacement Motor for CRL2
DMP110	Replacement Chuck Key
DMP112	Replacement Guide Roller Bearings
DMP115	Replacement Non-Skid Rubber Leg Cap
DMP141	Replacement Switch

Minimum order: 1 each. *CAT. NO. CRL2MB fits motors with black plastic holder surrounding a brass tube on three sides. # CAT. NO. 869734 fits motors with all brass holders. Brushes sold two per pack.

CRL Swivel Drill Machine

- **Drills Outlet Cut-Outs Without Repositioning**
- **Built-in Retaining Ring**

This unique Drilling Machine was designed primarily to make cut-outs for plug and switch receptacles. The CRL Swivel Drill Machine has a suction cup base that also acts as a coolant retainer when drilling with Diamond Tube Drills. Drill the first hole, insert the rubber plug, swivel drill head, and then drill the second hole.

It can also be used for drilling larger holes with tube drills up to 6" (152 mm) in diameter. The drill head has the unique ability to swing a full 360 degrees so drilling up close to the glass edge is made easy. This also lets you use larger diameter drills than will fit in the built-in retaining ring. The machine is powered by a 1000 RPM, 110V AC motor. **NOTE:** Always wear the proper safety gear when using any type of power tool. A Cat. No. GF1 Ground Fault Circuit Interrupt Device should be used with any type of wet-working electric tool (see page 535J).

For Diamond Tool Coolant see page 534J

Drill first hole, swivel head, and then drill the second hole

Swivel the head to one side for drilling larger holes up to 6" (152 mm)

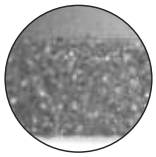

CAT. NO.	DESCRIPTION
SDM4	Swivel Drill Machine
SDM03G	Replacement Coolant Ring

Minimum order: 1 each.

CRL Standard Plated Diamond Drills

- **Durable and Cost Efficient**
- **Smooth Continuous Rim**
- **For Tripod and Cup-Type Drilling Machines**

CRL EDD Series Standard Plated Diamond Drills were designed for a cost effective method of drilling, and are our most popular and economically priced drill. The sturdy solid steel construction allows quick hole drilling with clean break-outs. The 3/8" (9.5 mm) diameter shank allows for a sure fit into any drill machine.

Magnified View of Diamond Crystals

Straight Shank EDD Drill

CAT. NO.	DIAMETER	RPM RANGE
EDD2	2" (50.8 mm)	1100-1400
EDD214	2-1/4" (57.2 mm)	900-1100

Minimum order: 1 each. All CRL Diamond Drills can be combined for quantity pricing.

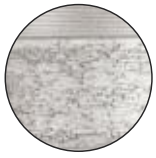

For our complete line of CRL "EDD" Series Drills, refer to the CRL73R Catalog, or go to **crlaurence.com** and enter EDD DRILLS in the Search Box.

CRL Electro-Formed Diamond Drills

- **For Fast Cutting, High Production Runs**

CRL DCD and HBT Series Electro-Formed Diamond Drills have a thin wall with a 1/2" (12.7 mm) deep multi-layer of diamonds and bonding matrix. These drills are designed for high speed, high production drilling, and produce outstanding results when exacting conditions are met.

Due to the fragile nature of these types of drills, they should only be used in a precision machine, never allowing too much pressure to be applied. It is important to handle these types of diamond drills with care and use on flat surfaces only. Periodic sharpening or "dressing" of these drills will substantially increase their cutting capabilities. For our complete line of CRL PDSS Series Sharpening Stones refer to page 534J.

Magnified View of Diamond Crystals

Straight Shank DCD Drill

Belgian Thread HBT Drill

DCD STRAIGHT SHANK DRILLS

CAT. NO.	DIAMETER	RPM RANGE
DCD2	2" (50.8 mm)	1200

For our complete line of CRL "DCD" and "HBT" Series Drills, refer to the CRL73R Catalog, or go to **crlaurence.com** and enter DCD DRILLS or HBT DRILLS in the Search Box.

HBT BELGIAN THREAD DRILLS

CAT. NO.	DIAMETER	RPM RANGE
HBT2	2" (50.8 mm)	1500-2300
HBT214	2-1/4" (57.2 mm)	1300-2000

Minimum order: 1 each. All CRL Diamond Drills can be combined for quantity pricing.

CRL Amazing Glazing Metal Bond Diamond Drills

CRL PD and PDT Series Metal Bond Diamond Drills use a special diamond and brass bond for maximum performance in glass. Metal Bond Drills offer the greatest life, yielding 1000 to 2000 holes in 1/4" (6 mm) glass, with proper maintenance and the use of a wet Sharpening Stone to expose fresh diamonds. These multi-layer drills cut faster and run cooler than any other drill on the market. They have a full 3/8" (9.5 mm) deep cutting surface filled with diamonds and bronze bond, which allows for long drill life, but also makes this style drill more fragile. They should always be used in true running machines on flat glass surfaces.

- **Straight Shank and Belgian Thread Type**
- **Designed for High Volume Glass Fabrication**
- **A Full 3/8" (9.5 mm) of Diamond Matrix Depth**

Magnified View of Diamond Crystals

PD STRAIGHT SHANK DRILLS

CAT. NO.	DIAMETER	RPM RANGE
PD2	2" (50.8 mm)	2250-2750
PD214	2-1/4" (57.2 mm)	1750-2250

Minimum order: 1 each. All CRL Diamond Drills can be combined for quantity pricing.

PDT BELGIAN THREAD DRILLS

CAT. NO.	DIAMETER	RPM RANGE
PDT2	2" (50.8 mm)	2250-2750
PDT214	2-1/4" (57.2 mm)	1750-2250

Minimum order: 1 each. All CRL Diamond Drills can be combined for quantity pricing.

For our complete line of CRL "PD" and "PDT" Series Drills, refer to the CRL73R Catalog, or go to **crlaurence.com** and enter PD DRILLS or PDT DRILLS in the Search Box.

CRL Amazing Glazing Plated Diamond Drills

- **Unique Aggressive Sawtooth Profile**
- **Our Most Durable Style Drill**

CRL Amazing Glazing Plated Diamond Drills are perfect for use in portable tripod and cup style machines. With their special sawtooth design, these drills tend to be more aggressive than others. Use with CRL Diamond Tool Coolant in conjunction with a retaining ring for best results.

CAT. NO.	DIAMETER	RPM RANGE
AG2	2" (50.8 mm)	1100-1400
AG214	2-1/4" (57.2 mm)	900-1100

Minimum order: 1 each. All CRL Diamond Drills can be combined for quantity pricing.

For our complete line of CRL "AG" Series Drills, refer to the CRL73R Catalog, or go to **crlaurence.com** and enter AG DRILLS in the Search Box.

CRL Amazing Glazing Drill Adapter

- **Allows Use of Belgian Thread Drills in a Standard Drill Chuck**

Typical Belgian Thread Drill

The CRL Drill Adapter allows you to use a Belgian Thread Drill in a shank (straight jaw) type machine. The CRL ADTS Adapter threads onto a Belgian Type Drill leaving you a 3/8" (9.5 mm) diameter straight shank to fit into the jaws of your drill machine's chuck. Minimum order is one each.

CAT. NO. ADTS

CRL Short Run Plated Diamond Drills

- **For Lower Production Drilling Requirements**
- **Single Layer Diamond Impregnation for Savings**

The CRL Short Run Diamond Drill is made with the same process as the CRL Standard Plated Drill, but with less diamonds per drill. This CRL Drill is a good choice for special jobs that do not require a large number of holes. CRL Short Run Plated Diamond Drills should always be used with CRL Diamond Tool Coolant and a retaining ring. Great for one time projects.

CAT. NO.	DIAMETER	RPM RANGE
SRDD2	2" (50.8 mm)	1100-1400

Minimum order: 1 each. All CRL Diamond Drills can be combined for quantity pricing.

For our complete line of CRL "SRD" Series Drills, refer to the CRL73R Catalog, or go to **crlaurence.com** and enter SRDD DRILLS in the Search Box.

CRL Mini Water/Coolant Adapter

- **Allows the Use of High Yield Metal Bond Belgium Thread Drills in Your Existing Drill Machine**

Add efficiency to your tripod, vacuum cup type or industrial drill press with the CRL Mini Water/Coolant Adapter. The 3/8" (9.5 mm) straight shank fits most drill machines. A 6-1/4" (159 mm) minimum clearance is required from the end of your drill chuck to the actual drilling surface. Always use with a Ground Fault Circuit Interrupt Device (Cat. No. GF1 on page 535J). Minimum order is one each.

CAT. NO. WCCM1N1

CRL Diamond Tool Coolant Concentrate

- An Excellent Coolant for Glass Drilling, Cutting, or Routing
- Extends the Life of the Tool

CAT. NO. DTC80Z
8 Fl. Oz (236 ml)

CAT. NO. DTC80QT
1 Quart (945 ml)

CAT. NO. DTC80GL
1 Gallon (3.785 l)

CRL Diamond Tool Coolant Concentrate is mixed with water to create an excellent coolant solution for drilling, sawing, and routing glass. It is economical to use, because of a ratio of 50 parts water to one part Concentrate is all it takes for optimum cooling and lubricating performance. CRL Diamond Tool Coolant Concentrate is biodegradable, which means it can be safely disposed of in your shop's drain without causing harm to the environment.

CAT. NO.	CONTENTS
DTC80Z	8 Ounces (236 ml)
DTC80QT	One Quart (945 ml)
DTC80GL	One Gallon (3.785 l)

Minimum order: 1 each.

CRL Suction Base Drilling Rings

- Instantly Creates a Coolant Dam
- Slanted Walls Help Stop Splashing

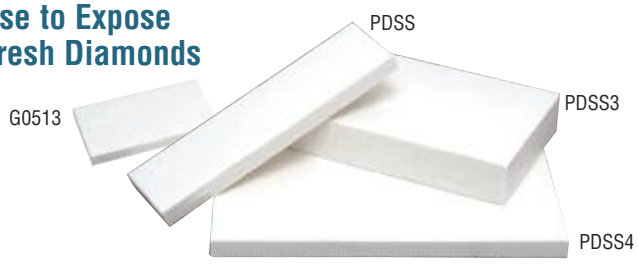

Use our Suction Base Drilling Rings for drilling glass whenever you use coolant or carbide grain. Made of a special rubber compound that won't break the glass if accidentally dropped on it. Easy to use, just wet the base with coolant or glass cleaner and press onto the glass. Four sizes of round rings, plus an oval shaped ring for drilling dual outlets. Diameters are measured inside the ring.

CAT. NO.	DESCRIPTION
RR15	1-1/2" (38.1 mm) Round Ring
RR30	3" (76.2 mm) Round Ring
RR45	4-1/2" (114.3 mm) Round Ring
RR65	6-1/2" (165.1 mm) Round Ring
RR24	2" x 4" (50.8 x 101.6 mm) Oval Ring with Plug
RP20	2" (50.8 mm) Tapered Plug Only

Minimum order: 1 each.

CRL Sharpening Stones

- Brings Life Back to Your Production Diamond Drills
- Use to Expose Fresh Diamonds

Achieve maximum life from your diamond drills by using the correct Sharpening Stone. These highly abrasive stones remove worn diamond and bond contact, exposing fresh cutting crystals. CRL Sharpening Stones are designed for use with CRL Production Style Metal Bond and Electro-Formed Diamond Drills. When using a CRL Sharpening Stone, make sure the drill diameter is smaller than the sharpening surface. Always saturate CRL Sharpening Stones in coolant thoroughly before use. This will avoid any unnecessary heating of the drill bit.

CAT. NO.	SIZE
PDSS	2" x 7" x 1/2" (51 x 178 x 12 mm)
PDSS3	4" x 6" x 1" (102 x 152 x 25 mm)
PDSS4	6" x 8-1/2" x 1/2" (152 x 216 x 12 mm)
G0513	3" x 1-1/2" x 1/4" (75 x 35 x 6 mm) - Australia Only

Minimum order: 1 each.

CRL Rubber Base Drilling Rings

- Cast Iron Rings With Rubber Bases
- Retains Abrasive Grain Slurry

Use these CRL Rubber Base Drilling Rings to retain the abrasive grain slurry while the drill is rotating and cutting into the glass. These cast iron rings have rubber bases to hold them securely to the glass, providing a proper seal, and allowing the coolant to mix with the grain for quick efficient drilling. They are available in four diameters, individually or as a set of the three most popular.

CAT. NO.	FITS DRILL DIAMETERS
RBR3	1/2" (12.7 mm) to 1-1/4" (31.8 mm)
RBR6	1/2" (12.7 mm) to 2-1/2" (63.5 mm)
RBR9	1/2" (12.7 mm) to 4" (101.6 mm)
RBR369	Set of Three (RBR3, RBR6, RBR9)
RBR12	1/2" (12.7 mm) to 6" (152.4 mm)

Minimum order: 1 each.

CRL Portable Glass Router

- **New Improved Version of Our Most Popular Router is Lightweight and Maneuverable**
- **Comes With Everything You Need to Cut Any Shape in Glass Up to 1/2" (12 mm) Thick**

Our popular ADR2 Portable Glass Router has a new feature that incorporates more power and better performance. The ADR2 Router is a glass working marvel. You will be amazed at the intricate shapes that can be cut with this tool. With very little practice you can cut almost any curve or radius, while leaving a structurally sound piece of glass. Mirror outlets, switch plates, circles, speak holes, and desk tops with computer/phone wire cut-outs are easily fabricated with the ADR2.

The biggest advantage of the CRL ADR2 is that it can plunge cut its own starter holes! No need to stop and drill a pilot hole before routing. This means less down time and more production. This corded, 110V AC, variable speed (10,000-30,000 RPM) machine is rated at 850 Watts. There is no changing, charging, and purchasing of multiple batteries.

The ADR2 comes complete with: the Router and Base, Ground Fault Circuit Interrupter, 5-pack of 1/8" (3.2 mm) High Speed 80 Grit Router Bits, one 1/4" (6.3 mm) Seaming Bit, one 1/8" (3.2 mm) High Speed 40 Grit Router Bit, Custom Cooling System Manifold, Pressure Tank, one bottle of CRL Diamond Tool Coolant, Special Valve Assembly, one roll of Glass Protective Film, and a complete Instruction Manual.

Our Cat. No. ADR2T Deluxe Portable Glass Router comes with all of the above, as well as the Cat. No. TPS Router Template Option and a Steel Template Guide.

CRL Diamond Notch and Saw Machine

- **Produces Notches and Free-Style Pattern Edge Cuts**
- **Fast-Cutting Ring Blade With 360 Degree Diamond Coating Cuts in All Directions**
- **Optional Radius and Glass Clamp Templates Available**

CRL's Diamond Notch and Saw Machine is the latest advancement in glass fabrication machinery. This amazing saw utilizes a high-quality 5-3/4" (146 mm) Steel Ring Blade with specially coated diamonds to provide smooth, fast cutting in all directions of glass up to 1/2" (12 mm) thick.

Use it freehand and reduce labor time 75% on patterns such as crown molding with smooth, chip-free results, or use the adjustable jig tool to eliminate drilling and cut your labor by more than 50%. No more double layouts. Simply cut forward and sideways, back out and you are done. Minimal or no sanding is required. This is the only saw capable of producing strong, square corners. An Internal Sponge Cover provides cutting coolant with no pump required.

Optional Radius Templates for 9/32" (7.1 mm), 5/16" (7.9 mm), 3/8" (9.5 mm), and 7/16" (11.1 mm) radii create "mouse ear" and U- shape sized cut-outs for popular CRL Shower Door Hinges. Templates for CRL BGCU1, SGCU1, GCB188, and SGC188 Glass Clamps also eliminate the need for drilling, scoring, break-out, and costly CNC machine set-up.

Kit includes: Diamond Notch and Saw Machine, Standard Blade, Blade Stabilizer with Template Disc, Adjustable Jig Tool with 1/4" (6.3 mm) Radius Templates, Two Adjustable Clamps, a Set of six Replacement Grommets, and Instructions. Additional replacement parts are also available. We recommend that all electrical glass tools be used with a Cat. No. GF1 Ground Fault Circuit Interrupt Device (see page 535J). Minimum order is one each.

CRL 12 Volt Mirror and Glass Notching Saw

- 12V Lithium-Ion Battery Powered – Completely Self-Contained
- Makes Plunge Cuts and Edge Cuts
- Refillable Coolant Dispenser

The CRL NS4000 12V Cordless Notching Saw Kit is an example of innovative CRL design and engineering. The NS4000 combines the latest technology from the Makita® Lithium-Ion power system, and a coolant delivery system featuring a unique body mount designed and assembled by CRL. Using this 1400 RPM Notching Saw to cut notches and cut outs in glass and mirror is simple and fast. The thin 3-3/8" (85 mm) diamond blade provides very narrow stock removal so measurements remain accurate. Makes edge cuts or plunge cuts in glass up to 1/2" (12 mm) thick. Lithium-Ion battery pods do not retain charging memory so each charge brings battery back to 100%. These batteries also retain charge with little or no power loss during storage.

new

CAT. NO. NS4000

Standard Equipment Includes: Two Rechargeable Lithium-Ion Battery Cartridges, 110V Battery Charger, Blade Wrench, 3-3/8" (85 mm) Carbide Tip Blade, 3-3/8" (85 mm) Diamond Smooth Cut Blade, Coolant Dispenser, Full instructions for use.

CRL 18 Volt Cordless Diamond Glass Saw Kit

- Powerful 18 Volt Cordless Saw Cuts 1/4" to 3/4" (6 to 19 mm) Thick Glass
- Polycarbonate Base Won't Scratch Mirror

The CRL 18 Volt Cordless Diamond Glass Saw utilizes a powerful 18V DC battery to cut glass quickly, leaving a beautiful chip-free finish. This powerful saw will plunge, straight, and angle cut thin and thick glass from 1/4" (6 mm) up to 3/4" (19 mm) thick with power to spare.

The LD172 utilizes a thin kerf, 5-3/8" (136.5 mm) Diamond Blade and a Pressurized Coolant System with an easy disconnect feature. Use the single nozzle coolant line for glass up to 1/4" (6 mm) thick, or the double nozzle coolant line for thicker glass. It has a polycarbonate base to provide a smooth cutting surface with less chance for scratching the glass. A molded plastic case keeps your saw and accessories safe and organized. The Medium 100 Grit Diamond Blade (Cat. No. DBM) offers fast cutting speeds where edge quality is not critical. You can also use the optional Fine 220 Grit Diamond Blade (Cat. No. DBF). Although slower cutting than the DBM Diamond Blade, it produces an extremely smooth edge. Blades are adjustable from 90 degrees to 45 degrees for miter cuts.

CAT. NO. LD172

Standard Equipment Includes: 18 Volt Cordless Saw, 5-3/8" (136.5 mm) Medium 100 Grit Diamond Blade, 18V DC Battery Cartridge, One Hour 18V DC Battery Charger, Pressurized Coolant System, Quart of Diamond Tool Coolant, and a Carrying Case.

CRL 18V Cordless Variable Speed Impact Driver/Drill Kit

- **Reversible With Two Speed Ranges: 0 to 500, and 0 to 1150 RPM**

The CRL 18 Volt Cordless Variable Speed Impact Driver/Drill is a lot of tool for a very conservative price. Put a drill bit or the included double-headed screwdriver bit into the keyless 3/8" (9.5 mm) chuck and pull the trigger for drilling/driving in two speed ranges: 0 to 500 RPM, and 0 to 1150 RPM. Twist the collar and you have an impact drill with an impact frequency of 6400 or 18000 strokes per minute.

CAT. NO.	DESCRIPTION
LD147	18 Volt Cordless Impact/Driver Kit
LD147B	18 Volt Battery Cartridge for LD147
LD147C	110 Volt Charger for LD147B 18 Volt Battery
LD147AU	18 Volt Cordless Impact/Driver Kit w/AU Plug

LD147EU	18 Volt Cordless Impact/Driver Kit w/EU Plug
LD147C220V	220 Volt Charger for LD147B Battery w/EU Plug

Minimum order: 1 each. Kit Includes: Driver/Drill, Battery, Charger, Six Drill Bits, Magnetic Bit Holder, plus Molded Carrying Case.

CRL 3/8" Electric Drill

- **110V and 240V Models Available**
- **4.2 AMP Motor**
- **Keyless Chuck**
- **0 to 3000 RPM Variable Speed**
- **Reversible**
- **All Ball Bearing and Needle Bearing Construction for Long Life**
- **Convenient Molded Belt Clip**

The CRL 3/8" (9.5 mm) Electric Drill has a powerful 4.2 AMP variable speed (0 to 3000 RPM) motor for greater speed control. Perfect for drilling wood, metal, or driving screws. This handy drill is lightweight and balanced for easy handling. The motor is reversible, and there is a large recessed "lock-on" button for continuous use. This drill motor has ball and needle bearing construction for long life and smooth operation.

STYLE **new**

CE

- **Eight Auto-Stop Adjustable Torque Settings**
- **Comfortable Pistol Grip Handle**
- **44-Piece Kit Includes Assorted Insert Bits, Screwgun Drivers, and Sockets**

Powerful and compact, the CRL LD813 Cordless Screwdriver is designed to let you work productively and efficiently without fatigue. The long-lasting, 3.6 Volt battery powers through the toughest jobs with ease. Eight torque settings stop rotation at the precise force to prevent stripping screw heads with maximum torque at 2.5Nm. The Battery Charger and plastic Carrying Case are included.

CRL GROO-V Tip® Granite, Marble, and Tile Drill Bits

- **Very Popular Bits Especially Suited for Drilling Marble and Granite**
- **For Use With Rotary and Hammer Drills Only**

These CRL GROO-V Tip® Granite, Marble, and Tile Drill Bits are especially suited for drilling small holes when used with percussion or rotary drill machines only. This straight shank Drill Bit is available in four sizes.

Carbide GROO-V Tip®

CAT. NO.	DIAMETER	LENGTH	SHANK
GRT18	1/8"	3" (76 mm)	7/64"
GRT316	3/16"	3" (76 mm)	11/64"
GRT14	1/4"	4" (102 mm)	15/64"
GRT38	3/8"	5" (127 mm)	11/32"

Minimum order: 1 each. All Masonry Drills can be combined for quantity pricing.

CRL Plastic Screw Anchors

- **Available With and Without Lip**
- **Soft Plastic Ribbed Design Will Not Crack Tile or Marble**

With Lip

Without Lip

CRL Plastic Screw Anchors are ideal for a secure installation of shower door hinges, clamps, and extrusions. Their multiple-ribbed construction ensures secure holding power in hard or soft materials, from concrete to plaster.

CAT. NO.	TYPE	SCREW SIZES	HOLE SIZE
P1339C	With Lip	#8, #10	1/4" (6.3 mm)
P1349C	Without Lip	#8, #10	1/4" (6.3 mm)

Minimum order is 100 each. Must be ordered in increments of 100.

CRL Hi-Red Plastic Screw Anchors

- **Superior Design - Won't Slip or Turn in Drilled Hole**
- **Resist Moisture and Corrosion**

CRL Hi-Red Plastic Screw Anchors hold screws in almost any drillable material. They are unaffected by moisture, so they resist corrosion, and will maintain their firm grip.

CAT. NO.	SCREW SIZES	HOLE SIZE	LENGTH
HR12X1	#8, #10, #12	1/4" (6 mm)	1" (25.4 mm)
HR12X112	#8, #10, #12	1/4" (6 mm)	1-1/2" (38.1 mm)
HR16X1	#12, #14, #16	5/16" (8 mm)	1" (25.4 mm)
HR16X112	#12, #14, #16	5/16" (8 mm)	1-1/2" (38.1 mm)

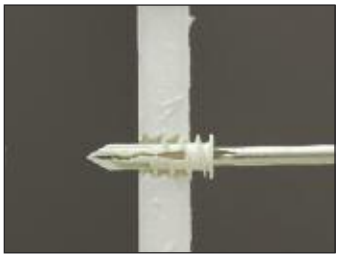

Minimum order is 100 each. Must be ordered in increments of 100.

CRL Toggler® SnapSkru® Self-Drilling Drywall Anchors

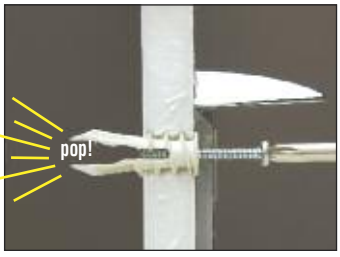

- **More Holding Power**
- **Works in 3/8", 1/2" or 5/8" (10, 13 or 16 mm) Thick Drywall and Ceilings**
- **Audible "Pop" Indicates Correct Install**

CRL Toggler® SnapSkru® Self-Drilling Anchors are designed to preserve drywall integrity at installation as well as when the item and screw are removed. These Anchors work with a range of screw sizes – MINI: #6 (recommended) to #8, and Regular: #6 to #10, #8 (recommended). Screws can be backed out and changed if needed without the Anchor coming out of the wall!

When activated with the minimum proper length screw: 1-1/4" (32 mm) for MINI and 1-1/2" (38 mm) for Regular, the Anchors open with an audible "pop", locking them in place in the wall or ceiling.

STEP 1: Place #2 Phillips driver or bit into recess of SnapSkru®

STEP 2: Place fixture into position over SnapSkru®, insert screw and tighten.

SnapSkru® MINI

SnapSkru® Regular

HOLDING VALUES (ULTIMATE LOADS) – TENSILE (PULLOUT)

ANCHOR	WALLBOARD THICKNESS 3/8" (10 MM)	1/2" (13 MM)	5/8" (16 MM)
SnapSkru® MINI	57 Lbs. (25.8 kg)	65 Lbs. (29.5 kg)	95 Lbs. (43 kg)
SnapSkru® Regular	57 Lbs. (25.8 kg)	79 Lbs. (35.8 kg)	135 Lbs. (61.2 kg)

Holding values are per anchor with #6 x 1-1/4" screw for MINI and #8 x 1-1/2" screw for Regular. Industry standard safe holding = 1/4 of ultimate load.

CAT. NO.	TYPE	SCREW SIZE
TA3003	SnapSkru® MINI	#6 – 8
TA3003S	SnapSkru® MINI with Screws	#6 x 1-1/4" Pan Head Phillips
TA3001	SnapSkru® Regular	#6 – 10
TA3001S	SnapSkru® Regular with Screws	#8 x 1-1/2" Pan Head Phillips

Minimum order is 100 each. Order in increments of 100. Sizes can be combined for quantity pricing.

CRL Makita® 3/8" x 21" Belt Sander

- Great for Small, Confined Areas
- Adjustable Sanding Arm
- Electronic Speed Control

The CRL Makita® 3/8" x 21" (9.5 x 533 mm) Belt Sander makes polishing notches and corners a breeze. Tight spaces no longer limit your ability to produce a quality edge. The sanding arm pivots a full 100 degrees for ease of operation, while providing balance and high performance at any position. The electronically controlled 115V AC motor provides sanding speeds from 980 to 5,600 feet (298 to 1707 m) per minute for precision sanding and polishing in any position, and on any material thickness. There is also an easy quick-release lever for changing the abrasive belts. A belt-tracking knob is conveniently located for fine adjustment of the belt, and no tools are needed for any of the adjustments. Minimum order is one each.

CRL 1/2" x 18" Detail Belt Sander

new

- Ideal for Intricate Finishing Work
- Includes Three Separate Belt Guide Arms
- Variable Speed

PROTECT YOUR EYES!

Belt Guide Arms

The CRL Detail Belt Sander is the ideal tool for getting into small or intricate areas for finishing detail work. Using 1/2" x 18" (13 x 457 mm) silicon carbide abrasive belts (sold separately), finishing the inside edges of circles or notches becomes simple and easy. The added bonus of this unique tool is the inclusion of two additional belt guide arms: One angled tip arm for the 1/2" x 18" belts that guides belts with a 45 degree sanding surface, and a mini belt guide arm that uses 5/16" x 18" (8 x 457 mm) abrasive belts for really intricate sanding jobs. All three arms are included with the sander in a black plastic storage and carrying case. Go to **crlaurence.com** for specifications.

CRL Multi-Function Tool

new

- Multiple Use Tool With Variable Speed Oscillating Head
- Perfect for Hack-Outs, Glass Sanding, Edging, Sealant Cut-Outs, and More
- Double Insulated and UL Approved

The CRL MFT1 Multi-Function Tool is perfect for sealant removal and hack-out projects. Cuts insulating glass units apart with ease and even removes hardened glazing putty. The variable speed head oscillates at 11,000 to 22,000 oscillations per minute. Blades can be locked down at any angle to help with access to tight locations and to promote comfort during use. Switch to the hook-loop sanding backer pad and the MFT1 becomes a very effective glass edge seaming tool. The Kit comes complete with the double insulated Multi-Function Tool, a plastic storage case, five assorted blades, a triangle backer pad, and a blade wrench. **NOTE:** Grinding Triangles are sold separately.

CRL 2200RP 4" x 106" (102 x 2690 mm) Wet Abrasive Belt Sander

- Uses Industry Standard 4" x 106" (102 x 2690 mm) Abrasive Belts
- Rugged Construction and Powerful 1 H.P. Direct Drive Motor
- Thick-Walled, Rust-Proof, High-Density Polyethylene Tank Extends Machine Life
- Durable Urethane Roller Platen and Front Rest Guide Bar
- Fast Abrasive Belt Changing Mechanism

PROTECT YOUR EYES!

IN STOCK READY TO SHIP

Combine the rugged construction and innovative design of the Somaca 106" (2690 mm) Belt Machine and the streamlined CRL 2200 Belt Sander and you have the CRL 2200RP 4" x 106" (102 x 2690 mm) Wet Abrasive Belt Sander. More affordable and packed with solid engineering, the 2200RP Wet Belt Sander is ideal for use by glass fabricators and processors, and it's still designed to use industry standard 4" x 106" (102 x 2690 mm) belts.

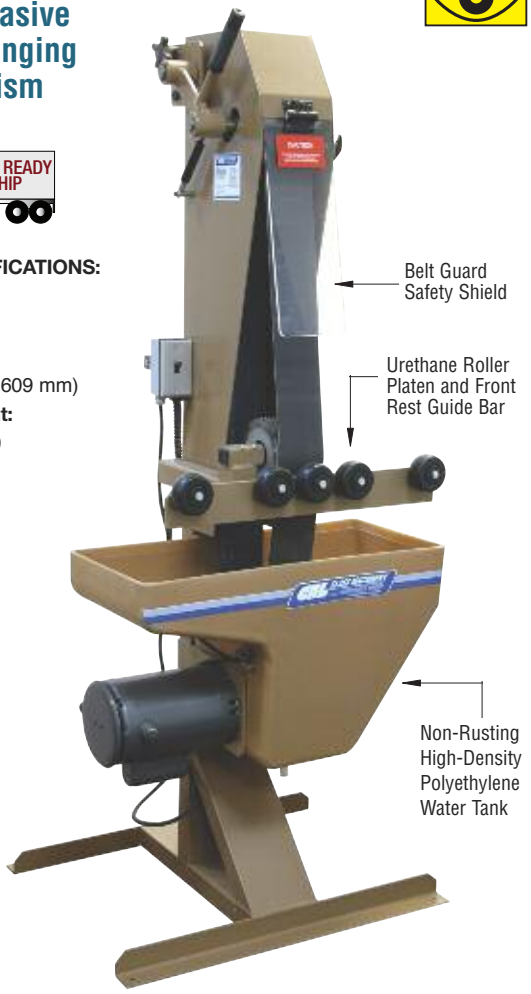

North American models include a direct drive, one H.P., 60 cycle, 1725 RPM, 110 Volt AC Motor and a 5" (127 mm) diameter Drive Pulley. Sander can be wired for 220 volts at an additional cost. An Electric Water Valve keeps the belts wet during sanding, and the Water Delivery System is designed for use with a standard city water supply. This machine now features a rustproof HDPE (High Density Polyethylene) Water Tank that won't chip or dent, and comes with a urethane covered Roller Platen and a Front Rest Guide Bar as standard equipment.

2200RP SPECIFICATIONS:

CRL 2200RP 4" x 106" Upright Wet Abrasive Belt Sander

Belt Guard Safety Shield

Urethane Covered Roller Platen and a Front Rest Guide Bar

Non-Rusting High Density Polyethylene Water Tank

Our CRL 2200SS Belt Guard Safety Shield helps protect the operator in the event of accidental belt breakage. To solve the problem of water tank spray corrosion, we've replaced the steel tank with a Non-Rusting HDPE (High Density Polyethylene) Water Tank. Securely fastened with six mounting bolts, the tank is trimmed with rugged U-Channel and it's color is molded in so it won't scratch. The new Belt Tensioner uses an air cylinder to keep the belt at the correct tension. No more tension adjustments. The belt is kept wet by using a water solenoid that activates when the power is switched on. When you shut off the machine, the water stops flowing automatically. Upper Pulley and Roller Platen can be replaced as assemblies with bearings and shafts. This makes replacement of components fast and easy, needing no special tools.

When you consider all of these features, it's easy to see why glass shops of all sizes have made the 2200RP the glass industry's most popular Upright Belt Sander. For additional information, or machine specifications, contact CRL Customer Service Department at (800) 421-6144 in the U.S., (877) 421-6144 from Canada, or (323) 588-1281 International, and ask for Ext. 5275. You can also e-mail us through our web site, **crlaurence.com**. From the home page click on Contact Us, and then click on Customer Service.

Easy-to-Use Belt Tensioner

Automatic Water Solenoid Valve

Optional Bar and Flat Platens fit in place of Standard Roller Platen

Optional 3M® Flat Platen bolts on in place of the Roller Platen

Strong, Reliable 1 HP Motor with Grease Fittings

CRL Universal "One-Man" Movable Glass Table

• Fits Upright Belt Sanders of Any Make

Legs Adjust to Fit Any Belt Machine

One person can sand large pieces of glass without having to support the weight of the glass by using this CRL Universal "One-Man" Movable Glass Table. It rolls on a support rail in front of the sander, so the operator controls the amount of pressure the glass applies to the belt. The table top is carpeted, and has four pop-up ball casters, allowing easy glass rotation. All sides can then be sanded without having to lift the glass. The legs are adjustable to allow use with any upright belt sander. Table Guide Rail is 156" (3962 mm) long; Table Top is 36" x 60" (914 x 1524 mm). F.O.B. Cicero, Illinois. Minimum order is one each.

Table Shown in Front of 2200RP Sander (each sold separately)

CRL Belt Guard Safety Shields

• OSHA Recommended Form of Protection

The CRL Belt Guard Safety Shields for the 2200 and 3300 Series Upright Belt Sanders protect your face and eyes from flying debris, giving you an added degree of safety. The 2200SS is standard equipment on 2200 and older 2200RP Sanders. It can also be retro-fitted on 2200 and 2200RP Sanders that did not come with a safety shield. The 3300SS is standard on newer 2200RP, 3300RP, and BM132RP models. For safety, this is an attachment no shop should be without. Minimum order is one each.

CRL BM132RP 4" x 132" (102 x 3353 mm) Upright Wet Abrasive Belt Sander

- **Built-In 24" (610 mm) Roller Platen**
- **Heavy-Gauge Steel Welded Frame**
- **Conveniently Converted From 220 to 440 Volts**
- **Available for Purchase or Lease**

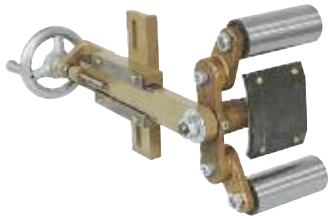

CRL GLASS MACHINERY AND SUPPLIES formerly Simmons & Mach crlaurence.com

Our heavy-duty 4" x 132" (102 x 3353 mm) Upright Wet Abrasive Belt Sander is designed for continuous grinding, smoothing, and polishing of glass edges. It is similar in design to the 106" Model, but has larger diameter pulleys, and is twice the weight because of its heavy, reinforced construction.

You will be pleased with the superior performance of our 4" x 132" (102 x 3353 mm) Upright Wet Belt Sander, and the years of dependable service it will give you.

CAUTION: When grinding, always wear protective safety glasses and an approved glass dust respirator. One of each is provided with the machine.

IN STOCK READY TO SHIP

CAT. NO. 2621320
Optional Double Roller Platen

CAT. NO. BM132RP
4" x 132" (102 x 3353 mm)
Upright Wet Abrasive Belt Sander

CAT. NO. 3LTRT
Optional Universal Rolling Table for consistent edging of large or heavy glass lites. Height adjusts to any belt machine. Four swivel casters built into the table top raise the glass for ease of turning working edge. See page 545J.

ABRASIVE BELTS
These machines use standard 4" x 132" (102 x 3353 mm) abrasive belts. One 120 grit belt, one pair of safety glasses, and one approved respirator are furnished with each machine. A safety shield is mounted to the hood.

MOTOR AND STARTER
A 1 HP, 3450 RPM motor, with V-Belt drive, provides all the power for normal usage. The motor is three phase, 60 Hz, 220 or 440 Volts. It is wired to a manual push button starter. Please specify power requirements.

PULLEYS
Both pulleys are 8" (203 mm) diameter, and made of machined and balanced cast iron.

BELT TENSION DEVICE
Eccentric type with locking handle and control knob for tracking the belt.

BEARINGS
Standard ball bearings are used throughout the drive system.

COOLANT SYSTEM
A water supply line with an electrical solenoid control valve and a low water consumption spray nozzle (3.5 gph @ 30 psi) are included for wet grinding.

CRL 4" x 132" (102 x 3353 mm) Wet Abrasive Glass Grinding Belts

- **Fast-Grinding 100% Polyester Backed Belts in Six Grits From 60X to CORK**
- **Ask About Our Large User Program**

CRL Wet Abrasive Glass Grinding Belts have 100 percent polyester backing, so you can use them wet or dry. They are available in grits from 60X (Extra-Rough) to CORK (Polishing) to fit most belt sanders.

MOST POPULAR GRITS FOR GLASS, AND EXAMPLES OF THEIR USE:
60X – Extra-Rough, Fast Glass Removal (Mitered Edge)
80X – Rough, Quick-Contouring (Auto Glass Edge)
120X – Smooth, Seaming and Polishing (Desk Top Edge)
220X – Extra-Smooth, Fine Frosted Finish (Glass Shelf Edge)
400X – Fine, Satin Finish (Opaque Edge)
CORK – Polish, Smooth Luster Finish

CRL 4" x 64" (102 x 1626 mm) Bench Model Wet Abrasive Belt Sander

- Extremely Mobile Unit is Ideal for Work Bench or Truck Bed
- Heavy-Duty, 1 HP, Single-Phase, 110V, 220V, and 240V Models
- Self-Contained Water Tank – No Water Hook-Up Needed

This CRL Bench Model Belt Sander uses all standard 4" x 64" (102 x 1626 mm) Wet or Dry Abrasive Belts, and is specially designed for use in the shop or on the job site. It's perfect for bench work where there is only a limited need for edge-work capacity. This Sander can also be mounted right onto a glass truck for rough grinding, smoothing, and polishing the edges of glass on a job site. Water for wet grinding sprays on the back of the belt from a built-in spray nozzle connected to a built-in water tank. Just pour water in the reservoir and you can wet grind anywhere.

SPECIFICATIONS:

Height: 37-1/2" (952 mm)
Width (including motor): 24" (610 mm)
Footprint: 19" x 16" (483 x 406 mm)
Shipping Weight: 150 Lbs. (68 kg)

BM64B Model

EUBM64B Model

IMPORTANT NOTES:

Always wear the proper safety gear when using any type of power tool. A Cat. No. GF1 Ground Fault Circuit Interrupt Device (see page 535J) should be used with any type of wet-working electric tool. Replacement parts can be found at **crlaurence.com**.

Controls
All controls are built to OSHA requirements, utilizing CE, CSA and UL Certified components.

CRL Single Spindle Automatic Glass Edger

IN STOCK READY TO SHIP

- Available for Purchase or Lease

- Up to Six Times Faster Than a Belt Machine
- The Easiest Glass Edger to Set Up and Run
- Produces Flat Edges With Seams, Pencil Edges (Round), and Miter Edges on Glass From 1/8" to 1/2" (3 to 12 mm) Thick
- Edges Glass Up to 66" (1676 mm) Per Minute
- Recirculating Coolant Eliminates Dust

One Polish Wheel and One Diamond Wheel Included

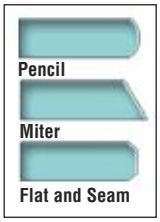

CAT. NO. VE1P

One Diamond Wheel on the Single Spindle Edger Will Do the Work of Over 500 106" (2690 mm) Abrasive Belts

Our Single Spindle Automatic Glass Edger is designed and built to provide a simple, reliable method for edging and polishing a variety of thicknesses of glass and mirror for any size shop. This Edger will allow you to do quality edgework up to six times faster than a belt machine. Pencil edge, miter, and flat and seam edgework can all be performed on the machine.

Operation is very simple. The operator merely pushes the glass into the roller/belt conveyor and it is smoothly pulled over the wheel. You can process glass from 1/8" to 1/4" (3 to 6 mm) thick with the wheels included or process thicker glass by ordering optional wheels from the chart below.

The VE1P is the ideal choice for an affordable Glass Edging Machine. Ask us about our Leasing Program. If you would like to see a sample of glass edged by the machine, or need additional information, please contact CRL Glass Machinery Division Sales at (866) 583-1377 in the U.S. and Canada.

CRL Glass Scratch Removal System

- **Portable, Stand-Alone System Works On All Types of Glass**
- **One Step Process Produces Distortion-Free Results**
- **Integrated Water Feed System**
- **Non-Abrasive Compound**

The CRL Glass Scratch Removal System removes scratches from all types of glass including tempered, annealed, laminated, low-e, mirrors, and even curved glass. You can use this portable system to remove scratches, water scale, acid etching, paint over-spray, and other imperfections quickly and effectively.

This unique system combines thermal energy (heat), chemical reaction (polishing compound), and mechanical energy (force) to effectively eliminate scratches from glass without the use of fixed abrasives.

The CRL Glass Scratch Removal System can be integrated into your everyday operations. Whether you are a door and window manufacturer, a distributor, or an independent glass shop, the CRL Glass Scratch Removal System can save you money, directly impacting your bottom line. These potential savings come from reduced down time for glass replacement thus keeping projects on schedule, and by reducing glass waste and scrap ratios.

Compare the CRL Glass Scratch Removal System to some of the other scratch removal systems you may have seen or tried in the past. This system is lightweight and compact: no buckets of coolant and compound to lug around. This system employs a one step process: multiple abrasive and polishing pad changes are no longer required. This system delivers what others only promise: distortion-free surface restoration.

The CRL Glass Scratch Removal System features a unique pressurized water feed attachment with a push button activated nozzle mounted directly onto the polisher. This attachment can be secured directly to the work surface with built-in suction cups, or worn conveniently on your belt using the integral belt clip.

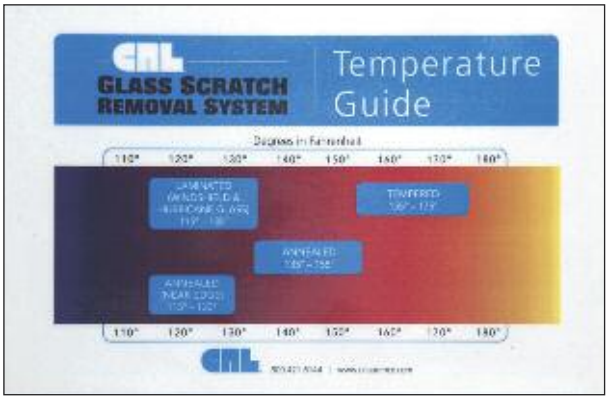

The 2", 3" and 4" (51, 76, and 102 mm) Polishing Pads attach to the appropriate Backer Pads using an aggressive hook-and-loop fastener system.

The complete SRS1 Glass Scratch Removal Kit includes: a 4500 RPM polisher, a .250 kg (.55 lbs.) jar of polishing compound, one 2" (51 mm) Backer Pad, one package of 2" (51 mm) Polishing Disks, one 3" (76 mm) Backer Pad, one package of 3" (76 mm) Polishing Disks, one Pressurized Water Feed Attachment, one Inspection Light/IR Thermometer, Safety Glasses, two Respirator Masks, one Mixing Container, one Spatula, one Wrench, one Manual Spray Bottle, Ear Plugs, one Cleaning Brush, one detailed Training and Use Manual, and one foam padded lockable Carrying Case.

CRL Scratch-A-Way® Scratch Removal System

- Clean Working System for Light Scratches or Scuff Marks
- Flexible Rubber Shroud Keeps Slurry Contained – No Overspray!

Auto Glass Applications

- Wholesalers – Remove Light Scratches Quickly
- Technicians – Provides Clean Removal of Light Scratches, Wiper Blade Marks, Stains, and Acid Spots, Etc.

Flat Glass Applications

- Remove Light Scratches Quickly
- Polish Fabricated Bevelled Mirror Corners and Areas Needing Blending
- Insulating Glass – Fix In-Shop or On-Site Scratches

Two Types of Scratches…

LIGHT SURFACE or SCUFF MARK SCRATCH – Over 95% of all scratches are light scratches or scuff marks. This magnified image above shows a light scratch. This scratch can be removed.

HEAVY/DEEP SCRATCH – Above is a magnified image of a heavy/deep scratch. It cannot be removed with this system.

For Light Scratch and Scuff Mark Removal

After cleaning the glass thoroughly, inspect the area with the Diagnostic Inspection Tool. Mark the scratch area from the underside with the red marking pen. Attach the polishing disc to the polishing head. Then apply water to the surface of the scratch. Work the polishing head, very slowly, with consistent pressure, back and forth in the direction of the scratch. Work the area for 30 seconds, and then stop. Wipe the slurry away from the scratch with the edge of the red shroud so you can inspect the progress of your work. Repeat until scratch is removed.

CRL Scratch Polishing Kit

- **Remove Light Surface Scratches**
- **Polish Out Rubs, Fine Lines, Stains, and Discoloration on Glass of Any Kind**
- **Lightweight and Well Balanced for Smooth Action**
- **Heavy-Duty Motor for Long Life**

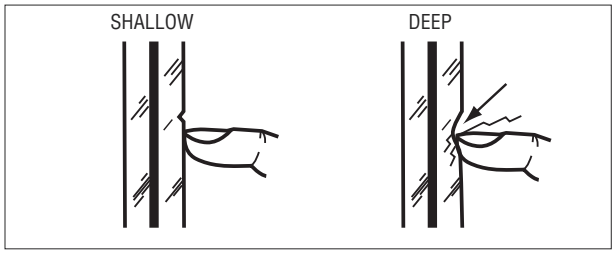

The CRL Scratch Polishing Kit is designed to meet the demand for a low-priced, lightweight, portable tool capable of removing light surface scratches from automobile windshields. It also can be used to polish out rubs, fine lines, stains, and discolorations on mirrors or glass of any kind. Also, this tool can be used as a sander by using a back up pad and sanding discs. Operates on 110V AC.

The CRL Scratch Polisher will remove light scratches and water deposits from glass. Generally, if you run your fingernail over the scratch and it catches, the scratch is too deep to be removed with the polisher. However, light scratches, windshield wiper rubs, and some water deposits can be removed by following these instructions.

Perfect balance and properly placed handles make it possible to work with glass where it is installed, thus lowering the labor time and the cost of removing and replacing it.

Limits of Polishing

Light, shallow scratches and rubs can be removed satisfactorily.

Deep scratches and rubs can only be lessened, not completely removed.

CAT. NO.	DESCRIPTION
CRL9257	Scratch Polishing Kit

Minimum order: 1 each.

CAT. NO. CRL9257
Complete Kit

Included in the CRL9257 Kit:
- Cat. No. PV7001C Makita 7" Vertical Polisher with Variable Speed (600 - 2000 rpm)
- Rubber Back Up Pad
- Spanner Wrench
- Side Handle
- Cat. No. 5702 Polishing Head (All Wool Felt Pad)
- Cat. No. C0301 Cerium Oxide (One Pound)

CRL Heavy-Duty Scratch Polisher

- **Polishes All Types of Glass, From Windshields to Watch Crystals**
- **Use it Hand Held or Bench Mounted for Added Stability**

Use the CRL Heavy-Duty Scratch Polisher can be used as either a bench mounted or hand held polisher with excellent results. It is fitted with a high quality wool felt wheel that will polish virtually all types of glass, from windshields, sheet glass, edges and bevels to watch crystals. Heavy-duty, double-insulated 110V AC motor. Handles on each end of the tool assembly provide control.

CRL Complete Polishing Head Assembly

- **Used for Light Scratch Removal**
- **Can Be Used With a Cordless Drill**

Polisher Not Included

The CRL Polishing Head Assembly consists of a 1-1/2" (38 mm) thick by 3" (76 mm) diameter all wool felt wheel, an aluminum adapter plate, and a 1/4" (6 mm) diameter shank. Use it with our Cat. No. PV7001C Polisher, or chuck it into your electric drill. Minimum order is one each.

CAT. NO. 5703

CRL All Wool Felt Wheel

- **For Use With the 5701 Adapter**

Made from the highest quality felt, this 3" (76 mm) diameter, 1-1/2" (38 mm) thick buffing wheel can remove scratches, stains, and discoloration from glass and mirrors. Used with the Cat. No. 5701 Aluminum Adapter, this all felt wheel can work wonders in the smallest of spaces. Also replaces the felt wheel on the Cat. No. 5703 Polishing Head Assembly. Minimum order is one each.

CAT. NO. WFD03112

CRL Aluminum Adapter

- **For Use With the WFD03112 Felt Wheel**

The CRL Aluminum Adapter is machined to run smoothly while on the CRL9257 Scratch Polisher, or when used with the Cat. No. 5704 Shank Adapter. The Cat. No. WFD03112 All Wool Felt Wheel is adhered to the bottom surface of this Adapter by using Cat. No. 3M8001 Super Weatherstrip Adhesive or Cat. No. LN601 Construction Adhesive. Minimum order is one each.

CAT. NO. 5701

CRL Aluminum Adapter and Felt Wheel

- **Can Be Used With Your Hand Drill**

The CRL Aluminum Adapter and Felt Wheel consists of one Cat. No. 5701 Aluminum Adapter and one Cat. No. WFD03112 All Wool Felt Wheel cemented together. Keep a spare on hand if you do a lot of scratch removal. Mate with Cat. No. 5704 to use it in your hand drill. Minimum order is one each.

CAT. NO. 5702

CRL Shank Adapter

- **1/4" (6.4 mm) Diameter Shank Fits All Drill Motors**

The CRL Shank Adapter is designed for use in any hand drill. The 5/8"-11 threads insert into popular disc pads such as Cat. No. 5702. Minimum order is one each.

CAT. NO. 5704

CRL Cerium Oxide

- **For Use With the CRL9257 Scratch Polisher**

CRL Cerium Oxide is a high grade optical polishing compound used to lessen and polish scratches from auto glass, mirror bevels, and table top edges. CRL Cerium Oxide is mixed with water to form a paste or slurry. This compound has excellent suspension qualities and will not harden. Contains no zinc oxide, and meets most local disposal ordinances.

CRL 3M® Super Weatherstrip Adhesive

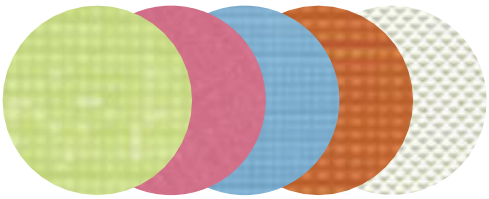

- **Exceptional Bonding Strength**
- **Waterproof and Flexible**

CRL 3M® Super Weatherstrip Adhesive is used for bonding WFD03112 Felt Wheels to 5701 Adapters with great adhesion. Easy to spread, extremely fast drying. Also a good general purpose cement. Contents: 5 Fl. Oz. (147 ml). Minimum order is one each.

CAT. NO. 3M8001

CRL 3M® Trizact® Scratch Removal Starter Kits

- The Best Way to Start Using Trizact® Discs
- Uses Your Hand Held Electric Drill
- Includes Four 3" (76 mm) Disc Pads for Quick Change-Out of Discs

CRL 3M® Trizact® Scratch Removal Starter Kits are the most efficient way to start using CRL 3M® Trizact® products. Using your own hand-held cordless or 110V AC Electric Drill with a Ground Fault Circuit Interrupter (Cat. No. GF1), you can remove scratches ranging from very fine to very deep.

This amazing new material uses natural abrasives formed in the shape of small pyramids, and provides uniform layers of abrasive throughout the pyramid. As the abrasive particles are used, they get flushed away exposing new abrasive. So easy to use, almost anyone can start to remove scratches with this kit in a short time.

NOTE: The Flat Glass Kit comes with 3" (76 mm) Medium Disc Pads while the Curved Glass Kit is supplied with 3" (76 mm) Soft Disc Pads to accommodate the curvature of the glass. Replacement Disc Pads are available, Cat. No. ZDP3P58M for Medium; and Cat. No. ZDP3P58S for Soft.

Drill shown is not included

Trizact® Starter Kits Include:
- 20 Assorted 3" (76 mm) 3M® Trizact® Abrasive Discs
- Four 3" (76 mm) 3M® Disc Pads
- 1 Pound (454 g) of Cerium Oxide
- Spray Bottle for Water
- 1/4" (6 mm) Shank Drill Adapter
- Plastic Apron
- Full Instructions

ZSRPSSKS	3M® Trizact® Starter Kit for Curved Glass

Minimum order: 1 each.

CRL 3M® Trizact® Professional Scratch Removal System

- Powerful Center Water Feed Polisher Works on Light to Heavy Scratches
- Developed for Professionals

The CRL 3M® Trizact® Professional Scratch Removal System is a breakthrough in scratch removal and glass or polycarbonate polishing. Now this once complicated and messy process is simple and clean without any slurries or compounds to mix. Our all-new, more powerful polisher has more power and torque than ever! With its on-demand water delivery system, constant water flow adjustments are a thing of the past. This system uses plain water, which is delivered through the center of the pad so very little is required.

The natural abrasives used in these discs are formed in the shape of small pyramids. The pyramids are then layered so as the disc wears, a new abrasive surface is exposed. Four grades of abrasive discs are included to remove the deepest of scratches. A cerium oxide pad is used to polish the glass during the final step. The results this system offers are nothing short of amazing.

Please Note: Scratch polishing is an abrasive process which, when certain factors are present, can affect your final polished product, such as one or more of the following examples: **Scratch Depth** - the deeper the scratch, the more difficult it will be to produce a clean and distortion-free surface; **Glass Temperature, Technique -** following instructions and keeping work surface clean between steps is crucial; **Glass Type -** float, tempered, textured, coated reflective, mirrored or tinted.

For additional information, visit the CRL web site, **crlaurence.com**, or contact CRL Customer Service Department.

CAT. NO.	DESCRIPTION
ZSRPSM	3M® Trizact® Professional System for Flat Glass

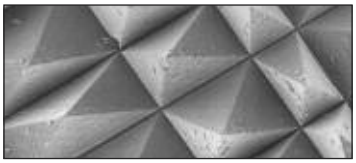

Minimum order: 1 each.

The Trizact® Professional Kit Includes:
- 10 Each of the five different grades of 5" (127 mm) 3M® Trizact®Abrasive Discs
- Five Each 5" (127 mm) 3M® Medium Disc Pads
- 115V AC Center Water Feed Polisher With Built-In GFI
- Pressurized Water Delivery System
- 1 Pound (454 g) of Cerium Oxide

CRL 3M® Trizact® Discs

- **3M® Trizact® - A Cleaner, Long-Lasting Abrasive System for Glass Scratch Repair**

The precisely structured surface of Trizact® film is clearly visible under 50X magnification

CAT. NO.	GRADE	DIAMETER
TD335P	A35	3" (76 mm)
TD320P	A20	3" (76 mm)
TD310P	A10	3" (76 mm)
TD35P	A5	3" (76 mm)
TD3CP	Cerium	3" (76 mm)
TD535P	A35	5" (127 mm)
TD520P	A20	5" (127 mm)
TD510P	A10	5" (127 mm)
TD55P	A5	5" (127 mm)
TD5CP	Cerium	5" (127 mm)

Minimum order: 1 each. All Trizact® Discs can be combined for quantity pricing.

TD335P and TD535P

Removes Larger Scratches and Defects

Use the A35 Discs as the first step in removing larger scratches and defects. A small amount of water triggers the cutting action. Controlled water flow helps reduce heat and keeps the glass cooler.

TD320P and TD520P

Removes Moderate Scratches and Defects

Use the A20 Discs when the scratches are significant, but not as deep as those requiring the A35 Discs. Very aggressive like the A35, the A20 requires adequate water flow to reduce heat and keep the glass cooler.

TD310P and TD510P

Refines Scratches, Removes Scuffs and Acid Marks

Use the A10 Discs to refine the scratches left by the A35's, or start with A10 Discs to remove shallow scratches, scuffs, and acid marks. Apply a small amount of water to start the grinding action. Control the water flow to avoid generating too much heat.

TD35P and TD55P

Refines Scratches, Removes Defective AR Coatings

Use the A5 Discs to further refine any scratches left by the A10's. As in previous steps, apply a small amount of water to start cutting action. Avoid extended dwell time to minimize heat build-up.

TD3CP and TD5CP

Polishes and Leaves Glass Crystal Clear

Use this Cerium Oxide Disc for a final polish. To begin, wet the surface slightly with a small amount of water. As you polish, the pyramids will break down to form a slurry-like solution. The polishing action that occurs will remove scratches left by previous leveling steps.

Also available in other sizes. Visit our web site at **crlaurence.com**.

CRL 3M® Trizact® Disc Pads

- **Medium for Flat Glass, Soft for Curved Glass**

3" (76 mm) Disc Pad

5" (127 mm) Disc Pad

To get the most use out of your Trizact® Discs, and to achieve the best results, use a separate Disc Pad for each grade of disc.

CAT. NO.	DESCRIPTION
02599	5" Medium Density Disc Pad: 5/8"-11 Thread
02598	5" Medium Density Disc Pad: M14-2 Thread
ZDP3P58M	3" Medium Density Disc Pad
ZDP3P58S	3" Soft Disc Pad

Minimum order: 1 each.

CRL Drill Adapter

- **Adapts Trizact® Disc Pads to Your Power Drill**

This high-quality CRL Drill Adapter, made from heavy-duty stainless steel, allows any of our 3M® Trizact® Disc Pads to be used with any power drill with a standard 3/8" (9.5 mm) or larger chuck. Minimum order is one each.

CAT. NO. 5704

CRL Ground Fault Circuit Interrupter

- **A Must for Anyone Using Wet-Working Tools**

With the CRL GF1 Ground Fault Circuit Interrupter, you gain protection against possible shock or electrocution while using wet-working tools. Minimum order is one each.

CAT. NO. GF1

CRL Cerium Oxide

- **Used for High-Grade Polishing**

This high-grade optical polishing compound is used as the final step with 3M® Trizact® Cerium Polishing Discs to produce a "water clear" finish. It contains no zinc oxide, and meets most local disposal ordinances. Contents: 1 pound (454 g). Minimum order is one each.

CRL Sure-Grip 8" Vacuum Lifter

- Greatest Lifting Capacity of Any 8" (203 mm) Pump-Activated Vacuum Lifter
- One Hand Pump and Attachment for Safety When Needed
- Built-In Vacuum Loss Indicator
- Soft Contoured Sure-Grip Handle for Comfort
- Meets CE Conformance

CRL is proud to introduce the latest technology in hand held vacuum lifting cups, our S338 Sure-Grip Vacuum Lifter. Manufactured by C.R. Laurence in Australia, the state-of-the-art design of the S338 offers unique features, setting it apart from other 8" (203 mm) pump-activated vacuum lifters. Minimum order is one each.

Each S338 ships with this distinctive gray colored protective carrying case

Lifting Capacity 150 lbs. (68 kg)

CAT. NO. S338

CRL 8" ABS Handle Pump-Action Vacuum Lifter

- Fast, Safe Attachment to Smooth, Nonporous Flat Surfaces
- Heavy-Duty 5 mm Thick ABS Handle Resists Bending, Especially During Heavy Lifts
- Four Extra Mounting Points Make it Easy to Attach to Metal Lifting Frames, Jigs, and Our Vacuum Ratchet Tensioning Kit

The CRL S108 8" (203 mm) Pump-Action Vacuum Lifter is designed to make the carrying of large flat glass lites safe and easy. The basic components are a tough ABS handle, with zinc plated parts designed not to rust, attached to a precision molded rubber suction pad. Molded carrying case included. Minimum order is one each.

Lifting Capacity 120 lbs. (56 kg)

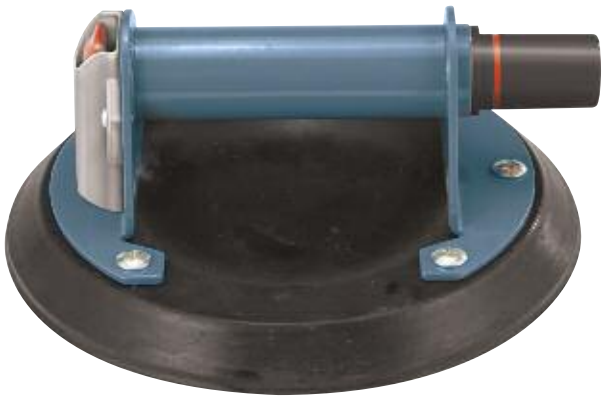

CAT. NO. S108

CRL 8" Stainless Steel Handle Pump-Action Vacuum Lifter

- Full Pad Face Contact When Pumped to Reduce Distortion
- Fast Attachment on Smooth, Nonporous Flat Surfaces
- Heavy-Duty Stainless Steel Handle
- Tough ABS Plunger With Red-Line Indicator
- Can be Re-Pumped Without Losing Remaining Vacuum
- Wide Release Valve Lever Permits Quick and Complete Release

CRL has developed the S7950 8" (203 mm) Pump-Action Vacuum Lifter with the strength of a heavy-duty stainless steel handle and a tough ABS 3-stroke Plunger Pump for extra-fast attachment to glass and other nonporous surfaces. The Plunger uses a red-line indicator to let you know that you have sufficient vacuum to lift your load. Should the red-line appear after pumping, a built-in check valve allows you to re-pump without vacuum loss. Molded carrying case included. Minimum order is one each.

Lifting Capacity 125 lbs. (57 kg)

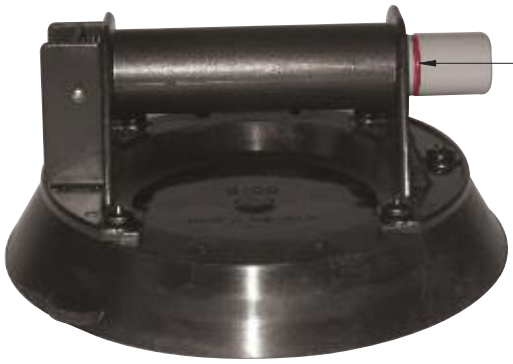

CAT. NO. S7950

CRL 8" ABS Handle Vacuum Lifter for Curved Surfaces

- Designed Primarily for Lifting Curved Architectural Glass
- Red-Line Indicator Warns User of Any Vacuum Loss
- Providing Safe Lifting to the Industries Since 1992

CRL Pump-Up Vacuum Lifters for Curved Glass are designed to make the carrying and lifting of large architectural curved glass sheets, windscreens (windshields), and thin flexible materials such as 1/16" (2 mm) sheet metal, safe and easy. Vacuum attachment to flat, nonporous surfaces is achieved in a few seconds by depressing the pump's plunger until it stays well within the handle, beyond the red-line safety indicator. It comes with a protective carrying case. Minimum order is one each.

Lifting Capacity 125 lbs. (57 kg)

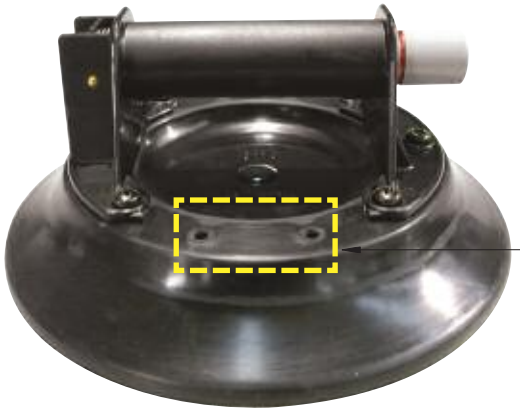

CAT. NO. S109

CRL 10" ABS Handle Vacuum Lifter for Flat Surfaces

- Designed to Carry Large Sheets of Glass,Marble or Stone Safely
- Supplied With Protective Carrying Case
- Providing Safe Lifting to the Industries Since 1992

CRL Pump-Up Vacuum Lifters are designed to make the carrying and lifting of large glass sheets, marble or stone, safe and easy. Vacuum attachment to flat, nonporous surfaces is achieved in a few seconds by depressing the pump's plunger until it stays well within the handle, beyond the red-line safety indicator. It comes with a protective carrying case. Minimum order is one each.

Lifting Capacity 175 lbs. (80 kg)

CAT. NO. S110

CRL Vacuum Ratchet Tensioning Kit

- Uses S108 Vacuum Lifter Mounting Points
- Pulls With Tremendous Force

The CRL Vacuum Ratchet Tensioning Kit is designed to pull two flat surfaces or seams together. They are perfect for Formica countertops, marble and granite, flooring, cladding, mirrors, glass, plastic, or any situation in which flat, nonporous surfaces need to be pulled together.

While one set is handy, large mirrors and counters usually need two sets, one on each corner, for an even pull. The ratchet can be removed in order to use the Lifters alone as manual lift aids. Minimum order is one each.

NOTE: Cat. No. S108 Vacuum Lifters are sold separately. (See Page 556J)

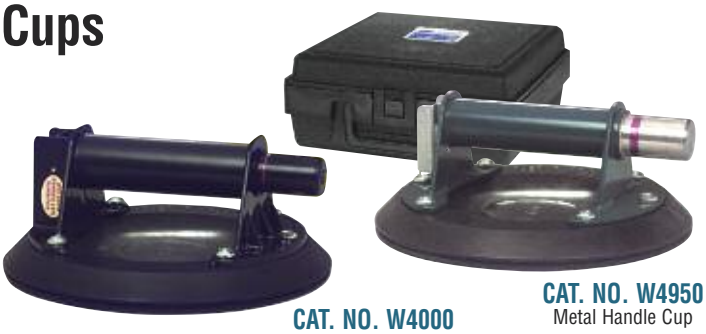

CAT. NO. G0284

CRL Wood's Powr-Grip® Vacuum Cups

• Popular Cups With Pump-Actuated Vacuum Mechanisms and Quick Release Triggers

• Built-In Vacuum Loss Indicator

CRL proudly offers you the unique line of Wood's Powr-Grip® Vacuum Cups, the safest hand vacuum cups available on the market today. These specially designed, hand actuated cups operate on a pump system, and create a vacuum under their gripping pad section. The pump plunger has a red band to indicate suction level at all times. When it shows less than 100% vacuum left, simply pump the plunger until you reach the original vacuum pressure without removing the cup from the glass! To release, just depress a trigger on the opposite end of the handle from the plunger. There are four models of the basic Wood's Powr-Grip® Vacuum Cup. All come with a vacuum-molded carrying case to protect the cup when not in use. For more information on the complete line of Wood's Vacuum Lifting Equipment, go to **crlaurence.com**.

CRL Brand Heavy-Duty Vacuum Cups

• Large 5" Diameter Pads

• Heavy-Duty Cast Construction

These Heavy-Duty CRL Vacuum Cups have the industry-proven design that has been a favorite of the glass industry for decades. Their cast frames have a smooth yet durable finish that resists corrosion and the abuse that comes from everyday use. The large 5" (127 mm) diameter rubber pads get a good grip on glass, marble, granite or any smooth surface material. These are a practical and affordable material handling system that will give you years of good service. They're quality made by CRL in the U.S.A.

CRL Aluminum Lever-Actuated Vacuum Cups

• Four Models to Choose From

• Strong, Lightweight Aluminum

CRL Aluminum Vacuum Cups are easy to use with their simple lever action. Their high quality rubber pads develop a tremendous amount of vacuum for maximum lifting power. They will adhere to any smooth, non-porous surface such as glass, mirror, steel, aluminum, laminates, and plastics. The durable metal construction and hard coating make them tough enough for everyday use, and years of reliable service. Rubber vacuum pads measure 4-1/2" (114 mm), and are easy replaced when worn or damaged.

CRL All Terrain Dolly

- **Goes Where Other Glass Dollies Won't**
- **16" Diameter (406 mm) Two-Ply Pneumatic Tire**
- **Built-in 8" (203 mm) Wood's™ Powr-Grip® Vacuum Cup**
- **Includes Set of CRL RB200 Rolling Blocks**

CRL's All Terrain Dolly is like having an extra person on the job site. Moving large glass lites, insulating units, patio door panels, and even stone slabs across any terrain is now a snap. Curbs, door sills, and scrap lumber are no longer obstacles when your crew is using the CRL All Terrain Dolly. Its large 16" (406 mm) diameter pneumatic tire won't bog down in the grass or dirt, common to residential and commercial job sites. This handy device also eliminates back and arm strain associated with carrying heavy loads suspended over long distances.

Included is a Wood's 8" (203 mm) diameter Powr-Grip® Vacuum Cup and a set of Cat. No. RB200 Roller Blocks to protect the cargo's edges once unloaded. The Roller Blocks are stored conveniently inside the frame of the All Terrain Dolly so you always know where to find them. Maximum capacity: 400 lbs. (181 kg). Minimum order is one each.

Patent Pending

CAT. NO. ATD1

CAT. NO. RB200
Roller Blocks (Included)

CRL Heavy-Duty Steel Frame Glass Dolly

- **600 Pounds (272 kg) Weight Capacity**
- **Sturdy Steel Construction**
- **Large Pneumatic Tires**

CRL Heavy-Duty Steel Frame Glass Dollies can be used indoors or outside for transporting heavy plate glass or insulated units. The large 8-1/2" (216 mm) diameter pneumatic tires will roll smoothly, even over rough surfaces. Constructed from a rubber lined, 3" wide x 1/4" thick (76 x 6 mm), heavy steel channel which supports the glass 5-1/2" (140 mm) off of the floor. Wheels are set 12" (305 mm) apart to provide stability.

CAT. NO.	OVERALL LENGTH	CAPACITY
2401280	48" (1219 mm)	600 lbs. (272 kg)
2401281	72" (1829 mm)	600 lbs. (272 kg)

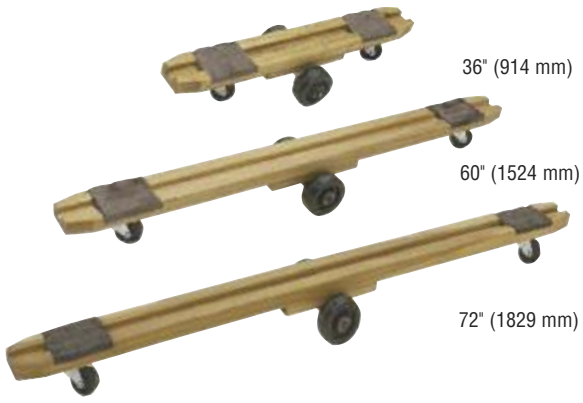

Minimum order: 1 each.

CRL Glass Dolly

- **350 Pound (159 kg) Weight Capacity**
- **Wood Frame Construction**
- **Felt Pads to Protect the Glass**
- **Tough Phenolic Wheels**

Use the CRL Plate Glass Dolly to move glass easier, and faster from upright storage. The hardwood stock hasa 1-1/2" (38 mm) wide groove to handle single or multiple lites. The balanced arrangement of casters allows you to turn-on-a-dime so you can use it in restricted spaces. Two thick felt pads are located near each end to cushion the load. All wheels and casters are made of tough phenolic plastic and roll on ball bearings. An ideal dolly for moving insulating glass units, safety glass, mirrors, plastics, or marble. The Dolly has a 350 lb. (159 kg) capacity. **NOTE:** Not available in Australia. Replacement parts available at **crlaurence.com.**

Wood's Powr-Grip is a registered trademark of Wood's Powr-Grip Co., Inc.

Minimum order: 1 each. Sizes can be combined for quantity pricing.

CRL Framed Glass Handling Dolly

- 300 Lb. (136 kg) Capacity
- Perfect for Framed Glass, Storefront Doors or Almost Any Flat Surfaced Item

With the CRL Framed Glass Handling Dolly, heavy items such as storefront doors, framed windows, storm windows, I.G. units, or just about any other flat surfaced item can be easily moved in an upright position. The dolly is adjustable to widths from 2-1/2" to 4-1/2" (63 to 114 mm), and the steel carriage is carpeted to prevent marring. Minimum order is one each.

CAT. NO. LD450

CRL Glasstrax Dolly

- 600 Lb. (275 kg) Capacity
- Self Clamping Action Locks Loads Up to 2" (50.8 mm) Thick
- One Person Can Load and Maneuver

The CRL Glasstrax Glass Dolly makes it easier than ever to move heavy glass lites smoothly and safely. Load your glass centered on the Glasstrax and the weight of the glass will automatically pull the rubber lined side walls together, clamping it in place. The more weight loaded, the tighter the grip. Self-adjusting for glass or doors up to 2" (50.8 mm) thick. Minimum order is one each.

CAT. NO. GT02

CRL Camber Glass Dolly

- 600 Lb. (275 kg) Capacity
- Great for Shops of All Sizes

The CRL Camber Glass Dolly is designed for transporting smaller lites of glass within the shop environment, or from your truck to the delivery site. This Dolly has two 8" (203 mm) diameter, solid rubber wheels and a vulcanized rubber frame channel, which protects the glass against chipping or damage while in the process of being moved. The inside width of the channel measures 3-1/8" (79 mm); overall length of the channel is 20" (508 mm). Minimum order is one each.

CAT. NO. GSD1

CRL Four Wheel Glass Dolly

- 700 Lb. (320 kg) Capacity
- Four Wheels for Extra Stability

This CRL Four Wheel Glass Dolly is designed to provide additional stability while transporting lites of glass within the shop environment or from your truck to the delivery site. The Dolly has two 8" (203 mm) diameter solid rubber wheels and two caster wheels attached to a vulcanized rubber frame channel, which protects the glass against chipping or damage while in the process of being moved. The inside width of the channel measures 3-1/8" (79 mm); overall length of the channel is 20" (508 mm). Minimum order is one each.

CAT. NO. GSD3

CRL Self-Locking Dolly

- 880 Lb. (399 kg) Capacity
- Self-Locking Jaws Grip Tightly

This CRL Self-Locking Dolly is designed with "self-locking jaws" for transporting lites of glass within the shop environment or from your truck to the delivery site. The "all-terrain" Self-Locking Dolly has 11" (279 mm) diameter solid rubber wheels and a vulcanized rubber frame channel, which protects the glass or stone against chipping or damage while in the process of being moved. The inside width of the channel is 4" (102 mm); overall length of the vulcanized rubber "V" channel is 20" (508

CAT. NO. GSD2

CRL Long Glass Dolly

- 750 Lb. (340 kg) Capacity for Larger Loads

This CRL Long Glass Dolly is designed with an extra-long trolley channel and bottom-mounted third wheel to provide improved stability. This Dolly can transport longer lites of glass within the shop environment or from your truck to the delivery site. The Long Dolly has two 9-1/2" (240 mm) diameter solid rubber wheels and a vulcanized rubber frame channel, which protects the glass against chipping or damage. The inside width of the channel measures 3-1/8" (79 mm); overall length of the channel is 36" (914 mm). Minimum order is one each.

CAT. NO. GSD4

CRL Heavy-Duty Shop Carts

- Rugged 4,000 Pound (1814 kg) Capacity
- 8" (203 mm) Casters: Two Rigid, Two Swivel With Brake
- Heavy Rubber Lining on All Contact Surfaces
- 2" (51 mm) Wide Polyester Ratchet Straps

CRL Heavy-Duty Shop Carts are the answer to all your in-shop fabrication, storage, shipping, and receiving needs. Sturdy steel construction, and an open frame design allow easy visual check of the product. These Carts are perfect for moving product from one production stage to another, receiving vendor products prior to storage, the staging of product prior to shipping, or loading for job sites.

All three sizes feature a hot-dipped galvanized finish, heavy rubber lining on all contact points, and pull handles mounted on one end for easy maneuverability. The HDSC5448 has 11-1/2" (292 mm) ledge depth while the two larger carts both offer 10-1/4" (260 mm) ledge depth.

CAT. NO. HDSC5448

CAT. NO. HDSC8448

CAT. NO. HDSC8472

CAT. NO.	LENGTH	WIDTH	LOAD HEIGHT	OVERALL HEIGHT	STRAPS PER SIDE	WEIGHT
HDSC5448	54" (1372 mm)	38" (965 mm)	48" (1219 mm)	62" (1575 mm)	2	215 lbs. (97 kg)
HDSC8448	84" (2134 mm)	40" (1016 mm)	48" (1219 mm)	63" (1600 mm)	3	360 lbs. (163 kg)
HDSC8472	84" (2134 mm)	40" (1016 mm)	72" (1829 mm)	87" (2210 mm)	3	460 lbs. (209 kg)

Minimum order: 1 each. F.O.B. Woodstock, Illinois. Must ship common carrier.

CRL Single-Sided Shop Cart

- 2,000 Pound (907 kg) Capacity
- Maneuverable in Tight Areas
- Two 10" (254 mm) Pneumatic Tires and Two 5" (127 mm) Solid, Locking Casters

The CRL Single-Sided Shop Cart is designed for shop and job site use. The combination of 5" (127 mm) locking swivel casters and 10" (254 mm) pneumatic tires, mounted outside of the welded steel frame for stability, make this Cart highly maneuverable in tight areas. Measuring 24" (610 mm) wide, 40" (1016 mm) long and 36" (914 mm) working load height, this Cart is perfect for job site elevators and the tight aisles in busy fabrication shops. All upright contact points are lined with neoprene rubber and the ledge depth is 6" (152 mm). Minimum order is one each. Ships F.O.B. Woodstock, Illinois. Must ship common carrier.

CAT. NO. 2401282

CRL Rolling Glass Manipulator

new

- Perfect for One Person Glass Transport and Installation
- Rotates Lites Up to 96" (2.4 m) Long
- Assembles in Minutes
- Unloads Glass Truck Racks and "A" Frames
- Extra Large 12" (305 mm) Vacuum Pads

Handling insulating glass and windows can be a back breaker due to the weight and size of the plates, as well as the uneven grounds at construction sites. CRL now offers the Rolling Glass Manipulator, an innovative small portable lifter that allows one person to move lites weighing up to 220 lbs. (100 kg) or two people up to 330 lbs. (150 kg). The RGM1 is lightweight and can easily be assembled in under a minute. Once assembled, the RGM1 can unload glass lites off your truck and then transport the lites on site. The wheelbase can be adjusted from 31-1/2" to 21-1/4", allowing for narrow on site walkways. The RGM1 allows the lite to be rotated 360 degrees, and then the operator can also index the lite allowing movement through standard 36" wide doorways. Minimum order is one each. **NOTE:** Not available for sale in Europe and Australia.

CAT. NO. RGM1

CRL Mobile Glass Racks

- Mounts in the Bed of Your Truck
- Standard 19" (483 mm) Masts Hold Larger Panels
- Adjustable Grips for Safe, Secure Transport
- All Glass Areas Have Rubber Pads to Help Prevent Breakage During Transport
- Heavy Gauge Steel With Weather Resistant Black Powder-Coat Finish

CAT. NO. EX21

Both WR5 5-Lite and WR9 9-Lite CRL Mobile Glass Racks assemble easily for fast pickup truck bed installation. The heavy steel powder-coated base holds the sponge rubber protected masts firmly to keep your glass load steady. Adjustable grips press against the glass to prevent movement, and the rubber protective strips on the base plate ensures against glass breakage. Black powder-coat finish gives all-weather resistance. Masts are 19" (483 mm) high. Mast Extensions are also available, Cat. No. EX21.

CAT. NO.	CAPACITY	LENGTH	WIDTH	HEIGHT
WR5	5 Lites	18" (457 mm)	30" (762 mm)	22-1/4" (565 mm)
WR9	9 Lites	30-1/2" (775 mm)	30" (762 mm)	22-1/4" (565 mm)
EX21	Mast Extension			36" (914 mm)

Minimum order: 1 each. All Racks are F.O.B. the nearest CRL warehouse.

CRL Tyvek® Shoe Covers

- Made of Lightweight Tyvek® Material With PVC Sole
- Protects Your Customers Floor Mats
- One Size Fits All

Our Shoe Covers are made of lightweight Tyvek® tops with PVC soles. Tyvek® is a durable tear and puncture-resistant material that remains strong, wet or dry, and will help protect your customer's floor mats from dirt and stains that your shoes might pick up from the shop floor. Interlocking seam construction gives maximum protection from liquid penetration. One size fits all. Extra large boot covers are available on special order.

CAT. NO.	CONTENTS/PACK
1SC	10 Pair

Minimum order: 1 pack.

Tyvek is a registered trademark of E.I. du Pont de Nemours and Company.

Send An Email or Request to CRL's Online Support

You've looked through our catalog and tried the "CRL Total Search" on our web site, and still couldn't find what you were looking for? Don't give up, just ask us for assistance online. Go to the **crlaurence.com** home page and click on Contact Us. Then click on Online Support to tell us what it is you are looking for. Our Online Support Department will respond with an answer, usually within one hour if you contact us during normal business hours.

If you have a picture, drawing, or attachment you need to send along with your request, you can send a direct email by addressing it to **crl@crlaurence.com**. We will do our best to help you because your satisfaction is our goal.

Call Us Toll Free At (800) 421-6144

There's a friendly and helpful voice to help with your product inquiries whenever you call us toll free at **(800) 421-6144** from anywhere in the United States or Canada. Please ask for Customer Service and let us know what you are looking for, how many you need, and when you need them. We're experts at searching available sources worldwide. The experience gained by decades of service affords us the ability to serve you in more ways than you might realize. In Australia our toll free number is 1800 424 275. In Europe our freephone number is 00 800 0421 6144.

Fax Us Toll Free At (800) 262-3299

They say a picture is worth a thousand words, and when you send us a fax describing what you need it makes it that much easier to serve you. CRL offers toll free fax service from anywhere in the United States and Canada. Just dial **(800) 262-3299**, and address your request to CRL Customer Service. Make sure to include your name and return telephone number. We'll be in touch shortly with an answer. In Australia the toll free fax number is 1800 813 013. In Europe the freefax number is 00 800 0262 3299.

Send Us A Sample

Need a special part but haven't been able to find it anywhere? We can usually help you by e-mail, phone or fax, but when that doesn't work, we offer a sample matching service that is determined to serve you. Every year hundreds of CRL customers send us samples of what they're looking for because they know that, quite often, CRL is their best chance of getting just what they need. You may send a sample of what you need to: CRL Customer Service, 2503 E. Vernon Avenue, Los Angeles, CA 90058-1897. Be sure to include your name and telephone number so we can call you with the results of our search. In Australia, 9 Shale Place, Eastern Creek, NSW 2766. In Europe, Charles Babbage Avenue, Kingsway Business Park, Rochdale OL16 4NW England.

CRL Serves the World With Local and International Brands of Your Favorite Products

- North America
- Europe
- Australia

CRL's Global Headquarters in the Los Angeles, California area

Brand Names

Product branding is the identification of a product by a specific name, and it is present in just about everything you buy. Whether it's groceries, garments, appliances, electronics or vehicles, we all have our favorite brands. We get to know and trust certain brands for their reputation of quality, good or bad, and we make buying decisions in part based on our familiarity and trust in a brand name.

The same is true for the products we use. Every professional has favorite brands that they trust for quality, service life, and value. Some of these names are familiar worldwide, and can be found in shops in virtually every country. Others are more local in scope, marketed only in certain countries or on certain continents.

As for quality, in many cases the "local" brands are just as good as the "international" brands, and provide equal value. They have their particular markets, and have excelled in them by producing top quality products at affordable prices.

CRL's Canadian Headquarters in the Toronto, Ontario area

CRL Brings The Best To You

Operating on three continents allows us to bring brands to you that you may not otherwise have local access to. Our purchasing agents select quality products from vendors across the globe, and because we have a global distribution network these products can be made available through any of our Service Centers.

When you review our catalogs, both in print and online, you'll see many familiar brand names and some that will be new to you. Be assured that these new brands, including those products bearing the CRL brand name, are tested products that will deliver both quality and value.

As both a manufacturer and a distributor CRL can bring you the best products at value prices. We're a brand name that you can trust.

CRL's European Headquarters in the Manchester, England area

Need It But Don't See It? Just Ask CRL

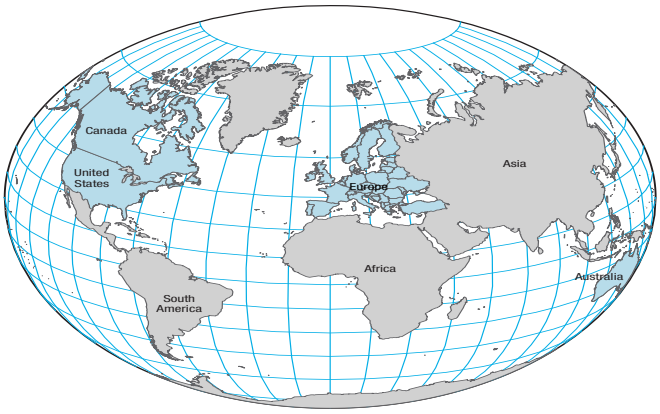

Our access to suppliers worldwide gives us the ability to deliver products from any of the brand names we advertise. If you need a certain product from a specific brand name, don't hesitate to ask us for a price and delivery time. We're experts at getting you what you want when you need it. Just ask us and we'll do our best to serve you.

CRL's Australian Headquarters in the Sydney, New South Wales area

CRL Provides Global Service With Regionally Oriented Web Sites

- **Access to All CRL Products and Services is Available 24 Hours a Day, Seven Days a Week When You Visit Us Online**
- **Our Sites are Updated Continually to Bring You Our Newest Products and Special Offers**
- **The Entry Port for 'All-Glass' Storefronts Online®, Showers Online, Hand Rails Online, and Our Other Web-Based Services**

As a global supplier to the industries we serve, CRL recognizes that the power of electronic commerce strengthens our ability to serve you locally, as well as our other customers worldwide. And while the Internet has created a virtual "global village", it's important to also have the capability to tailor our web sites to the specific needs and business conditions of the continents on which we are based. That said, it became apparent that our web site, **crlaurence.com**, had to at the same time be global in appeal, but still local enough to be relevant.

Thus the creation of our Global Web Site Directory. When you visit our web site you are directed to the home page of the individual site designated to host your home country.

You can also move from one site to another simply by clicking on the directory icon at the top of the home page. From here you have access to all of our sites, giving you the opportunity to explore the entire scope of CRL's online world.

As we progress in this global strategy, look for us to include new translations of our Online Catalog into many more of the major languages. We are committed to spreading the virtual world of C.R. Laurence around the globe, and making your online shopping experience at **crlaurence.com** pleasant and easy to understand. We want you to be comfortable with CRL, and will work hard to make that possible.

CRL PRODUCT SUPPORT

CRL Product Showcases

- **Four Times a Year We Publish Our Product Showcase Featuring New Products and Promotions on Our Most Popular Items**
- **Save 10, 15, 20, 25% or More**
- **Qualifying Orders Placed Online Get an Extra Bonus**

CRL customers who receive our Product Showcase Flyer get extra special savings on our newest and most popular products. Four times a year (quarterly), we offer some of the products you use most at discounts of up to 25%. You get three whole months to take advantage of these special savings and offers, and all you need to do to get them is place your qualifying order. The CRL Computer System automatically gives you the sale prices, whether you place your order by toll free phone, toll free fax or over the Internet. You can also get details on our Product Showcase promotions when you log onto **crlaurence.com**.

CRL Product Support to Boost Your Sales

- **Our In-House Advertising Division Can Supply You With Banners, Posters, Brochures, Flyers, Magazine Advertising, Private Labeling, and More**
- **Ad Layouts and Copy Writing to Boost Your Sales Effort and Your Company's Image**

CRL Advertising makes available to you professional quality ad materials that can help boost your sales and give your business a higher profile. We can help put your name out there where potential customers can see it, and let them know of the products and services you have to offer in local, regional, and national markets. For information, contact CRL's National Sales Manager at (800) 421-6144. Ask for Ext. 5262.

New Product Submissions

Do You Have an Idea for a New Product?

- **Engineers Available for Product Development, Testing, and Production Support**
- **Award Winning Designs and Products**
- **State-of-the-Art Computers and Software**

No one knows better what tools he or she would like to see in a catalog than the people who use them. We make an effort to make our catalogs as thorough as possible, but it never fails that as soon as we introduce a catalog one or more of our customers will come up with an item or a suggestion that makes us say "Why didn't we think of that?" We've received lots of useful suggestions, and are always pleased when someone takes the time to tell us their ideas on what they would have liked us to include.

We welcome the opportunity to serve you, and are committed to providing your business with the services that produce quality products. To discuss the possibility of working with CRL Manufacturing we invite you to contact CRL Product Management at (800) 421-6144 in the U.S., (877) 421-6144 from Canada, or (323) 588-1281 International. To send e-mail go to **crlaurence.com**, click on Contact Us, and then click on Product Management.

Need Help With a Current Product?

- **Experienced, Knowledgeable Team Dedicated From Start to Finish**
